PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 1st November 1907.

From the 9th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 2nd November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

NOTICES

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905 and for 1906, entitled "Inventions and Designs," are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications,

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 6d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

E. PENN DAVID,
for Administrative Medical Officer, North-West Frontier Province.

Peshawar ;
Dated the 23rd December 1907.

ORDERS BY THE HONOURABLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following rules for the award of the Maharaja of Darbhanga Memorial Scholarship have been adopted by the Syndicate:—

(1) That the scholarship shall be called the "Darbhanga Research Scholarship" and that it shall be awarded for the purpose of encouraging original research in medicine in its various branches.

(2) That all Graduates and Licentiates in Medicine of the Calcutta University shall be eligible to compete for the scholarship.

(3) That the value of the scholarship shall be Rs 50 a month; that it shall be awarded every alternate year and that it shall be tenable for one year only from July to June.

(4) That the scholarship shall be awarded under the following conditions:—

(a) That the scholar shall be appointed by the Syndicate on the recommendation of the Faculty of Medicine.

(b) That the scholar shall be required to devote at least 4 (four) hours a day Sundays and holidays excepted, during the tenure of his scholarship to research work in any special branch of Medical Science to be previously selected by him and approved by the Board of Studies in Medicine and that his work shall be open to inspection by a member of the Faculty of Medicine to be specially deputed by the Faculty in that behalf.

(c) That applications for the scholarship shall be invited by the Registrar in the month of January of the year in which the scholarship is to be awarded and that such applications must reach the University office not later than the 30th of April next following. Every candidate must state in his application the special subject or branch of Medical Science in which he proposes to carry on investigation or research work and must also state in what respects his investigations appear to him to tend to the advancement of Medical Studies. He shall also state in his application the place where he intends to carry on his research work. If in a recognised Laboratory or Hospital, a recommendation from the Head of such Laboratory or Hospital as to the fitness of the candidate to conduct such work and the probable value of such work, must accompany the application. If the candidate intends to carry on his investigations privately his application must be supported by a certificate to the above effect from a member of the Faculty of Medicine.

(d) That during the tenure of his scholarship, every Research scholar shall be required to submit short quarterly reports of his work to the member of the Faculty of Medicine who may be deputed to inspect his work and upon whose favourable report the continuance of his scholarship shall depend.

(e) Each scholar shall, at the end of his tenure of scholarship, submit a complete statement of the work he has done during the year. This statement which shall be type-written and otherwise ready for publication, shall be laid before the Faculty of Medicine who shall, if publication be deemed advisable decide all questions in connection therewith.

In accordance with rule 4 (c) of the above rules applications for the Darbhanga Research Scholarship for 1908 are hereby invited by the undersigned.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 3rd January, 1908, and is hereby promulgated for general information :—

ACT NO. I OF 1908.

An Act further to amend the Legal Practitioners Act, 1879.

WHEREAS it is expedient further to amend the Legal Practitioners Act, 1879; It is hereby enacted as follows :—

1. This Act may be called the Legal Practitioners (Amendment) Act, 1908.

2. In section 4 of the Legal Practitioners Act, 1879, the following amendments shall be made, namely :—

(a) after the words "this Act" the words "or enrolled as a Pleader in the Chief Court of the Punjab under section 8 of this Act" shall be inserted; and

(b) after the words "no such Vakil" the words "or Pleader" shall be added.

3. To section 7 of the said Act the following Addition to section 7 shall be added, namely :—
of Act XVIII of 1879.

"Provided that, on the admission as a Pleader of any person who has been previously entered as a Vakil or Attorney on the roll of a High Court established by Royal Charter, the High Court may in its discretion issue to such person a certificate authorising him to practise permanently in the Courts and in the offices specified therein, and a certificate so issued shall not require to be renewed under this section."

4. To section 25 of the said Act the following Amendment of section 25 of Act XVIII of 1879 shall be added, namely :—

"Provided also that no stamped paper shall be required in the case of a certificate whether original or renewed authorising, under section 7, a Vakil or Attorney on the roll of a High Court established by Royal Charter to practise as a Pleader."

5. In section 38 of the said Act, "7," shall be added after "5," and "25," after "16."

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 3rd January, 1908, and is hereby promulgated for general information:—

ACT NO. II OF 1908.

An Act further to amend the Indian Tariff Act, 1894.

WHEREAS it is expedient further to amend the Indian Tariff Act, 1894; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Tariff (Amendment) Act, 1908.

2. In No. 1 of Schedule III of the Indian Tariff Amendment of Act, 1894, as amended by VIII of Schedule III of Act the Indian Tariff Act (1894) VIII of 1894. Amendment Act, 1896, III of 1896. "annas 2" shall be substituted for "anna 1" in the fourth column as the rate of duty to be levied and collected per Imperial gallon or six quart bottles of ale, beer, porter, cider and other fermented liquors.

STATEMENT OF OBJECTS AND REASONS.

The present rate of duty on beer and other fermented liquors, whether imported or manufactured in the country, is one anna per gallon. The tariff rate has remained unaltered since 1863, and the excise duty since 1890, when it was first imposed. The rate of taxation is relatively inadequate, in view of the greatly enhanced taxation to which spirit, both country and imported, has in recent years been subjected. Moreover, as shown by the declared value of imports, a large quantity of the beer which comes into India from abroad pays less, at one anna a gallon, in proportion to its value than it would do under the ordinary tariff rate of 5 per cent *ad valorem*. Recently the Indian Excise Committee have recommended that the duty on beer and other fermented liquors should be raised from one anna to two annas per gallon, and the object of this Bill is to give effect to that recommendation.

The Indian Limitation Bill.

(Part I.—Preliminary.—Secs. 1-2.—Part II.—Limitation of Suits, Appeals and Applications.—Secs. 3-5.)

The bracketted marginal references relate to sections of the Indian Limitation Act, 1877.

A Bill to consolidate and amend the law for the Limitation of Suits, and for other purposes.

WHEREAS it is expedient to consolidate and amend the law relating to the limitation of suits, appeals and certain applications to Courts; and whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows:—

PART I.

PRELIMINARY.

[S 1.] 1. (1) This Act may be called, the Indian Short title extent Limitation Act, 190 . and commencement.

(2) It extends to the whole of British India; and

(3) *This section and section 33 shall come into force at once. The rest of this Act shall come into force on the first day of January, 1909.**

[S 3.] 2. In this Act, unless there is anything repugnant in the subject or context,—

(1) "bill of exchange" includes also a hundi and a cheque;

(2) "bond" includes any instrument whereby a person obliges himself to pay money to another, on condition that the obligation shall be void if a specified act is performed, or is not performed, as the case may be;

(3) "easement" includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another or anything growing in, or attached to, or subsisting upon, the land of another;

(4) "foreign country" means any country other than British India;

(5) "good faith:" nothing shall be deemed to be done in good faith which is not done with due care and attention;

(6) "moveable property" includes growing crops;

(7) "plaintiff" includes also any person from or through whom a plaintiff derives his right to sue; "applicant" includes also any person from or through whom an applicant derives his right to apply; and "defendant"

* This is the date proposed for the commencement of the new Civil Procedure Code Bill.

includes also any person from or through whom a defendant derives his liability to be sued:

(8) "promissory note" means any instrument whereby the maker engages absolutely to pay a specified sum of money to another at a time therein limited, or on demand, or at sight;

(9) "suit" does not include an appeal or an application;

(10) "trustee" does not include a benamidar, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrongdoer in possession without title.

PART II.

LIMITATION OF SUITS, APPEALS AND APPLICATIONS.

3. Subject to the provisions contained in sections 4 to 27 (inclusive), every suit instituted, appeal preferred, and application made, after the period of limitation prescribed therefor by the first schedule shall be dismissed, although limitation has not been set up as a defence. [S. 4.]

Explanation.—A suit is instituted, in ordinary cases, when the plaint is presented to the proper officer; in the case of a pauper, when his application for leave to sue as a pauper is made; and, in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(a) A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The Appellate Court shall dismiss the suit.

(b) An appeal presented after the prescribed period is admitted and registered. The appeal shall be dismissed.

4. Where the period of limitation prescribed for any suit, appeal or application expires on a day when the Court is closed, the suit, appeal or application may be instituted, preferred or made on the day that the Court re-opens. [S. 5, para. 1.]

5. Any appeal or application for a review of judgment or any other application to which this section may be made applicable by the Code of Civil Procedure may be admitted after the period of limitation [S. 5, para. 2.]

Extension of period in certain cases.

The Indian Limitation Bill.

(Part II.—Limitation of Suits, Appeals and Applications.—Secs. 6-11.)

Prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not preferring the appeal or making the application within such period.

6. Wherever it is shown to the satisfaction of the Court that an appeal or

Limitation for certain appeals or applications for review of judgment.

an application for a review of judgment was presented after the expiration of the period of limitation prescribed for such

appeal or application owing to the appellant or applicant having been misled by any order, or practice, or judgment of the High Court of the Presidency, Province or District, such appeal or application, if otherwise in accordance with law, shall for all purposes be deemed by all Courts to have been presented within the period of limitation prescribed therefor.

7. (1) Where a person entitled to institute

Legal disability.

a suit or make an application is, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit or make the application within the same period after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the first schedule.

(2) Where such person is, at the time from which the period of limitation

Double and successive disabilities.

is to be reckoned, affected by two such disabilities, or where, before his disability has ceased, he is affected by another disability, he may institute the suit or make the application within the same period, after both disabilities have ceased, as would otherwise have been allowed from the time so prescribed.

(3) Where the disability continues up to the death of such person, his legal representative may institute the suit or make the application within the same period after the death as would otherwise have been allowed from the time so prescribed.

(4) Where such representative is at the date of the death affected by any such disability, the rules contained in sub-sections (1) and (2) shall apply.

Illustrations.

(a) The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accruer. He may institute his suit at any time within three years from the date of his attaining majority.

(b) A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accruer. A has, under the ordinary law, only one year remaining within which to sue. But under this section and section 9 an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(c) A right to sue accrues to Z during his minority. After the accruer, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity and minority cease.

(d) A right to sue accrues to X during his minority. X dies before attaining majority, and is succeeded by Y, his minor son. Time runs against Y from the date of his attaining majority.

(e) A right to sue for an hereditary office accrues to A who at the time is insane. Six years after the accruer A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section read with section 9.

(f) A right to sue as landlord to recover possession from a tenant accrues to A, who is an idiot. A dies three years after the accruer, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section read with section 9 does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

8. Where one of several joint-creditors or

Disability of one joint creditor.

or one of several persons jointly entitled to make an application is under any such disability, and a discharge can be given without the concurrence of such person, time will run against them all: but, where no such discharge can be given, time will not run as against any of them until one of them becomes capable of giving such discharge without the concurrence of the others.

[S. 8.]

Illustrations.

(a) A incurs a debt to a firm of which B, C and D are partners. B is insane, and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C and D.

(b) A incurs a debt to a firm of which E, F and G are partners. E and F are insane, and G is a minor. Time will not run against any of them until either E or F becomes sane, or G attains majority.

9. Nothing in section 7 or in section 8 applies to suits to enforce rights of pre-emption, or shall be

Special exceptions.

[S. 7, para.]

deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which any suit must be instituted or application made.

10. Where once time has begun to run, no

Continuous running of time.

subsequent disability or inability to sue stops it:

[S. 9.]

Provided that, where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

11. Notwithstanding anything hereinbefore

tives or assigns (not being assigns for valuable consideration), for the purpose of following in his or their hands such property, or the proceeds thereof, or for an account of such property or proceeds, shall be barred by any length of time.

[S. 11.] 12. (1) Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

Suits on foreign contracts.

(2) No foreign rule of limitation shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract and the parties were domiciled in such country during the period prescribed by such rule.

PART III. COMPUTATION OF PERIOD OF LIMITATION.

[S. 12.] 13. (1) In computing the period of limitation prescribed for any suit, appeal or application, the day on which right to sue accrues, from which such period is to be reckoned shall be excluded.

Exclusion of day on which right to sue accrues.

(2) In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence or order appealed from or sought to be reviewed, shall be excluded.

Exclusion in case of appeals and certain applications.

(3) Where a decree is appealed from or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

(4) In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

[S. 13.]

14. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded.

Exclusion of time of defendant's absence from British India.

[S. 14.]

15. (1) In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another civil proceeding, whether in a Court of first instance or in a Court of appeal, against the

Exclusion of time of proceeding bona fide in Court without jurisdiction.

defendant, shall be excluded, where the proceeding is founded upon the same cause of action and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

(2) In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief shall be excluded, where the last-mentioned application is made in good faith to a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction shall be deemed to be prosecuting a suit within the meaning of this section.

16. In computing the period of limitation prescribed for any suit, or application for the execution of a decree, the institution or execution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, the day on which it was issued or made, and the day on which it was withdrawn, shall be excluded.

[S. 15.]

17. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale shall be excluded.

[S. 16.]

18. In computing the period of limitation prescribed for any suit against the Secretary of State for India in Council, or against a public officer in respect of any act purporting to be done by such public officer in his official capacity, where, previous to the institution of the suit, the notice in writing required by the provisions of the Code of Civil Procedure in that behalf has been delivered or left in pursuance of the said provisions, the two months next after the said notice was so delivered or left shall be excluded.

[New.]

19. (1) Where a person who would, if he were living, have a right to institute a suit or make an application, dies before the right accrues, the period of limitation shall

Effect of death before right to sue accrues.

[S. 17.]

*The Indian Limitation Bill.**(Part III.—Computation of Period of Limitation.—Secs. 20-24.)*

be computed from the time when there is a legal representative of the deceased capable of instituting or making such suit or application.

(2) Where a person against whom, if he were living, a right to institute a suit or make an application would have accrued dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased against whom the plaintiff may institute or make such suit or application.

(3) Nothing in sub-section (1) applies to suits to enforce rights of pre-emption or to suits for the possession of immoveable property or of an hereditary office.

[S. 18.] 20. Where any person having a right to institute a suit or make an application has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

or where any document necessary to establish such right has been fraudulently concealed from him,

the time limited for instituting a suit or making an application—

(a) against the person guilty of the fraud or accessory thereto, or

(b) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

[S. 19.] 21. (1) Where before the expiration of the period prescribed for a suit or application, including an application for the

Effect of acknowledgment in writing.

execution of a decree, in respect of any property or right, an acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

(2) Where the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed; but oral evidence of its contents shall not be received.

Explanation 1.—For the purposes of this section an acknowledgment may be sufficient though it omits to specify the exact nature of the property or right, or avers that the time for

payment, delivery, performance or enjoyment has not yet come, or is accompanied by a refusal to pay, deliver, perform or permit to enjoy, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right.

Explanation 2.—In this section "signed" means signed either personally or by an agent duly authorized in this behalf.

22. (1) Where interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent duly authorized in this behalf, [S. 20.]

or where part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent duly authorized in this behalf,

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part payment of the principal of a debt, the fact of the payment appears in the handwriting of the person making the same.

(2) Where mortgaged land is in the possession of the mortgagee, the receipt of the rent or produce of such land shall be deemed to be a payment for the purpose of sub-section (1).

Explanation.—Debt includes money payable under a decree of Court.

23. (1) The expression "agent duly authorized in this behalf", in sections 21 and 22, shall, in the case of a person under disability, include his lawful guardian or manager, or an agent duly authorized by such guardian or manager to sign the acknowledgment or make the payment. [New.]

(2) Nothing in the said sections renders one of several joint contractors, etc., not chargeable by reason of acknowledgment or payment made by another of them. [S. 21.]

24. (1) Where, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party. [S. 22, para. 1.]

(2) Nothing in sub-section (1) shall apply to a case where a party is added or substituted [New.]

owing to an assignment or devolution of any interest during the pendency of a suit or where a plaintiff is made a defendant or a defendant is made a plaintiff.

- [S. 23.] 25. In the case of a continuing breach of contract and in the case of continuing breaches and wrongs, a continuing wrong independent of contract, a fresh period of limitation begins to run at every moment of the time during which the breach or the wrong, as the case may be, continues.

- [S. 24.] 26. In the case of a suit for compensation for an act which does not give rise to a cause of action unless some specific injury actually results therefrom, the period of limitation shall be computed from the time when the injury results.

Illustrations.

(a) A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation in the case of a suit by A against B runs from the time of the subsidence.

(b) A speaks and publishes of B slanderous words not actionable in themselves without special damage caused thereby. C in consequence refuses to employ B as his clerk. The period of limitation in the case of a suit by B against A for compensation for the slander does not commence till the refusal.

- [S. 25.] 27. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(a) A Hindu makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiration of four months after date computed according to the Gregorian calendar.

(b) A Hindu makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiration of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

- [S. 26.] 28. (1) Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement, and as of right, without interruption, and for twenty years, and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water, or other easement shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

(2) Where the property over which a right is claimed under sub-section (1) belongs to Government, that sub-section shall be read as if for the words "twenty years" the words "sixty years" were substituted.

Explanation.—Nothing is an interruption within the meaning of this section unless, where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(a) A suit is brought in 1911 for obstructing a right of way. The defendant admits the obstruction, but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption from 1st January, 1890, to 1st January, 1910. The plaintiff is entitled to judgment.

(b) In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff, on one occasion during the twenty years, had asked his leave to enjoy the right. The suit shall be dismissed.

- [S. 27.] 29. Where any land or water upon over or from which any easement has been enjoyed or derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term shall be excluded in the computation of the period of twenty years in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a Hindu widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

tuted within two years from the date of the
passing of this Act, or within sixty years from
the date when the money secured by the mort-
gage became due, whichever period expires
first: and no such suit in the said territories
instituted within the said period of sixty years
and pending at the date of the passing of this
Act shall be dismissed on the ground of limita-
tion.

(2) In the aforesaid territories a suit of
the nature mentioned in sub-section (1) which
has been dismissed solely on the ground of
limitation after the twenty-second day of July
1907, may be restored on an application in
writing to the Court which dismissed the suit,
provided the application is preferred within
ninety days from the date of the passing of
this Act: and on such restoration, the pro-
visions of sub-section (1) shall apply to the
suit.

J. M. MACPHERSON,

Secretary to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

1. One immediate circumstance which has moved the Government of India to undertake legislation in connection with the Indian Limitation Act, 1877, is the hardship which has been caused to the holders of mortgages of immoveable property, in forms other than what is known as the English form, over a large part of India, by reason of the recent decision of the Judicial Committee of the Privy Council in the case of *Vasudeva v. Srinivasa* (11 C. W. N. 1005). In that case their Lordships, over-ruling the decisions of the High Courts of Bombay, Madras and Allahabad, have advised that the period of limitation prescribed by the Indian Limitation Act, 1877, for suits to enforce payment of money secured by such mortgages, is twelve years as provided in article 132 of the Second Schedule of that Act, and not the longer period of sixty years prescribed by article 147. In the opinion of the Privy Council the latter article applies only to the class of mortgages in which a suit may be brought for "foreclosure or sale," that is, only to English mortgages. Previous to this decision for nearly a quarter of a century, the law had been held by the High Courts of Bombay and of Allahabad to be that every suit by a mortgagee either for foreclosure or for sale was governed by the sixty years' rule of limitation enacted in article 147, and the same view of the law had been accepted by the High Court of Madras and by some other High Courts. The effect of the decision of the Privy Council has been that in the territories within the jurisdiction of the above High Courts a number of suits for the enforcement of mortgages, which, before the decision of the Privy Council, would have been within time, have been and must be dismissed by the Courts on the ground that they are barred by limitation, and that the claims under a still larger number of mortgages have become unenforceable owing to the construction thus put on the Statute of Limitation. This result is undoubtedly hard on mortgagees who have relied on the view of the law taken by the High Courts of their Provinces and now find themselves debarred of all remedy because that view has been decided to be incorrect. The Government of India are of opinion that some provision should be made to meet these cases, and it is accordingly proposed in the Bill to allow to these mortgagees a period of two years within which to bring their suits, provided that the whole period from the date when the money secured by the mortgage became due does not exceed sixty years in all. Provision is also made for the continuance of pending suits and for the restoration of suits which have been dismissed on the ground of limitation since the date of the Privy Council decision.

2. Legislation is also necessary to give effect to the recommendations of the Committee on the Code of Civil Procedure. These have been incorporated in the present Bill.

3. It seems desirable also to take this opportunity of setting at rest some doubts on other provisions of the Limitation Act which have been caused by conflicting decisions of the different High Courts. These relate for the most part to matters of detail rather than to questions of principle, and a sufficient account of the amendments proposed in respect of them will be found in the *Notes on Clauses* annexed to this Statement.

4. It would be possible to enact the proposed alterations by an amending Act. But the Limitation Act of 1877 has been already amended by no less than eleven different enactments. It is clearly desirable to have the whole of the statutory law on the subject dealt with in one Act and to clear the Statute-book of these scattered enactments. It is proposed for this reason to introduce an amending and consolidating Bill, embodying the alterations to which attention has been called, re-enacting the present Act in other respects and repealing the various Acts and provisions in which the law is now contained.

H. ERLE RICHARDS.

The 2nd January, 1908.

Notes on Clauses.

The sections and schedules of the Act have been rearranged, the saving and repealing provisions being placed at the end.

In the Act various suits, appeals and applications are described by reference to the number of the particular section of any Act under which the suit, appeal or application in question may be instituted, preferred or made. Most of these references are to sections of the Code of Civil Procedure, and as the majority of these sections have, in the Civil Procedure Code Bill now before the Legislature, been relegated to Rules which may from time to time be altered and may be different in different Provinces, it has been considered advisable in framing the clauses and articles in the Bill to avoid these references and to render the provisions of the Bill self-contained as far as possible.

CLAUSES OF BILL.

Clause 1.—It is proposed that section 33, which provides for suits on mortgages affected by the Privy Council case, should take effect on the passing of the Bill, and that the rest of the Act should come into force simultaneously with the Code of Civil Procedure now before the Legislature. Section 1.

Clause 2.—The definitions have been rearranged in alphabetical order.

No. (6) has been added to make the term "moveable property" include growing crops in accordance with the amendment proposed in the Civil Procedure Code Bill. This is for consideration. It was approved by the Select Committee on the Code of Civil Procedure of 1903 and was inserted in their Draft Bill (Schedule IV.) Section 3.

Clause 5.—Words have been inserted in this clause to include applications to which the clause may be made applicable by the Code of Civil Procedure. This amendment has the approval of the Special Committee on the Code of Civil Procedure of 1907. Section 5, para. 2.

Clauses 7 and 8.—The last clause of section 7 with some verbal modifications has been placed as a separate clause after clause 8 so as to make it clear that its provisions are applicable to cases governed by either of the clauses 7 or 8. Sections 7, 8.

Cases of a person entitled to institute a suit or make an application being under any legal disability are dealt with by sections 7 and 8 of the Act.

It has been held in a series of decisions of the Madras High Court that section 7 applies only to cases where the right to bring a suit or to make an application is vested either—

- (i) in a single individual who is under a disability, or
- (ii) in a number of individuals, all of whom are under a disability.

These cases are : *Seshan v. Rajagopala*, I. L. R. 13 Mad. 236, where there was a decree in favour of three persons of whom two only were minors, and it was held that section 7 did not apply to an application for the execution of the decree : *Vignaswara v. Bapayya*, I. L. R. 16 Mad. 436, and *Moidin v. Beevi*, I. L. R. 18 Mad. 38, which were cases of suits where some only of several persons entitled to institute them were under disability, and it was held, following the case in I. L. R. 13 Mad. 236, that the suits were not governed by section 7 ; *Ahinsa v. Abdul*, I. L. R. 25 Mad. 26, where Benson and Bhashyam Ayyangar, JJ., adopted the same construction of section 7 and held that, apart from section 8, the protection afforded by section 7 would extend only to cases where each and all of the persons jointly entitled to sue were affected by disability at the time from which the period of limitation was to be reckoned, and that if any one of them was then free from disability, section 7 cannot be availed of by all or any of them ; and *Periasami v. Krishna*, I. L. R. 25 Mad. 431, where a Full Bench of the Madras High Court upheld the same view.

On the construction put upon section 7 by the Madras High Court, cases in which the right is vested jointly in a number of persons of whom some only are under any disability must be left to be governed by section 8 alone, and under the latter part of that section, if there is no one among these persons who can give a discharge without the concurrence of those who are under disability, time would commence to run only from the date when the last of them becomes free from disability and then, apparently, they would have in every case the full period prescribed for the suit or application in question, there being nothing in section 8, corresponding to the last clause of section 7, to limit the period to three years from the cessation of disability or to exclude suits for pre-emption from its scope.

Clause 8.—There is conflict between the Calcutta, Bombay and Allahabad High Courts on the one hand and the Madras High Court on the other on the question, whether an application for the execution of a decree can be saved from limitation by the fact of some only of the decree-holders being under a disability. In *Anundo v. Anundo*, I. L. R. 14 Cal. 50 ; *Surjo v. Arun*, I. L. R. 28 Cal. 465 ; *Govind v. Tatia*, I. L. R. 20 Bom. 383, and *Zamir v. Sunder*, I. L. R. 22 All. 199, it has been held that a disability of some only of several joint decree-holders would save an application for the execution of the decree from being barred ; while the Madras High Court, in *Seshan v. Rajagopala*, I. L. R. 13 Mad. 230, and in *Periasami v. Krishna*, I. L. R. 25 Mad. 431 F.B., has held the contrary. The High Courts of Calcutta, Bombay and Allahabad hold that the case comes under section 7, but the Madras High Court holds that it comes neither under section 7 nor under section 8. If the right view of section 7 is that it deals only with cases where the person, or all the Section 8.

persons if there are more than one, entitled to bring a suit or make an application, is or are under disability, the case in question should properly be dealt with by section 8; all the High Courts are agreed that one of several joint decree-holders cannot give a valid discharge without the concurrence of the others; but the Madras High Court in the Full Bench case felt a difficulty in bringing the case under section 8, for the reason that applications are not mentioned in that section while they are in section 7. In the course of his judgment in the case Bhashyam Ayyangar, J., observed that the addition of the words suggested in this amendment would bring the case in question within the operation of section 8 (I. L.R. 25 Mad. 431, at p. 442).

Clause 9.—This is the last paragraph of section 7.

Clause 11.—The proposed amendment is intended to remove certain doubts.

It has been held in some cases that this section does not include a suit for an account of the trust property.

In *Saroda v. Brojo*, I. L. R. 5 Cal. 910, property had been vested in the defendant upon trust to manage it and maintain the plaintiff out of the profits during his minority and to make it over to the plaintiff on his attaining the age of majority; the suit was for a decree directing the defendant to account for all such property, and the profits, receipts and disbursements connected therewith. It was held by White and Maclean, JJ., that the object of the suit not being to recover any property in specie, section 10 did not apply. A similar view was adopted in *Advocate General v. Bai Punjabai*, I. L. R. 18 Bom. 551 (at pp. 566, 567), where the claim was against a trustee for an account of income and disbursements in respect of trust-property and for the balance if any. In *Hurro v. Tarini*, I. L. R. 8 Cal. 766, however, Wilson, J., directed an account and in a manner doubted the correctness of the rule laid down in I. L. R. 5 Cal. 910, and in *Nistarini v. Nandlal*, I. L. R. 30 Cal. 369 (at p. 384), a trustee was directed to render accounts irrespective of any question of limitation. In *Ranga v. Baba*, I. L. R. 20 Mad. 398, the question whether section 10 applied to a suit charging breaches of trust and claiming an account was regarded as a somewhat doubtful question and was left open.

Section 8, clause 1, of the Trustee Act, 1888 (51 & 52 Vict., c. 59), saves from the bar of limitation a claim against a trustee "to recover trust-property, or the proceeds thereof still retained by the trustee, or previously received by him and converted to his use." It has been held that actions against express trustees claiming an account of such property cannot be barred by the Statute of Limitations: *Rocheffoucault v. Bousteau* (1897), 1 Ch. 196, at p. 208; *North America Co. v. Watkins* (1904), 1 Ch. 242.

Clause 15.—This is section 14 of the Act. The second paragraph of this section is omitted as it is proposed in the Civil Procedure Code Bill to leave out the provision relating to staying proceedings contained in section 20 of the present Code of Civil Procedure.

Clause 16.—Words are proposed to be inserted in the clause so as to make its provisions applicable to cases where the execution of a decree has been stayed by injunction or order.

This section is not applicable to cases of applications for execution of decrees: *Rungiah v. Nanjappa*, I. L. R. 26 Mad. 780, 782, although in *Beni v. Surja*, I. L. R. 26 All. 140, the High Court of Allahabad in computing the period of limitation for an application for execution of a decree allowed the period, during which an injunction staying the execution was in force, to be excluded; it is not, however, clear upon the judgment under what provision of the Act this exclusion was allowed.

The Courts have in many cases where the execution of a decree has been stayed by an injunction or order relieved the decree-holder from the bar of limitation by treating the application made after the withdrawal of the injunction or order as an application to revive or continue some previous application; *Kalyanbhai v. Ghanesham*, I. L. R. 5 Bom. 29, p. 34 *et seq.*; *Narayan v. Sono*, I. L. R. 24 Bom. 345; *Issur v. Abdul*, I. L. R. 4 Cal. 415; *Hurronath v. Chuni*, I. L. R. 4 Cal. 877; *Ashraf v. Bepin*, I. L. R. 30 Cal. 407, at pp. 411, 413; *Gurudeo v. Amrit*, I. L. R. 33 Cal. 689; *Lakshmi v. Ballam*, I. L. R. 17 All. 425, and *Qamaruddin v. Jawahir*, I. L. R. 27 All. 334 P. C., may be cited as instances.

But it is not always possible by this method to relieve an applicant for execution, in cases where execution has been stayed by reason of an order of Court, from the bar of limitation; as for instance in cases where there was no pending application for execution at the date of the injunction or order (*Sarup v. Watson*, 6 C. W. N. 735); or where the previous application had been dismissed after the removal of the bar but before the date of the fresh application (*Dukhiram v. Jogendra*, 5 C. W. N. 347).

In the course of their judgment in *Rungiah v. Nanjappa*, I. L. R., 26 Mad. 780, Benson and Bhashyam Ayyangar, JJ., observed as follows: "it is only reasonable and proper that in computing the period of limitation prescribed for an application for execution of a decree, the time during which the attaching decree-holder prosecutes a suit under section 283, or during which execution of the decree or a portion of it has been stayed by injunction or otherwise, should be excluded" (at p. 783).

Clause 18.—The addition of this clause was recommended in the Civil Procedure Bill of 1903. In their report the Select Committee observed as follows:

"In proposing an additional section (16A) we have acted on the view that the purpose of clause 424 (section 424 of the Code of Civil Procedure) is to give notice and facilitate

Section 7, last paragraph.

Section 14.

Section 15.

compromise, but not to shorten the period of limitation. Where, for example, the period of limitation is only thirty days, the deduction of two months on account of notice negatives the right of suit."

Clause 21.—There is a conflict between the Madras High Court and the other High Courts on the question whether the provisions of section 19 apply to applications for execution of decrees; the Madras High Court has answered the question in the negative; *Rama v. Venkatu*, I. L. R. 5 Mad. 171 F. B.; *Sreenivasa v. Bonuswamy*, I. L. R. 28 Mad. 40; and the other High Courts have answered it in the affirmative: *Trimbak v. Kashinath*, I. L. R. 22 Bom. 722, 727; *Venkatrao v. Bijesing*, I. L. R. 10 Bom. 108; *Ram v. Fakur*, I. L. R. 8 Cal. 716; *Toree v. Mahomed*, I. L. R. 9 Cal. 730; *Norendra v. Bhupendra*, I. L. R. 23 Cal. 374, 387; *Ramhit v. Satgur*, I. L. R. 3 All. 247 F. B.; *Janki v. Ghulam*, I. L. R. 5 All. 201; *Fateh v. Gopal*, I. L. R. 7 All. 424; *Mahomed v. Payag*, I. L. R. 10 All. 228; *Bhagat v. Chint*, Punj Record No. 28 of 1885; *Bhagabutty v. Ashutosh*, 8 C. W. N. 470.

Section 19a

It may be observed that under section 8, 37 & 38 Vict., c. 57, the right to take proceedings to enforce a judgment may be saved by acknowledgment or payment: *Jay v. Johnstone*, 1893, 1 Q. B., p. 25, on appeal, p. 189, where at p. 190, Lindley, L. J., opened his judgment with the following remark: "The question raised by this appeal is a very important one, namely, whether proceedings can be taken to enforce a judgment after twelve years, there having been no payment or acknowledgment in the meantime."

The proposed amendment is intended to make it clear that the provisions of the clause apply to applications for the execution of decrees.

Clause 22.—The expression "produce of land" may not include rent paid by tenants in occupation of the land. [See *Ummer v. Abdul*, I. L. R. 2 Mad 165]. The proposed amendment will remove the doubt.

Section 20.

There is a conflict between the Calcutta and the Madras High Court on the one hand and the Allahabad High Court on the other on the question whether the word "debt" in this section includes what may be called a judgment-debt; the Calcutta and the Madras High Court answering the question in the negative: *Kader Bux v. Gour*, 6 C. W. N. 766; *Periasami v. Krishna*, I. L. R. 25 Mad. 431, 442; *Kuppu v. Rengu*, I. L. R. 27 Mad. 608; *Srinivasa v. Ponnu*, I. L. R. 28 Mad. 40, and the cases of *Kally v. Heera*, I. L. R. 2 Cal. 468, and *Mungal v. Shama*, I. L. R. 4 Cal. 708, decided under sections 20 and 21 of Act IX of 1871; and the Allahabad High Court answering it in the affirmative: *Roshan v. Mata*, I. L. R. 26 All. 36; *Janki v. Ghulam*, I. L. R. 5 All. 201; *Ramhit v. Satgur*, I. L. R. 3 All. 247; *Muhamad v. Payag*, I. L. R. 16 All. 228; *Ashanullah v. Dakhina*, I. L. R. 27 All. 575. It seems that acknowledgments and payments should in this respect have the same effect, and it may be observed that under section 8, 37 & 38 Vict., c. 57, a payment would save the right to take proceedings to enforce a judgment; *Jay v. Johnstone* (1893), 1 Q. B. 189.

The explanation is added to remove this conflict.

Clause 23 (r).—There is a conflict of authority on the question whether a guardian of a minor is an agent within the meaning of these sections. In *Tilluck v. Chutta*, I. L. R. 26 All. 598, it was held that a payment made by a natural guardian of certain minors of interest due on a bond executed by their deceased father did not meet the requirements of section 20; in *Wajibun v. Kadir*, I. L. R. 13 Cal. 202, it was held that an acknowledgment given by the natural guardian of a minor was not enough to give the creditor a fresh period of limitation, and the same view was taken in *Maharana v. Vadilal*, I. L. R. 20 Bom. 61. On the other hand, in *Annagaganda v. Sanga*, I. L. R. 26 Bom. 221 F. B., it was held that a payment made or acknowledgment given by a guardian appointed under Act VIII of 1890, if it was within the powers of the guardian under section 27 of the Act, would be sufficient; payment made by such a guardian who had borrowed money on a bond for the benefit of the minor was held to be a good payment under section 20; *Norendra v. Raicharan*, I. L. R. 29 Cal. 647; and an acknowledgment made in the course of certain execution proceedings by the pleader of a minor judgment-debtor was held to be within the requirements of section 19 in *Narendra v. Bhupendra*, I. L. R. 23 Cal. 374, at p. 387; and in *Sobhanadri v. Sriramulu*, I. L. R. 17 Mad. 221, an acknowledgment made by a natural guardian was held to meet the requirements of section 19. In *Beti Maharani v. Collector of Etawa*, I. L. R. 17 All. 198 P.C., an acknowledgment made by the Court of Wards on behalf of a person who had been declared disqualified on her own application was held to be sufficient; it may be doubted, however, whether such a disqualified proprietor is a person under disability in the same sense as a minor or an idiot or an insane person.

New.

It may be observed that acknowledgments and payments made by guardians and managers are almost always made for some benefit to the estate of the person under disability, e.g., to avert an impending suit; it would be manifestly unfair, after a creditor has, at the request of the guardian, accepted a payment or an acknowledgment and refrained from suing at once, to allow the minor afterwards to say that the creditor's remedy has become barred.

The addition of this sub-clause will remove the conflict.

Clause 24.—The proposed amendment is recommended in the fourth schedule annexed to the Civil Procedure Code Bill, 1907. In the notes annexed to their report, the Special Committee made the following observation with reference to this amendment:

Section 20.

"The Committee have amended section 22 of the Limitation Act to supply an omission which has been noticed by the High Courts, namely, the absence of any provision with

regard to a devolution of interest *pendente lite* where it takes place otherwise than by reason of death. The section as amended will include not only cases in which a devolution of interest takes place *pendente lite* owing to death but also to other cases in which such devolution occurs."

Section 26.

It is also proposed to save cases where a plaintiff has been made a defendant or *vice versa* from the operation of this clause: *Fibanti v. Gokul*, I. L. R. 19 Cal. 760; *Khaden v. Rama*, I. L. R. 17 Mad. 12.

Clause 28.—A clause has been added to provide a rule for the acquisition of easements against the Government.

It is the last clause of section 15 of the Indian Easements Act, V of 1882. There is a conflict on the question whether section 26 applies against the Government. In *Arsan v. Rakhal*, I. L. R. 10 Cal. 214, 219, Garth, C. J., went on the assumption that it did; whereas in *Secretary of State v. Mathura Bai*, I. L. R. 14 Bom. 213, and *Viresa v. Tattaya*, I. L. R. 8 Mad. 467, it has been held that it does not.

Sixty years is the period of limitation applicable against the Government.

Illustration (b) has been omitted as it has been pointed out that it goes beyond the terms of the section which does not require "actual user": *Koylas v. Pudao*, I. L. R. 7 Cal. 132.

This illustration does not occur under section 15 of the Indian Easements Act, V of 1882.

Sections 1, 2 and 6.

Clause 31.—Portions of section 2 have been omitted as unnecessary, having regard to the provisions of the General Clauses Act, 1897, section 6 (a), (c), and section 8.

Sub-clause (2) (b).—The Madras Regulation, VI of 1831, has been repealed except as to the scheduled districts in Madras by the Madras Hereditary Village-offices Act (Mad. Act III), 1895. This Act, however, clearly provides special rules of limitation for suits, appeals and applications, making certain sections of the Limitation Act applicable thereto. Sub-clause (1) (b) will therefore save the periods prescribed by this Act from being altered or affected by anything herein contained and it need not be specifically mentioned.

Sub-clause (3).—The sections of the Act corresponding to clauses 28 and 29 of the Bill were repealed by the Indian Easements Act, V of 1882, in the Provinces to which it applies; this sub-clause is added to provide that these provisions of the Bill shall not affect the Easements Act.

New.

Clause 32.—This clause provides for cases in respect of which the period of limitation has been shortened by the Bill. It proceeds on the lines of the last clause in section 2 of the Act (now repealed by the Repealing and Amending Act, 1891).

New.

Clause 33 (1).—The Privy Council has held in the recent case of *Vasudeva v. Srinivasa*, 11 C. W. N. 1005, that article 147 (providing a period of sixty years) is applicable only to suits on English mortgages, and that suits on all other mortgages are governed by the twelve years rule contained in article 132. Previous to this decision, the law, as laid down in the decisions of the High Courts of Bombay, Madras and Allahabad, was that article 147 applied to every suit by a mortgagee in which he asked either for foreclosure or for sale: *Motiram v. Vital*, I. L. R. 13 Bom. 90 F. B.; *Datto v. Vithu*, I. L. R. 20 Bom. 408 F. B.; *Narayana v. Venkata*, I. L. R. 25 Mad. 220 F. B.; *Shib v. Ganga*, I. L. R. 6 All. 551 F. B.

The result has been that in the said territories a large number of mortgage-suits for which the period of limitation had hitherto been believed to be sixty years would be found to be barred by limitation.

This sub-clause is meant to provide for these suits; as also for the continuance of pending suits.

New.

Clause 33 (2).—This sub-clause is proposed to provide for the restoration of suits of the description mentioned above which have been dismissed on the ground of limitation since the date of the Privy Council decision. It proceeds on the lines of section 12, Act XXIII of 1861.

Section 2.

Clause 34 and Schedule III.—The Indian Limitation Act, 1877, and the several general enactments amending it are proposed to be repealed.

Notes on schedules.

SCHEDULE I.

This is Schedule II of the Act. The existing numbering has been retained as far as possible.

Article 5.

Article 5.—This amendment has been proposed in the fourth schedule of the Civil Procedure Code Bill, 1907. Clause 128 (f) of the Civil Procedure Code Bill proposes to authorize the framing of rules extending the summary procedure to the trial of suits other than suits on negotiable instruments.

Article 11.

Article 11.—The article is proposed to be amended so as to provide for all cases in which the Civil Procedure Code Bill proposes to give a right of suit to challenge orders passed in proceedings relating to resistance and obstruction to the delivery of possession of property to a decree-holder or to a purchaser of property sold in execution of a decree and to dispossession in such delivery of possession.

Article 33 has been divided in order to preserve the numbering of the present Act.

Article 34 of the Act is proposed to be omitted.

A wife, even if a minor, should not be looked upon by the law as a chattel and an object of possession. The Civil Procedure Bill of 1907 has left out the provision relating to a decree for the recovery of a wife (O. XXI, r. 32).

Article 35 of the Act is also proposed to be omitted.

The scope of this article is very limited. It does not apply to cases arising under the Indian Divorce Act. The Allahabad High Court has held that it does not apply to Hindus or Muhammadans, as their personal law does not require an antecedent demand to sustain a suit for restitution of conjugal rights, nor make restitution unenforceable against a minor, and it has further held that the withholding of conjugal rights by either party is a continuing wrong, and that a claim for restitution cannot be barred by limitation: *Binda v. Kaunsila*, I. L. R. 13 All. 126, 146. The same view was taken in *Bai Sari v. Saukla*, I. L. R. 16 Bom. 714. These views have been so far modified by the rulings of the Calcutta and Madras High Courts and by the later rulings of the Bombay High Court as to make the article applicable to Hindus and Muhammadans in cases of suits preceded by demand and refusal as mentioned in the third column: *Dhunjibhoy v. Hirabai*, I. L. R. 25 Bom. 644 F. B.; *Asirunnissa v. Busloo*, I. L. R. 34 Cal. 79; *Saravanai v. Poozayi*, I. L. R. 28 Mad. 436. The operation of the article may be easily avoided by a party if he simply refrains from making a demand which, it may be noted, is not under the Hindu or Muhammadan law necessary to give rise to a cause of action. It is a very usual thing in Hindu and Muhammadan families for a wife to go and stay with her parents or brothers and the effect of this article is that if owing to any domestic quarrel the wife should in a fit of temper refuse to return, the husband would be compelled to take the matter into Court within two years.

Article 44.—The article is proposed to be amended so as to be applicable to all Article 44. transfers of property.

It has been held in one case that the word sale does not include a mortgage or a lease: *Ramausar v. Raghobar*, I. L. R. 5 All. 490.

Article 60.—There is conflict on the question whether money deposited with a banker Article 60. is a loan or a deposit.

In *Issur v. Fiban*, I. L. R. 16 Cal. 25, Wilson, J., held that it is a deposit and not a loan within the meaning of article 59.

In *Ichha v. Natha*, I. L. R. 13 Bom. 338, it was held that a deposit with a banker is ordinarily a loan.

In *Dharam v. Ganga*, 4 All. Law Journal, 628, it has been held that ordinary dealings between native bankers and their customers are matters of loan within the meaning of article 59.

In *Manchaji v. Dorabji*, I. L. R. 19 Bom. 775 and *Perundavi v. Nammaladar*, I. L. R. 18 Mad. 390, at p. 394, it was held that whether a particular transaction was a loan or a deposit would depend on the facts of each case.

The amendment suggested would bring the law into conformity with the view taken by ordinary men of business in this country.

Article 99.—It was held in *Patabhi v. Ramayya*, I. L. R. 20 Mad. 23, that this article Article 99. could not apply to a case where not the whole but only a part of the money due under a joint decree was realized from the plaintiff by the sale of his property by the Court and that it was doubtful whether such a case fell under article 61 or under the general article 120.

In *Raja of Vizianagram v. Raja Satrucherla*, I. L. R. 26 Mad. 686, at p. 716, Bhashyam Ayyangar, J., pointed out that a strictly grammatical and literal interpretation of this article would lead to anomalous if not absurd consequences, and observed that he would be strongly inclined to read the section as if after the words "had paid" there were the words "on account of". He held that each time that an amount is paid by or levied from the party seeking contribution in excess of his share, he has a right of suit for contribution in respect of such payment. Referring to this case, Stanley, C. J., in *Ibn Hasan v. Brijbhukan*, I. L. R. 26 All. 407, observed as follows: "It seems to me very questionable whether the learned Judge has not taken too great a liberty of interpolation with the article in question"—p. 425.

The question whether the word "paid" in article 100 of Act IX of 1871 (which corresponded to the present article 99) covered a case where money was realized by the sale of plaintiff's property was left in doubt by Mitter and Maclean, JJ., in *Fuckoruddin v. Mohima*, I. L. R. 4 Cal. 529.

The amendments proposed would meet the points indicated above.

Article 111.—The amendment proposed will make it clear that this article is applicable Article 111. only to suits to enforce the personal liability of the purchaser.

It has been held by the High Courts of Bombay, Madras and Allahabad that a suit by an unpaid vendor to enforce his charge on the land for the unpaid purchase-money is governed by article 132 and not by this article: *Chunilal v. Bai Jetha*, I. L. R. 22 Bom. 846; *Virachand v. Kumaji*, I. L. R. 18 Bom. 48; *Har v. Muhamdi*, I. L. R. 21 All. 454; *Ramakrishna v. Subrahmania*, I. L. R. 29 Mad. 305 F. B., overruling *Natesan v. Soundra*, I. L. R. 21 Mad. 141, and *Avuthala v. Dayamma*, I. L. R. 24 Mad. 233.

Article 116.—It is proposed to amend this article so as to exclude from its operation Article 116. suits for arrears of rent payable under a registered lease.

There is conflict on the question whether a suit for arrears of rent due under a Registered lease is governed by this article or by article 110 which provides three years for

suits for arrears of rent. The Calcutta High Court has held that such suits, if not governed by the Bengal Tenancy Act (that is, if the rent is not due in respect of agricultural lands) would come under article 116 and not under article 110: *Umesh v. Adarmoni*, I. L. R. 15 Cal. 221; *Raneegunge Coal Company v. Fadunath*, I. L. R. 19 Cal. 489; suits for rent due under a registered contract are also held to be governed by article 116 by the Madras High Court: *Vythilinga v. Thetchama*, I. L. R. 3 Mad. 76. The Allahabad High Court has however held that such suits are governed by article 110, which specifically deals with suits for arrears of rent: *Ramnarain v. Kamta*, I. L. R. 26 All. 138.

The ruling of the Calcutta and Madras High Courts would reduce the scope of article 110 to cases of tenancies for a term not exceeding one year and monthly tenancies, as all other tenancies must be created by registered instruments.

Article 118.

Article 118.—The amendment is proposed to remove a conflict of authority, and it adopts the view taken by Bhashyam Ayyangar, J., in *Chiruvolu v. Chiruvolu*, I. L. R. 29 Mad. 390.

In a suit to set aside an adoption where but for the adoption the estate would be in a Hindu female a remote reversioner has been held to claim through the presumptive reversioner in the following cases:—*Ayyadori v. Solai*, I. L. R. 24 Mad. 405; *Chiruvolu v. Chiruvolu*, I. L. R. 29 Mad. 390 F. B.; *Harnath v. Mandil*, I. L. R. 27 Cal. 379, at p. 403; *Srinivasa v. Hanmant*, I. L. R. 24 Bom. 260, at p. 266; *Siddheswar v. Sham Chand*, 23 W. R. 285 (decided under Act IX of 1871); *Mrinmoyee v. Bhoobun*, 23 W. R. 42 (decided under Act XIV of 1859).

The contrary view has been taken in the following cases:—*Abinash v. Harinath*, I. L. R. 32 Cal. 62, at p. 71; *Bagwanta v. Sukhi*, I. L. R. 22 All. 33, at pp. 44, 45.

In the case of *Chiruvolu v. Chiruvolu*, I. L. R. 29 Mad. 390 F. B., however, the Court observed that in suits relating to the alienations by a qualified owner (such as a Hindu widow) the presumptive reversioner cannot, on the current of authority, be held to represent remote reversioners (at p. 411). The conflict therefore is limited to suits relating to adoption.

Article 163.

Article 163.—The amendment is recommended by the Special Committee on the Civil Procedure Code Bill, 1907.

Article 166.

Article 166.—The amendment is recommended by the same Committee. In the notes on Schedules annexed to their report they observe as follows:

"The Code [s. 312] contemplates the confirmation of a sale of immoveable property immediately on the expiration of the thirty days allowed by article 166 of the Limitation Schedule. But the period allowed for an application to set aside a sale on the ground that the judgment-debtor had no saleable interest therein is sixty days [article 172]. The result is that in some Provinces the confirmation of a sale is delayed for sixty days; whilst in other Provinces, sales which have been already confirmed are liable to be set aside. The Committee think that in the matter of limitation an application under section 313 should be brought into line with an application under section 312, and they therefore propose to repeal article 172 and to amend article 166 so as to include applications under section 313."

Article 171.

Articles 171, 172.—Article 171 of the Act has been broken up into these two articles. References to the sections have been omitted and words have been added to describe the order of dismissal referred to.

Article 172 of the Act is omitted from the Bill. [*Vide* notes on article 166.]

Article 174 of the Act is omitted as it has been repealed by the Provincial Insolvency Act, 1907, with effect from the 1st January, 1908.

Articles 175A, 175B, 175C.

Articles 176, 177.—These two articles have been substituted for the three articles in the Act. Article 177 is recommended by the Special Committee of 1907.

Article 177.

Article 179.—In article 177 of the Act the description of the application intended to be governed by it does not seem to be accurate.

Section 598 of the Code deals with the application to be made by an intending appellant; section 603 deals with the admission of the appeal. Section 598 requires that the application should pray for a certificate that the case is a fit one for appeal; section 603 does not require that any application should be made for the admission of the appeal.

It may be noted that the word *may* in section 603 of the present Code has been replaced by the word *shall* in O. XLIV, r. 8, of the Code of Civil Procedure Bill, 1907.

Article 181.

Article 181, third column, clause 2.—There is conflict on the question whether, where an appeal has been withdrawn, time would run from the date of withdrawal of the appeal or from the date of the original decree.

In *Peria v. Lakshmi*, I. L. R. 30 Mad. 1. F. B., it has been held by the Madras High Court that in case of an appeal which has been withdrawn time should run from the date of the order of the Appellate Court dismissing the appeal on such withdrawal.

The Bombay High Court has on the other hand held that when an appeal is withdrawn time would run from the date of the original decree: *Abdul v. Moidin*, I. L. R. 22 Bom. 500, at p. 506.

Now.

Article 181, third column, clause 4.—There is conflict on the question whether when a decree has been amended time for an application for execution would run from the date of the decree or from the date of the amendment.

In *Kali Prasanna v. Lal Mohan*, I. L. R. 25 Cal. 258, the application for amendment (to include in the decree certain costs which had been awarded by the judgment) was regarded as an application for review; the same view was taken in *Venkata v. Venkata*, I. L. R. 24 Mad. 25, where the application was to amend the amount of costs entered in decree; and in *Amar v. Asad*, I. L. R. 32 Cal. 908, it was held that time would run from the date of amendment as the amended decree was the final decree to be executed.

The Allahabad High Court on the other hand has held that an application under section 206 of the Code of Civil Procedure to amend a decree so as to bring it into conformity with the judgment is not an application for review, and that time will run from the date of the decree as originally drawn up: *Ahsan v. Dakkhini*, I. L. R. 27 All. 575; *Kallu v. Fahiman*, I. L. R. 13 All. 124; *Muhammad v. Muhammad*, I. L. R. 17 All. 39; and *Daya v. Nanki*, I. L. R. 20 All. 304.

Article 181, third column, clause 6.—There is conflict on the question whether the date referred to in this clause is the date of the order of the Court directing notice to issue or the date on which the notice actually issues from the Court, some time being usually taken in the drawing up and signing of the notice.

The Calcutta and the Madras High Courts have held that the date of actual issue is meant: *Kedareswar v. Mohin*, 6 C. W. N. 656; *Ratan v. Deb*, 10 C. W. N. 303; *Cheruvath v. Nerath*, I. L. R. 30 Mad. 30.

The Bombay and the Allahabad High Courts have held that where notice has been issued time would run from the date of the Court's order to issue the notice: *Govind v. Dada*, I. L. R. 28 Bom. 416; *Damoda v. Sonaji*, I. L. R. 27 Bom. 622; *Udit v. Rampertab*, 1 All. W. N. 147.

SCHEDULE II.

This schedule specifies the territories in which previous to the recent decision of the Privy Council (11 C. W. N. 1005) the law was held to be that the period of limitation for every suit by a mortgagee, whether he asked for foreclosure or for sale, was sixty years as provided by article 147 and not twelve years as provided by article 132.

The list is not exhaustive as it is not definitely known whether there are not other Provinces or Districts where the same view of the law prevailed.

SCHEDULE III.

The enactments proposed to be repealed are specified in this schedule.

LEGAL PRACTITIONERS (AMENDMENT) BILL.

The Hon'ble SIR HARVEY ADAMSON moved that the Bill further to amend the Legal Practitioners Act, 1879, be taken into consideration.

The motion was put and agreed to.

The Hon'ble SIR HARVEY ADAMSON moved that the Bill be passed.

The motion was put and agreed to.

INDIAN LIMITATION BILL.

The Hon'ble MR. ERLE RICHARDS said:—"My Lord, the title of the Bill which I now ask leave to introduce appears to be somewhat ambitious. It is the 'Indian Limitation Act', and it might be assumed from that title that this Council was to be asked to embark on a general amendment of the Law of Limitation. I desire at the outset to make it clear that there is no such intention. The Bill is intended primarily to remedy a hardship caused by a recent decision of the Privy Council to which I will return in a moment; to make some amendments ancillary to the Code of Civil Procedure Bill which is now before this Council and which, it is hoped, will be shortly passed into law; and in addition to amalgamate in one enactment the various Acts through which the law is at present scattered. For the rest the amendments are, as is believed, of an unimportant character directed solely to clearing up points as to which there exists a conflict between the various High Courts. The Bill makes no other changes in the law.

"For some years past there has been a difference of opinion as to the period of time within which suits to enforce payment of money secured by mortgages other than English mortgages might be brought: some High Courts have held that the period was sixty years and that the case was governed by Article 147; other High Courts have held that Article 132 applied and that the time was twelve years. The result has been that the law has differed in different Provinces: in some Provinces the sixty years' rule prevailed: in others twelve years was the time allowed. The Privy Council have now decided that the latter view is correct and that the period of limitation for suits of this character all over India is twelve years and no more. This result has caused considerable hardship in the territories within which the sixty years' rule had prevailed. Suits for the enforcement of mortgages which before the decision of the Privy Council would have been within time, have been and must be dismissed by Courts on the ground that they are barred by limitation: and claims under a still larger number of mortgages have become unenforceable owing to the construction now put upon the Statute. Mortgagees relied and were entitled to rely on the view of the law taken by the High Courts of their respective Provinces, and it does not seem fair that they should lose their rights merely because that view has now turned out to be incorrect. The Government of India are of opinion that some provision should be made to meet these cases and the Bill accordingly proposes that suits in the Provinces in which the sixty

years' rule prevailed, may be brought within two years from the passing of the Bill: it also provides for the continuance of pending suits and for the restoration of suits which have been dismissed on the ground of limitation since the date of the Privy Council decision.

"Further amendments, my Lord, are required, as I have said, to make the law of limitation conform to the new proposals in regard to civil procedure. The two Statutes are to some extent interwoven and it is not possible to amend the one without making necessary some amendments in the other. Such of these amendments as are matters of substance have been recommended either by the Select Committee of 1903 or by the Special Committee of 1907 and have been already discussed in connection with the Code of Civil Procedure Bill. Some objection has been taken to the definition of 'moveable property', a definition recommended by the Select Committee of 1903, and that objection will be carefully considered. The other amendments of substance are not, as is thought, of a contentious character. Beyond these, the changes are mere matters of form.

"Another class of amendments is that necessitated by differences entertained by various High Courts as to the construction of the present Act. I have already made reference to one difference which the Privy Council have now finally determined, but there are other cases in which similar conflicts exist, conflicts which may result in the same sort of hardship. It seems most desirable to take an early opportunity of ending these conflicts by legislation. It is believed that the amendments required raise no general questions of importance.

"Other changes in the existing periods of limitation have been suggested to the Government of India but have been rejected on the ground that they raise questions of principle and for that reason, even if beneficial in themselves, are not within the scope of this Bill; such for instance are proposals for the reduction of the period of limitation now given by Articles 145, 146 and 147 of the existing Act. The tendency of modern legislation is beyond doubt to shorten the time of limitation and on general principles that is a result to be desired. But in India we must proceed slowly: changes of the law in these respects are apt to create hardship and in many matters, especially in those relating to land, Western legislation is not a safe precedent for India. Moreover we have in this as in other questions to take into account the great difference in practice in the various Provinces. It has been suggested for instance that the period of 60 years allowed under the existing law for suits for redemption should be curtailed and that, following English law, one uniform period should be enacted for all mortgage suits: a suggestion which has the support of high authority. But it is clear that in India any such change would have far-reaching results and that however desirable in some Provinces it would be altogether opposed to the habits of the people in others. This is an illustration of the sort of difference to which I have referred. I mention these matters in passing, because they have been the subject of some discussion in connection with the present Bill, but they are not material to the motion before the Council; for the Bill is intended to be restricted and will, I think, be found to be restricted to minor amendments for the most part of a non-contentious character.

"My Lord, if the amendments to which I have called attention were alone in print this Bill would be of small dimensions but it has been thought desirable to take this opportunity of reprinting the present Limitation Act with the amendments which have been made in it from time to time by the Legislature since 1877 and those now proposed. There are no less than eleven amending Acts already on the Statute-book, and it is from every point of view desirable to substitute one enactment for the twelve, or if this Bill were passed in the form of an amending Bill only, for the thirteen, in which the law would otherwise be contained. Our Statute-book, if I may use that expression for convenience though it is not accurate in fact, is full of amending Acts: there are some 350 Acts of general application and of these about 120 are amending Acts, many of them making but trifling changes, altering a few words or perhaps a clause or two. The result is that our collection of Statutes has become confused and complicated, and that it is increasingly difficult for those

who have to refer to it to find the law with accuracy. The Government of India from time to time issue copies of Acts as amended up to date, but these copies have no authority and the amending volumes are themselves the sources of some confusion. It seems desirable therefore, when opportunity offers, to consolidate Acts, that is, to reprint them as amended, repealing the amending Acts in the manner proposed in the present case and so to simplify the Statute-book. 'Consolidation' is a long word, but in this connection it means reprinting and nothing more.

"A draft Bill containing the amendments now before this Council and some others put forward for discussion but not adopted, was circulated to Local Governments and others some two months since: but owing to a misunderstanding which has only recently come to my notice an altogether insufficient interval was allowed for replies. I have to express my regrets to those consulted that this was so. These criticisms with which we are favoured on our legislative proposals are of the utmost value and it would be most unwise for this Council to pass any Act such as this until it had been sufficiently discussed. The Bill as now before this Council is not, as I have said, of a contentious character, but adequate opportunity for discussion must be given before it is passed into law."

The motion was put and agreed to.

The Hon'ble MR. ERLE RICHARDS introduced the Bill.

The Hon'ble MR. ERLE RICHARDS moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

INDIAN TARIFF (AMENDMENT) BILL.

The Hon'ble MR. BAKER moved for leave to introduce a Bill further to amend the Indian Tariff Act, 1894. He said:—"The object of this Bill is to give effect to the recommendation of the Excise Commission that the import duty on imported beer and the excise duty on beer made in India should be raised from one anna to two annas a gallon. The present rates have never been altered since they were imposed in 1863 and 1890, respectively. They do not act as a check on consumption. In 1889 the imports were about 3 million gallons, while the breweries in the country turned out about 5 millions. Last year these amounts had risen to about 5 millions and nearly 6 millions, respectively. The Excise Committee found that beer drinking by the native population was on the increase in Madras and Bangalore, and probably also in Burma, and that a commencement of such consumption had recently been observed in parts of Northern India and in Sind. Moreover, beer which is valued at more than Re. 1-4 a gallon, when taxed at one anna a gallon, pays less in proportion to its value than it would do under the ordinary tariff rate of 5 per cent. *ad valorem*. This preferential treatment of alcoholic liquors cannot be defended.

"The Bill raises the tariff rate on imported beer to two annas a gallon. The excise-duty will be raised to a similar figure by Local Governments under their Excise laws.

"I may add that under the term 'beer' I include the other liquors which are classed with it in Schedule III of the Tariff Act, namely, ale and porter, cider and other fermented liquors."

The motion was put and agreed to.

The Hon'ble MR. BAKER introduced the Bill.

The Hon'ble MR. BAKER moved His Excellency the President to suspend the Rules for the conduct of business to enable the Bill to be passed at the

present sitting of the Council. He said :—" This is the usual practice in connection with Tariff measures and is obviously necessary. The intention is that the enhanced duty should come into force at once."

His Excellency THE PRESIDENT declared the Rules suspended.

The Hon'ble MR. BAKER moved that the Bill be passed.

The motion was put and agreed to.

The Council adjourned to Friday, the 17th January, 1908.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8hrs., on Thursday, the 2nd January 1908, based on the Indian Daily Weather Reports of the period.

A cold weather depression which gave rain in Persia on the 25th December, entered north-west India on the 28th and intensified during the next day. It gave light precipitation in parts of Kashmir and Baluchistan on the 30th and disappeared on the 1st January. Weather became slightly unsettled in the south-west of the Bay on the 2nd and rain fell at a few stations in the extreme south of the Peninsula.

Burma.—There was no rain and skies were almost clear. Temperature was normal in Upper Burma and in Lower Burma it was normal or in excess.

North-east India including Orissa.—No rain was reported and skies were clear except for light cloud at a few stations in Assam on the 31st December. Minimum temperature was low in parts of the western districts, but apart from this, temperature conditions were normal.

The United Provinces, Central India and the Central Provinces.—Light cloud appeared in parts of the division on the 29th and 30th December, but skies were clear on the remaining days of the week. Weather was slightly warmer than usual during the day time in the United Provinces on the 1st and night temperature was on the whole somewhat in defect especially during the first three days.

North-west India.—The depressions entering India from the west, gave light precipitation in parts of Kashmir and Baluchistan on the 30th and cloud over the greater part of the division except on the 31st December and 1st January when skies were almost clear.

Temperature rose with the approach of the first depression and fell in its rear, but the departures from the normal were not large except in Baluchistan on the 30th when the maximum averaged ten degrees in defect.

The Peninsula—The only rainfall reported was on the 2nd January when a few light falls occurred in the extreme south-east of the Peninsula. Skies were moderately to heavily clouded in south-east Madras on that day, but during the remainder of the week they were clear or only lightly clouded. Temperature in the day time was normal, at night it was lower than usual in parts of the division and normal elsewhere.

The rainfall of the past week was insignificant, the largest average fall being only 0·2 inches in Baluchistan. For the whole period from the 29th November to the 2nd January rainfall is in excess by 20 per cent. or more at the stations in the Bay in Burma, north-east India excluding eastern Bengal, Hyderabad South, Mysore and on the north of the east Coast and is in defect in most of the remaining divisions; the largest actual deficiency being 4·0 inches in south-east Madras.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
28th December 1907.

Burma.—Slight rain fell in Mandalay; elsewhere there was no rain. Reaping of autumn rice is progressing satisfactorily. Cultivation of miscellaneous winter crops continues. Crop prospects are good in Lower Burma and generally fair in Upper Burma, though poor in parts for want of rain. The price of paddy is practically stationary, but considerably above normal.

Eastern Bengal and Assam.—Slight rain fell in Mymensingh, Chittagong, Tippera, Noakhali, Rangpur, the Naga Hills and Sibsagar. Harvesting of winter rice, plucking of cotton, cultivation of spring crops and pruning of tea are in progress. Prospects of standing crops are fair to good. Prices of common rice have fallen in ten; and have risen in four districts. No scarcity is apprehended at present.

Bengal.—Throughout the Province the weather has been cold but seasonable. The harvesting of winter rice still continues, but has been completed in one or two districts. In Bihar and Orissa pressing of sugarcane is in full swing and prospects have improved. Where irrigation is possible the sowing of spring crops has been completed. In Darbhanga mustard is in flower. The prospects of the spring crop have improved in the Presidency Division. In Chota Nagpur and Orissa they are reported to be fair, but in Bihar the crop is suffering greatly for want of rain. The prospects of the *dalu* rice crop in Orissa are fair. The outturn of winter rice is very poor. In the districts of Bankura, Nadia, Balasore, Ranchi, Palamau and the Chilka tracts of Puri the stocks are reported to be insufficient. There is scarcity of fodder in the Katwa thana of Burdwan and in the Jamui sub-division of Monghyr and of water in the north of Murshidabad and the Dumraon thana of Shahabad. Scarcity is anticipated in Nadia, Murshidabad, the Katra and Raipur thanas of Bankura, the Manjhi and Darauli thanas of Saran, Balasore, the Chilka tracts of Puri, Ranchi, Palamau and portions of Hazaribagh, and at the end of the cold season if no rain falls in Birbhum, Jessore and the Bhabhua and Sassaram sub-divisions of Shahabad. Prices have risen slightly throughout Bihar, but have remained practically stationary in the other portions of the Province. Gratuitous relief has been given in the Kendrapara sub-division of Cuttack to 729 men, 1,533 women and 950 children. One test work has been opened and is attended by 167 men, 29 women and 21 children. Some gratuitous relief has been given in the neighbourhood of the Chilka lake in Puri.

The report received from the Feudatory States of Orissa for the week ending the 23rd December shows that no rain fell during the week. The harvesting of winter rice and the pressing of sugarcane continues. The outturn of rice varies in the different States from 50 to 75 per cent of a normal crop. The prospects of the spring crop are not good. Fodder and water are sufficient.

United Provinces.—No rain fell during the week and it is anxiously looked for. Prices exceed scarcity rates and are rising in several districts. Markets are sufficiently stocked and importation of grain from the Punjab continues. The demand for labour is generally sufficient. The spring crop is still being sown and irrigated. Germination, except in Dehra Dun and Garhwal, is good. Cotton is being picked and sugarcane pressed. Slight injury from frost is reported to cotton, *arhar* and potatoes. Poppy is doing well. Agricultural stock is in fair condition but overworked. Fodder is dear and scarce. There is no marked increase in crime.

The weekly report on the famine and scarcity is as follows :—Distress is increasing in extent and severity. Gratuitous relief has been sanctioned in the rest of the Lucknow Division, in the Mainpuri, Etah, Barilly, Moradabad, Shahjahanpur, Pilibhit, Banda and Jhansi districts, and in the towns of the Allahabad district in addition to the areas mentioned in previous telegrams. The area affected comprises the Fyzabad Division north of the Gogra, the Lucknow Division and parts of the Allahabad, Rohilkhand, Agra, Benares and Kumaon Divisions. The health of those on relief is uniformly good. Relief measures are adequate and private charity is active. No wandering or influx of beggars is reported. The numbers on relief are :—on works 68,404; on gratuitous relief 32,928 ;

total 1,01,332. There are relief works in five and test works in ten districts. The districts with the largest number on relief are Gonda 22,643; Allahabad 22,099; Bahraich 15,619; Jalaun 9,832 and Mirzapur 9,089. Prices—Sitapur 8 and Jalaun 8½ seers; elsewhere prices are 9 to 10 seers per rupee.

Punjab.—Rainfall nil. Prices of food grains are generally above scarcity rates except in Multan where they are between scarcity and warning rates; prices are still rising in many districts. The pressing of sugarcane and harvesting of *toria* are in progress; wheat and barley sowings on irrigated areas continue except in Delhi. The condition of irrigated crops is good to average and of unirrigated bad. The opium crop is below average in Lahore and Amritsar. The outturn of autumn crops and *toria* is average to below average. Unirrigated crops are withering in Hissar for want of rain. The sugarcane crop has been damaged by frost in Rohtak and Sialkot; rats are damaging the young crops in Ambala, Lahore and Gujranwala; grasshoppers are damaging crops in Lahore. Unirrigated crops have also been injured by white-ants in Ambala; *toria* has been damaged by *tela* in Shahpur. Cattle are suffering from over-work, cold and scarcity of fodder in Jullundur, Lahore and Sialkot; their condition is fair to poor in Shahpur. Pasturage and fodder are scarce in Delhi, Sialkot, Gujranwala, Shahpur, Jhang, Multan and in parts of Gurgaon, Ambala, Lahore, Amritsar and Rawalpindi. Green fodder is not available in Ferozepore, Amritsar, Sialkot and Lyallpur. The fodder supply is decreasing in Jullundur and getting dearer in Rohtak. The water-supply is insufficient in Delhi and Ambala.

North-West Frontier Province.—No rain fell during the week. The condition of standing crops is poor on unirrigated areas and average on irrigated areas. Spring sowings are in progress on irrigated areas, but early rain is required to facilitate sowings on unirrigated areas. Sugarcane pressing continues in the Peshawar and Bannu districts, and the outturn is fair. Water in canals is sufficient and fodder is procurable except in parts of the Dera Ismail Khan District where cattle are in poor condition. Prices still continue rising and are:—wheat 8½ to 12½; gram 11 to 12½; bajra 11½ to 14; maize 12½ to 18½; and barley 13½ seers per rupee.

Jammu.—Rain nil. Prices are fluctuating. Prices—Wheat from 8½ to 15; and maize 10½ to 15 seers per rupee. The condition of standing crops is fair in irrigated and poor in other parts. Fodder is insufficient in Akhour, Jammu, Bhimber, Samba, Rambirsinghpura, Basohli, Udhampur and in the Kandi Circle of the Jasmirgarh tehsil. Sowings of spring crops are in progress. Rain is badly wanted.

Kashmir.—The weather is cold and disturbed. Prices are almost stationary.

Rajputana.—Spring sowing continues in some places. Irrigated crops are on the whole fair; they are suffering for want of rain in Bharatpur and in the hilly and inferior lands in Kotah; elsewhere sowings have been generally raised. Cattle are generally good. Fodder and water are sufficient for the present. Food stocks are being imported. Prices have risen by nearly a seer in Dholpur; slightly in Bharatpur; and owing to imports have fallen in Jaisalmer. Elsewhere prices are unchanged. There is so far a sufficient demand for labour and the condition of the labouring classes is good.

Central India.—[Report not received.]

Central Provinces.—The weather continued clear and cold. No rain fell during the week. Harvesting of autumn crops is almost completed and threshing and winnowing continue. Picking of cotton is in progress. Spring crops are generally in good condition and fair in Damoh, Betul, Drug and Akola. Germination is reported unsatisfactory in Raipur. More rain is required in the Vindhyan districts. Germination of wheat, gram and *ringni juar* which were sown after the recent rains is reported to be successful in Nagpur; but that gram in the Chhindwara tahsil is partly unsatisfactory. *Til*, *tur*, *Masur*, linseed and gram suffered from frost in Chhindwara, the Nerbudda Valley, and the Vindhyan districts; linseed has withered in parts of the Melghat taluk of the Amraoti District; wheat has been slightly damaged by disease in the Bharampur tahsil of the Nimar district. No insufficiency of work for labourers is reported anywhere. Fodder and water are sufficient but fodder is dear in Saugor; inadequate in Narsinghpur; and becoming scarce in the Darwaha taluk of the Yeotmal district. The prices of staple food grains have remained stationary in Jubbulpore and in all districts of the Nagpur and Chhattisgarh divisions, but there was a rise in the prices of nearly all staples in Saugor, Damoh, Narsinghpur, Nimar and Chhindwara. Wheat became dearer

in Saugor and Seoni by 1 seer; by $\frac{3}{4}$ seer in Damoh; and by $\frac{1}{2}$ seer in Chhindwara. The price of wheat in Hoshangabad and *juar* in Buldana fell by $\frac{1}{4}$ and $1\frac{1}{2}$ seers respectively; *juar* became dearer in Chhindwara by 1 seer and $1\frac{1}{2}$ seers in Nimar. The price of gram rose by $2\frac{3}{4}$ seers in Nimar; by $1\frac{1}{2}$ seers in Hoshangabad; and by 1 seer to $\frac{1}{2}$ seer in Buldana, Saugor, Narsinghpur and Damoh.

Feudatory States.—Rainfall *nil*. Harvesting, threshing and winnowing of autumn crops and picking of cotton were in full swing. The condition of spring crops is generally good. Fodder and water are sufficient everywhere. Rice in Kawardha and Bastar became dearer by 1 seer.

Bombay.—Slight rain fell during the week in parts of Kanara, Satara and Kolhapur. Rain is generally needed for standing spring crops which are withering for want of moisture in parts of Ahmedabad, the Panch Mahals, Broach, the Deccan and Bijapur; elsewhere crops are in good condition except for slight damage by grasshoppers in parts of Dharwar. Threshing of autumn crops is in progress in parts of Sind, the Konkan, Khandesh, Nasik, Ahmednagar, Kathiawar, Palanpur and Mahi Kantha. Spring sowing continues in parts of Sind, Ahmedabad, Kanara and Nasik. Cotton picking is progressing in parts of Hyderabad, Thar and Parkar, Khandesh, Nasik, Bijapur and Kathiawar. The supply of fodder is adequate except in parts of Ahmedabad, Kaira, East Khandesh and Sholapur. Agricultural stock is generally in good condition. The supply of drinking water is generally sufficient. Water for irrigation is insufficient in parts of Sind, Surat, West Khandesh, Nasik, Poona, Sholapur, Satara and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 30 to 43 per cent; in Gujarat 21 to 58 per cent; in the Konkan 22 to 32 per cent; in the Deccan 22 to 51 per cent; and in the Karnatak 28 to 63 per cent less than the normal. Prices are rising. Stocks of grain are generally adequate. The demand for labour is sufficient and wages are normal. Emigration from the Panch Mahals, Ahmednagar and Sholapur continues. The cultivating and labouring classes are in fair condition. During the week 574 persons were employed on three test works in the Panch Mahals.

Hyderabad.—The rainfall received during the week was 12 cents. Some showers fell in five districts. Cause for anxiety regarding standing spring crops has been completely removed. The season will be a moderate one. Special famine measures are unnecessary. In limited areas, suspensions of revenue will probably be necessary and provision of labour on ordinary works later. Prices in districts show a downward tendency. Prices:—wheat $5\frac{1}{2}$; coarse rice $6\frac{1}{4}$; and *juar* $11\frac{3}{4}$ seers per rupee. In Hyderabad city *juar* is selling at $11\frac{1}{4}$ seers per rupee. The rice is due to the absence of yellow *juar* in the market. The highest price in districts is 9 seers per rupee in eight talukas.

Mysore.—No rain fell in any part of the Province. Prices of food grains have slightly fallen in Kolar and Hassan. Standing crops are in good condition. Crops are being harvested and prospects of the season are good, but rain is needed in parts of Bangalore and Mysore. Cattle are healthy. Water and fodder are available.

Coorg.—Picking of coffee and reaping of rice continued. Prices of food grains are stationary. The public health is fair. Water and fodder are sufficient. Agricultural prospects are good.

Madras.—Rainfall fair in Tinnevely, the Nilgiris and South Canara; below average in Nellore, Madura, Malabar and Tanjore; and *nil* elsewhere. Irrigation supplies are insufficient in parts of all districts except Guntur, Chingleput, Trichinopoly, Tinnevely, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Vizagapatam, Kistna, Bellary, Cuddapah and Madura are withering; and some in parts of Ganjam and Tanjore require more rain. Harvests continue with outturn poor to normal. Pasture is generally sufficient except in parts of the Circars, the Deccan and Madura. Fodder is scanty in parts of Ganjam, Kistna, Nellore, Salem and Tanjore. The condition of cattle is generally good. The price of rice is stationary in ten districts; has fallen in seven; and has risen in five. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts; has fallen in four; and has risen in five. *Cholam* is stationary in three districts; has fallen in seven; and has risen in three. *Cumbu* is stationary in five districts; has fallen in six; and has risen in six. The public health is generally good. Prospects are fair generally except in parts of the Circars and the Deccan where more rain is required. The condition of the labouring classes is good and employment is procurable.

Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

No. 5.—THE following Order of His Majesty in Council, dated the 9th September 1907, is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE,

THE 9TH DAY OF SEPTEMBER, 1907.

Present :

The King's Most Excellent Majesty

Lord President
Lord Denman

Sir Charles Hardinge
Mr. Harcourt.

His Majesty, by virtue and in exercise of the powers in this behalf vested in Him by the Colonial Prisoners' Removal Act, 1884, is pleased, by and with the advice of His Privy Council to make the following Order as to the removal and return of prisoners and criminal lunatics under the said Act :—

I. Every prisoner removed under the said Act from a British Possession to the United Kingdom for the purpose of undergoing the residue of a sentence involving confinement in a prison combined with hard labour, shall, in the United Kingdom, be dealt with as follows that is to say,

If the original period of his sentence did not exceed two years, in the same manner as if he had been sentenced in the United Kingdom to imprisonment with hard labour for the same period.

And if the original period of his sentence exceeded two years, in the same manner, as nearly as may be, as if he had been sentenced in the United Kingdom to penal servitude for the same period.

II. Every prisoner removed under the said Act from one British Possession to another British Possession for the purpose of undergoing the residue of a sentence shall in such last-mentioned British Possession be dealt with in the same manner as if he had there been sentenced to such punishment authorized by the law thereof as in the opinion of the Secretary of State signing the Order of Removal shall most nearly correspond to the punishment to which he was sentenced in the first-mentioned British Possession, and for the same period.

III. If the prisoner or criminal lunatic is to be removed to the United Kingdom—

(1) A Secretary of State shall make out and sign the Order of Removal in duplicate and shall send one copy to the Governor of the Colony from which the prisoner is to be removed, and the Governor shall thereupon make out and sign in duplicate a Notification of Concurrence in the Order of Removal.

(2) One copy of the Order of Removal shall be retained in the Colony and the other copy shall be transmitted by a Secretary of State to the Home Office for record.

(3) One copy of the Notification of Concurrence shall be retained in the Colony and attached to the Order of Removal and the other shall be sent to a Secretary of State and shall by him be transmitted to the Home Office for record.

IV. If the prisoner or criminal lunatic is to be removed to a British Possession—

(1) A Secretary of State shall make out and sign the Order of Removal in triplicate and shall send one copy to the Governor of each Colony concerned, who shall thereupon make out and sign in triplicate a Notification of Concurrence in the Order of Removal.

(2) The Governor of the Colony from which the prisoner is to be removed shall retain the copy of the Order of Removal and one

copy of the Notification of Concurrence which he shall attach to the Order of Removal, and shall send the second copy of the Notification to the Governor of the Colony to which the prisoner is to be removed, and the third copy of the Notification to a Secretary of State.

- (3) The Governor of the Colony to which the prisoner is to be removed shall retain the copy of the Order of Removal and one copy of the Notification of Concurrence which he shall attach to the Order of Removal, and shall send the second copy of the Notification to the Governor of the Colony from which the prisoner is to be removed, and the third copy of the Notification to a Secretary of State.

Provided that the above procedure shall not apply to the removal of a prisoner or criminal lunatic from one British Possession to another in pursuance of an agreement made between such Possessions and sanctioned by Order in Council under the provisions of the Colonial Prisoners' Removal Act, 1889.

V. A Removal Warrant duly made out and signed shall be transmitted with every prisoner or criminal lunatic who is removed. The Warrant shall be handed over with the prisoner or criminal lunatic to every person from time to time authorized to receive him in custody for the purpose of giving effect to the Order of Removal.

VI. The forms in the Schedule to this Order or forms to the like effect varied as circumstances may require may be used under the said Act

VII. This Order shall commence and come into operation on the first day of November 1907.

VIII. From the 9th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 2nd November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8hrs., on Thursday, the 9th January 1908, based on the Indian Daily Weather Reports of the period.

A depression began to develop over Baluchistan on the 6th, and at the same time a disturbance was advancing from the west and giving rain and snow in Persia. The two coalesced on the 8th and entered Sind on the 9th. This combined disturbance promises to be of importance. On the 8th precipitation occurred in Baluchistan and on the 9th in Kashmir and Baluchistan, while on the same day light falls of rain were reported from Peshawar, Cherat and Karachi. Light isolated falls of rain occurred on several days in south India.

Burma.—Skies were clear or lightly clouded and temperature was approximately normal.

North-east India including Orissa.—Skies were clear or lightly clouded. Temperature was normal in Eastern Bengal and Assam; but in the province of Bengal, while day temperature was normal, night temperature was in defect in parts especially in the south-western districts.

The United Provinces, Central India and the Central Provinces.—Skies were clear or only lightly clouded up to the end of the week, when the depression from the west gave heavy cloud in the north-west of the United Provinces. Temperature was generally normal in the day time and in defect at night.

North-west India.—Precipitation occurred on the 8th in Baluchistan and at Minimarg, and on the following day in Baluchistan, Lower Sind and Kashmir with light falls of

rain at Peshawar and Cherat. The first depression of the week gave moderate to heavy cloud in the north of the division on the 3rd, but skies then commenced to clear and were almost free from cloud on the 5th. On the following day the second depression began to affect Baluchistan, and cloud gradually spread over the whole division excepting Gujarat during the next three days. Temperature was nearly normal except in the north-west of the division, where it was affected by the depressions entering India from the west; the approach of both depressions being associated with unusually high temperature, especially in the hill districts. At the close of the week, a rapid fall of temperature took place in Baluchistan and Upper Sind.

The Peninsula.—Light falls of rain were reported from south India except on the 5th and 9th. Skies were heavily overcast in south-east Madras on the 6th, but on the remaining days of the week they were clear or only lightly clouded throughout the division. Temperature conditions were normal except for a defect in the minimum at some stations in the north of the Peninsula.

Rainfall occurred during the week only at Port Blair, in south India and in the north-west, and was heavier than usual in Baluchistan and in the Andamans. The rainfall of the period from the 29th November to the 9th January is 20 per cent. or more in excess in Burma, Assam, Bengal, Orissa, Chota Nagpur, on the north Madras coast, in south Hyderabad and Mysore and normal or in defect elsewhere; the largest actual deficiency occurred in the United Provinces, the Punjab, Kashmir, Baluchistan and Central India east.

The following summarises the most important rainfall amounts of the week as recorded at 8 hrs. each day:

January 8th. Chaman 0.19", Quetta 0.14".

„ 9th. Cherat 0.25", Peshawar 0.17", Sonemarg 1.00", Minimarg 0.83" and Quetta 0.58".

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
4th January 1908.

Burma.—Slight rain fell in one district of Lower Burma. Reaping of the autumn rice crop is completed in some districts. Cultivation of miscellaneous spring crops is progressing. Crop prospects are good in Lower Burma. In Upper Burma prospects are fair in most districts though poor in parts of the precarious districts. The price of paddy has risen in four; and has fallen in seven districts.

Eastern Bengal and Assam.—Rainfall *nil*. Harvesting of winter rice, plucking of cotton, cultivation of spring crops and pruning and hoeing of tea are in progress. Prospects of standing crops are fair to good. Prices of common rice have fallen in one; and have risen in five districts. No scarcity is apprehended at present.

Bengal.—Another week has passed without rain, and the spring crops especially in Bihar are suffering. The weather has been cold but seasonable. Harvesting of winter rice has been completed in many districts and sugarcane pressing still goes on. The outturn of rice in Bankura is estimated at 54 per cent of a normal crop. Irrigation of spring crops in the Sone canal area continues. In Orissa some *dalu* rice has been transplanted. *Kulthi* and *mung* are being harvested. Prospects of spring crops in the western portion of Lower Bengal are fair, but in the eastern portion they are below the average, except in Khulna where rape and mustard are doing well. In South Bihar in irrigated areas prospects are fair, and poppy is doing well; but in North Bihar through want of rain prospects are unfavourable. In Orissa *dalu* rice is doing well. The sugarcane crop in the Burdwan and Orissa Divisions is fair. Darbhanga alone reports a good outturn of winter rice. Stocks of grain are reported insufficient in Bankura, Nadia, Balasore, Palamau, the north of Murshidabad and portions of the Sonthal Parganas and Puri. In Bengal, Orissa and Chota Nagpur prices are stationary, but there has been a rise in Bihar probably due to the great export of grain to the United Provinces. Scarcity is apprehended in the Raipur, Khatra, Taldangra and Simlapal police divisions of Bankura, in Nadia, in the north of Murshidabad, in the Bhabhua and Sassaram subdivisions of Shahabad, the Darauli and Manjhi thanas of Saran, in Hazaribagh, Ranchi and Palamau and towards the end of the season in Birbhum, Jessore and Gya if no rain falls. Some gratuitous relief was given in the Chilka tracts in Puri. In Cuttack one test-work was attended by 134 men, 22 women and 13 children and gratuitous relief was given to 247 men, 1,402 women and 1,127 children. In Balasore one test-work was opened and attended by 250 men. Water is scarce in the north of Murshidabad and in the Dumraon thana of Shahabad. Fodder is scarce in Nadia and Monghyr. The condition of agricultural stock is good except in parts of Gya, Cuttack, Sambalpur, Hazaribagh, Ranchi, Palamau and Manbhum.

The report received from the Feudatory States of Orissa for the week ending the 28th December 1907 shows that no rain fell during that period. Harvesting of winter paddy is almost completed. Sugarcane pressing is still going on in some States. Prospects of spring crops are unfavourable. The outturn of rice is below normal. Fodder and water are sufficient.

United Provinces.—No rain has fallen and it is everywhere urgently required. Prices have risen in almost all districts and considerably exceed scarcity rates. Trade is active and markets are sufficiently supplied by the aid of importation. There is still a sufficient demand for labour. Sowings of spring crops are nearing completion and irrigation continues. Spring crops have germinated well in all except a few districts but its future depends on rain during this month. Most of the western districts and Oudh report some damage to *arhar*, sugarcane and garden crops from frost. Sugarcane pressing and cotton picking continue. Poppy is doing well. Agricultural stock is generally in fair condition but the scarcity of fodder is beginning to be more severely felt. There is no marked general increase in crime nor other special features indicating distress. The numbers on relief are 168,859.

The weekly report on the famine and scarcity is as follows:—There is a further increase in the area affected by distress. Famine has been declared in Kheri and the hill portions of Mirzapur, including those portions of the Family Domains and in tahsil Karchhana of the Allahabad district. Gratuitous relief has been sanctioned in the Azamgarh, Fyzabad, Budaun and Hamirpur districts and five parganas of the Benares district. The health of those on relief is generally good except for a slight increase of beggars in Benares and Fyzabad cities. The usual signs of distress are absent. The general health of the people is good and private charity active. The numbers on relief are:—On works 100,011; on gratuitous relief 68,848; total 168,859. There are relief works in five and test works in ten districts. The districts with the largest number on relief are Gonda 35,352; Bahraich 32,806; Mirzapur 20,875; Allahabad 18,525; and Jalaun 18,359. Prices are 8 to 10 seers per rupee.

Punjab.—Rainfall *nil*. Prices of food grains are above scarcity rates in all districts except Multan. Prices are still rising in many districts. Pressing of sugarcane and harvesting of *toria* are in progress. Sowings of spring crops are generally finished in Mianwali and Jhang; but still continue on irrigated areas in other districts. The condition of irrigated spring crops is good to average and of unirrigated bad. Unirrigated crops are withering in Hissar for want of rain. The opium crop is average in Lahore and Amritsar. The outturn of *toria* is generally average and of sugarcane below average. Sugarcane has been damaged by frost in Sialkot and by moth-borer and green-fly in Jullundur and *toria* by green-fly in Shahpur and Lyallpur; wheat is being damaged by rats in Lahore and Gujranwala and by white ants in Lyallpur; rats are causing injury to gram in Lyallpur; and insects to turnips in Jhang. Cattle are suffering from overwork, cold and scarcity of fodder in Jullundur, Lahore and Sialkot. Cattle are in fair to poor condition in Shahpur. Pasturage and fodder are scarce in Delhi, Ambala, Sialkot, Gujranwala, Mianwali, Jhang, Lyallpur, Multan and in parts of Gurgaon, Lahore, Amritsar, Shahpur and Rawalpindi. Green fodder is not available in Ferozepore, Amritsar and Sialkot. The fodder supply is decreasing in Jullundur. Fodder is sufficient but getting dearer in Rohtak. The canal water supply is insufficient in Delhi and Lyallpur; the supply of water is also scarce in parts of Rawalpindi.

North-West Frontier Province.—No rain fell during the week. Rain is much needed throughout the Province. The weather is cloudy. Standing crops on irrigated lands are average but in unirrigated areas poor. In Dera Ismail Khan standing crops are poor. Sowings of spring crops are in progress on irrigated lands but early rain is required for unirrigated sowings. Pressing of sugarcane continues in the Peshawar and Bannu districts where the outturn is reported to be average. Water supply in canals is sufficient. Fodder is procurable except in some parts of Dera Ismail Khan where cattle are suffering. Prices are still rising owing to large exports down country and for want of rain. Prices :—wheat 8½ to 12; gram 10½ to 14; maize 10½ to 18; and bajra 10½ to 14½ seers per rupee.

Jammu.—Rain *nil*. Prices are still rising. Prices :—wheat from 8 to 14; and maize 10 to 20 seers per rupee. The condition of standing crops is fair in irrigated; and poor in other parts. Fodder is insufficient in Kathua, Samba, Udhampur, Basohli, Rambirsinghpura, Akhnur and in the Kandi circle of Jasmirgarh and Jammu tahsils. Rain is badly wanted.

Kashmir.—The weather is partially bright and severely cold. Prices are almost stationary.

Rajputana.—Spring sowings still continue in some places and standing crops on wet areas are being watered. Rain is urgently required for unirrigated crops in some States. The condition of cattle is generally good. The fodder and water supply are sufficient. Food stocks supplemented by imports are adequate. Prices have risen by 2½ seers in Jhalawar; by 1 seer in Bikaner and Kishangarh; and by lesser amounts in Tonk, Jaipur and Partabgarh. The previous week's report was incomplete for Ajmer-Merwara and Kotah where prices had risen by 1 seer, 2½ seers and 3 seers, respectively; they have now fallen slightly in Kotah. The report for Ajmer-Merwara for the present week has not yet been received. Prices range generally between 9½ and 13 seers, except in Kotah, Dungarpur and Bundi where they are comparatively easier. There is so far a sufficient demand for labour and no marked deterioration in the condition of the labouring classes is noticed.

Central India.—Rain *nil*. Spring sowings in irrigable land continue in Gwalior and Barwani. Harvesting of autumn crops is in progress in Indore, Bhopal and Bhopawar; and is approaching completion in Baghelkhand. The probable outturn is good in Malwa; below average in Bhopal; fair in Bhopawar and Indore except the Alampur pargana; bad in Baghelkhand; and *nil* in Bundelkhand. Prospects of spring crops are bad in Baghelkhand and parts of Bhopawar; and fair to good elsewhere. Agricultural stock are fair to good except in parts of Gwalior, Bhopal and Bhopawar. Fodder is scarce in parts of Gwalior; indifferent in Bhopal and Baghelkhand; and sufficient elsewhere. Prices of food grains continue high. Poppy sowings are in progress in Gwalior; and weeding and watering continues in Bhopal, Malwa and Bhopawar. The numbers on test and relief works are :—in Rewa on works 43,589; on gratuitous relief 2,910; total 46,499. In Nagod on works 2,456; on gratuitous relief 127; total 2,583. In Jaso on works 798; on gratuitous relief 8; total 806. There is no change in the general situation.

Central Provinces.—The weather continued clear and cold. No rain fell during the week. Dew continues to fall but more rain is required in the Vindhyan districts. Threshing and winnowing of autumn crops and picking of cotton continue. Spring crops are generally in good condition; they are fair to good in Narsingpur and Chanda; and fair in Bhandara, Betul, Damoh, Drug and Akola. Germination of spring crops is unsatisfactory

in Chhindwara and in the Baihar tahsil of the Balaghat district. *Til*, *tur* and *masur* have been slightly damaged by frost in Saugor and Jubbulpore. No insufficiency of work for labourers is reported except from the Chhindwara *Jagirs*. Fodder and water are sufficient, but fodder is dear in Saugor; inadequate in Narsinghpur; and is becoming scarce in Yeotmal. The prices of staple food grains remained stationary in Mandla, Hoshangabad, Raipur and Yeotmal. Wheat and *Juar* in Chhindwara, and wheat in Jubbulpore became dearer by 1 seer; wheat also rose in Betul by 3 seers and in Seoni by $4\frac{1}{2}$ seers. The price of *Juar* fell in Amraoti, and that of gram rose in Jubbulpore and Bhandara by 1 seer. Gram became cheaper in Chanda and Buldana by $\frac{1}{2}$ and $1\frac{1}{2}$ seers, respectively.

Feudatory States.—No rain fell during the week. Threshing and winnowing of autumn crops and picking of cotton continued. The condition of spring crops is generally good but prospects are unfavourable in Sirguja. Fodder and water are sufficient. Prices:—wheat became dearer in Kawardha by $\frac{1}{2}$ seer per rupee; and the price of gram fell by 2 seers in Sirguja.

The weekly report on the famine and scarcity is as follows:—Relief at present is confined to village relief in the Damoh district but is being extended to Mandla, Betul and Nimar. Village works have not yet been opened. Relief to weavers in Berhampur has been sanctioned. Distress is nowhere severe yet. Agricultural employment is slackening off and smaller tenants are coming to the end of their resources. The programme of works is being expanded and *takavi* is being freely distributed. Ample employment is provided to meet the contraction of agricultural operations. The public health is good. Prices continue high and are rising in the Jubbulpore and Nerbudda divisions; elsewhere prices are stationary. There are no persons on relief works; 750 are in receipt of gratuitous relief.

Bombay.—Standing spring crops are withering for want of moisture in parts of Ahmedabad, the Panch Mahals, Broach, Khandesh, Nasik, Ahmednagar, Poona, Bijapur and Baroda; elsewhere crops are in good condition, except for slight damage by unfavourable winds in parts of Bijapur; by frost in parts of Palanpur; and by rats in parts of Baroda. Threshing of autumn crops is in progress in parts of Sind, Broach, Kaira, the Konkan, Khandesh, Nasik, Ahmednagar, Kathiawar, Palanpur and Baroda. Sowing of spring crops continues in parts of Sind, Kanara and Nasik. Cotton picking is progressing in Hyderabad, Thar and Parkar, Ahmedabad, Broach, Surat, Khandesh, Nasik, Bijapur and Kathiawar. The supply of fodder is adequate except in parts of Ahmedabad, Sholapur and Baroda. Agricultural stock is generally in good condition. The supply of drinking water is generally sufficient. Water for irrigation is insufficient in parts of Sind, Surat, Nasik, Poona, Sholapur, Satara and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 30 to 52 per cent; in Gujarat 30 to 58 per cent; in the Konkan 21 to 32 per cent; in the Deccan 32 to 51 per cent; and in the Karnatak 28 to 63 per cent. less than the normal. Prices are rising. Stocks of grain are generally adequate. The demand for labour is sufficient and wages are normal. Emigration from the Panch Mahals and Sholapur continues. The cultivating and labouring classes are in fair condition. Six test works are in progress in the Panch Mahals and the numbers attending them are 1,090.

Hyderabad.—No rain fell during the week. Standing spring crops are generally in fair condition and a moderate crop is expected. Fear of failure of crops no longer exists. Cotton crops are rather light in the Western districts; and good in the Raichur district. Grazing is scarce in parts. Fodder is dear but available for agricultural cattle. Prices of *Juar* have fallen in a few places due to better prospects of the season. There is an increase in exports due to high prices in parts of British India owing to scarcity of grain. Prices:—wheat $5\frac{1}{2}$; coarse rice $6\frac{1}{4}$, and *Juar* 12 seers per rupee. In Hyderabad city *Juar* is selling at 13 seers; the fall is due to yellow *Juar* coming into the market. The highest price in districts is 9 seers in three talukas.

Mysore.—Prices of food grains are steady. Standing crops are in good condition. Crops are being harvested. Prospects of the season are good but rain is needed in parts of Bangalore, Mysore and Chitaldrug. Cattle are healthy. Water and fodder are available.

Coorg.—Picking of coffee and reaping of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder are sufficient. Agricultural prospects are good.

Madras.—The rainfall was above the average except in Tanjore; below the average in South Arcot, Madura, Tinnevely and the Nilgiris; and *nil* elsewhere. Irrigation supplies are insufficient in parts of all districts except Guntur, Chingleput, Coimbatore, Trichinopoly, Tinnevely, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. The standing crops are generally fair but some in parts of Vizagapatam, Kistna, Bellary, Cuddalore, Tanjore and Madura are withering; and some in parts of Coimbatore require more rain. Harvests continue with

outturn poor to bumper. Pasture is sufficient except in parts of Vizagapatam, Kistna, Guntur and the Deccan. Fodder is scanty in parts of Ganjam, Kistna, Cuddapah, Nellore and Tanjore. The condition of cattle is generally good. The price of rice is stationary in ten districts ; has fallen in eight ; and has risen in five. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eleven districts ; has fallen in four ; and has risen in six. *Cholam* is stationary in five districts ; has fallen in five ; and has risen in four. *Cumbu* is stationary in five districts ; has fallen in six ; and has risen in four. The public health is generally good. Prospects are fair generally except in parts of the Circars and the Deccan where more rain is required. The condition of the labouring classes is good and employment procurable. Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

Secretary to the Government of India

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

PUBLIC.

Nos. 35—49.

ACKNOWLEDGMENT OF THE SERVICES OF THE EDITORS AND OTHER OFFICERS IN CONNECTION WITH THE PREPARATION OF THE REVISED EDITION OF THE IMPERIAL GAZETTEER OF INDIA.

Calcutta, the 6th January 1908.

RESOLUTION.

IN the year 1900 the Government of India decided, with the sanction of the Secretary of State, to undertake the revision of Sir William Hunter's *Imperial Gazetteer of India*, the last edition of which had been published in 1885-1887. The work was to be mainly carried out, after their census duties were over, by the officers then engaged in census operations, who were thereby acquiring a large general knowledge of the circumstances of the various Provinces. Later on, however, it was found that mere revision of the existing Gazetteer would not suffice; and the new Imperial Gazetteer now being issued will contain four volumes dealing with India as a whole against Sir William Hunter's one, and twenty-six volumes in all against his fourteen, while it will also include a special volume of maps. Apart from this expansion in size, the matter of the earlier editions has been so largely superseded or reconstructed that the new Imperial Gazetteer is to all intents and purposes a fresh work.

2. Under the scheme thus amplified the new Imperial Gazetteer comprises—

- (a) Four volumes on India as a whole, dealing respectively with descriptive, historical, economic and administrative matter, each volume having a separate index and being separately procurable;
- (b) Twenty volumes containing, in a general alphabetical arrangement for all India, articles on provinces, states, mountains, rivers, districts, tahsils, towns, places of interest, etc.;
- (c) An index volume for the whole work;
- (d) An atlas containing an appropriate series of maps.

3. For the convenience of officials and others, whose primary interests lie in a particular Province, the articles in the twenty alphabetical volumes of the Imperial Gazetteer have been re-arranged on a geographical basis, in one or two volumes as the case may be, for the various Provinces of British India, with separate volumes for the Native States of Rajputana and Central India, and for Afghanistan, Nepal, Kashmir, Hyderabad, Mysore and Baroda. This collection, entitled the Provincial and State Gazetteer series, covers twenty-six volumes of varying size, each of which will be separately procurable, and will contain a separate index. Both the Imperial and the Provincial Gazetteers are being printed at the Clarendon Press, Oxford, but the latter series will be published in India. The atlas volume of the Imperial Gazetteer is under preparation by Mr. J. C. Bartholomew.

Of the four India volumes of the Imperial Gazetteer, Nos. I, III and IV have been already published, and the rest of the work, and the Provincial Gazetteer series, will be issued shortly.

4. In connection with the compilation of the Imperial Gazetteer steps have also been taken for an extensive revision, on a uniform plan, of existing district gazetteers, and for writing new gazetteers of this description where none previously existed. The result will be a District Gazetteer series which will, generally speaking, contain two volumes for each district, the larger dealing with descriptive matter of comparatively permanent value, while the smaller will contain tables of statistics, and explanatory notes thereon, which can be more frequently revised, and which, on revision, will also embody such changes as require to be recorded in connection with the descriptive volume. A similar series of State Gazetteers is under preparation in Rajputana and Central India. A considerable number of the volumes of this new District series have already appeared.

5. The compilation of material for the alphabetical volumes of the new Imperial Gazetteer was for the most part entrusted, in accordance with the original intention, to the various Provincial Census Superintendents, but in the course of the operations there were some changes in the *personnel*. Each important Province had a full-time Gazetteer Superintendent, as was also the case in the Rajputana and Central India Agencies and in the Hyderabad State; and some of these officers were likewise entrusted with the revision of the district gazetteers mentioned above. For minor Provinces such as Coorg, the Andamans, and Ajmer-Merwara, special writers were engaged, and the preliminary preparation of each chapter contained in the India volumes was entrusted to a writer who had special knowledge of the subject.

6. A general Editor was appointed for India, whose function it was to devise a scheme of operations, to direct and co-ordinate the work of the Provincial Superintendents, and to edit all material sent up for the alphabetical volumes and for Volumes III and IV, and part of Volume I, of those relating to India. There was also an Editor in England, appointed by the Secretary of State, who was charged, in subordination to a Committee at the India Office, with the editorial supervision of the rest of the India volumes, the responsibility for the final form of the whole work, and the duty of seeing it through the press.

7. The work which was controlled in India by the general Editor was carried on under official supervision. Each chapter of the India volumes was submitted for the criticism of the Department of the Government of India concerned with its subject, and the articles on provinces, and some of the more important of the other alphabetical articles, were similarly submitted to the local Governments.

8. Mr. J. S. Cotton, who was closely associated with Sir William Hunter in the former Gazetteer, has been throughout the Editor in England. Sir Herbert Risley, K.C.I.E., C.S.I., was the first general Editor, and worked out the broad plan of the scheme of revision. On his selection, in September 1902, as Home Secretary, he was succeeded by Mr. W. S. Meyer, C.I.E., who drew up the detailed regulations under which the greater part of the work has been executed, and the general scheme of the Atlas, and carried out the primary editing of most of the chapters relating to India as a whole and of some of the provincial articles. On his appointment to be Finance Secretary, he was succeeded, in February 1905, by Mr. R. Burn, I.C.S., who completed the editorial work in India.

9. Now that the publication of the new Imperial Gazetteer has commenced, the Governor General in Council desires to place on record his cordial acknowledgments to the Editors for the ability and industry displayed by them in carrying through a work of such importance and magnitude, which he anticipates will be of the greatest value as a standard work of reference for those charged with the administration of the country. His Excellency in Council also desires to convey his thanks to the Superintendents and Assistant Superintendents of gazetteer revision in the various Provinces and States, and to those officers who were selected to write special chapters or articles, for the assistance they have rendered in the preparation of the revised edition. The thanks of the Government of India have already been communicated to those Chiefs of Native States who gave valuable assistance in connection with the editorship of the Imperial Gazetteer.

ORDER.—Ordered that a copy of this resolution be forwarded to Sir Herbert Risley, K.C.I.E., C.S.I., Mr. W. S. Meyer, C.I.E., and Mr. R. Burn, I.O.S., for information; to the local Governments* and Administrations and the Foreign Department for information and communication to the Gazetteer Superintendents and Assistant Superintendents concerned; and to the Secretary of State for India for information and communication to Mr. J. S. Cotton.

DEPARTMENT OF COMMERCE AND INDUSTRY.

STORES.

ARTICLES OF IRON AND STEEL MANUFACTURED FROM IMPORTED
RAW MATERIALS.

RESOLUTION.

Dated Calcutta, the 9th January 1908.

LIST A appended to the Resolution in the Finance and Commerce Department, No. 2587-S. R., dated the 9th June 1898, specifies articles of iron and steel manufactured from imported raw material which may be purchased in India for the public service, subject to certain restrictions. The Governor General in Council is pleased to direct that "Railway points and crossings with all the fittings for the same" shall be added to the list.

ORDERED, that this Resolution be communicated to the Department of Military Supply, the Army Department and the Public Works Department, for information; to the Railway Board, for information with reference to their letter No. 1428-R. S., dated the 17th December 1907; and to all Local Governments and Administrations, for information and guidance.

Ordered, also, that it be published in the Supplement to the *Gazette of India*.

THE UNIVERSAL AND INTERNATIONAL EXHIBITION TO BE HELD AT
BRUSSELS IN THE YEAR 1910.

RESOLUTION.

Dated Calcutta, the 6th January 1908.

THE following Notification of the Universal and International Exhibition to be held at Brussels in the year 1910 is published for general information. The Government of India have decided not to participate in the Exhibition.

KINGDOM OF BELGIUM.

BRUSSELS UNIVERSAL AND INTERNATIONAL EXHIBITION ORGANISED FOR 1910 UNDER THE HIGH PATRONAGE OF HIS MAJESTY THE KING OF THE BELGIANS AND THE HONORARY PRESIDENCY OF H. R. H. PRINCE ALBERT OF BELGIUM.

APPEAL TO EXHIBITORS.

Brussels, October 30th, 1907.

A Universal and International Exhibition will open at Brussels in the month of April 1910, and will last for at least six months. -

The four Universal and International Exhibitions previously held in Belgium, namely at Antwerp in 1885 and in 1894, at Brussels in 1897, and at Liege in 1905 proved eminently successful, and there is every reason to hope that their success will be equalled and even surpassed by the World's Fair now under organisation in the Capital of Belgium. The intended Exhibition will include, as to its chief divisions, the following Groups :

- I—Fine Arts.
- II—Education.
- III—Instruments and general methods connected with Letters, Sciences and Arts.
- IV—Plant and general methods connected with Machinery.
- V—Electricity.
- VI—Civil Engineering.—Means of Transport.
- VII—Agriculture.
- VIII—Horticulture and Arboriculture.
- IX—Forests.—Shooting.—Hunting.—Fishing.—Fruit gathering.
- X—Articles of Food.
- XI—Mines.—Metallurgy.
- XII—Decoration and furnishing of Public Buildings and Private Houses.
- XIII—Yarns, Woven Fabrics, Wearing Apparel.
- XIV—Chemical Industry.
- XV—Miscellaneous Industries.
- XVI—Social Economy.
- XVII—Public Health.—Charitable Institutions.

XVIII—Practical Education.—Economic Institutions.—Female Handicraft.

XIX—Trade.—Colonisation.

XX—Land and Sea Forces.

XXI—Sports.

XXII—Congresses and Conferences.

Brussels is extending day by day and the public Authorities do everything in their power to justify the name which it already has of being one of the finest *Capitals* of Europe.

Only recently its territory has been considerably added to by the incorporation of a large amount of land running alongside the *Bois de la Cambre*, the favourite resort of the Brussels people.

On this marvellously situated spot covering, as it does, more than 200 acres, halls and pavilions will be erected, ready to accommodate productions from all over the world.

Broad tree-set avenues will connect the Avenue Louise with the entrance of the Exhibition, while tramway lines will ensure communication with all the suburban districts of the City.

How delightful it will be for the visitors, after spending the greater part of the day in thoroughly going over the galleries, to be able to enjoy from the terraces, in the cool of fine summer evenings, the glorious scenery of the sunset lighting up in crimson the beautiful foliage of the grand trees of the forest—a magnificent frame encircling the vast arena where the workers of the whole world will soon gather to wrestle with each other in a courteous and peaceful manner.

The Exhibition grounds will be connected with the Belgian State Railways.

The Principal Palace as well as the Halls of the Exhibition will be built of iron and covered with hard materials; the Palace will be surrounded by a vast *Park* containing numerous attractions.

Adopting the idea suggested by the magnificent displays witnessed at Turin and Milan, the organisers contemplate the creation of an international section of *Modern Decorative Art*.

The *Machinery Hall* will have, annexed to it, a working gallery where numerous workshops will continually be in operation under the eyes of the public. Special attention will be paid to the installation of a compartment of *small tools* and of *motors for performing work at home*.

A special Palace may be reserved for *Retrospective and Modern Exhibitions of Lighting appliances* of every description.

As was done at the Liege Exhibition in 1905, *Female Arts and Industries* will be the subject of a special organisation.

With the view of giving effect to the resolutions adopted at the Congress of the World's Expansion held at Mons in 1905, the Executive Committee will make it a point of arranging Groups in connection with Trade and Colonisation.

The programme will also include special exhibitions, *temporary Agricultural and Horticultural Shows, Congresses, Conferences, Artistic Fêtes and Competitions* of all kinds, so as to afford visitors every possible attraction.

Further, the Executive Committee will give their patronage to the formation of a *Commercial Bureau* on the premises, which besides affording the exhibitor a means of protection of his interests at the Exhibition, will at the same time be a source of diffusion of his industry.

The *Commercial Bureau* will centralise all information concerning the industries represented; it will place Engineers at the disposal of such visitors as may wish to be guided over the Exhibition and it will endeavour, in every possible way, to promote the development of commercial intercourse between the countries gathered together at this World's Fair.

The necessary measures will be taken for *protecting* in Belgium patentable *inventions*, industrial designs or models, and *manufacturing or trade marks* appearing at the Exhibition.

The Government will grant on the State Railways *free transport* of *Belgian products* returning from the Exhibition.

The Exhibition will be treated as an *actual bonded warehouse*, foreign goods consigned to the Exhibition being allowed provisional *duty-free importation*, subject to being afterwards re-exported.

The general Regulations, the classification of exhibits and conditions of admission will very shortly be settled; a plan has already been adopted consisting in dividing the goods according to national Compartments, *viz.*, grouping together the works and productions of each country, combined with a system of general classification.

The price for space will include the expenses of general decoration and handling charges: exhibitors will thus be enabled to ascertain beforehand the exact outlay incumbent upon them.

A *Lottery* will be organised under the authority and supervision of the Government; the prizes will be purchased from amongst the exhibits.

An *International Jury*, appointed with the approbation of the Government, will undertake the allotment of awards.

The *Belgian Government* have appointed a Commissioner General to act as their Delegate to the Executive Committee of the Exhibition and Foreign Sections, and a Commission will shortly be instituted for the purpose of inducing Belgian producers to concur, and of furthering their participation.

The Exhibition is placed under the *High Patronage of His Majesty the King of the Belgians and the Honorary Presidency of H. R. H. Prince Albert of Belgium*.

It has already secured the effective co-operation of the Belgian Government as well as the support of the City of Brussels.

The profits realised by the undertaking are to be applied to the organisation of *Fêtes and Rejoicings* of an attractive character so as to draw people to the Exhibition and to the Capital, and the surplus, if any, will be devoted to a *Fund of Public Utility*.

The chief object of the organisers is to promote and develop international dealings, namely to extend outlets for *Industry*, to open up broader fields of action for *Trade*, and moreover to increase and multiply the *commercial relations* between all Nations.

The Executive Committee therefore warmly appeal to every Nation of the Globe, in the hope that all countries will direct their combined efforts towards collecting at Brussels a large and choice selection of exhibits, in evidence of the importance attached to the pursuit of progress in every branch of human activity.

* ORDERED that the foregoing papers be published in the Supplement to the *Gazette of India* for general information, and that copies be forwarded to the Local Governments and Administrations named in the margin for information.

MERCHANT SHIPPING.

The 16th January 1908.

No. 396-60.—UNDER the provisions of sections 65 and 89 of the Merchant Shipping Act (57 and 58 Vict., Chap. 60) the Governor General in Council is pleased to direct that the form referred to in the letter of the Board of Trade and the General Order of His Majesty's Commissioners of Customs, set forth below, shall be adopted in British India for the registry of British ships under the said Act from the 1st July 1908.

Board of Trade,
Marine Department,
7, Whitehall Gardens,
London, S.W.
12th December 1907.

M. 27613.

SIR,

I AM directed by the Board of Trade to state, for the information of Mr. Secretary Morley, that certain alterations have recently been made in the form of Certificate of Survey granted under section 6 of the Merchant Shipping Act, 1894, to enable a vessel to be registered as a British ship. Copies of Customs General Order ⁷³/₁₉₀₇, which has been issued to Registrars of Shipping in the British Islands, are enclosed for the information of the Secretary of State, as they contain on the second page a print of the new form of Certificate, and I am to suggest that the Government of India might be asked to use their powers under section 89 of the Merchant Shipping Act, 1894, in order that the new form may be prescribed for use in the case of vessels which are to be registered in India.

It is desirable that the new form should come into use in all parts of British registry abroad at the same date if possible, and the Board would suggest that the 1st July, 1908, would be a suitable date on which to begin the use of the new form.

They would advise, therefore, that application should be made in good time for a stock of this form, or, if the forms are printed locally, that steps should at once be taken to have a supply of the amended form ready by the date mentioned.

The adoption of the new form of Certificate of Survey renders it necessary to make alterations in the Register Book of Shipping, the Certificate of Registry as a British Ship, and the Transcript of Register, as these are simply records of the particulars enumerated in the Certificate of Survey.

As will be seen from the enclosure, Registrars of Shipping in this country have been instructed to make the necessary alterations in manuscript in the existing stocks of the Register and of the Certificate of Registry and Transcript of Register, and the same course should be followed by those Registrars abroad who obtain their supply of forms from the Board of Trade. In those cases, however, in which Registry forms are printed locally, it will be for the Authorities to decide whether they will print new Registry Books, Certificates of Registry, and forms of Transcript of Register at once or will cause the necessary alterations to be made in the existing stocks.

The Board consider it desirable that each Registrar of Shipping in India should have a copy of the enclosed General Order, and further copies will be sent to you if you will be so good as to state how many will be required.

I have, etc.,
WALTER J. HOWELL.

The Under-Secretary of State for India.

Sec. Customs.

General Order ⁷³/₁₉₀₇.

CUSTOM HOUSE, LONDON,
21st November 1907.

Registry of Shipping : Amendments to Certificate of Survey (surveys 59) and consequent amendments to Register Book, Certificate of Registry (No. 344), and Transcript of Register (No. 345).

Officers concerned are informed that the Board of Trade, with the concurrence of the Commissioners, have directed certain amendments in the form

of Certificate of Survey for Registry (Surveys 59) and that consequently similar amendments must be made in the Register Book, Certificate of Registry (No. 344), and Transcript of Register (No. 345). The new form of Certificate of Survey is printed on the back hereof, and the specimen forms shewn on pages 91, 99, 116, 221 *et seq.* of the Instructions to Registrars of Shipping are to be amended accordingly.

Fresh forms of Certificate of Registry and Transcript of Register have been approved and will be issued on the exhaustion of the present stock in which the necessary alterations are to be made.

By Order of the Board,
R. HENDERSON.

RESOLUTION.—Since the issue of the revised General Rules for working open lines of railway, promulgated with Railway Board's circular No. R. T. $\frac{89A}{5}$, dated the 8th September 1906, various proposals have been submitted, from time to time, for modification of the rules in Part I. As, however, the General Rules had originally been referred in draft to the Indian Railway Conference Association for consideration in detail, and as the rules finally adopted by the Association had been accepted by the Railway Board and the Government of India, the Railway Board were unwilling to sanction any modifications of the rules suggested by individual Railway Administrations unless and until they had been considered and accepted by the Association for general adoption.

The proposed modifications were, therefore, referred to the Indian Railway Conference Association for consideration and the recommendations of the Association which have now been received and considered by the Railway Board are approved with certain minor modifications.

2. In exercise, therefore, of the powers conferred by the notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, the Railway Board sanction, under section 47, sub-sections (1) and (4), of the Indian Railways Act, 1890 (IX of 1890), as in force in British India or as locally applied, the adoption, by the administrations of all lines of railway administered by the Government, of the modifications specified in the annexure hereto in the General Rules for working open lines of railway, which were promulgated with Railway Board's circular No. R. T.^{87A}, dated the 8th September 1906.

3. The Railway Board also desire that the said modifications may be brought to the notice of the administrations of the several railways not administered by the Government and which are under the control of the Local Government ^{your control}, and that the Agents and Managers of those railways may be invited to submit formal applications for the adoption of the said modifications. They also desire that the Agents and Managers of other lines will submit similar applications.

ORDER.—Ordered that this circular, with the accompanying modifications,

The Governments of Bengal, the United Provinces, and Eastern Bengal and Assam, Public Works Department.
The Government of Bengal, Marine Department.
The First Assistant to the Honourable the Resident at Hyderabad.
The Secretary to the Honourable the Agent to the Governor General for Rajputana, Public Works Department.

The Manager and Executive Engineer, Morvi Railway.
The Chief Engineer, Cutch State Railway.
The Managers, North Western, Oudh and Rohilkhand and Eastern Bengal (State) Railways.

be published under a notification in Part I of the *Gazette of India*, as required by section 17, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at railway stations as directed by sub-section (6) of the same section; also that a copy of this circular and of its enclosure be communicated to the Local Governments, Administrations and the Officers noted on the margin, for information.

[Enclosure to Railway Board's Circular No. 100 R. T., dated the 16th Jan. 1908.]

Modifications in Part I of the General Rules for working open lines of railway, promulgated with Railway Board's circular No. R. T.^{89A}, dated the 8th September 1906.

(1). Rule 10—Explanation, Chapter II.—*For this explanation substitute the following :—*

Explanation.—The exhibition of a red over green light, or the corresponding position of the arms by day, or the absence of one or both lights, shows that the signal is out of order and should be treated as a Danger signal, *vide* rule 314.

(2) Rule 86, Chapter III.—*For the word three-eighths in the first line of clause (a), sub-rule (2), substitute the word one-quarter.*

(3) Rule 90, Chapter III.—*After the words shall give in the third line of sub-rule (2) insert the word written.*

(4) Rule 90, Chapter III.—*From the fourth line of sub-rule (4) expunge the word white.*

(5) Rule 90, Chapter III.—*After sub-rule (5) insert the following as sub-rule (6) and alter the numbering of existing sub-rules (6), (7), (8), and (9) to (7), (8), (9) and (10), respectively :—*

(6) On entering a station with the knowledge that the block section behind is obstructed, the first duty of the Driver, when the train consists of the engine only, is to instantly warn the Station Master on duty of this fact, and that when vehicles are attached and a Guard accompanies, this first duty devolves upon the Engine Driver and Guard jointly.

(6) Rule 92, Chapter V.—*For this rule, substitute the following :—*

92. (1) Where trains are worked on the Absolute Block system,—

- NOTE.—(1) In English and Vernacular Offices when there are no arrears of work the last Saturday in every month may be observed as a holiday.
- (2) The last day of every month will be observed as a holiday in the Treasury Office, Ajmer, instead of the last Saturday.
- (3) Mohomedan holidays depend on the moon being visible and fall on the day following such event.
- (4) With regard to Hindu holidays on account of eclipses of the sun and the moon, those for the former are granted for the day on which the eclipse occurs and those for the latter for the day following.
- In 1908 there will be two lunar eclipses on Sunday, the 14th June 1908, and Monday, the 7th December 1908, and the holidays will be observed on 15th June and 8th December 1908, respectively.
- (5) Local holidays may be granted for great festivals or fairs at the discretion of the Commissioner when there are no arrears of work.
- (6) The Civil Court vacations commence on the 1st of August 1908 and end on 30th September 1908. No fresh suits shall during that time be instituted unless they be of an urgent character, but the Court will be open for the purpose of clearing up cases instituted before the 15th July and for the disposal of any urgent work.
- (7) The day which may be fixed for the celebration of the King Emperor's Birthday will be notified separately in due course.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 16th January 1908, based on the Indian Daily Weather Reports of the period.

The depression which was entering Sind on the 9th, passed across the head of the Peninsula and the Bay of Bengal, and disappeared on the 14th; while a deep secondary depression developed in connection with the original on the 10th in the south-west Punjab and disappeared in the Punjab Himalayas on the 12th. This disturbance carried general and moderately heavy rain over the whole of India, excluding Burma and north of the latitude of Nagpur. The depression, after it reached the Bay of Bengal on the 12th, travelled very slowly and there appears to have been an area of low pressure over the south of the Bay at the same time; these caused general and heavy rain on the east coast north of Nellore on the 13th and 14th. A few isolated falls of rain occurred in Hyderabad and south India at the end of the week.

Burma.—Diamond Island and Bhamo reported falls of rain. Skies were heavily clouded in the northern half of Burma on the 14th, and on the remaining days of the week they were clear or lightly to moderately clouded. Temperature was normal except on the 14th and 15th when, owing to the presence of cloud in Upper Burma, minimum temperature there was in excess on the 15th, the maximum was in defect in the same area.

North-east India including Orissa.—The depression from north-west India gave general and moderately heavy rain on the 12th except in the upper Brahmaputra valley, general rain on the Bengal and Orissa coasts and local rain in Eastern Bengal and Assam on the 13th, and light general rain on the Bengal and Orissa coasts on the 14th. Skies were almost clear on the 10th, 15th and 16th; but they were lightly to heavily overcast on the remaining days of the week. The rainfall was the cause of cooler weather

than usual in the day time from the 12th to the 16th; while the presence of cloud gave unusually high night temperature on the 12th and 13th.

The United Provinces, Central India and the Central Provinces.—The depression occasioned general rain on the 11th, throughout the division except in the south of the Central Provinces, and again on the 12th rain fell in the east of the Central Provinces and the eastern and the submontane districts of the United Provinces. Skies were moderately to heavily overcast up to the 12th when they commenced clearing, and they were clear on the remaining days except in the United Provinces where cloud appeared on the 15th. The extension of cloud into the division at the commencement of the week, gave high minimum temperatures on the 10th and 11th. On the 12th, the previous days' rainfall and the clearing of the skies caused a rapid fall in both maximum and minimum temperatures; and the former was very much below normal from that day on to the 16th, while the minimum was normal or in defect.

North-west India.—The disturbance in North-west India gave general rain on the 10th in the North-West Frontier Province, the South-west Punjab, West Rajputana and Sind and nearly general rain in Gujarat; while snow and rain occurred in Kashmir and Baluchistan. On the next day, precipitation continued in the last two areas and rainfall was general in the Punjab, the North-West Frontier Province and East Rajputana. Nearly general rain again occurred in the Punjab and the North-West Frontier Province on the 12th; but rainfall then ceased. Skies commenced clearing in Sind and Gujarat on the 11th; and from the 13th, they were free from cloud almost everywhere. Day temperature was in excess in Kashmir, but in other parts of North-west India the rainfall made it much below normal, and night temperature was in excess during the prevalence of cloud, and normal or in defect when skies cleared.

The Peninsula.—The depression passing across northern India in conjunction with an area of low pressure in the south of the Bay, gave nearly general and moderate to heavy rain on the North Madras Coast on the 13th and 14th. On the remaining days there were a few scattered falls chiefly in south India. Skies were lightly to moderately clouded. Minimum temperature was generally higher than usual, while the maximum differed from the normal by comparatively small amounts.

Rainfall occurred during the past week over nearly the whole country, and was above the average in the whole of northern India excluding Assam and Kashmir, Central India, the Central Provinces excluding Berar, Orissa, Madras and Mysore. The only areas in which the rainfall for the whole period from the 29th November to the 16th January is now 20 per cent. or more in defect, are the east of the Central Provinces, Berar, North Hyderabad, the Bombay Deccan, the Konkan, the Madras Deccan, South-east Madras and Kashmir; rainfall is normal or in excess in all other parts of the country.

The following summarises the chief rainfall amounts of week as given at 8 hrs. each day:—

January 10th.	Jacobabad 1'09", Hyderabad 0'54" and Kurrachee 0'73".
" 11th.	Diamond Island 1'53", Cawnpore 0'59", Lucknow 0'82", Jhansi 1'25", Agra 1'20", Mainpuri 0'71", Bareilly 0'60", Nowgong 0'96", Sutna 0'63", Saugor 0'70", Jubbulpore 0'61", Delhi 1'53", Ludhiana 1'90", Lahore 1'48", Rawalpindi 1'07", Cherat 2'00", Peshawar 1'91" and Dera Ismail Khan 1'70".
" 12th.	Burdwan 0'97", Berhampore 0'90", Balasore 3'35", Purnea 0'81", Gaya 1'32", Roorkee 1'09" and Cherat 1'48".
" 13th.	False Point 0'97", Dehra Dun 0'86", Gopalpur 1'86", Waltair 5'20" and Cocanada 1'26".

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 11th January 1908.

Burma.—No rain fell during the week. In Lower Burma the winter crop of rice is being harvested and where threshing is in progress the grain is threshing out well. In Upper Burma reaping of the winter rice crop and cultivation of miscellaneous spring crops are progressing and prospects are fair to poor. The price of unhusked rice has risen in three; and has fallen in two districts.

Eastern Bengal and Assam.—Slight rain fell in most districts during the week. Harvesting of winter rice and pruning and hoeing of tea are in progress. Prospects of standing crops are fair. Prices of common rice have fallen in two; and have risen in six districts. No scarcity is apprehended at present.

Bengal.—Rain has come at last and the fall has been general. Most of the Lower Bengal districts received about one inch: The South Bihar districts, Monghyr and Saran about an inch, but the North Bihar districts and Bhagalpur received less. In Chota Nagpur the fall amounted to from $\frac{1}{4}$ to $\frac{3}{4}$ ths of an inch. In Balasore the fall was three inches and in the other districts of Orissa about $\frac{1}{2}$ an inch. The prospects of the spring crop sown have greatly improved: but as the rain came on the last two days of the week the improvement has not yet been fully appreciated. In Patna the poppy crop is doing well and it is reported that barley can still be sown. Harvesting of winter rice is almost completed and pressing of sugarcane continues. In Cuttack barley, wheat and tobacco are doing well. The stock of food-grains is reported to be insufficient in Bankura, Nadia, Murshidabad, the Deoghur sub-division of the Sonthal Parganas, Balasore, Ranchi and Palamau. Prices are practically stationary except in Darbhanga and Balasore, where there has been a rise. Scarcity is still apprehended in portions of Bankura, Nadia, Murshidabad, Bhabhua and Sassaram sub-divisions of Shahabad, Darauli and Manjhi thanas of Saran, Balasore, Ranchi and Palamau; also in Birbhum and Jessore at the end of the cold season. In Cuttack gratuitous relief has been given to 1,290 men, 2,790 women and 2,667 children: total 6,747. On the test-work 166 men, 64 women and 16 children, total 246, are employed. There is one test-work in Balasore on which 200 persons are employed. Gratuitous relief in Puri continues to be given. The report from the Feudatory States of Orissa for the week ending the 4th January shows that no rain fell during that period. Harvesting of winter rice and pressing of sugarcane continues. The prospects of the spring crop are not favourable. The condition of agricultural stock is good. Fodder and water are sufficient.

United Provinces.—There has been general rainfall averaging one half to one inch on 10th and 11th January. The agricultural outlook is considerably improved. The upward tendency of prices has been checked and they have fallen slightly in several districts but still considerably exceed scarcity rates. A further fall of prices is expected. Markets are sufficiently supplied by the aid of large imports of grain from the Punjab and Burma. Spring sowings are practically completed but in the hills the rain has enabled more spring crops to be sown. Prospects of the irrigated crop are everywhere good and the unirrigated crop also has been largely benefited by the rain. Sugarcane pressing continues. Poppy sowings are almost completed and the crop is doing well. The demand for labour in the fields is less owing to the cessation of irrigation. The condition of agricultural stock is fair and the rain will enable much needed rest to be given to overworked cattle. Fodder is dear and scarce but the rain should increase the supply of grass. The numbers on relief are 241,835.

The weekly report on the famine and scarcity is as follows:—Prospects have been greatly improved by general rainfall on the 10th and 11th though the immediate effect may be to increase the number on works. Famine has been declared in the Banda, Sitapur and Jaunpur districts; and gratuitous relief has been sanctioned in the Sultanpur and Bara Banki districts; in the Bhoginpur and Ghatampur tahsils of the Cawnpore district; the tract of the Fatehpur district along the Jumna; the Domariaganj and Harranja tahsils of the Basti district; the towns of Ballia district and the rest of the Allahabad district. The numbers on relief continue to rise steadily. A few wanderers have been noticed especially in the Fyzabad Division and there is some increase in petty crime. The health of those on relief is generally fair. The general health of the people is good. The numbers on relief are:—on works 137,379; on gratuitous relief 104,456, total 241,835. There are relief works in eight and test works in ten districts. The

districts with the largest number on relief are :—Gonda 42,665, Bahraich 41,584, Mirzapur 30,107, Jalaun 28,055, and Allahabad 23,979. Prices are eight to eleven seers for the rupee.

Punjab.—The rainfall during the week was good to moderate. Rain has been received throughout the Province. Prices of food-grains are above scarcity rates except in Multan. Generally prices have fallen slightly in all districts except Mianwali. Agricultural operations, pressing of sugarcane and harvesting of *toria* continue. Sowings of wheat are nearly finished but sowings of barley are in progress after the recent rainfall. Sowings of *tara mira* (radish) have commenced in Gurgaon; and of common millets, etc., in Ambala. The condition of irrigated spring crops is good to average; and of unirrigated bad, but it has greatly improved by the recent rain. The opium crop is average in Lahore and Amritsar. The outturn of sugarcane is below average in Lahore and average elsewhere; and of *toria* generally average. Sugarcane has been damaged by frost in parts of Ambala, and by moth borer and green fly in Jullundur; and turnips have been damaged by green fly in Jhang. Wheat is being injured by rats in Lahore and Gujranwala. Cattle are suffering from overwork, cold and scarcity of fodder in Lahore and Sialkot; and are in poor condition in Gujranwala. Fodder is scarce in Delhi, Ambala, Sialkot, Gujranwala, Lyallpur, Jhang and Multan, and in parts of Hissar, Gurgaon, Lahore, Shahpur and Rawalpindi. Green fodder is not available in Ferozepore, Amritsar and Sialkot. Fodder is sufficient but is getting dearer in Rohtak. The canal water supply is insufficient in Delhi and Lyallpur.

North-West Frontier Province.—Rain has fallen throughout the Province during the week. In Peshawar it averaged from 19 cents to 2 inches 62 cents; in Dera-Ismail Khan from 2 inches 60 cents to 3 inches 79 cents; and in Bannu from one inch 96 cents to 2 inches 62 cents. The rain though late is very beneficial to standing crops in particular on unirrigated lands and is also useful for further spring sowings which have been immediately started. The condition of standing crops is average. Pressing and planting of sugarcane continue in Bannu and Peshawar. The condition of cattle in Dera-Ismail Khan is average; it is good elsewhere. Fodder and water are sufficient. Prices, owing to rain and to less demand from down country, are falling. Present rates are :—wheat 8½ to 12; gram 10½ to 14; maize 12½ to 16½; and bajra 11½ to 12 seers per rupee.

Jammu.—Rain good. Prices are fluctuating. Prices :—wheat from 8 to 14; and maize 10 to 20 seers per rupee. The condition of standing crops is fair. Fodder is insufficient in Kathua, Samba, Udhampur, Basohli, Ranbirsinghpura, Akhnoor and Jammu; and in the Kandi Circle of Jasmirgarh tehsil. The recent rain has been most beneficial to standing crops.

Kashmir.—The weather was bright except for two days when it was raining in the plains and snowing in the hills. Prices are almost stationary.

Rajputana.—The rainfall in cents on the 10th and 11th January 1908 was as follows :—Bikaner 51, Jaisalmer 37, Udaipur 23, Dungarpur 18, Banswara 34, Partabgarh 37, Bundi 42, Tonk 67, Shahpura 25, Kotah 27, Jhalawar 50, Jaipur 79, Kishangarh 60, Alwar 105, Karauli 80, Bharatpur 129, and Dholpur 105; also between 50 and 75 in Ajmer and Beawar and in Jodhpur. In many States the rainfall in districts was heavier; there were also useful showers in Sirohi. This rain is likely to be of the greatest benefit to standing crops. Damage from frost to cotton is reported in Kishangarh and Kotah; and to grain in a few villages of Banswara. The condition of cattle is generally good. The fodder and water-supply are sufficient. Food stocks supplemented by imports are adequate. Prices show a rise of 2½ seers in Partabgarh; 1½ seers in Jaisalmer; and 1 seer in Banswara and Shahpura—but these quotations were probably taken before the rainfall had affected the market and it is hoped that next week prices may be easier.

Central India.—Rain fell in all Agencies. The falls were :—from 100 cents to 130 cents in parts of Gwalior; from 100 cents to 140 cents in parts of Bundelkhand; an average of 50 cents in Malwa; and from 10 to 34 cents in parts of Bhopawar; there was slight rain all over Baghelkhand. Spring sowings continue in irrigable land in Gwalior where irrigation of germinated crops is in progress. Harvesting of autumn crops is in progress in Bhopawar; and is finished in Baghelkhand. Prospects of spring crops are indifferent in Baghelkhand; and fair to good elsewhere. Agricultural stock is fair to good, except in parts of Gwalior and Bhopawar. Fodder is scarce in parts of a few parganas of Gwalior; indifferent in Baghelkhand; and sufficient elsewhere. Prices of food grains continue high. Weeding and watering of opium are in progress in Gwalior, Malwa and Bhopal. The numbers on relief are :—in Rewa on works 55,236; on gratuitous relief 4,014; total 59,250; in Nagod on works 2,238; on gratuitous relief 389; total 2,627; in Jaso on works 628; on gratuitous relief 43; total 671. The recent rain has improved the prospects of the spring crops and the general position.

Central Provinces.—Rain fell during the week in all districts except Akola and Buldana but in Nimar and the districts of Berar it was confined to scattered falls in outlying tahsils. One inch of rain was received in Damoh, Mandla, Lakhnadon and Chhindwara; while in the remaining districts the rainfall did not exceed 36 cents, the heaviest falls being in Narsinghpur, Saugor, Jubbulpore and Drug. Threshing and winnowing of autumn crops were in full swing and cotton picking continues. Spring crops are generally in good condition and fair in Damoh, Chhindwara, Bhandara, Akola and Yeotmal. The recent showers have greatly improved prospects in several districts. In Jubbulpore the spring crop is expected to give a full outturn. Field embankments are being raised in parts of Bilaspur and preparation of land for the ensuing season has been started in Buldana and Yeotmal. Fodder and water are sufficient, but fodder is dear in Saugor and is getting scarce in the Darwha and Yeotmal taluks. No insufficiency of work for labourers is reported anywhere except from the Chhindwara *jagirs*. Prices of staple food grains remained stationary in all districts. The price of wheat remained unchanged nearly everywhere but rose in all districts of Chhattisgarh. *Juar* in Hoshangabad; wheat in Bhandara and Bilaspur; and wheat, gram and *juar* in Akola became dearer by one seer; elsewhere prices fluctuated slightly exhibiting a tendency to rise.

Feudatory States.—Half an inch of rain fell at Kawardha and parts of Khairagarh; while Raj-Nandgaon, Sakti and Udaipur received light showers. Threshing and winnowing of autumn crops, pressing of sugarcane and picking of cotton were in progress. The condition of spring crops is generally good but prospects are unfavourable in Sirguja. Fodder and water are sufficient. The price of wheat, rice and *kodon* in Khairagarh; and of rice in Sakti rose by one seer; wheat in Sakti, gram in Sirguja and rice in Korea became dearer by 2 seers; wheat rose by 4 seers in Udaipur.

The weekly report on the famine and scarcity is as follows:—Distress is nowhere acute but is increasing in Damoh. Relief is at present confined to the Damoh and Nimar districts; relief of weavers has commenced in the latter district. Village relief is being started in Betul. No general wandering is reported but slight deterioration has been noticed amongst workers in Damoh. Agricultural operations are practically over and an increased demand for employment has arisen. Village works are being opened where necessary. The condition of the people is good and the measures taken sufficient. The public health is satisfactory. Numbers on relief works *nil*; on gratuitous relief including weavers 1,547; total 1,547.

Bombay.—Slight rain fell during the week in parts of Sind, Gujarat, the Konkan, West Khandesh, Nasik, Poona, Kathiawar, Baroda, Palanpur, Cutch, Mahi Kantha and Rewa Kantha; the rain was beneficial to crops in parts of Sind. Standing spring crops are withering for want of moisture in parts of Ahmedabad, the Panch Mahals, Broach, Khandesh, Nasik, Ahmednagar, Poona, Sholapur, Bijapur and Baroda; elsewhere crops are in good condition except for slight damage by insects in parts of Broach; by rain and frost in parts of Palanpur; and by rats in parts of Baroda. Threshing of autumn crops is in progress in parts of Sind, Kaira, the Konkan, Khandesh, Nasik, Ahmednagar, Kathiawar, Palanpur, Baroda and Rewa Kantha. Cotton picking is progressing in parts of Thar and Parkar, Broach, Surat, West Khandesh, Nasik, Bijapur, Kathiawar and Rewa Kantha. The supply of fodder is adequate except in parts of Ahmedabad, Kaira, East Khandesh, Sholapur and Baroda. Agricultural stock is generally in good condition and sufficient except in parts of Ahmednagar, Poona, Sholapur, Satara and Cutch. The supply of drinking water is sufficient except in parts of East Khandesh and Sholapur. Water for irrigation is insufficient in parts of Surat, the Deccan and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 30 to 52 per cent; in Gujarat 25 to 68 per cent; in the Konkan 21 to 32 per cent; in the Deccan 32 to 51 per cent; and in the Karnatak 25 to 85 per cent less than the normal. Prices are rising. Stocks of grain are generally adequate. The demand for labour is sufficient and wages are normal. Emigration from the Panch Mahals, Ahmednagar, Sholapur and Bijapur continues. The cultivating and labouring classes are in fair condition. Six test works are in progress in the Panch Mahals with 843 persons on relief on the last day of the week ending the 11th instant.

Hyderabad.—No rain. The weather is partially cloudy. The heavy dews have been beneficial to the spring crops which are generally in fair condition. The price of *juar* has slightly risen in parts owing to increased exports. The increase in exports is due to high prices in parts of British India owing to the scarcity of grain. Prices:—wheat 5½; coarse rice 6½; and *juar* 11½ seers per rupee. *Juar* is selling in Hyderabad City at 13 seers per rupee; the highest price in the districts is 9 seers in five talukas.

Mysore.—Prices of food grains are generally steady. Standing crops are in good condition and crops are being harvested. Prospects of the season are good, but rain is needed in parts of Mysore and Chitaldrug. Cattle are healthy. Water and fodder are available.

Coorg.—Picking of coffee and reaping of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient. Agricultural prospects are good.

Madras.—The rainfall was above the average in Godavari, Kistna, Guntur, South Arcot, Coimbatore and the Nilgiris; up to the average in the Vizagapatam littoral, Tanjore, Madura and Tinnevely; and *nil* elsewhere. Irrigation supplies are insufficient in parts of all districts except Guntur, Cuddapah, Chingleput, Coimbatore, Tinnevely, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary, Cuddapah, Tanjore and Madura are withering; and some in parts of Coimbatore require more rain. Harvests continue with outturn poor to normal. Pasture is generally sufficient except in parts of the Circars, the Deccan and Salem. Fodder is scanty in parts of Ganjam, Kistna, Nellore, Salem and Tanjore. The condition of cattle is generally good. The price of rice is stationary in thirteen districts; has fallen in three; and has risen in seven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in six; and has risen in seven. *Cholam* is stationary in one district; has fallen in six; and has risen in seven. *Cumbu* is stationary in three districts; has fallen in five; and has risen in seven. The public health is generally good. Prospects are generally fair but more rain is required in some districts. The condition of the labouring classes is good and employment is procurable. Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905 and for 1906, entitled "Inventions and Designs," are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 6d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 23rd January 1908, based on the Indian Daily Weather Reports of the period.

A feeble depression entered Kashmir on the 18th from north Persia and gave light precipitation next day. It had disappeared by the morning of the 20th, but a fresh depression was affecting north Persia on the same date and moving eastward it caused precipitation varying from light to heavy in Kashmir on the 22nd and 23rd, and light rain occurred in the submontane districts from Sialkot to Peshawar. Simultaneous with the appearance of the latter depression in north Persia, a long shallow trough of low pressure extending from Sind to the entrance to the Persian Gulf began to form, and their combined action resulted in widespread precipitation in Baluchistan on the 22nd, and in north-east Baluchistan on the 23rd on which date both disturbances were disappearing. On the 17th rain fell locally in the interior of south India, but it diminished rapidly, and only two light falls were reported on the following day.

Burma.—Skies were clear or lightly clouded and temperature was approximately normal.

North-east India including Orissa.—Skies were cloudy or foggy in the northern districts and generally clear in other parts of the division. Temperature was unusually low especially in Bihar and the adjacent districts to the east.

The United Provinces, Central India and the Central Provinces.—Skies were clear except in the United Provinces from which area cloud and fog were reported from many stations; weather was colder than usual during the greater part of the week but a rise of temperature occurred on the 22nd, and by the 23rd temperature was normal except in the United Provinces where it continued in defect.

North-west India.—Light precipitation occurred in Kashmir on the 19th and 20th; owing to a disturbance from north Persia, a low pressure area appeared over the Mekran coast on the 21st, and in conjunction with a fresh disturbance from north Persia, caused precipitation in Baluchistan as well as Kashmir on the 21st, and in Baluchistan and the extreme north of India on the 22nd and 23rd. Skies were heavily overcast throughout the greater part of the week in the extreme north of India and in Baluchistan, and on the 22nd and 23rd they were moderately to thickly clouded over the whole division except in south Rajputana and Gujarat. Temperature was much higher than usual in Baluchistan and the hills of Upper India; it rose in the plains of north-west India on the 21st, and from that day to the end of the week was normal or in excess throughout the division.

The Peninsula.—Local rain was reported from the interior of south India on the 17th, and a few falls occurred in the same area on the following day. Skies were lightly to moderately clouded on the 17th, and were clear or only lightly clouded during the remainder of the week. Temperature was approximately normal except for an excess in the minimum on the 17th and 18th.

The only areas where rain fell during the past week are the extreme north of India, Baluchistan, Mysore and Madras. The rainfall for the whole period from 29th November to the 23rd January is 20 per cent. or more in defect in Assam, the east of the Central Provinces, Berar, the South-west Punjab, the Bombay Deccan, the Konkan and South-east Madras and is normal or in excess elsewhere.

The following summarises the chief rainfall amounts of the week as given at 8 hrs. each day:—

January 17th. Bangalore 0·93" and Mysore 0·83".

" 22nd. Minimarg 1·00" and Robat 1·82".

" 23rd. Sonemarg 3·58", Minimarg 1·30" and Chaman 0·62".

NOTE.—In the issue of the Gazette of the 18th instant in the Summary table on January 13th, against Dehra Dun read "0·02" for 0·86".

Season and Crop Prospects for the week ending Saturday, 18th January 1908.

Burma.—Slight showers fell during the week in four of the northern districts and in the Chin Hills. In Lower Burma reaping of the winter rice crop is nearly completed and threshing and winnowing are progressing satisfactorily. In Upper Burma harvesting of the winter rice crop is going on and transplanting of spring rice is in progress. The winter rice crop of Lower Burma promises a good outturn. In Upper Burma the winter rice crop on irrigated lands and in the wet zone is fair, but on unirrigated lands of the dry zone rice has failed and dry crops are poor except groundnut and cotton. Spring crops promise fairly. The price of unhusked rice has fallen in five; and has risen in six districts.

Eastern Bengal and Assam.—Slight rain fell in all districts except the Lushai hills Darrang, Nowgong, Sibsagar, Lakhimpur and the Garo hills. Standing crops have improved by the recent rains and prospects are now fair to good. Harvesting of winter rice is approaching completion. Pruning and hoeing of tea are in progress. Prices of common rice have fallen in five; and have risen in six districts. No scarcity is apprehended at present.

Bengal.—At the beginning of the week many districts received a little more rain and the weather has been cold and cloudy throughout the Province. The prospects of the spring crop have greatly improved, and in South Bihar, owing to the recent rain, it has been found possible to do some more sowings. Insects have caused considerable damage in the Barh subdivision of Patna. In South Bihar poppy is doing well. Sugarcane prospects are fair and the remainder of the winter rice crop has been harvested. Insufficient stocks of food-grains are reported in Bankura, Nadia, Murshidabad, Balasore, Palamau and the Deoghar subdivision of the Sonthal Parganas. Prices have ceased to rise, and in Bihar the fall is probably due to decreased export. In the north of Murshidabad there is still a scarcity of water. Scarcity is apprehended in Nadia, Murshidabad, the Bhabhua and Sasaram subdivisions of Shahabad, the Darauli and Manjhi thanas of Saran, Ranchi, Palamau, Birbhum and Jessore. One test-work was opened at Bankura. In Cuttack the test-work was attended by 299 men, 84 women and 16 children; total 399. Gratuitous relief was given to 1,394 men, 3,196 women and 3,324 children; total 7,914. In Balasore 224 men attended the test-work. In Puri 1,461 attended the test-work; and gratuitous relief was given to 104 men, 304 women and 185 children. The total number on test-works in Bengal is 2,084; and in receipt of gratuitous relief 8,507.

The report of the Feudatory States of Orissa for the week ending the 11th January shows that during that period no rain fell and the prospects of the spring crop were not very favourable.

United Provinces.—Rain has fallen in 41 districts in quantities varying from a few cents to more than an inch. A few districts report that more rain is required. The weather has been exceptionally cold with fog and heavy dews and it is believed that this has been very beneficial to wheat, barley and gram, though it is stated that it has affected *sarson* and *arhar* now in flower. The rain has enabled further spring sowings to be made, especially in the hill districts. General prospects of spring crops where sown are good and they are being weeded. Pressing of sugarcane continues and land is being prepared for sowing of sugarcane and extra crops. Prices have fallen slightly in eighteen districts, and elsewhere are stationary but are still considerably in excess of scarcity rates. Markets are generally sufficiently stocked and importation of grain continues. There has been a slight decrease in the demand for field labour owing to the rain. The condition of agricultural stock is fair but excessive cold is reported to have caused some mortality among cattle in Shahjahanpur and Hardoi; and probably this has happened elsewhere. The rain has not yet appreciably affected the fodder supply which is scarce.

The weekly report on the famine and scarcity is as follows:—Prospects have been improved by further rainfall during the week but prices remain very high and distress is steadily increasing. Famine has been declared in Muttra and gratuitous relief has been sanctioned in Bijnor. The numbers on relief continue to rise but the intense cold has caused some fluctuation in the numbers from day to day. The general condition of the people is good and of those on relief fair, but the cold has been severely felt. Blankets have been supplied by charitable subscription in several districts and Rs. 50,000, allotted from the Indian People's Famine Trust, is being utilized in providing blankets for the poor. There has been some increase in petty crime. A few immigrants from Native

Bihar.—It is noticed in Agra and Hamirpur; and emigration on a larger scale than usual is reported from Jaunpur and Basti. Private charity is active. Five thousand and forty-four persons are on relief in the Balrampur estates. The numbers on Government relief are:—On works 151,742; dependants on works 29,216; on test-works 5,373; on gratuitous relief at homes 120,263; at poor houses 4,566; total 311,160. Prices are at 8½ to 10½ seers per rupee.

Punjab.—Good rain has fallen in Ambala; and light to moderate rain in parts of Lahore, Shahpur, Rawalpindi and Mianwali. Prices of food grains are falling slightly in 6 and are rising in 7 districts, but are still above scarcity rates except in Multan. Pressing of sugarcane and harvesting of *toria* continue. Owing to the recent rainfall sowings of barley and tara mira (radish) are being made on unirrigated lands in northern, central and submontane districts. Wheat is also being sown in a few districts. The condition of irrigated crops is generally good to fair; and of unirrigated average to poor, but the latter have greatly improved in consequence of the recent rainfall. The opium crop is average in Lahore and Amritsar. The outturn of sugarcane is average to below average. Young spring crops have been slightly damaged by rats in parts of Lahore; and turnips by green-fly in Jhang. The potato crop has been injured by frost in Amritsar. Cattle are in poor condition in Gujranwala and are suffering from overwork and scarcity of fodder in Sialkot. Fodder is scarce in Delhi, Lahore, Sialkot, Gujranwala, Mianwali, Lyallpur, Jhang and Multan and in parts of Gurgaon, Ambala, Shahpur and Rawalpindi. Green fodder is not procurable in Ferozepur, Amritsar and Sialkot. Sugarcane is being used as fodder in the last named district. In Rohtak fodder is sufficient but is getting dearer. The canal water supply is insufficient in Delhi and Lyallpur.

North-West Frontier Province.—Slight showers fell during the week in Peshawar and Bannu. The weather is still cloudy. The condition of standing crops on irrigated and unirrigated areas has much improved by the recent rains. Considerable spring sowings are being made on unirrigated lands. Pressing of sugarcane continued in Peshawar and Bannu and the outturn was average. The water supply is ample and irrigation from the Paharpur canal continues. Fodder is sufficient. The condition of cattle in Dera Ismail Khan is average; elsewhere it is good. The health of the people is generally good. Prices except in Peshawar are falling slightly owing to the recent rains. Prices—wheat from 8 to 12; gram 10½ to 14; maize 12½ to 18; and bajra 11½ to 13 seers per rupee.

Jammu.—Slight rain fell during the week. Prices are stationary. Prices—wheat has fallen and is now 8 to 14; and maize 10 to 20 seers per rupee. The condition of standing crops is fair. Fodder is insufficient in Kathua, Samba, Udhampur, Basohli, Ranbirsinghpura, Akhnur, Jammu, Bhimber, Kotli and in the Kandi Circle of the Jasmirgarh tehsil. The recent rains have been most beneficial to standing crops.

Kashmir.—The weather is partially bright and cloudy. Prices are almost stationary.

Rajputana.—The rainfall in cents was as follows:—In Didwana in Marwar 36; Kishangarh 16; Alwar 16 and Ajmer 25. Useful showers are also reported in four districts. Standing crops are doing well though in many places sowings have been restricted. The fodder and water supply are sufficient. Food stocks are adequate or are being imported. Prices continue high and have risen by half a seer or more in Sirohi, Kishangarh, Alwar and Karauli; and very slightly in Partabgarh and Dholpur; they have fallen by one seer in Banswara and by half a seer or less in Shahpura, Bharatpur and Ajmer-Merwara. On the whole last week's anticipation as to effect of rain on prices have not been fulfilled; nevertheless prospects of spring crops have generally improved and there is no distress at present.

Central India.—Rainfall from 40 cents to 100 cents in parts of Gwalior; and from 21 cents to 65 cents in Bhopawar. Slight rain fell all over Baghelkhand. Spring sowings are completed in Gwalior. Harvesting of gram has commenced in parts of Bhopawar. Threshing and winnowing of autumn crops continued in Indore and Bhopawar. Prospects of spring crops are below average in Bhopal and Baghelkhand; and fair to good elsewhere. Agricultural stock is fair to good except in parts of Gwalior, Bhopal, Bhopawar and Sailana. Fodder is indifferent in Bhopal and Baghelkhand; and sufficient elsewhere. The price of food grains continues high. Weeding and watering of poppy are in progress. The condition of opium is good in Gwalior, Malwa and Bhopawar. The numbers on test and relief works are:—In Rewa on works 61,351; on gratuitous relief 3,607; total 64,958; in Nagode on works 3,208; on gratuitous relief 526; total 3,734; in Jaso on works 627; on gratuitous relief 52; total 679; in Kothi on works 380 only. The recent rain has improved the prospects of the spring crop and the general position.

Central Provinces.—The weather was clear and cool. No rain fell during the week in any district except Bilaspur where a few scattered showers were received in the out-

lying tracts including 70 cents at Mungili. Threshing and winnowing continued; and picking of cotton was almost completed. Spring crops are generally in good condition and fair in Seoni, Betul, Bhandara, Akola and Yeotmal. Harvesting of spring pulses has begun in Betul, Nimar and Drug. Prospects of spring crops have materially improved since the recent rain in Narsinghpur. The estimated outturn of wheat ranges from 75 to 120 per cent of the normal; gram, *til*, *musur* and *tur* have been slightly damaged in places by frost in Saugor, Narsinghpur and Chhindwara. Standing crops in three villages of Chhindwara have also suffered to some extent from hail which accompanied the previous week's rainfall. Field embankments are being raised in Jubbulpore and in the Chhattisgarh districts; and land is being ploughed for the ensuing season. No insufficiency of work for labourers is reported anywhere, except from Chhindwara. Fodder and water are adequate but fodder is getting scarce in Yeotmal. The prices of staple food-grains remained stationary in 9 districts. Wheat became cheaper in Seoni and Narsinghpur by $\frac{1}{2}$ and one seer, respectively; in Chanda the price of *juar* fell by $4\frac{1}{2}$ seers; *juar* also became cheaper in Nimar, Chhindwara, Yeotmal and the Vindhyan districts by 2 seers to $\frac{1}{2}$ seer, while in Akola it became dearer by $\frac{1}{2}$ seer. The price of rice fell in Damoh, Seoni and Chanda by $1\frac{1}{2}$ seers.

Feudatory States.—During the week light showers not exceeding 52 cents were received in Kawardha, Chhuikhadan, Kanker, Bastar, Raigarh and Sirguja. Threshing and winnowing of autumn crops and pressing of sugarcane continued. The condition of spring crops is generally good. Preparation of land for next sowings of autumn crops has been started in Bastar and Raigarh. Fodder and water are sufficient. Prices of food-grains rose slightly in Kawardha; elsewhere prices were steady.

The weekly report on the famine and scarcity is as follows:—Owing to the contraction of ordinary employment, distress is slightly increasing and village relief is being extended to particular autumn tracts of Jubbulpore and Saugor. The recent rain has greatly improved prospects of spring crops. Prices are slightly easier but retail prices show no perceptible fall. The condition of the people is good. Fodder and water are generally sufficient. The public health is normal. The numbers on relief works *nil*; weavers in receipt of relief 1,327; on gratuitous relief 841; total 2,168.

Bombay.—Standing spring crops are withering for want of moisture in parts of Ahmedabad, the Panch Mahals, the Deccan, Bijapur and Baroda; elsewhere crops are in good condition except for slight damage by the recent rain in parts of Kathiawar, Baroda and Palanpur. Threshing of autumn crops is in progress in parts of Sind, the Konkan, Khandesh, Nasik, Ahmednagar, Kathiawar, Palanpur and Rewa Kantha. Cotton picking is progressing in parts of Hyderabad, Thar and Parkar, the Panch Mahals, Kaira, Broach, Surat, West Khandesh, Nasik, Bijapur, Belgaum, Baroda, Kathiawar and Rewa Kantha. The supply of fodder is adequate except in parts of Ahmedabad, Kaira, Sholapur and Baroda. Agricultural stock is generally in good condition and sufficient, except in parts of Ahmednagar, Poona, Sholapur and Satara. The supply of drinking water is sufficient except in parts of Sholapur. Water for irrigation is insufficient in parts of Surat, the Deccan, Baroda and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 30 to 52 per cent; in Gujarat 25 to 67 per cent; in the Konkan 21 to 33 per cent; in the Deccan 36 to 48 per cent; and in the Karnatak 25 to 46 per cent less than the normal. Prices are rising. Stocks of grain are generally adequate. The demand for labour is sufficient and wages are normal. Emigration from Ahmednagar and Sholapur continues. The cultivating and labouring classes are in fair condition. Six test works are in progress in the Panch Mahals with 1,788 persons on relief on the last day of the week ending the 18th January.

Hyderabad.—The rainfall during the week was 17 cents. The fall is considered to be injurious in parts to standing spring crops which are generally in fair condition. At Kosgi taluka 60 cents fell on the 11th January and the fall is also considered to be injurious to the *juar* and wheat crops. Prices:—Wheat $5\frac{1}{2}$; coarse rice $6\frac{1}{2}$; and *juar* $11\frac{1}{2}$ seers per rupee. *Juar* is selling in Hyderabad City at $12\frac{1}{2}$ seers per rupee. The highest price in districts is 9 seers in three talukas.

Mysore.—The rainfall during the week was good in Bangalore and Kolar; and slight in Tumkur and Mysore. Prices of food-grains are generally steady. Standing crops are in good condition. Paddy and other crops are being harvested. Prospects of the season are good, but rain is needed in parts of Chitaldrug. Cattle are healthy. Water and fodder are available.

Coorg.—Rainfall two cents. Picking of coffee continues. Reaping of rice is completed and threshing has commenced. The public health is fair. Water and fodder for cattle are sufficient. Agricultural prospects are good.

Madras.—The rainfall during the week was good in the Circars, Nellore, Tinnevely, Coimbatore and Madura; *nil* in Madras, South Arcot, Tanjore and South

Canara; fair in the Deccan, the Nilgiris, North Arcot and Salem; up to the average in Malabar and below the average in Chingleput and Trichinopoly. Irrigation supplies are insufficient in parts of all districts except Guntur, Cuddalore, Chingleput, Coimbatore, Tinnevely, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary, Cuddapah, Tanjore and Madura are withering, and some in parts of Coimbatore require more rain. Harvests continue with outturn poor to normal. Pasture is generally sufficient except in parts of the Circars, Kurnool and Bellary. Fodder is scanty in parts of Ganjam, Kistna, Nellore and Tanjore. The condition of cattle is generally good. The price of rice is stationary in twelve districts; has fallen in nine; and has risen in two. The prices of millets have fluctuated as follows:—*Ragi* is stationary in fifteen districts; has fallen in two; and has risen in four. *Cholam* is stationary in three districts; has fallen in nine; and has risen in two. *Cumbu* is stationary in six districts; has fallen in three; and has risen in six. The public health is generally good. Prospects are fair generally but rain is required in some districts. The condition of the labouring classes is good and employment is procurable. Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

No. 191—35-2.—The following letter and Proclamation received from the Colonial Secretary, Jamaica, are published for general information :

No. 12195—12718, dated Jamaica, 12th December 1907.

From—H. CLARENCE BOURNE, Esq., Colonial Secretary, Jamaica,

To—The Secretary to the Government of India.

With reference to the letter from this office, No. 9272—10475 of the 24th December 1887, I am directed by the Governor to inform you that under the power given by "The Seeds and Plants Importation Law, 1884," he as by Proclamation revoked the Proclamation of the 2nd December 1887 prohibiting the importation into this Island of seeds or

plants or any description of earth or soil or any article packed therewith that may have come either directly or indirectly from Natal, South India, Ceylon, Mauritius, Java and Fiji, and has in the same Proclamation, a copy of which is enclosed for your information, prescribed the conditions under which alone the importation of any of the articles specified shall be permitted that may have come from any of the countries mentioned.

Proclamation by His Excellency Sir Sydney Olivier, Bachelor of Arts, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Captain-General and Governor-in-Chief in and over the Island of Jamaica and its Dependencies.

Whereas it is enacted by the First Section of Law 4 of 1884, "The Seeds and Plants Importation Law, 1884," that it shall be lawful for the Governor to revoke or vary any Proclamation made by him under that section;

And whereas General Sir Henry Wylie Norman, G.C.B., G.C.M.G., C.I.E., Captain-General and Governor-in-Chief in and over the Island of Jamaica and its Dependencies, by Proclamation made on the 2nd day of December 1887, prohibited until further Proclamation the importation into this Island of seeds or plants or any description of earth or soil or any article packed therewith that may have come either directly or indirectly from any of the following countries, *viz.*, Natal, South India, Ceylon, Mauritius, Java and Fiji.

Now, therefore, I, the Governor, do hereby revoke the aforementioned Proclamation bearing date the 2nd day of December 1887, and I hereby proclaim that I prescribe the following conditions as conditions under which alone the importation of any of the articles aforesaid shall be permitted that may have come either directly or indirectly from any of the countries aforesaid, *viz.*: That all such articles (including seeds) imported from the aforementioned countries shall be fumigated in accordance with the Instructions published in the Jamaica Gazette of the 9th January 1902.

Given under my hand and the Broad Seal of this Island at Head Quarters House, Kingston, on the 11th day of December in the 7th year of His Majesty's Reign Annoque Domini 1907.

No. 196—14-75.—The services of Mr. R. J. Douglas Graham, M.A., B.Sc., Supernumerary Economic Botanist in the Imperial Department of Agriculture, are placed at the disposal of the Chief Commissioner, Central Provinces, for employment in the Local Department of Agriculture.

R. W. CARLYLE,

The 31st January 1908.

No. 19.—In exercise of the powers conferred by sections 4 (j) and 40 of the Indian Electricity Act, 1903 (III of 1903), the Governor General in Council is pleased to sanction the following license under the aforesaid Act being granted to the Calcutta Electric Supply Corporation, Limited, a Company incorporated under the English Companies Acts, 1862 to 1890, and having their registered office at Salisbury House, London Wall, in the city of London, and a local office and accredited agents at No. 4, Fairlie Place, in the town of Calcutta, for the supply of energy for electric traction, and for the general supply of energy within the Dakhineswar Magazine, the Government Dockyard at Kidderpore and other places in Calcutta and its environs that are subject to section 40 of the Indian Electricity Act (III of 1903).

S. W. A. INGLIS,

Offg. Secretary to the Government of India.

Calcutta (Cantonment, etc.) Electric License, 1908.

License for the supply of energy for electric traction and for the purpose of general supply, and to particular consumers under special agreement, and also to convey and transmit energy from generating stations situated outside the area of supply to the boundary of the area of supply granted by the Governor General in Council to the Calcutta Electric Supply Corporation, Limited, a Company incorporated under the English Companies Acts, 1862 to 1890, and having their registered office at Salisbury House, London Wall, in the city of London, and a local office and accredited agents at No. 4, Fairlie Place, in the town of Calcutta.

Preliminary.

1. This license may be cited as "The Calcutta (Cantonment, etc.) Electric License, 1908."

2. This license is to be read and construed subject in all respects to the provisions of the Indian Electricity Act, 1903, and the Rules thereunder, and the several words, terms, and expressions to which by that Act or by the said Rules meanings are assigned shall have in this license the same respective meanings, provided that in this license —

The expression "the Act" shall mean the said Indian Electricity Act, 1903.

The expression "the Licensees" shall mean and include the said Calcutta Electric Supply Corporation, Limited, and their permitted assigns.

The expression "first annexure," "second annexure," and "third annexure" shall mean the first, second and third annexures to this license, respectively.

The expression "deposited map" shall mean the plan of the area of supply deposited with the Government of India in pursuance of the terms of the Act and the rules thereunder and which plan is signed by the licensees and by the Secretary to the Government of India in the Public Works Department.

Commencement of License.

3. This license shall come into force and have effect upon the day when the notification of its having been granted is published in the *Gazette of India* which date shall be deemed to be the date of the commencement of this license.

Area of Supply.

4. The area of supply shall be the whole of the area described in the first annexure, which said area is more particularly delineated upon the deposited map and thereon coloured red.

Statement of the purposes for which supply is to be given.

5. Subject to the provisions of this license and the Act the licensees shall, during the continuance of this license, be entitled to supply energy within the area of supply for electric traction and for the purpose of general supply and to particular consumers under special agreement and also to convey and transmit energy from generating stations situated outside the area of supply to the boundaries of the area of supply.

General description of works and system of supply.

6. (1) A. For electric traction—

(a) The supply shall be on the continuous current system.

(b) The system of distribution shall be the two-wire system, with feeders and trolley wires.

(c) The rails shall be earthed and form the return circuit with such track feeders as are necessary.

(d) The pressure of generation and distribution shall not exceed 600 volts.

B. For the purpose of general supply and to particular consumers under special agreement—

(a) The supply shall be on the continuous current system.

(b) The system of distribution shall be the two-wire and multiwire system.

(c) The neutral conductor of the multiwire system shall be connected to earth at one point only, namely, at the generating station.

(d) The pressure of generation shall not exceed 600 volts; and the pressure of supply to consumers shall not exceed 250 volts as laid down in rule 14 (*Gazette of India Notification No. 481, dated 23rd December 1903*).

- (2) The generating station (or stations) shall be situated outside the area of supply authorised by this license.—
- (3) And it is hereby declared in pursuance of section 4 (i) (f) of the Act that clause IV of the schedule to the Act shall, for the purpose of incorporation in this license, be varied and added to so as to read as follows:—

Energy shall be supplied by the licensees only by means of some system for the time being approved in writing by the Governor-General in Council and so that any such approval may be given from time to time and at any time to any modification of the system above described or to the adoption of any other system in substitution therefor and the licensees shall not permit any part of any circuit to be connected with earth unless such connection is for the time being approved by the Governor-General in Council with the concurrence of the Telegraph authority.

Breaking up of Streets, Railways, etc., and crossing of Canals and Rivers.

7¹ The lists of streets not repairable by the Local Government or by a local authority and of railways, tramways, canals, navigable rivers required by rules 6 (e) and (f) (Gazette of India Notification No. 481, dated 23rd December 1903) of the rules made by the Governor-General in Council by virtue of section 33 of the Act are given in the second annexure to this license.

Maximum Charges.

8. The prices charged by the licensees for energy supplied by them shall not exceed those stated in that behalf in the third annexure, or in the case of a method of charge approved by the Governor-General in Council such maximum as the Governor-General in Council shall fix on approving the method.

Purchase of Undertaking.

9. The option of purchase accorded by section 7 (i) of the Act shall first be exercisable on the 20th day of October 1918 and on the expiration of every subsequent period of ten years during the subsistence of this license.

Terms of Purchase.

10. It is hereby declared by virtue of section 10 of the Act, that the terms of such purchase shall be such as are contained in section 7 (i) of the Act with the substitution for the words "upon terms and conditions similar to those set forth in section 5, clauses (b) and (d)" contained in that section of the words "upon terms of paying the then value of lands, buildings, works, materials and plant of the licensees suitable to and used by them for the purposes of the undertaking within such area, or part thereof: such value being agreed or estimated by arbitration, on the basis of the value of the undertaking as a going concern."

DEPARTMENT OF MILITARY SUPPLY.

Fort William, the 31st January 1908.

MEDICAL DEPARTMENT.

No. 6.—An addition* having been made to paragraph 5 of the regulations published in Department of Military Supply Notification No. 16 of 1907, on the subject of study leave to officers of the Indian Medical Service, the paragraph in question will now read as follows :—

"5. The minimum period of leave granted solely as study leave shall be six months. Time spent on the journey to and from India by an officer whose study leave is not combined with any other kind of leave, will reckon as study leave, but the allowance specified in rule 10 will be granted during the period of study only. An officer whose study leave is combined with any other kind of leave will, however, be required to take his period of study leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover his return journey to India."

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any paper sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,
Secretary to the Government of India.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Coroners Act, 1871, and the Prisoners Act, 1900, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 31st January 1908 :—

LEGISLATIVE DEPARTMENT.

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Coroners Act, 1871, and the Prisoners Act, 1900, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

From High Court, Calcutta, No. 84, dated 4th February, 1907. [Papers No. 1.]
 From Government, Bombay, No. 1045, dated 18th February, 1907, and enclosures. [Papers No. 2.]
 From Government, Bengal, No. 936-J., dated 26th February, 1907, and enclosures. [Papers No. 3.]
 From Government, Bengal, No. 1094-J., dated 4th March, 1907, and enclosure. [Papers No. 4.]

2. The alterations we have suggested in the Bill are mostly of such an unimportant nature as not to require explanation by us. The only changes to which we would call attention are—

- (i) the amendment of section 11 of the Act, proposed by the new clause 3, with the object of making it clear that a further inquisition may be held whenever it is considered necessary or desirable in the interests of justice ;
- (ii) the widening of the proviso to section 15 of the Act, proposed by clause 3 of the Bill as introduced (now clause 4), so as to enable the Coroner, with the consent of the majority of the jury, to dispense with the necessity for viewing the body, not only when death is due to some infectious animal, but whenever satisfactory medical evidence is produced by a Binar on the advantage will result from such viewing ; and

- (iii) the addition we have made, on the suggestion of the Bengal Chamber of Commerce, to the new section 18A, proposed by clause 5 of the Bill as introduced (now clause 6), which now makes reports of Chemical Examiners under the Coroners Act receivable as evidence in any subsequent proceedings which may be taken under the Code of Criminal Procedure.

3. The publication ordered by the Council has been made as follows :—

Amendment of section 9, Act IV of 1871.
3. In section 11 of the *said Act*, for the words "where the first was in-sufficient" the words "where the Coroner considers it necessary or desirable in the interests of justice to take a further inquisition" shall be substituted.
Amendment of section 11, Act IV of 1871.
4. To section 15 of the *said Act* the following shall be added, namely:—
Addition of proviso to section 15, Act IV of 1871.
"Provided that the Coroner may, with the concurrence of a majority of the jury, dispense with a view of the body, if he is satisfied, from medical evidence or medical certificates, that no advantage would result from such viewing."
5. In section 17 of the *said Act*, for the words and figures "Act No. XV of 1869 (to provide facilities for obtaining the evidence and appearance of prisoners and for service of process upon them)," the words and figures "Part IX of the Prisoners Act, 1900," shall be substituted.
Amendment of section 17, Act IV of 1871.
6. After section 18 of the *said Act*, the following shall be inserted, namely:—
Addition of new section 18A, Act IV of 1871.
"18A. Any document purporting to be a report under the hand of any Chemical Examiner or Assistant Chemical Examiner to Government upon any matter or thing duly submitted to him for examination or analysis and report in the course of any proceeding under this Act, may be used as evidence in any inquest under this Act and in any subsequent inquiry, trial or other proceeding under the Code of Criminal Procedure, 1898."

Report of Chemical Examiner.

V of 1898.

7. To section 21 of the *said Act* the following shall be added, namely:—
Addition to section 21, Act IV of 1871.

"and the whole, or such part thereof as to the Coroner seems fit, shall, in default of attendance by the jurors, be recoverable in the same manner as a fine imposed under section 31."

8. For section 25 of the *said Act* the following shall be substituted, namely:—
Substitution of new section 25, Act IV of 1871.

"25. When the jury or a majority of the jury find that the death of the deceased person was occasioned by an act which amounts to an offence under any law in force in British India, the Coroner shall immediately after the inquest forward a copy of the inquisition, together with the names and addresses of the witnesses, to the Commissioner of Police."

9. For section 26 of the *said Act* the following shall be substituted, namely:—
Substitution of new section 26, Act IV of 1871.

"26. The Coroner may also, where the verdict justifies him in so doing, issue his warrant for the apprehension of the person who is found to have caused the death of the deceased person, and send him forthwith to a Magistrate empowered to commit him for trial."

10. Section 27 of the *said Act* is hereby repealed.
Repeal of section 27, Act IV of 1871.

11. In section 28 of the *said Act*, for the word "burial" the word "disposal" shall be substituted.
Amendment of section 28, Act IV of 1871.

12. In the Second Schedule of the *said Act*, for the words "on view of the body of A. B. then and there lying dead" the words "in the case of A. B. deceased" shall be substituted.
Amendment of Second Schedule, Act IV of 1871.

13. In section 11 of the Prisoners Act, 1900, for the words "Justice of the Peace or Coroner" the words "or Justice of the Peace" shall be substituted.
Amendment of Act III of 1900, section 11.

QUESTION AND ANSWER.

The Hon'ble MR. GOKHALE asked :—

"(a) Has the Government of India received a telegram from the Indian settlers in the Transvaal, seeking its protection and asking for its intervention in their favour against the injustice and indignities to which they are being subjected under the Asiatic Registration Act in the Transvaal?

"(b) Is the Government aware of the depth and intensity of public feeling that has been aroused in this country in all quarters by the arrest and imprisonment of several Indian subjects of His Majesty the King Emperor in the Transvaal under the Asiatic Registration Act?

"(c) Will the Government be pleased to state what steps it has already taken or it proposes to take to bring this state of public feeling in India to the notice of His Majesty's Government in England and to secure for the Indian settlers in the Transvaal the protection that they seek at its hands?"

The Hon'ble MR. FINLAY replied :—

"(a) The Government of India have not received any telegram from the Indian settlers in the Transvaal. But they have received papers from the Secretary of State which include a telegram from British Indians in the Transvaal to the Secretary of State for the Colonies to the effect stated in the question. They have also received numerous representations from persons and bodies in other parts of South Africa and in India.

"(b) The Government of India are fully aware of the depth and intensity of public feeling which has been aroused in India and are grateful to the various bodies and individuals, representing so many classes and creeds in this country, who have taken so much trouble to keep them informed of the views taken of the legislation affecting Asiatics in the Transvaal.

"(c) The matter has received throughout the careful consideration of the Government of India. They are in full sympathy with the Indian subjects of His Majesty in whatever part of the world they may be, and though they are obviously not in a position to pronounce authoritatively on the merits of the situation in the Transvaal they have let no opportunity pass of keeping His Majesty's Government informed of the state of feeling in India with regard to that situation and of pleading the cause of the different sections of the Indian community in South Africa whenever it appeared that the status and privileges of Indian emigrants as subjects of the British Empire were affected.

"The Government of India have good reason to hope that negotiations now in progress will result in the removal of the just grievances of His Majesty's Indian subjects."

CORONERS (AMENDMENT) BILL.

The Hon'ble SIR HARVEY ADAMSON presented the Report of the Select Committee on the Bill further to amend the Coroners Act, 1871, and the Prisoners Act, 1900.

The Council adjourned to Friday, the 14th February, 1908.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 30th January 1908, based on the Indian Daily Weather Reports of the period.

A shallow area of low pressure began to move across northern India from Sind on the 24th, but it did not affect the weather until it reached north-east India on the 26th and then it gave rain chiefly along the eastern border and in north Burma; it had disappeared by the morning of the 30th. A depression entered Kashmir and the North-West Frontier Province on the 25th and moved rather rapidly eastward giving light precipitation in Kashmir, the Western Himalayas and in the Ludhiana and Sialkot districts on the 26th. On this date a fresh depression appeared over Turkish Arabia and advancing eastward reached north-west India on the 29th. By the following morning a deep secondary depression had developed in the central Punjab and pressure was very low in Kashmir, but no rain was reported from the plains stations except a light fall at Rawalpindi; in Kashmir, however, light to moderate precipitation occurred.

Burma.—The approach of the low pressure area from north-west India gave light rain in the north of the province on the 28th, 29th and 30th and cloud in Upper Burma during the last four days of the week. Skies were almost clear on the remaining days. Temperature was normal or in excess in Upper Burma except on the 30th and normal in Lower Burma.

North-east India including Orissa.—The depression from north-west India gave a few light falls of rain chiefly in Assam on the 27th, 28th and 29th. Skies were almost clear except during the period of rainfall. Temperature was in excess in Bihar on the 24th, it then rose and an excess was shown in part on the 27th and 28th which disappeared next day and was replaced by a defect on the 30th in the south-west of the division.

The United Provinces, Central India and the Central Provinces.—Light precipitation occurred at Chakrata and Dehra Dun on the 26th. Skies were clear or only lightly clouded. Temperature was higher than usual in parts of the division on the 26th, 27th and 28th and approximately normal during the rest of the week.

North-west India.—Weather was disturbed throughout the week in the extreme north where light precipitation occurred chiefly in Kashmir, and on the 26th precipitation extended eastwards along the Himalayas. Skies were more or less heavily overcast in Kashmir and on the 24th and 29th in Baluchistan. In the rest of the division they were clear except on the 24th, 29th and 30th when light to moderate cloud was reported from many stations. Temperature was generally above the average.

The Peninsula.—There was no rain and skies were clear or only lightly clouded. Temperature was approximately normal.

The rainfall of the week was light and confined chiefly to the hill districts of upper India, Eastern Bengal and Assam, and north Burma. For the whole period from 29th November to 30th January rainfall is 20 per cent or more in excess in Burma, the province of Bengal, the North-West Frontier Province, Sind, Gujarat, Mysore and on the North Madras Coast and is approximately normal in Eastern Bengal and Assam, Central India, West, and the adjoining divisions of Rajputana, East, and Central Provinces, West, and also in South Hyderabad and Malabar. In the remaining divisions in which rainfall is in defect, the deficiency is actually largest in South-east Madras 3·9" and Kashmir 1·2".

The following summarises the chief rainfall amounts of the week :

January 24th.	Sonemarg 1·80", Minimarg 0·80" and Peshawar 0·47".
" 26th.	Simla 0·40".
" 27th.	Sibsagar 1·00" and Sonemarg 1·30".
" 28th.	Bhamo 0·45" and Dibrugarh 0·60".
" 29th.	Bhamo 0·68", Barisal 0·69" and Chittagong 0·40".
" 30th.	Sonemarg 1·80", Minimarg 1·30", Srinagar 0·51" and Murrce 0·50".

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
25th January 1908.

Burma.—Slight rain fell in one district of Lower Burma and two of Upper Burma. Reaping of the winter rice crop is practically completed in Lower Burma; and threshing and winnowing are progressing generally. In Upper Burma reaping of the winter rice crop is going on and the cultivation of spring rice and of miscellaneous spring crops is in progress. Prospects of spring crops are generally fair in Upper Burma. The price of unhusked rice has fallen in four; and has risen in six districts.

Eastern Bengal and Assam.—Slight rain fell during the week in the Mymensingh and Assam Districts except Cachar, the Naga and Lushai Hills and Goalpara. Prospects of standing crops are fair to good. Preparation of land for early rice and jute has commenced. Pressing of sugarcane and gathering of mustard are going on. Pruning and hoeing of tea are in progress. Hoeing is interfered with in Lakhlumpur for want of rain. Harvesting of winter rice is nearly finished. Prices of common rice have risen in two; and have fallen in six districts. No scarcity is apprehended at present.

Bengal.—No rain was received in the Province throughout the week. The weather in Bihar was cold and cloudy in the beginning, but cleared up during the latter part of the week. In the rest of the Province it was seasonable. Harvesting of winter rice has been practically completed. Barley and gram sowings still continue in the Jehanabad subdivision of Gaya. The rain which fell during the last fortnight has proved beneficial to standing crops. More rain, however, is needed in the Bhabhua subdivision of Shahabad, in Muzaffarpur and Bhagalpur. Sugarcane-pressing is still in progress. Ploughing of lands for sugarcane and autumn crops has commenced in Nadia, Champaran, Purnea, Sambalpur, Ranchi and Palamau. Weeding of poppy is going on in Saran and early poppy is being gathered in Patna. Spring crops are reported to be generally good in Bihar, but prospects are not favourable in the Jamui subdivision of Monghyr, the Banka subdivision of Bhagalpur, the Araria subdivision of Purnea and in Midnapur, Nadia and Murshidabad. Extreme cold has damaged peas and *masur* in Shahabad. Insect pests are doing damage to spring paddy in Dhamnagar thana in Balasore. There is still a scarcity of water in places in Murshidabad. Insufficiency of fodder and water is reported from the flood-affected tracts of Balasore. The price of rice has risen in Chota Nagpur, Palamau excepted, in Hooghly, Nadia, Patna, Saran, Darbhanga and Darjeeling and also in Cooch Behar; and has fallen in Birbhum, Howrah, Jessore, Gaya, Bhagalpur, the Sonthal Parganas, Cuttack and Palamau. Food stocks are insufficient in Bankura, Nadia, Murshidabad, in the Deoghur and Pakaur subdivisions of the Sonthal Parganas and in Balasore, Ranchi and Palamau. Scarcity is apprehended in Nadia, in the Kandi subdivision of Murshidabad, the Bhabhua and Sasaram subdivisions of Shahabad, the Darauli and Manjhi thanas of Saran, the Jamui subdivision of Monghyr and in Ranchi and Palamau; also in Birbhum, Jessore and Gaya in the months of March and April. In Bankura 2,774 men, 1,524 women and 94 children, total 4,392, attended test-works. In Cuttack 512 persons were on test-works, and gratuitous relief was given to 1,482 men, 3,569 women and 3,861 children, total 8,912. In Balasore 164 persons were employed on test-works and 280 men, 1,368 women and 1,601 children, total 3,249, received gratuitous relief. In Puri there were 411 men and children on test-works, and 62 men, 125 women and 166 children, total 353, were given gratuitous relief. The total number of persons employed on test-works in Bengal was 5,479; and that of those in receipt of gratuitous relief was 12,514.

The report of the Feudatory States of Orissa for the week ending 18th January shows that the prospects of spring crops during that period were not very favourable. Fodder and water were sufficient and the condition of the agricultural stock was good.

United Provinces.—With two insignificant exceptions no rain fell during the week. Agricultural prospects have much improved. The injury reported to *sarson* and *arhar* from damp is slight. Late sown crops are germinating well. Further sowings of spring crops are reported in several places; and *sanwar* (Indian Horap) is being sown. Irrigation of spring crops has commenced. Spring crops and poppy are being weeded. Sugarcane is being pressed; and sowing for next year's sugarcane crop are being made. Markets are in general sufficiently stocked and importation of grain from the Punjab and Burma continues. Some shortage of stocks is reported from Chakrata. There is generally a sufficient demand for labour in the fields, but the demand is slackening. The condition of agricultural stock is fair, except in several places in Bahraich. Less valuable cattle are being killed for food, and the export of hides has increased. Fodder is dear and scarce, but in places grass, owing to the recent rain, is beginning to spring up.

The numbers on relief are increasing rapidly and will continue to do so. Famine has been declared in the Etawah district from the 24th January and gratuitous relief has been sanctioned in the remaining portions of the Benares, Cawnpore and Fatehpur Districts. The rise in prices has been checked though there has been no marked fall. The general condition of the people is still good; and of those on relief fair. A few wanderers have been noticed at Fyzabad and a few immigrants from Native States have again been noticed in Agra and Hamirpur, but there is no movement of people on a large scale. Relief measures are adequate and well in advance of pressure. Advances for aided works are being given in a number of districts. A fund for charitable relief in the United Provinces has been formed and committees appointed to administer it. 9,315 persons are on relief in the Balrampur Estate. The number of workers on Government relief are:—On works 231,099; dependents on works 71,179; on test-works 12,323; on gratuitous relief 157,430; in poor houses 5,535. Total on Government relief 477,566. Grand total on relief 486,881. Prices:—Almora 8½; elsewhere 8½ to 10 seers per rupee.

Punjab.—Light to moderate rain has fallen in all districts except Hissar, Rohtak, Gurgaon, Delhi, Ambala, Shahpur and Multan. Prices of food grains are falling in eight districts; are rising in four; and are still above scarcity rates except in Multan. Sowings of spring crops still continue in the central and submontane districts. Pressing of sugarcane and harvesting of *toria* continue. The condition of irrigated crops is good to average; and of unirrigated generally fair. The opium crop is average in Lahore and Amritsar. The outturn of sugarcane is average on the whole; the outturn of *toria* is good to average. Rats have done some damage to spring crops in parts of Lahore; and turnips have been damaged by drought in Jhang. Cattle are generally in good condition. In Sialkot cattle are suffering from overwork and want of fodder. Pasturage and fodder are scarce in Delhi, Sialkot, Gujranwala, Mianwali, Lyallpur, Jhang, Multan and in parts of Gurgaon, Ambala, Lahore, Shahpur and Rawalpindi. Green fodder is not procurable in Ferozepore and Sialkot. Sugarcane is being used as fodder in the latter district. The canal water supply was closed during the week in Delhi. 921 persons attended the famine test-works in the Gurgaon tahsil.

North-West Frontier Province.—Good rain fell during the week except in Dera Ismail Khan where only five cents were received in the Tank tehsil. The rain was very beneficial to standing crops. Standing crops both on irrigated and unirrigated lands are now in fair condition. Wheat is still being sown in Bannu. Pressing of sugarcane continues in Bannu. In Peshawar, owing to the rains, it has been stopped for the present. The water supply is abundant and irrigation from hill torrents and the Paharpur Canal continues in Dera Ismail Khan. Fodder is sufficient. Cattle are in good condition throughout the Province. The health of the people is good. Prices are falling owing to good rain and less exports down country. Prices are:—Wheat 8½ to 13; gram 10½ to 14; maize 12½ to 19½; and bajra 12½ to 13½ seers per rupee.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Prices:—Wheat is selling from 8½ to 13; and maize 10½ to 20 seers per rupee. The condition of standing crops is fair. Fodder is insufficient in Rambirsinghpura, Udhampur, Bhimber, Jasmirgarh, Kathua, Samba, Kotli, Basohli and Jammu tehsils.

Kashmir.—The weather was generally bright during the week except for the first two days when it was cloudy and partially rainy. Prices are almost stationary.

Rajputana.—Spring crops are doing well. The recent rain has made further sowings possible in parts of Bharatpur and Dholpur; chiefly tobacco and *sira*. The fodder and water supply are sufficient. Food stocks are adequate or are being imported. Prices have risen slightly in Marwar, Mewar, Jaipur, Kishangarh and Merwara; by half seer in Partabgarh; by about one seer in Jaisalmer; and by 1½ seers in the districts of Bikaner. They have fallen by about ¾ seer in Tonk; and slightly in Jhalawar and Ajmer. Although prices are high there is yet no distress and labour is not in demand except in isolated areas in Karauli and Banswara where ordinary Public Works have been opened. It is expected that a similar measure may be required before long in parts of Kishangarh and Ajmer also, but that a judicious extension of the Public Works programme will carry the people on till the spring crop is ripe for reaping.

Central India.—Rain nil. Harvesting of autumn crops has been completed in Bhopal. Threshing continued in Bhopawar. Irrigation of spring crops is in progress in Bhopal, Bundelkhand and Bhopawar. Prospects of spring crops are fair to good. The probable outturn is below average in Baghelkhand; and fair to good elsewhere. Agricultural stock is fair to good except in parts of Indore, Bhopal, Bhopawar and Sailana. Fodder is indifferent in Bhopal and Baghelkhand; and sufficient elsewhere. Prices of food grain continue high; they have fallen slightly in Jaora and Piploda; and are rising in Bhopawar. The condition of the opium crop is fair to good in Bhopawar and Malwa. The numbers on test and relief works are:—In Rewa, on works 54,118; on gratuitous relief 4,681; total 68,799. In Nagode, on works 3,995; on gratuitous relief 659; total 4,654. In Jaso, on works 621; on gratuitous relief 55; total 676. In Baraundha on works 253; on gratuitous relief nil. There is no change in the general situation, but the present position in Baghelkhand is by no means so serious as above figures would suggest.

Central Provinces.—Threshing and winnowing of autumn crops and picking of cotton are practically finished and there will be little agricultural employment till the spring crops are reaped. These crops are generally in good condition and fair in Seoni, Narsinghpur, Betul, Balaghat and the districts of Berar. Harvesting of the spring linseed and pulses has started in Narsinghpur, Hoshangabad, Nimar, Betul and Wardha. Spring crops have been slightly damaged by frost in Saugor, Jubbulpore, Mandla, Hoshangabad and Chhindwara. Wheat on inferior soil is withering in places in Hoshangabad and Nimar. Field embankments are being raised in Jubbulpore and in the Chhattisgarh districts; and land is being ploughed for the ensuing season in Saugor, Mandla, and Yeotmal. Labourers find sufficient employment everywhere. Fodder and water are sufficient but fodder is scarce in Yeotmal and Betul. The prices of staple food grains remained stationary in eight districts; and fluctuated elsewhere, showing no general tendency either to rise or to fall. All prices became easier in Damoh. Wheat and rice in Damoh, and *juar* in Akola became cheaper by one seer; *juar* in Nimar and Buldana, wheat in Balaghat, gram in Mandla, Betul and Akola, rose by one seer.

Feudatory States.—No rain fell during the week. Threshing and winnowing of autumn crops are almost completed. The condition of spring crops is generally good. Preparation of land for next sowings of autumn crops has been started in Raigarh and Sakti. No insufficiency of work for labourers is reported anywhere except from Kawardha and Khairagarh where test and Public Works have been opened. Fodder and water are adequate. Prices are rising in Kawardha and Chhuikhadan; elsewhere prices are stationary or fluctuate slightly.

The weekly report on the famine and scarcity is as follows:—Distress is increasing but slightly. Ordinary works and private works aided by *takavi* are still sufficient for requirements of labouring classes. Village works are sparingly resorted to in Damoh and the adjoining tracts of Jubbulpore. Kitchens for children have been opened in Damoh. Prices are mostly stationary but rather easier. In Damoh prices have fallen by 1 seer to 8½ seers per rupee. The condition of the people and the public health are good. Usual movement of labourers from autumn tracts to spring tracts in anticipation of the harvest is commencing. The numbers on relief are:—On village works 422; weavers 1,500; on gratuitous relief 2,332; total 4,254.

Bombay.—Standing spring crops are withering for want of moisture in parts of Thar and Parkar, Ahmedabad, the Panch Mahals, Kaira, the Deccan, Bijapur and Baroda; elsewhere crops are in good condition. Threshing of autumn crops is in progress in parts of the Upper Sind-Frontier, Thar and Parkar, Kaira, the Konkan, Khandesh, Nasik, Ahmednagar, Kathiawar and Palanpur. Cotton picking is progressing in parts of Hyderabad, the Panch Mahals, Kaira, Broach, Surat, Bijapur, Belgaum, Baroda and Kathiawar. The supply of fodder is adequate except in parts of Ahmedabad, Kaira, Sholapur and Baroda. Agricultural stock is generally in good condition and sufficient, except in parts of Ahmednagar, Poona, Sholapur and Satara. The supply of drinking water is sufficient, except in parts of Sholapur. Water for irrigation is insufficient in parts of Surat, the Deccan, Baroda, and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 38 to 52 per cent; in Gujarat 25 to 68 per cent; in the Konkan 22 to 33 per cent; in the Deccan 36 to 51 per cent; and in the Karnatak 25 to 46 per cent less than the normal. Prices are rising. Stocks of grain are generally adequate. The demand for labour is sufficient and wages are normal. Emigration from Ahmednagar, Sholapur and Bijapur continues. The cultivating and labouring classes are in fair condition. Six test-works are in progress in the Panch Mahals with 1,311 persons on relief on the last day of the week ending the 24th January. Works for the relief of hill tribes are being opened in West Khandesh.

Hyderabad.—The rainfall during the week was two cents. The cotton and castor seed crops in the Nalgunda District have benefited by the rain. Standing spring crops are in fair condition. Harvesting has commenced in places. Linseed crops are reported to be unsatisfactory in parts of Parbhani, Rander and Adilabad. There is a scarcity of water in 13 taluks; and of fodder in 34. Prices:—Wheat 5½; coarse rice 6½; and *juar* 11 seers per rupee. Yellow *juar* is selling in Hyderabad city at 12 seers per rupee, while the highest price in districts is 9 seers in four taluks.

Mysore.—Prices of food grains are steady. Standing crops are in good condition. Paddy and other crops are still being harvested. Prospects of the season are good but the want of rain is felt in parts of Chitaldrug. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient. Harvest prospects are good.

Madras.—The rainfall during the week was light though above average in Nellore; and *nil* elsewhere. Irrigation supplies are insufficient in parts of all districts except Guntur, Cuddapah, Chingleput, Coimbatore, Trichinopoly, Tinnevely, Malabar, South

Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary, Cuddapah, North Arcot, Tanjore and Madura are withering, and some in parts of Coimbatore require more rain. Harvests continue with outturn poor to normal. Pasture is generally sufficient except in parts of the Circars and the Deccan. Fodder is scanty in parts of Ganjam and Nellore. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in eight; and has risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in eight; and has risen in five. *Cholam* is stationary in six districts; has fallen in six; and has risen in two. *Cumbu* is stationary in four districts; has fallen in four; and has risen in seven. The public health is generally good. Prospects are fair generally but rain is required in parts of some districts. The condition of the labouring classes is good and employment procurable. Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

Nepal.—*Report for the quarter ending 15th January 1908.*—The rainfall in the Nepal valley for the period was 0.50 against 0.10 for the corresponding period in the previous year.

October 1907.—Pepper was gathered in, the outturn being good. Garlic and onions began to be sown. Lands began to be prepared for the spring crop.

November 1907.—Spring sowing has commenced both in the Nepal valley and in the Terai. Rice was harvested in the Terai, the outturn falling below the average. Oranges began to ripen in Nepal.

December 1907.—The first crop of potatoes was dug and the outturn was good. The Orange crop was plucked and was a very good one. Winter vegetables began to be sown in Nepal.

January 1908.—Fields are being prepared and the second crop of potatoes sown. Spring crops are doing well in the Nepal valley, but a scarcity of rain is being felt in the Terai. The health of live-stock is reported to be good. The market is well stocked and prices of food-grains continue normal.

No. 595-I. A.—Whereas His Highness the Maharaja of Mysore has ceded to the British Government the exclusive management of, and full jurisdiction over, the lands specified in the annexed schedule which are required for the purpose of locating the Indian Institute of Science.

In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to issue the following orders:—

I.—From the date of this Notification the lands specified in the annexed schedule shall be deemed to be and to form a part of the Civil and Military Station of Bangalore.

II.—All laws for the time being in force in the Civil and Military Station of Bangalore shall be deemed to be in force in the aforesaid lands.

Schedule referred to above.

The lands comprised within the boundaries defined below and forming part of the catchment area of Sankey's Reservoir, Bangalore.

The boundary line on the east commences from the point where the nulla to the north of the Sankey's Reservoir Pontoon shed joins the tank bed, and thereafter runs northward along the Sankey's Reservoir bed, crosses the road leading from the Butts to the Tumkur road, and joins the feeder channel of the Reservoir just above this road. This channel thereafter becomes the boundary along the remaining portion of the east, and along the north and west, till it meets the old Tumkur road running behind the Maharaja's Mills. The boundary to the south is the continuation of the road along Sankey's Reservoir to the junction of the present Tumkur road and from thence along the proposed road to meet the old Tumkur road.

No. 596-I. A.—In exercise of the powers conferred by section 6 of the Bangalore Municipal Law, 1897, the Governor-General in Council is pleased to direct that the lands specified in the schedule to the Notification of the Government of India in the Foreign Department, No. 595 I. A., dated the 7th February 1908, shall be exempt from the operation of all provisions of the said Law except sections 1 to 4 and 6, and of the rules and bye-laws issued thereunder.

No. 597-I. A.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to apply to the Civil and Military Station of Bangalore the provisions, so far as they may be suitable, of the Charitable Endowments Act, 1890 (VI of 1890).

Provided that references to "British India" and "the Local Government" shall be construed as referring to the said Civil and Military Station and the Governor General in Council, respectively.

Provided further that for the purpose of facilitating the application of the enactment hereby applied, any court in the said Civil and Military Station may construe them with such alterations not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court.

RESOLUTION.

The 5th February 1908.

No. 1194—1198-46.—The Governor General in Council is pleased to sanction, with effect from the 1st April 1908, the following additions to and alterations in the rules for the guidance of depositors in the Post Office Savings Bank published with the resolution of the Government of India in this Department, No. 509, dated the 11th March 1905, as subsequently amended :—

(a) For the words "close an account it was not intended" in the last two lines of rule 2, the following shall be substituted :—

"close accounts or, in the case of accounts opened on behalf of minors, to stop the receipt of further deposits, should he have reason to believe that the accounts are being used for a purpose for which the Savings Bank was not intended".

(b) The following shall be added to rule 6 :—

"**NOTE.**—If, through any cause, an account has been opened in contravention of the provisions of this rule, the depositor shall not be entitled to claim interest on the account, and the Comptroller, Post Office, may require him to close it at once".

(c) The existing note to rule 26 shall be numbered 1, and the following additional note shall be inserted :—

"**NOTE 2.**—In the case of withdrawals made from the accounts of female depositors by their authorised agents under rule 19, the agent must sign the following certificate on the application for withdrawal :— 'Certified that the depositor is on this day alive and sane'".

(d) The following shall be substituted for rule 28 :—

"The amount to be withdrawn will be entered in the pass-book and a fresh balance struck, as in the case of a deposit, against the initials of the postmaster and an impression of the date stamp of the office. The

amount will then be paid to the depositor or to the person presenting the pass-book and application, and his receipt taken, in all cases free of stamp duty on the warrant of payment".

(e) For rule 29 and the note there the following shall be substituted :—

" 29 (1). The payment of a withdrawal at a sub post office is subject to the condition that funds are available in the office. If funds are not available, they will be obtained as soon as possible. In such a case the depositor will be informed of the date on which he should come to the post office to receive payment, and he will retain his pass-book. The amount will be paid on presentation of the pass-book on the date mentioned or any subsequent date within one week from that date.

" (2). Every application for a withdrawal at a branch post office will be sent to the head or sub office to which the branch office is subordinate, for a warrant of payment. The depositor will be informed of the date on which he should come to the branch office to receive payment and he will retain his pass-book. The amount will be paid on presentation of the pass-book on the date mentioned or any subsequent date within one week from that date.

" (3). Payment at sub and branch offices will be made to the depositor or other person presenting the pass-book under the conditions laid down in rule 26 (2), and his receipt will be taken, in all cases free of stamp duty, on the warrant of payment. The transaction will be entered in the pass-book against the initials of the sub or branch postmaster and an impression of the date stamp of the office.

" **NOTE.**—In the case of an application to withdraw from (a) a minor's account, (b) a security deposit account, (c) any of the conjoint accounts specified in rule 44, payment cannot, in any circumstances, be made until a warrant of payment is received from the head office".

(f) For the words "according to the tables appended to these rules, in which all fractions of a pie are discarded" in lines 7 and 8 of rule 30, the words "to the nearest pie" shall be substituted; and the foot-note to that rule, beginning "owing to the facts" and ending "is 9 pies" shall be expunged.

(g) In rule 33 for "rule 34" in the last line of clause (1) "rules 34 and 34A" shall be substituted, and the words "even when the sub-office for ordinary withdrawals" in the last two lines of clause (2) shall be expunged.

(h) The following shall be added below rule 34 :—

" **NOTE.**—In these cases interest (if any is payable) on deposits subject to six months' notice of withdrawal will be calculated at the higher rate allowed on such deposits".

(i) Below rule 344 the following shall be added :—

" **NOTE.**—The note below rule 34 applies also to this rule".

(j) The following shall be added to the note below rule 37 :—

"In these cases interest on deposits subject to six months' notice of withdrawal will be calculated at the higher rate allowed on such deposits".

(k) In rule 42, clause (k), for the words "twelve consecutive months" in line 1, the words "a calendar month" shall be substituted, and in place of the amount "Rs. 2,000" in the second line "Rs. 1,000" shall be entered.

(l) In rule 44, clause (e), for the words "twelve consecutive months" in the second line, the words "a calendar month" shall be substituted, and the amount "Rs. 2,000" in the third line shall be altered to "Rs. 1,000".

(m) In rule 45, clause (c), the words "and either at call or subject to six months' notice of withdrawal" shall be expunged, and the words "deposits in security deposit accounts are allowed only at call" shall be substituted.

n. The interest table. Nos. I and II for deposits at call, and deposits subject to six months' notice of withdrawal appended to the rules shall be cancelled.

Order.—Ordered that a copy of the Resolution be forwarded to the Finance Department, the Director General of the Post Office of India, the Comptroller and Auditor General and the Comptroller, Post Office.

Ordered also that the Resolution be published in the *Gazette of India*.

G. M. PORTER, Colonel, R. E.,
Master of the Mint.

REVENUE DEPARTMENT.

Bombay Castle, the 9th January 1908.

No. 253-A.—The following Agreement executed on behalf of the Hosur Gold Mines of Dhárwár, Limited, of the one part, and the Secretary of State for India in Council of the other part, under section 41 of the Land Acquisition Act, No. I of 1894, is hereby published for general information under section 42 of that Act :—

The Hosur Gold Mines of Dhárwár, Limited.

AGREEMENT made this 24th day of July One thousand nine hundred and seven, between THE HOSUR GOLD MINES OF DHÁRWAR, LIMITED, hereinafter called the Company of the one part, and the SECRETARY OF STATE FOR INDIA IN COUNCIL hereinafter called the Secretary of State of the other part.

WHEREAS for the purpose of the construction of a road from Hosur to Kabulayatkatti passing through Kabulayatkatti, Shirunj and Hosur, lands in the Gadag Taluka in the Dhárwár District, the Company have applied to the Local Government to put in force the provisions of the Land Acquisition Act, 1894 (I of 1894), in order to acquire for the Company certain lands in the schedule hereto more particularly mentioned and described. AND WHEREAS the Local Government having held an enquiry and being satisfied that the proposed acquisition is needed for the construction of the said work and that such work is likely to prove useful to the public has pursuant to section 41 of the said Act required the Company to enter into such agreement with the Secretary of State as is herein contained. NOW THESE PRESENTS witness and it is hereby agreed between and by the Company for and on behalf of themselves and their successors and assigns on the one hand and the Secretary of State for India in Council for and on behalf of himself and his successors on the other hand as follows :—

1. That the Company shall and will pay to the Secretary of State through the Local Government the cost as determined by the Local Government of the acquisition of each of the several lands specified in the schedule hereto as and when possession of the same shall respectively be handed over by the Local Government to the Company.
2. That on such payment as aforesaid being made the land in respect whereof the same shall be so made shall be transferred to and legally vested in the Company subject however to the provisions of clause 3 of these presents.
 That the said lands when so transferred to and vested in the Company shall be held
 • by the Company as their own property and used for the purposes of their undertaking and in case at any time the said lands or any of them or any part thereof shall no longer be required for the purpose of their undertaking the Company shall be at liberty to sell the same or any part thereof subject to their first offering the same through the Local Government to the occupants of the lands, through which the road runs, at a price not exceeding the price which the Company shall fix as their minimum limit for sale.
4. The work of constructing the road shall be completed within twelve months from the date on which the possession of the whole of the lands specified in the schedule shall be handed over by the Local Government to the Company. The said road shall be maintained in a state of efficient repair by the Company at their own cost.
5. The Public (with the exception of other Companies which may be formed for gold mining or other purposes) shall be entitled to use the said road free of any toll or charge for the same by the Company. Any such other Company may use the said road on payment of a toll of four annas per ton of any material transported thereon or of two annas per bullock cart whether laden or unladen, passing thereon, or of any consolidated amount that may be agreed on by the Company and any such other Company as aforesaid.

IN WITNESS WHEREOF the common seal of the Hosur Gold Mines of Dhárwár Limited, has been hereunto affixed in the presence of two of the Directors and the Secretary of the said Company who have hereunto signed their names and one of the Secretaries to the Government of Bombay for and on behalf of the Secretary of State for India in Council has hereunto set his hand the day and year first above written.

Sealed with the Common Seal of the Hosur Gold Mines of Dhárwár, Limited, in the presence of two of the Directors and the Secretary of the said Company who in token of their presence have hereunto signed their names.

No. 254-A.—The following Agreement executed on behalf of the Hosur Gold Mines Dhárwár, Limited, of the one part and the Secretary of State for India in Council of the other part, under section 41 of the Land Acquisition Act, No. I of 1894, is hereby published for general information under section 42 of that Act:—

The Hosur Gold Mines of Dhárwár, Limited.

Agreement made this 24th day of July One thousand nine hundred and seven, between THE HOSUR GOLD MINES OF DHÁRWÁR, LIMITED, herein-after called the Company of the one part, and THE SECRETARY OF STATE FOR INDIA IN COUNCIL hereinafter called the SECRETARY OF STATE of the other part.

WHEREAS for the purpose of the construction of a road from Hosur Block to Palla-Bádám Road through Hosur and Kanvi lands in the Gadag Táluka in the Dhárwár District, the Company have applied to the Local Government to put in force the provisions of the Land Acquisition Act, 1894 (I of 1894), in order to acquire for the Company certain lands in the schedule hereto more particularly mentioned and described. AND WHEREAS the Local Government having held an enquiry and being satisfied that the proposed acquisition is needed for the construction of the said work and that such work is likely to prove useful to the public has pursuant to section 41 of the said Act required the Company to enter into such agreement with the Secretary of State as is herein contained NOW THESE PRESENTS witness and it is hereby agreed between and by the Company for and of behalf of themselves and their successors and assigns on the one hand and the Secretary of State for India in Council for and on behalf of himself and his successors on the other hand as follows:—

1. That the Company shall and will pay to the Secretary of State through the Local Government the cost as determined by the Local Government of the acquisition of each of the several lands specified in the schedule hereto as and when possession of the same shall respectively be handed over by the Local Government to the Company.
2. That on such payment as aforesaid being made the land in respect whereof the same shall be so made shall be transferred to and legally vested in the Company subject however to the provisions of clause 3 of these presents.

3. That the said lands when so transferred to and vested in the Company shall be held by the Company as their own property and used for the purposes of their undertaking and in case at any time the said lands or any of them or any part thereof shall no longer be required for the purpose of their undertaking the Company shall be at liberty to sell the same or any part thereof subject to their first offering same through the Local Government to the occupants of the lands through which the road runs at a price not exceeding the price which the Company shall fix as their minimum limit for sale.
4. The work of constructing the said road shall be completed within six months from the date on which possession of the whole of the lands specified in the schedule shall be handed over by the Local Government to the Company. The said road shall be maintained in a state of efficient repair by the Company at their own cost.
5. The public (with the exception of other Companies which may be formed for gold mining and other purposes) shall be entitled to use the said road free of any toll or charge for the same by the Company. Any such other Company may use the said road on payment of a toll of four annas per ton of any material transported thereon or of two annas per bullock cart whether laden or unladen passing thereon or of any consolidated amount that may be agreed on by the Company and any other Company as aforesaid.

In witness whereof the common seal of the HOSUR GOLD MINES OF DHARWAR, LIMITED, has been hereunto affixed in the presence of two of the Directors and the Secretary of the said Company who have hereunto signed their names and one of the Secretaries to the Government of Bombay for and on behalf of the Secretary of State for India in Council has hereunto set his hand the day and year first above written.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 6th February 1908, based on the Indian Daily Weather Reports of the period.

The secondary depression which formed in the central Punjab on the 30th January became merged in a fresh depression, which entered north-west India on the 31st and then travelled slowly towards the Simla hills, where it broke up on the 2nd February. The original depression from Persia crossed northern India and disappeared on the 4th. The precipitation associated with the disturbance was confined chiefly to the Himalayas and sub-montane districts, and was heavy in the north-west of the United Provinces and the east of the Punjab: no rain fell in the Agra, Mainpuri, Bareilly, Sirsa, Lahore and Montgomery districts, but in the rest of the United Provinces and of the Punjab and in north-east India (excluding Deltaic Bengal) and Orissa rainfall was light to moderate in amount. There was also light rain in the east of Central India, while in Kashmir the snowfall was moderately heavy. On the last two days of the week rainfall varying from light to heavy occurred over the tract of country extending from south Behar and the south-east of the United Provinces across Chota Nagpur and the Central Provinces to north Hyderabad.

Burma.—There was no rain. Skies were clear or only lightly clouded, and temperature was approximately normal.

North-east India, including Orissa.—The depression from Persia gave nearly general rain in the northern half of the division on the 1st and 2nd and a few falls on the 3rd. Rain again occurred on the 5th and 6th in Chota Nagpur and Bihar. Skies were moderately to heavily clouded, and on most days of the week temperature was higher than usual, especially at night.

The United Provinces, Central India and the Central Provinces.—The disturbance in northern India was the cause of rain in the United Provinces from the 31st January to the 3rd February, and on the 1st and 2nd in the east of Central India; rain again fell on the 5th and 6th in the eastern districts of the division, especially in the east of the Central Provinces. Skies were moderately to heavily overcast in the regions affected by the disturbances and clear or only lightly clouded elsewhere. Temperature was chiefly determined by the rainfall and cloud. The maximum fell rapidly on the 2nd in the United Provinces and Central India and was in moderate to large defect for the rest of the week. The minimum was in excess until the skies cleared, when it also fell and was in defect in the west of Central India, and generally normal elsewhere.

North-west India.—The secondary depression in the Punjab occasioned precipitation varying from light to heavy in the hills and sub-montane districts and in Kashmir up to the 2nd February; light falls also occurred at Delhi, Multan and Jaipur. During the rest of the week weather was dry, except for snow in parts of Kashmir on the 6th. Skies were clear or only lightly clouded over the greater part of the division, but were heavily overcast in the hills and sub-montane districts during the first three days of the week; on the 4th heavy cloud appeared in east Baluchistan and on the 5th in the extreme north of India. Temperature was higher than usual on the 31st, but in the rear of the disturbance temperature fell and weather was cooler than usual from the 2nd February to the end of the week.

The Peninsula.—Nizamabad, Bellary and Cochin had light falls of rain. Cloud spread over the greater part of the division on the 5th and 6th, but on the remaining days of the week skies were almost clear. Temperature was normal or in excess, except from the 3rd to the 6th, when the low temperature conditions in north-west India extended to the north-western districts.

During the past week rain fell in all the divisions of north-east India excluding Orissa, in the United Provinces, the east of Central India, the Central Provinces, the Punjab, the North-west Frontier Province, Kashmir, north Hyderabad and the Madras Deccan, but none fell in Baluchistan. The rainfall for the whole period, from the 29th November to the 6th February, is twenty per cent. or more in defect in west Rajputana, Baluchistan, the Konkan, the Bombay Deccan, Hyderabad, Berar, the east of the Central Provinces and South-east Madras, and was normal or in excess elsewhere. The deficiency amounts to four inches in South-east Madras, and to slightly more than an inch in Baluchistan and Kashmir: in all three of these areas only about half the average amount of precipitation has occurred.

The following summarises the most important precipitation of the week, as reported at 8 hrs.:

January	31st.	Sonemarg 2'11" and Minimarg 1'07".
February	1st.	Bogra 1'28", Benares 0'80", Dehra Dun 1'28", Muktesar 1'20", Simla 1'67", Khushab 1'30" and Murree 0'95"
"	2nd.	Bogra 1'24", Hazaribagh 0'78", Dehra Dun 3'22", Roorkee 1'95", Simla 2'50" and Rawalpindi 0'80".
"	3rd.	Dehra Dun 1'35".
"	5th.	Raipur 1'17", Chanda 0'76" and Nizamabad 0'75".
"	6th.	Hazaribagh 1'29", Gaya 0'91", Minimarg 1'70", Pendra 1'32", Raipur 1'34", Chanda 0'82" and Nizamabad 0'71".

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 1st February 1908.

Burma.—Slight showers fell during the week in one district of Lower Burma; in six districts of Upper Burma and in the northern Shan States and Chin Hills. Reaping of the winter rice crop has now been completed throughout Lower Burma and in most districts of Upper Burma. Threshing and winnowing are progressing satisfactorily. In the Upper Province transplanting of spring rice and cultivation of miscellaneous spring crops continue; these crops promise fairly well. The price of unhusked rice has risen in one; and has fallen in four districts.

Eastern Bengal and Assam.—Slight to moderate rain fell in all districts. Prospects of standing crops are fair to good. Preparation of land for early rice and jute, pressing of sugarcane and gathering of mustard are going on. Pruning, hoeing and manuring of tea are in progress. Harvesting of winter rice is practically finished. Prices of common rice have risen in five; and have fallen in three districts. No scarcity is apprehended at present.

Bengal.—Throughout the Province except in Orissa there has been another fall of rain. Lower Bengal and Chota Nagpur received half an inch or less. Most of the Bihar districts received an inch, and in consequence the prospects of the spring crop sown have greatly improved. There is still some sugarcane-pressing going on, and lands are being ploughed for the autumn crop. Spring crops are being weeded after the recent rain. In Patna the poppy crop is in bud. In North Bihar some indigo sowings have commenced and the land is being prepared for the new sugarcane crop. In Orissa, potatoes, *kulthi* and some spring crops are being harvested; *dalia* rice, tobacco, cotton and vegetables are doing well. Stocks are said to be insufficient in Nadia, Murshidabad, the Deoghur subdivision of the Sonthal Parganas, Balasore, Ranchi and Palamau. Prices are stationary. Fodder and water are scarce in some parts of Balasore and Murshidabad. Scarcity is apprehended in Nadia, the Darauli and Manjhi thanas of Saran, Ranchi and Palamau and later on in Birbhum, Jessore, Gaya and Manbhum. People are migrating from Ranchi to other districts in search of work. Test-works have been opened in Bankura, where the average daily attendance is 1,505. Some relief-work has been started in Shahabad: 659 persons attended test-works in Cuttack; figures for test-works in Balasore and Puri are not given, but are small: 13,028 people in Orissa received gratuitous relief.

United Provinces.—Rain fell in all districts except Muttra. It was heaviest in the Himalayan, Western, Submontane and South-eastern districts; and slight in the Agra division. More rain has fallen since the end of the week. Crop prospects are generally improved and the rain will be very beneficial for sowing of sugarcane. Prices remain above scarcity rates; they have risen in Jaunpur; but have fallen slightly in 20 districts. Markets are adequately stocked and importation of grain continues. Prospects of the spring crops sown are good. Wheat and barley are coming into ear. The spring crop is being weeded and irrigated where necessary. Sugarcane-pressing and ploughing for sugarcane continue. Poppy is healthy and promises well. Sanwar and extra crops are being sown. Condition of agricultural stock is fair. Fodder is dear and scarce though new grass is coming up.

The weekly report on the famine and scarcities is as follows:—Relief operations continue to expand. Famine has been declared in the Bara Banki and Sultanpur districts from 3rd February; and gratuitous relief sanctioned in Farrukhabad and in hilly and submontane tracts of Dehra Dun. The demand for field labour has slackened and numbers on relief show a steady increase. The general condition of the people is good and of those on works fair. There is some increase in crime but no noticeable wandering. Basti reports increased emigration to colonies. Private charity is active and relief measures are adequate. Private works have been started in several districts. In the Balrampur estates 7,334 persons are on works; and 3,309 on gratuitous relief. Aided works are in operation in eight districts, and are being started elsewhere. The numbers on Government relief are:—workers on public works 2,86,666; on aided works 20,977; on test works 16,029; dependants on works 1,01,245; on gratuitous relief 1,85,238; in poorhouses 6,070; total 6,16,225. The largest total figures are:—Bahraich 82,869; Gonda 80,806; Mirzapur 59,561; Allahabad 57,866; Jalaun 56,153; Banda 53,551; and Kheri 35,581. Prices—Jaunpur 8½ and Almora 8½; elsewhere 8½ to 10½ seers per rupee.

Punjab.—Light to moderate rain has been received in all districts except Lyallpur and Multan. Prices of food grains are falling in ten; and are rising in two districts but are still above scarcity rates except in Multan. Sowings of spring crops still continue in a few districts and those of extra spring crops have commenced in Multan.

Pressing of sugarcane is in progress. *Toria* is being threshed in Lyallpur. The condition of irrigated crops is good to average; and of unirrigated average to below average. The opium crop is average in Lahore and Amritsar, the outturn of sugarcane and *toria* is average. The recent rain has benefited standing crops. Spring crops have been slightly damaged by rats in parts of Lahore; *tela* (green-fly) has damaged *toria* and rapeseed in Gujranwala and turnips in Jhang; hailstones have injured *toria* and *senji* in Amritsar. Cattle are generally in good condition except in Sialkot where they are weak from overwork and want of fodder. Fodder is scarce in Delhi, Sialkot, Gujranwala, Mianwali, Lyallpur, Jhang, Multan and parts of Gurgaon, Ambala, Shahpur and Rawalpindi. Green fodder is scarce in Ferozepore and Lahore. Sugarcane is being used as fodder in Sialkot. The canal water supply is insufficient in Delhi. 1,223 persons attended the famine test works in the Gurgaon tahsil.

North-West Frontier Province.—Rain fell throughout the province ranging from seven cents in Kulachi in the Dera Ismail Khan District to 2·31 inches in Hazara. The rain was very beneficial to unirrigated crops. The condition of standing crops is good in Bannu; and fair elsewhere. Spring sowings are finished throughout the province. Hail fell in the Dera Tahsil of Dera Ismail Khan but did no damage. Pressing of sugarcane is still in progress in Pannu but has been stopped temporarily in Peshawar owing to the recent rains. In Peshawar 3rds of the sugarcane crops are still in the field and the outturn is likely to be very poor in quality and value. The water supply is abundant. Extension of irrigation from hill torrents and some irrigation from the Paharpur canal continue in Dera Ismail Khan. Fodder is sufficient. The condition of cattle is good except in one village of Dera Ismail Khan. The health of the people is good. Prices are stationary in Bannu; and are falling elsewhere. Prices:—wheat 9½ to 12½; grain 11½ to 15; maize 13 ¼ to 18½; and bajra 12½ to 15 seers per rupee.

Jammu.—Rain good. Prices are stationary. Prices:—wheat is selling from 8½ to 13; and maize from 10 to 20 seers per rupee. The condition of standing crops is fair. Fodder is still insufficient in Jammu, Bhimber, Sambha, Akhnur, Kathua and Basohli Tehsils.

Kashmir.—The weather is snowy and extremely cold. Prices are almost unchanged.

Rajputana.—The rainfall in cents was:—Alwar a maximum of 81; Beawar 40; one district of Banswara 30; Patabgarh 20; and Jaipur 14. There were also showers in Ajmer, Kishangarh and two districts of Bharatpur. Standing crops are in good condition. Extra sowings are in progress in Dholpur. Fodder is sufficient. Food stocks are being imported where necessary. Prices continue high and have risen by one seer in Tonk; and by half seer in Shahpura, Kotah and the districts of Bikaner; have fallen by ¼ seer in Kishangarh and by half seer in Alwar; and slightly in Dholpur and Ajmer. In other respects the general situation remains practically unaltered. What little distress is being caused by high prices is being met at present by extension of ordinary public works.

Central India.—Slight rain fell during the week in Bundelkhand and Bhopawar. Irrigation and weeding of spring crops continue in Gwalior, Bhopal, Malwa and Bhopawar. Harvesting of gram is in progress in parts of Bhopawar and Malwa. Prospects of spring crops are fair to good. The probable outturn is below average in Baghelkhand; and fair to good elsewhere. Crops have been slightly damaged by rats in parts of Gwalior and Dhar; and by frost in Bhilsa. Agricultural stock is fair to good except in parts of Gwalior; Bhopal, Malwa and Bhopawar. Fodder is indifferent in Bhopal; and sufficient elsewhere. Prices of food grains continue high; and are rising in Bhopal. Opium is good in Gwalior and Bhopawar. The numbers on test and relief works are:—In Nagode on works 5,394; on gratuitous relief 915; total 6,309. In Jaso on works 859; on gratuitous relief 92; total 951. In Maihar on works 1,595; on gratuitous relief 150; total 1,745. In Bhaisunda on works 418; on gratuitous relief *nil*. In Sohawal on works 65. In Kothi on works 851. In Rewa on works 81,989; on gratuitous relief 6,017; total 88,006. In Baraundu on works 2,701; on gratuitous relief *nil*. There is no change in the general situation.

Central Provinces.—The weather is warm and cloudy. During the week light showers not exceeding 25 cents were received at head-quarters of Mandla and Seoni; some scattered showers were received in outlying tracts of the Damoh, Jabulpore and Hoshangabad districts. In the Hatta tahsil of the Damoh District hail fell but no damage is reported. Threshing and winnowing of autumn crops and picking of cotton are completed. Spring crops, except linseed, are generally in good condition and fair in Seoni, Balaghat and the districts of Berar. Harvesting of the spring linseed and pulses is in progress in Narsingpur, Hoshangabad, Nimar, Betul, Nagpur and Chanda. Spring crops have been slightly damaged by frost in Saugor, Jabulpore and Seoni; and by cloudy weather in Bhandara, Bilaspur and Chhindwara. Field embankments are being raised in Seoni and in the Chhattisgarh Districts; and land is being ploughed for the ensuing season in Mandla,

Nimar, Buldana, Yeotmal and the Vindhyan districts. Work for labourers is sufficient. Fodder and water are adequate, but fodder is scarce in Yeotmal and Narsingpur and is getting dear in Saugor, Hoshangabad and Betul. The price of staple food grains remained stationary in nine districts. Wheat became cheaper in Jubbulpore and dearer in Mandla by $\frac{1}{4}$ seer; the price of *juar* rose by $2\frac{1}{4}$ seers in Chanda, and by $\frac{1}{4}$ seer in Wardha.

Fendatory States.—Only Sakti had 44 cents of rain during the week. Threshing and winnowing of autumn crops are practically finished. Spring crops are generally in good condition. State works have been opened in Khairagarh and Kawardha to meet the demands for employment. Fodder and water are sufficient. The price of wheat rose in Kawardha by $1\frac{1}{4}$ seers; and that of rice fell by 2 seers in Raigarh. Wheat and rice in Sakti, and rice in Bastar became cheaper by 1 seer; elsewhere prices remained stationary.

The weekly report on the famine and scarcity is as follows :—Relief is now being given in four districts. Employment on public contract works and on private works is still ample. A few gangs of wanderers from Central India are reported in Jubbulpore. Prices are fluctuating; the dearest price is 7 seers per rupee in the Jubbulpore district. Some damage from frost to grain and linseed is reported but prospects of spring crops are generally fair. The condition of the people is good. Fodder and water are generally sufficient. The public health is good. The numbers on relief are :—on village works 1,765; weavers 1,650; on gratuitous relief 2,155; total 5,570.

Bombay.—Slight rain fell during the week in parts of Ahmedabad, Surat, Colaba, Nasik and Satara. Standing spring crops are withering for want of moisture in parts of Thar and Parkar, Ahmedabad, Kaira, the Deccan, Bijapur and Baroda; elsewhere crops are in good condition. Threshing of autumn crops is in progress in parts of the Upper Sind Frontier, Thar and Parkar, Kaira, the Konkan, Khandesh, Nasik, Kathiawar and Palanpur. Cotton picking is progressing in parts of Hyderabad, Kaira, Broach, Surat, Bijapur, Belgaum, Baroda and Kathiawar. The supply of fodder is adequate except in parts of Ahmedabad, Kaira, Sholapur and Baroda. Agricultural stock is generally in good condition and sufficient except in parts of Ahmednagar, Poona, Sholapur and Cutch. The supply of drinking water is sufficient except in parts of Sholapur. Water for irrigation is insufficient in parts of Surat, the Deccan, Baroda and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 38 to 52 per cent; in Gujarat 30 to 68 per cent; in the Konkan 22 to 33 per cent.; in the Deccan 36 to 49 per cent.; and in the Karnatak 22 to 48 per cent. less than the normal. Stocks of grain generally are adequate. The demand for labour is sufficient and wages are normal. Emigration from Ahmednagar, Sholapur and Bijapur continues. The cultivating and labouring classes are in fair condition. Six test works are in progress in the Panch Mahals with 2,379 persons on relief on the last day of week ending the 26th January 1908.

Hyderabad.—No rain fell during the week. The weather is unsettled. Standing spring crops are generally in fair condition and good in parts in some places. Harvesting is in progress. Late rice sowings continue in a few tracts and lands are being prepared for next season. Water is scarce in 18 talukas; and fodder in 43. Dearthness of grain is an unfavourable feature of the year and affects the labouring classes. Labour is well paid for and not easily obtained. There is no distress. Prices :—wheat $5\frac{1}{4}$; coarse rice $6\frac{1}{4}$; and *juar* 12 seers per rupee. Yellow *juar* is selling in Hyderabad city at 12 seers per rupee. The highest price in districts is 9 seers in 5 talukas.

Mysore.—Prices of food grains are generally steady. Standing crops are in good condition and harvesting operations are in progress. Prospects of the season are good, but want of rain is felt in parts of Chitaldrug. Cattle are generally healthy. Water and fodder are available, except in parts of Tumkur where they are diminishing.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient. Harvest prospects are good.

Madras.—Rainfall *nil*. Irrigation supplies are insufficient in parts of all districts, except Guntur, Cuddapah, Chingleput, Coimbatore, Trichinopoly, Tinnevely, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Tanjore and Madura are withering; and some in parts of Bellary, North Arcot and Coimbatore require more rain. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of the Circars and the Deccan. Fodder is scanty in parts of Ganjam and Nellore. The condition of cattle is generally good. The price of rice is stationary in seventeen districts; has fallen in three; and has risen in three. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eight districts; has fallen in seven; and has risen in six. *Cholam* is stationary in five districts; has fallen in five; and has risen in four. *Cumbu* is stationary in six districts; has fallen in four; and has risen in five. The public health is generally good. Prospects are fair generally

but rain is required in parts of some districts. The condition of the labouring classes is good and employment procurable. Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

THE GRAND EXHIBITION OF JAPAN TO BE HELD AT TOKYO IN 1912.

RESOLUTION.

No. 1375—1395-1., Calcutta, the 7th February 1908.

The general regulations which have heretofore been adopted for the Grand Exhibition of Japan to be held in Tokyo in 1912 are as follows: (The location of different exhibition buildings and allotment of space, as well as the rules and regulations for exhibits, will be communicated as soon as they are finally decided upon).

The location of the Exhibition will be the Aoyama Parade Ground in the city of Tokyo, 1st, 2nd and 3rd blocks of Kitamachi, Aoyama of the said city about three quarters of the Imperial Estate of Yoyogi, Toyotama District, Tokyo Prefecture, and that portion of the lot, connecting the said Parade Ground and the Imperial Estate, along which the formerly called Kōbu Railway runs.

All foreign Governments and peoples are invited to participate in this exhibition. For the instalment of foreign exhibits, belonging to the five different departments of Education, Science, Machinery, Electricity, and Manufactured Goods, space will be allotted in the exhibition buildings erected by the Administration Office of the Grand Exhibition of Japan. For exhibits other than those above designated, any nation may erect a separate building at its own expense. No charge will be made for space allotted for such building.

All articles which shall be imported from foreign countries for the sole purpose of exhibition, and not used for commercial purposes in this country, and all materials for the buildings of foreign Governments, or special exhibition buildings and decorations thereof, will be admitted free of duty. It is proposed to make a special arrangement concerning articles which shall be imported from foreign countries for sale at bazaars, or things intended for amusement and shows which are liable to customs duty, and a bill to that effect will be introduced in the next session of the Diet.

ORDERED that the foregoing papers be	published in the Supplement to the <i>Gazette of India</i> for general information, and that copies

**REVIEW OF THE REPORTS ON THE ADMINISTRATION OF THE MINTS AND
ASSAY DEPARTMENTS AT CALCUTTA AND BOMBAY FOR THE YEAR 1906-07.**

RESOLUTION—By the Government of India, Finance Department
No. 701-A., dated Calcutta, the 5th February 1908.

**I.—WORKING OF THE MINTS AT CALCUTTA AND BOMBAY DURING THE
YEAR 1906-07.**

1. *Receipts of Gold.*—The tenders of gold by the public at the Mint exceeded in value those of the preceding twelve months by about two crores of rupees. The following statement compares the value and nature of the tenders with those of past years :—

YEAR.	CALCUTTA.				BOMBAY.				TOTAL.
	Value of sovereigns and half- sovereigns of current weight.	Value of light and uncurrent sovereigns and half- sovereigns.	Value of bullion.	Total.	Value of sovereigns and half- sovereigns of current weight.	Value of light and uncurrent sovereigns and half- sovereigns.	Value of bullion.	Total.	Total value of gold tendered.

1905-06 . .	3,05,72,790	1,08,555	1,04,485	3,07,85,830	1,43,81,790	2,40,028	6,59,424	1,52,81,342	4,60,67,072
1906-07 . .	4,96,38,547	7,79,963	...	5,04,18,510	1,45,20,000	5,840	1,87,422	1,47,13,262	6,51,31,772

The bullion received during the year under review consisted mainly of gold from Indian mines.

2. *Coinage of Silver.*—The silver coinage was as follows :—

	CALCUTTA.	BOMBAY.	TOTAL.
	Value in rupees.	Value in rupees.	Value in rupees.
Rupees	9,31,72,018	16,05,31,265	25,37,03,283
Half-rupees	15,18,054	2,00,002	17,18,056
Quarter-rupees	26,67,985	...	26,67,985
One-eighth rupees	27,68,081	...	27,68,081
TOTAL	10,01,26,138	16,07,31,267	26,08,57,405

The outturn of rupees during the year 1905-06 exceeded by $2\frac{1}{2}$ crores the maximum number previously turned out in any one year. The large figure then reached was exceeded during the year under review by more than $5\frac{1}{2}$ crores. A portion of this heavy coinage was required in connection

with the formation of the silver branch of the Gold Standard Reserve. This was built up from the profits on coinage during the course of the year to 600 lakhs of coined rupees, of which 200 lakhs are held at the Calcutta Mint and 400 lakhs at the Bombay Mint.

A portion of the coinage represented the re-coinage of 1835 and 1840 rupees and uncurrent coin, but by far the greater number of rupees coined were struck from bullion, this being for the most part purchased by the Secretary of State in England, but partly also through local banks. A small amount of coinage was undertaken on behalf of the Tonk Durbar, which has adopted British Indian silver currency in place of Muhammad Khani currency in the Sironj Pargana.

3. *Dollar Coinage*.—No dollars were coined during the year at either Mint.

4. *Copper Coinage*.—With effect from the 1st August 1906, when bronze coinage was introduced, copper coins ceased to be coined at the Mint for issue under the authority of the Governor General in Council. Bronze is coined at the Calcutta Mint only.

The copper and bronze coinage of the year consisted of pice, half-pice, pie-pieces, Straits Settlements cents and Ceylon cents and half cents, of the aggregate value of Rs. 28,95,038.

The net gain on copper and bronze coinage which passed into circulation during the year under review amounted to Rs. 12,44,311, as compared with Rs. 9,85,311, which was the gain on copper coinage in the preceding year.

5. *Operative Losses*.—

Silver.—The loss on silver coinage at the Calcutta Mint during the year amounted to 36 standard tolas of silver for each lakh laminated, after adjustment of all fictitious gains and losses. In the Bombay Mint, there was a loss of 37 tolas on silver coinage for each lakh laminated.

Copper.—In the Calcutta Mint, the net copper loss was 1303 per cent in the year 1906-07, as against 273 per cent in the previous year.

6. *Premelting*.—The bulk of the silver purchased was of a high touch, and was placed into direct alligation for standard meltings, as also were uncurrent silver coins received for re-coinage.

7. *Revenue and Expenditure*.—The revenue and expenditure (including interest on capital outlay and other *pro forma* charges) of the two Mints in 1906-07 compare as follows with the corresponding figures of the previous year :—

YEAR.	REVENUE			EXPENDITURE		
	Calcutta	Bombay.	Total.	Calcutta.	Bombay.	Total.
	R	R	R	R	R	R
1905-06 .	13,85,848	4,73,632	18,59,480	13,40,421	12,17,597	25,58,018
1906-07	19,72,088	30,78,792	50,50,880	16,24,230	13,42,630	29,73,860

Of the aggregate revenue of Rs. 50,50,880, the receipts of the Mints on account of the seignorage on silver for the rupee coinage amounted to Rs. 48,22,590.

The expenditure on salaries and establishments of the two Mints for the year under review compares as follows with the expenditure incurred during the year 1905-06 :—

	CALCUTTA MINT.			BOMBAY MINT.			BOTH MINTS.		
	1905-06.	1906-07.	Increase + or decrease — in 1906-07.	1905-06.	1906-07.	Increase + or decrease — in 1906-07.	1905-06	1906-07.	Increase + or decrease — in 1906-07.

The increase in the charges for temporary establishment and overtime work was due to the increased coinage of the year, and to the introduction of the bronze coinage, which was a new feature in the work of the Calcutta Mint.

8. *Miscellaneous Work*.—The amount of miscellaneous work done in the two Mints is shown in the table below :—

	CALCUTTA MINT.			BOMBAY MINT.			BOTH MINTS.		
	Cost of work done.	Amount realised.	Profit.	Cost of work done.	Amount realised.	Profit.	Cost of work done.	Amount realised.	Profit.

Medals and decorations were struck for the Army Department and for various public institutions, scales and weights were supplied to certain Government Departments, and some miscellaneous work was also undertaken for the public.

II.—WORKING OF THE ASSAY OFFICES AT CALCUTTA AND BOMBAY DURING THE YEAR 1906-07.

9. *Number of Assays*.—Apart from a number of miscellaneous assays, the gold and silver assays made during the years 1905-06 and 1906-07 were as follows :—

10. *Melting for standard coinage*.—The average fineness *per mille* of silver meltings for coinage during the year was as follows :—

	Calcutta.	Bombay.
Rupees	916.032	915.929
Half-rupees	916.064	915.837
Quarter-rupees	915.797	...
One-eighth rupees	915.642	...

11. *Parting assays of silver coins*.—The average proportion of gold found in the silver pyx coins of the Calcutta mintage was 159 *per mille* for rupees, 258 for half-rupees, and 198 and 216 for quarter and one-eighth rupees respectively. The silver coinage of the Calcutta Mint is computed to have contained 6,145 troy ounces of gold of the value of £26,054. In the Bombay Mint the proportion was 117 *per mille* for rupees and 072 for half-rupees.

12. *Pyx trials of silver coins*.—The results of the pyx trials in the Calcutta and Bombay Assay Offices are summarised in tabular form below :—

	TRIALS FOR WEIGHT.			TRIALS FOR FINENESS.				
	Number of trials made.	Total number of coins weighed.	Average weight in grains.	Number of trials made.	TOTAL NUMBER OF COINS ASSAYED		AVERAGE FINENESS <i>per mille</i> OF COINS ASSAYED

Half-rupees	5	100	90.015	5	25	250	916.560	916.600

In seven different pyx trials of rupees in Calcutta, one coin in each was beyond the legal remedy for weight, and in six trials one coin was found in each to be outside the remedy for fineness; the fresh pyxes called for in these cases disclosed all coins to be within remedy. In Bombay, in one pyx trial of rupees for weight, one coin was found below the legal remedy, and in two trials for fineness, one coin in each was found to be outside remedy. In all these cases, however, the fresh pyxes disclosed no coin beyond the remedy.

13. *Pyx trials in England for the year 1906-07.*—The result of the pyx trials made in England showed that the average weight and fineness of the British Indian coins from the Calcutta and Bombay Mints were in close accordance with the standards laid down for the two classes of coins.

ORDERED that this Resolution, together with the Reports from the Mint and Assay Masters, Calcutta and Bombay, be published in the *Gazette of India*, and that copies be forwarded to the Mint and Assay Masters.

J. S. MESTON,
Under Secy. to the Govt. of India.

REPORT ON THE WORKING OF THE CALCUTTA MINT.

No. 275, dated 20th January 1908.

From—Captain A. L. C. MCCORMICK, R.E., Officiating Master of the Mint,
To—The Secretary to the Government of India, Finance Department.

I have the honor to submit the Administration Report on the operations of the Calcutta Mint for the financial year ending 31st March 1907, together with the following statements :—

No. I.—Account of the total revenue and expenditure of the Mint during the year 1906-07.

No. II.—Statement of coinage of the Mint for the year 1906-07.

No. III.—Statement showing the cost of miscellaneous work done in the Mint during the year 1906-07.

Colonel G. M. Porter, R.E., held charge of the Mint during the year under review.

GOLD.

2. *Receipts.*—Mint certificates of the aggregate value of Rs. 5,04,18,510 were issued for sovereigns, and half-sovereigns tendered by the Presidency Bank and private individuals in exchange for rupees. The value of the receipts exceeded that of the previous year by Rs. 1,96,32,680 and is summarised below :—

Tale.	Classification.	Value in Rupees.
3,309,229	Sovereigns of current weight	49,638,435
15	Half-sovereigns of current weight	112.5
51,983	Sovereigns of short weight or not more than 3 grains less than standard weight, nominal value	7,79,745
29	Half-sovereigns of short weight or not more than 3 grains less than standard weight, nominal value	217.5
		50,418,510

All the current weight sovereigns and half-sovereigns were remitted to the Currency Office.

3. The total value of gold coin and bullion received from treasuries and other Government departments amounted to Rs. 2,545. These receipts were :—

Tale.	Classification.	Value in Rupees.
	RECEIVED FROM TREASURIES.	R
9	Sovereigns of short weight or not more than 3 grains less than standard weight, nominal value	135
11	Half-sovereigns of short weight or not more than 3 grains less than standard weight, nominal value	82
130	Sovereigns of reduced weight or more than 3 grains less than standard weight, bullion value	1,873
5	Half-sovereigns of reduced weight or more than 3 grains less than standard weight, bullion value	35
	Foreign Coin	207
	RECEIVED FROM OTHER GOVERNMENT DEPARTMENTS.	
	Bullion	213
		2,545

During the financial year, no gold remittances were made to England from this Mint.

4. *Receipts.*—The silver receipts comprised :—

- (a) Silver purchased for rupee coinage on the formation of the silver branch of the Gold Standard Reserve, amounting to ₹11,46,55,428 standard tolas and invoiced at ₹8,25,54,547. Of this amount, ₹8,53,94,767 standard tolas (invoice value ₹6,12,65,468) were purchased by the Secretary of State, ₹2,18,40,281 standard tolas (invoice value ₹1,60,52,740) were purchased through local Banks, and ₹74,20,380 standard tolas (invoice value ₹52,36,339) were received from the Bombay Mint. Of the total amount received, ₹2,04,83,675 standard tolas (invoice value ₹1,49,78,452) were transferred to the Bombay Mint and the balance was operated on at the Calcutta Mint. The latter consisted of—

	Lakhs of standard tolas.
Bar silver	502.00
Mexican Dollars	280.13
Mixed Dollars	94.83
Sycee silver	64.76
	<hr/>
	941.72
	<hr/>

The silver was received at regular intervals throughout the year.

- (b) Withdrawn and uncurrent silver coins received for recoinage of the nominal value of ₹1,52,89,282, classified as shown below :—

	In thousands of Rupees.
Government rupees and half-rupees of 1835	987.0
Ditto ditto " 1840 (1st issue)	3,485.1
Ditto ditto " 1840 (2nd ")	8,988.1
Ditto ditto shroff marked defective and dumb coins	7.8
Ditto ditto worn coins	1,778.9
Ditto ditto reduced rupees and half-rupees	26.3
• Soldered coins from Railways	16.1
	<hr/>
	15,289.3
	<hr/>

- (c) Mahomed Khani coins of the Tonk Durbar of the exchange value of ₹990 and yielding 1,011 standard tolas received for recoinage into Government rupees in connection with the conversion of the currency of the State.

5. *Coinage.*—Statement II submitted with the Report details the coinage of the year. The silver coinage was 129,024,714 pieces, valued at ₹10,01,26,137½, against 95,241,111, valued at ₹7,82,91,213½ in the previous year, and was in excess by 33,783,603 pieces, valued at ₹2,18,34,924½. The most noticeable increase occurred in the case of small silver, for which there was a steady demand throughout the year. In addition to the rupees and small silver coined during the year, 40 lakhs of tolas of silver were converted into blanks and then remitted to Bombay to be finally coined into rupees there.

6. *Silver branch of the gold standard reserve.*—A portion of the heavy rupee coinage of the year was required in connection with the formation of the silver branch of the Gold Standard Reserve which Government decided to establish during the year (*vide* paragraphs 97 to 112 of the Financial Statement of 1907-08). This silver reserve consists for the present of 600 lakhs of coined rupees, of which 200 lakhs will be held at the Calcutta Mint. The winding up of this reserve was commenced from the beginning of the year and was completed shortly before its close.

7. *Meltings.*—With the exception of the mixed dollars, sycee silver referred to in paragraph 4 and a small quantity of bars amounting to 16.54 lakhs of tolas which were premelted, the whole of the purchased silver was placed in direct

alligation, and 97 per cent. of the pots successfully passed the assay test. This process of direct alligation has proved economical, and by it the Mint was able to issue rupees in a shorter time than if the bullion had been premelted.

8. *Percentage of good coin.*—The weight of metal, in tolas, which passed through the laminating rolls for silver coinage yielded the following percentage of good coins :—

	Weight of ingots rolled. Lakhs of tolas.	Percentages of good coin.
Rupees	1,414.53	66.35
Half-rupees	23.04	58.8
Quarter-rupees	37.73	66.63
Eighth-rupees	46.59	36.47

The above percentages show very little variation from last year's figures.

9. The Assay Master's report on the pyx trials for silver coins proved that the silver coins issued during the year were within legal remedy, both as regards weight and fineness.

10. *Silver operative losses.*—The melting and coining losses written off the accounts during the year aggregated 82,537 standard tolas which were further reduced after all fictitious gains and losses had been taken into consideration; the net loss then amounted to tolas 41,444 and gave a rate of 36.0 tolas per lakh of tolas laminated. This rate is somewhat higher than that of last year, and the difference is due to a very large proportion of the amount melted (fine silver and Mexican dollars) having been placed in direct alligation. It should be explained that when silver is premelted in the premelting department and then alligated in the standard melting department, only losses accruing in the latter department are debited against the Mint. When, however, silver is placed in direct alligation, there is no loss in the premelting department as there is no premelting, but the loss in the standard melting department is somewhat increased. Taking this into consideration the rate of loss quoted above for the year is very favourable.

COPPER.

11. Under Government of India, Finance Department Resolution No. 3895-A., dated 11th July 1906, the manufacture of copper coins ceased from 1st August 1906, and a bronze coinage of similar design was successfully introduced.

The composition and weight of the new bronze coins are given in paragraph 18 of my last report. At regular intervals during the year pyx trials of the bronze coinage, were made by the Assay Master, and in every case proved satisfactory.

12. *Coinage.*—As in the case of silver, the copper and bronze coinages were exceptionally heavy throughout the year. The increase over last year's figures in the case of single and half-pice is given below :—

	Coinage 1905-06. Number of pieces.	Coinage 1906-07. Number of pieces.	Increase in coinage 1906-07. Number of pieces.
Single pice	130,058,484	163,014,400	32,955,916
Half-pice	8,921,600	12,205,369	3,283,769

13. Coinages for the Straits Settlements and Ceylon Government were somewhat larger than those of the previous year; for the former Government 7,504,351 and for the latter 3,271,107 pieces were struck. The Ceylon Government provided metal for their coinage in the shape of 5 cent. copper pieces plus $\frac{1}{4}$ per cent. of extra copper to cover working loss.

14. Copper slabs to the amount of 35,536 maunds were purchased during the year at an average price of Rs 51.02 per maund. The increase in the price was Rs 6.72 per maund over last year's figure.

15. The total copper losses written off the books during the year amounted to maunds 461, giving a percentage of 1.663 per 100 maunds on the metal rolled; the total recoveries in the form of copper oxide and precipitated copper amounted to 347 maunds 20 seers 15 tolas, and the net loss of copper to 4303 per 100 maunds.

MISCELLANEOUS.

16. The Mint decimal grain set was verified by the Assay Master during the year.

17. The following decorations were supplied during the year :—

Silver Tibet Mission 1903-04 Medals	1,250
Silver Gyantse Clasps	300
Silver India Medals	750
Bronze Tibet Mission 1903-04 Medals	6,750
Long Service and Good Conduct Medals	400
Volunteer Long Service Medals	250
Clasps for past Campaigns	1,600
Order of Merit Stars	20

18. Besides the above decorations the Mint met heavy demands from the Army Temperance Association and from colleges and private institutions all over India, for medals, etc.; it also manufactured and adjusted weights and scales for various Government Departments and for private individuals.

19. Statement III places the profit on outside work done during the year at R15,589.

20. The average daily working balance of silver during the year was 26,80,771 standard tolas. On the 27th April 1906, when the daily outturn was two lakhs of quarter and eighth rupee pieces, this balance fell to its minimum (*vis.*, 2,28,516 standard tolas), and on the 9th March 1907 it rose to its maximum (*vis.*, 45,82,542 standard tolas).

21. During the month of August 1906, in the midst of a heavy coinage, the 100 H.-P. Engine broke down and the rolling of straps in the Bronze Mint ceased; temporary rolling arrangements were made in the Silver Mint, and all demands for bronze coin were met without delay. The repairs to the engine were satisfactorily carried out by Messrs. John King & Co., and the engine was working again by the middle of November 1906.

22. To provide the Mint with more efficient and up-to-date motive power it has been decided to remove the existing steam power plant and to replace it by a complete electrical installation. The Public Works Department have commenced the construction of a power house and the Secretary of State for India has signed a contract with the General Electric Company, London, for supplying and fixing the necessary electrical machinery, etc. The plant, under this contract, commenced arriving in December 1906 and work in connection with the scheme is progressing.

23. During the year the approval of the Government of India has been obtained—

- (i) To the transfer to the Commissioners of the Port of Calcutta of a portion of the Mint land adjacent to the river together with all the buildings thereon.
- (ii) To the erection of extra quarters for Mint Engineers, etc., and of buildings to replace those which will be handed over to the Port Commissioners.
- (iii) To the erection of a new Assay Office and of quarters for the assistant assayers, etc.

Certain of the new buildings are now in process of construction and a few minor buildings have been completed.

REVENUE AND EXPENDITURE.

24. *Revenue (a) Charges levied.*—The total amount credited in the year under this head was R18,83,676, out of which sum R18,83,455 represented the 2 per cent. seignorage on silver for the rupee coinage taken into the Mint accounts.

(b) *Gain on Coinage Operations.*—The total amount credited under this head was R45,857 and included R45,660 as gain by alligating under standard.

25. *Cash and Transfer Receipts.*—The Cash receipts amounted to R11,860 and are R4,590 in excess of the receipts of the previous year; the excess is due to an increase during the year in the miscellaneous work done in the Mint.

The transfer receipts amounted to R24,331 and are R19,164 below last year's figures, due to a considerable falling off in the manufacture of military medals and to the fact that charges on the Colonial copper coinage were not adjusted during the year.

26. Expenditure.—Loss on Coinage Operations.

Silver.—(1). The silver operative losses have already been referred to in paragraph 10 of this report.

(2) The net loss on new coins issued over standard weight

Per lakh of coin.

	1905-06.	1906-07.
Rupees	29'7	23'5
"	16'7	14'6
"	+ 2'9	3'7
"	16'7	7'0

amounted to Rs20,863 which is somewhat less than that of the previous year. The rates of loss per lakh on account of the difference between weight and nominal value on the different denominations of coins for the year as compared

with those of the previous year are detailed in the margin.

(3) The loss on withdrawn silver coins amounted to Rs2,28,914, a decrease on last year's figures of Rs15,017. The total receipts of withdrawn silver coins as shown in the statement under paragraph 4(b) of this report amounted to Rs1,52,89,282 which is Rs27,02,996 less than in the previous year.

(4) The difference between Mint and market price of silver used for the Army Department medals and adjusted in the accounts during the year was Rs1,556. Last year this difference amounted to Rs11,205 and the decrease is due as already stated in sub-paragraph 25 of this report, to fewer decorations having been supplied. Under Army Department letter No. 1204-B., dated 30th November 1906, all Military medals which were formerly of 925 fineness will in future be of Indian standard fineness, *vis.*, 916'67 per mille.

27. Cost of Establishment.—This is detailed in statement No. I and shows a decrease on the previous year of Rs1,917 on the fixed establishment and an increase of Rs74,282 on the temporary establishment and overtime pay; the increase being due to the extra operatives engaged, chiefly for bronze coinage, which is a new feature in the work of this Mint, and to the heavy coinage executed during the year, and to continuous overtime work.

28. Copper and Bronze used for alloy and contingent purposes.—The total expenditure under this head amounted to Rs58,705, an increase of Rs21,379 over last year; chiefly due to the extra expenditure under alloy which amounted to Rs57,230 and represents the value of 1,158'25 maunds of copper used for alloying silver to the rupee standard.

29. Contingent charges.—The expenditure under this head amounted to Rs44,541, a decrease of Rs3,014 on last year's figure.

30. Transfer charges.—These charges aggregated Rs15,442. There was an increase in the supply of new coin bags from the Alipur Jail and a considerable decrease in the supply of petty articles by other Government Departments.

31. To provide for the longer working hours and the increased coinage, greater quantities than usual of English and Local stores have had to be purchased during the year. The total expenditure on stores amounted to Rs2,29,609 which includes an item of Rs23,656 for bullion trucks, moulds, etc., which were necessary to meet the increased outturn and replace old worn out stock. The excess over the previous year's expenditure is Rs1,14,168.

32. Miscellaneous charges external to Mint.—These charges amounted to Rs21,329 against Rs19,427 in the previous year. The chief increase under this head is attributable to stationery which amounted to Rs4,099 in the year.

33. Pro forma charges.—These charges amounted to Rs4,94,619 against Rs4,57,264 in the previous year.

The increase over last year's figures, *vis.*, Rs37,355, was chiefly due to the heavy average silver balance and to the bronze balance at the close of the year. The increase in the store balance is due to receipts of electrical stores.

34. Capital Account.—Additions to land, building, and plant amounted to Rs1,10,210; of this sum Rs20,364 represents the value of a motor, C. I. Rolls Die Sinking Machine and Bullion balances purchased during the year.

35. *Resumé.*—The credit balance of Rs. 47,858 is due to the increase in the seignorage of 2 per cent. on the coinage of purchased silver received during the year.

COUNTERFEIT COINS.

36. On a reference to the statement of counterfeit coins attached to this report and on comparison with last year's statement it will be seen that fewer counterfeit coins were found this year in remittances of withdrawn and uncurrent rupees examined by the Mint, but that counterfeits were more numerous in the case of small silver. The comparison is as follows:—

		1905-06.	1906-07.	Differences.
Rupees	2,992	2,145	—847
½ "	21	43	+ 22
¼ "	50	169	+ 119
⅛ "	95	311	+ 216

(The increases were distributed chiefly between the Bengal and United Provinces treasuries.)

37. Receipts of counterfeits sent for examination from treasuries and other sources totalled 3,264 rupees, 33 half-rupees, 142 quarter-rupees and 86 eighth-rupees and show a marked increase over last year's receipts.

38. The Assay Office examined 511 suspected and counterfeit coins, of which 44 were sent by the Mint and the remainder by Magistrates and Police Officers. The percentage of silver present in the counterfeits varied from 3·85 to 97·43. One struck counterfeit, a very well finished coin, had a fineness of 941·2, and another cast coin, fairly well executed, a fineness of 767·4.

In addition to the above a few genuine rupees, struck prior to the year 1835, were sent for analysis, and the results showed that nearly all were of a fineness higher than Indian standard.

Of the dies and other coining implements received for inspection, none were found of any special interest.

OFFENCES AGAINST COINAGE.

39. From the usual statement attached it will be observed that the number of convictions in the calendar year 1906 slightly increased. There were also increases in the number of cases brought to trial and in the number of persons tried, which appear to be proportionately shared by all the large provinces.

5. *Gold in Silver Coinage.*—The average proportion of gold found by monthly parting assays in the silver pyx coins for the year was :—

for	rupees	0'159	per mille.
"	$\frac{1}{2}$ -rupees	0'238	"
"	$\frac{1}{4}$ -rupees	0'198	"
"	$\frac{1}{8}$ -rupees	0'216	"

The coinage of the year was computed to contain 6,145 troy ounces of gold of the value of £26,054.

6. *Pyx Trials—Rupees.*—The number of trials for *weight* amounted to 944 : the total number of rupees weighed was 9,440 : the average weight per piece was 180'061. The heaviest rupee weighed 181'17 and the lightest 178'82. There were 1,143 coins of the exact standard weight, giving a percentage of 12'11. One coin in each of 7 trials was found beyond remedy ; but all the 7 fresh pyxes called for were passed.

The number of trials for *fineness* came to 943 and the total number of rupees assayed was 28,170, of which 9,430 were assayed singly and 18,740 in groups of 20.

The average fineness per piece was 916'52 and of the melted coins 916'745. The highest and lowest figures for single coins were 919'5 and 913'4 and the same for melted coins (average of 3 assays) were 917'9 and 915'8.

Six trials disclosed, each of them, one rupee beyond remedy, in fineness. Fresh pyxes were called for and all duly passed.

The average results are shown in the following table :—

AVERAGE FOR THE YEAR	180'061	916'520	916'745	0'159

7. *Half-rupees*.—Pyx trials of these were made during six months of the year. The number of trials for *weight* was 460. The average weight was 89.998 grains.

The highest weight of any of the coins was 90.58 and the lowest weight 89.6.

There were 124 coins found to be of the exact standard weight, giving a percentage of 26.96. One coin was found beyond remedy, but the second pyx called for passed.

The number of trials for *fineness* was 45. The total number of half-rupees assayed was 2,250, of which 450 were assayed singly and 1,800, after melting in batches of 40, in triplicate.

The average fineness of the single coins was 916.429.

The highest and lowest figures for single coins were 918.6 and 915.0, respectively.

The average fineness of the melted coins was 916.720; and the highest and lowest figures for the melted assays were 917.0 and 916.3 (the average of 3 assays).

8. *Quarter-rupees*.—Trials of these were made every month except in July and were 158 in number, both for *weight* and *fineness*.

The total number weighed was 1,580. The average weight was 44.987, which is within the legal remedy. The heaviest and lightest coins weighed respectively 45.9 and 43.82 grains. There were 321 coins of the exact standard weight, equal to 20.32 per cent. The total number of quarter-rupees assayed was 17,380, of which 1,580 were assayed singly; the remainder 15,800 were melted in groups of 100 and triplicate assays taken.

The average fineness of the single coins was 916.46.

The highest and lowest touches of any individual coin were 918.1 and 915.0.

The average fineness of the melted coins was 916.601 and the highest and lowest figures 917.1 and 916.1.

All were within remedy.

9. *One-eighth rupees*.—There were pyx trials made during 11 months of the year and numbered 170 for both *weight* and *fineness*.

The total number weighed amounted to 1,700.

The average weight for the year was 22.539, which is within the legal remedy.

The heaviest piece weighed 23.84 and the lightest 21.2.

There were 340 pieces of the exact standard weight equal to 20 per cent.

There were 35,700 coins assayed; 1,700 of them singly and 34,000 after melting in groups of 200 and an assay in triplicate taken.

The average fineness of the coins assayed singly was 916.339, and the highest and lowest figures for fineness of single coins were 918.2 and 914.1.

The average fineness of the melted coins was 916.571 and the highest and lowest figures obtained for any melting of finished coins were 917.2 and 915.8.

No trial disclosed a coin outside the remedy.

10. *Summary of pyx trials*.—The following table is a summary of results detailed in paragraphs 6, 7, 8 and 9 :—

DENOMINATION.	Number of coins weighed singly.	Number of coins assayed singly.	Number of coins assayed after melting.	Average weight (grains).	Average fineness of coins assayed singly (per mille). 17. The post of Assay Master was held by Lieutenant-Colonel F. F. MacCartie, I.M.S., C.I.E., from 1st to 23rd April, and by Major J. Lloyd Jones, I.M.S., from 24th idem to the end of the year.

Major J. J. Bourke, I.M.S., held the post of Deputy Assay Master from 1st to 5th April, Colonel MacCartie (in addition to his own duties) from 6th to 16th idem, and Major F. J. C. Hughes, I.A., from 17th idem to the end of the year.

REPORT ON THE WORKING OF THE BOMBAY MINT.

No. 1317, dated Bombay, the 15th August 1907.

From—Lieut.-Colonel W. G. R. CORDUE, R.E., Mint Master,

To—The Secretary to the Government of India, Finance Department.

I have the honour to submit my Annual Report on the operations of the Bombay Mint for 1906-07, together with the prescribed statements.

During my absence on furlough, Captain A. L. C. McCormick, R.E., held charge as officiating Mint Master up to the 22nd November 1906, since which date I have been in charge.

GOLD.

2. Receipts.—

- (a) The gold bullion and coin tendered during the year were valued at Rs. 1,47,13,262, as compared with Rs. 1,52,81,242 in 1905-06, and consisted of the following:—

CLASSIFICATION.	Value in rupees.
Sovereigns of current weight	1,44,75,000
Half-sovereigns of current weight	45,000
Sovereigns of short weight or not more than three grains less than the standard weight (nominal value)	4,215
Half-sovereigns of short weight or not more than three grains less than the standard weight (nominal value)	1,223
Sovereigns of reduced weight or more than three grains less than the standard weight (bullion value)	402
Gold from Indian Mines	1,87,335
Bazaar gold and miscellaneous	87
TOTAL .	1,47,13,262

- (b) In addition to the above, 3,962 sovereigns were found to be light, were defective or sweated, on detailed examination at the Mint, and were withdrawn by the tenderers.

- (c) With the exception of Rs. 65,452, the whole of the gold received, together with the balance of the previous year, was transferred to the Currency Gold Bullion and Coin Accounts.

- (d) No remittances were shipped to London during the year by the Mint.

- (e) At the close of the year the balance in the Currency Gold Coin Account amounted to Rs. 46,53,802 and in the Gold Bullion Account to Rs. 2,33,193. These balances consisted of sovereigns, half-sovereigns, mines gold and miscellaneous.

SILVER.

3. Receipts.—The silver receipts comprised:—

- (a) Silver purchased for rupee coinage on the formation of the silver branch of the Gold Standard Reserve amounting to 15,42,00,469 standard tolas, and invoiced at Rs. 11,20,92,903-12-0. Of this amount, 11,12,49,058 tolas (invoice value Rs. 8,04,66,908-8-0) were purchased by the Secretary of State, 2,24,67,736 tolas (invoice value Rs. 1,66,47,549-9-0) were purchased through local Banks, and 2,04,83,675 tolas (invoice value Rs. 1,49,78,451-11-0) were received from the Calcutta Mint. Of the total amount received 74,20,380

tolas (invoice value Rs2,36,339-3-0) were transferred to the Calcutta Mint and the balance was operated on at Bombay. The latter consisted of—

	Lakhs of standard tolas.
Bar silver	1,034
Mexican Dollars	328
Mixed Dollars	34
Sycee silver	72
	<hr/> 1,468 <hr/>

The silver was received at regular intervals throughout the year.

(b) Withdrawn and uncurrent silver coins received for recoinage of the nominal value of Rs1,17,87,522 classified as follows:—

CLASSIFICATION.	Nominal value in rupees.
Government rupees and half-rupees of 1835	6,57,131
Ditto ditto 1840 (1st issue)	19,28,540
Ditto ditto 1840 (2nd issue)	77,88,351
Ditto shroff-marked, defective and dumb coins	4,99,948
Ditto worn coins	8,74,580
Ditto reduced rupees and half-rupees	38,881
Arcot coins	32
Confiscated coins	59
TOTAL	<hr/> 1,17,87,522 <hr/>

(c) Mohammad Khani coins of the Tonk Durbar of the exchange value of Rs1,72,884-10-3 and yielding 1,76,395½ standard tolas received for recoinage into British India Government rupees in connection with the conversion of the currency of the State.

4. Coinage.—

(a) The Government coinage for the year consisted of rupees and half-rupees and amounted in value to Rs16,07,31,267, being the largest silver coinage on record for the Indian Mints, the next highest figure being Rs12,17,23,238, which was the coinage of the Bombay Mint for 1905-06.

The amounts coined were distributed as under:—

	R
On Government account (including Rs400 lakhs for the Gold Standard Reserve)	16,05,58,382
On account of Native States (Tonk Durbar)	1,72,885

(b) No coinage was undertaken for any other Government during the year.

(c) The whole of the coinage was found by the Assay Master to be within legal remedy for weight and fineness.

Silver branch of the Gold Standard Reserve.—A portion of the heavy rupee coinage of the year was required in connection with the formation of the silver branch of the Gold Standard Reserve which Government decided to establish during the year (*vide* paras. 97 to 112 of the Financial Statement for 1907-08). This Silver Reserve consists for the present of 600 lakhs of coined rupees of which 400 lakhs will be held at the Bombay Mint. The building up of this Reserve was commenced from the beginning of the year and was completed shortly before its close.

5. *Meltings.*—Uncurrent silver coins remitted by treasuries, as well as the Mexican dollars and fine silver received from the Secretary of State, and part of the mixed dollars purchased through the local Exchange Banks, were issued to the Standard Melting Department in direct alligation during the year, but all sycee silver and Mohammad Khani coins as well as the later consignments of mixed dollars purchased through the Exchange Banks were premelted before alligation.

6. Percentages of good coin.—The percentages of good coin calculated

Description of coin.	Weight of ingots laminated. Tolas.	Percentage of good coin.
Government rupees . . .	22,69,72,839	69.28
Do. half-rupees . . .	6,22,493	64.30

on the amounts laminated were as detailed in the margin and show little variation, in the case of rupees, as compared with 1905-06.

7. Silver operative losses.—After allowing for dirt on coins used in direct alligation, the combined operative losses of the Melting and Coining Departments amounted in the case of Government rupees and half-rupees to R1,77,059. On making the necessary corrections on account of fictitious gains and losses, there is a net loss of R84,201, equal to 37.0 per lakh laminated. The loss is smaller than in 1905-06, and is due to silver valued at about R10,000 having been recovered from dross left unrefined that year.

NICKEL COINAGE.

8. Experiments were undertaken last year in connection with the manufacture of a nickel one-anna piece with a view to obtain a coin distinctive in shape from any existing coin current in British India. As the design for a coin with a hole in the centre previously submitted was not approved of and the attempts to strike a coin with an eccentric hole having failed, all further efforts were directed to producing a coin with a waved or scalloped outline, the design for which was suggested by Captain McCormick, R.E. The principal difficulties met with were in the edging of the scalloped blanks and in the arrangements for feeding them correctly into the coining press. The economical manufacture of grooved dies without the introduction of special and costly plant, also taxed the ingenuity of the Engineering staff, to whom great credit is due for the way in which all the difficulties in connection with the coinage were successfully overcome. No nickel coins were, however, actually struck during the year under report. The one-anna nickel piece as finally approved by Government is coined from an alloy consisting of 25 parts of nickel and 75 parts of copper, the weight being 60 grains, or one-third that of a rupee.

COPPER AND BRONZE.

9. No copper or bronze coinage was carried out during the year.

MISCELLANEOUS.

10. Miscellaneous work.—This consisted of the recurring supply of medals, seals, stamps, etc. to various public institutions and rifle associations, the manufacture and adjustment of scales and weights and miscellaneous supplies and repairs undertaken for other Government Departments and the public, the profit made being R501. In addition to the above 126 war medals with 146 clasps were issued.

11. Treasure Trove coins.—During the year 153 gold, 81 silver and 43 copper coins found in the Ratnagiri, Poona, Larkhana, Panch Mehals and Ahmednagar districts were forwarded to the Mint by the Bombay Branch, Royal Asiatic Society, for disposal to numismatists. The amount realised by the sales of Treasure Trove coins during the year was R3,044, the metal value at which the coins were credited in the Mint accounts being R2,758. The profit on the sale of these coins amounted to R274, postage and other charges being R12.

12. Mint working standards.—The weights in all the departments were periodically compared with the standards, and any difference found carefully adjusted.

ANALYSIS OF REVENUE AND EXPENDITURE.

13. Revenue.—

(a) *Gain on coinage operations.*—The gain on this head was R1,16,443 and was more than that of the preceding year by R11,269.

(b) The charge of 2 per cent. on the total amount of purchased silver brought to account during the year exclusive of silver sent to the Calcutta Mint in standard bars (*vide* para. 3a) but including 2 per cent. on the coinage for Native States, amounted to R29,39,135, exceeding the revenue of the previous year under the same head by R6,19,213.

(c) *Cash and transfer receipts.*—These receipts amounted to R16,543, and were less by R13,001 than those of the year 1905-06, owing to smaller issues of nitric acid to other Government Departments.

14. *Expenditure.*—

(a) *Loss on coinage.*—

(i) *Gold.*—There is no loss recorded under this head for the reason explained in the last year's report.

(ii) *Silver.*—The difference between the par and the weight value of uncurrent coin received from Government Treasuries for recoinage amounted to R1,75,212 as against R1,93,658 in the preceding year.

	1906-07.	1905-06.
	R	R
Fixed establishment	1,85,194	1,85,256
Extra establishment and overtime work	1,43,424	1,19,881
TOTAL	3,28,618	3,05,137

(b) *Cost of Establishment.*

—The total expenditure on salaries and establishment for the year as compared with that of the preceding twelve months is shown in the margin.

(c) *Local and English Stores.*—This expenditure amounted to R1,70,684 and exceeded that for the preceding twelve months by R32,477, owing to larger issues of all stores consequent on the increased output.

(d) *Copper used for alloy and contingent purposes.*—The amount expended under this head was R1,15,449 as compared with R56,923 for 1905-06, the increase being due to the heavier coinage carried out and to the larger proportion of fine silver alligated in the year under report.

(e) *Contingent charges.*—*Miscellaneous.*—These charges amounted to R22,349, and were greater than the figure for the previous year by R4,117, mainly on account of an increase under water-supply due to the heavier coinage.

(f) *Transfer charges.*—These amounted to R19,084 as compared with R18,844 in the preceding twelve months.

(g) *Pro formâ charges.*—The amount of these charges for the year was R2,90,271 as against R2,96,276 in the previous year.

15. *Resumé of Revenue and Expenditure.*—The result of the transactions of the year, as summarised in Statement I, shows that, including interest on capital outlay and *pro formâ* charges, the net profit from Mint operations during the year was R17,29,162 against R12,56,030, the increase being due to the larger receipts under seignorage.

16. *Balances sunk in the Mint.*—The balance of silver bullion belonging to Government valued at one rupee per tola of standard fineness stood at the beginning of the year at R77,23,964 and at its close at R6,00,557. The average daily balance, exclusive of silver belonging to the Currency Department was R23,75,974. The minimum daily balance was R5,46,382 on 27th March 1907, and the maximum was R77,23,964 on the 1st April 1906.

17. *Capital Account.*—Rupees 88,259 on account of buildings and R44,167 on account of machinery were added to the heads of Buildings and Plant, respectively. The balance at debit of this account at the end of the year stood at R40,40,196.

18. *New Rolling Department roof.*—During the year under report the re-roofing of the Rolling Department was taken in hand at a cost of R56,363, the old roof having been condemned owing to the way it leaked in the rains. Of the above

amount Rs. 10,013 was expended by the Public Works Department during the preceding year in the purchase of materials. Advantage was taken of this opportunity to dispense with the central pillars supporting the beams as they were found to interfere with the work of the Department. The new roof is of the ridge and furrow type with northern lights and was erected by the Public Works Department, the contractors being Messrs. Richardson & Cruddas.

19. *Extensions.*—During the year the extension of the Mint to cope with a coinage of $7\frac{1}{2}$ lakhs of rupees daily, proposed in my letter to the Government of India No. 2066, dated 19th November 1904, was sanctioned and taken in hand. The original proposals were somewhat modified owing to the necessity for making arrangements for the coinage of nickel and to the possibility of all the machinery being driven in the near future by electric power.

Orders were placed for a 25 H.P. engine and a 30 H.P. boiler and for the additional machinery required in connection with the enhanced outturn. Part of the above plant has been delivered, but until the remainder is received and is put up but little progress can be made towards obtaining the desired increase in the coinage. As a result of the enhanced outturn, it was necessary to provide increased stronghold accommodation and to make more suitable arrangements for dress washing. Government accordingly sanctioned additional strongholds being built in the Mint quadrangle, which work was taken in hand and completed by the Public Works Department. The same Department also undertook the construction of a new dress washing shed, which has been duly completed and is now in use.

Electric Lighting.—The Government of India having sanctioned the installation of electric lights and fans in the Mint and Assay Office, tenders were called for from some of the leading firms of Electricians in Bombay and the work was entrusted to Messrs. F. & C. Osler, Limited, who are carrying out the installation under the supervision of the Electrical Adviser to the Government of India. The electric current will be supplied by the Bombay Electric Supply and Tramways Company, Limited.

OFFENCES AGAINST THE COINAGE.

21. *Return of counterfeit coins.*—The usual return of counterfeit coins is appended to this report.

2,643 counterfeit coins (2,544 rupees, 30 half-rupees, 48 quarters and 21 one-eighths) were received for examination during the year as against 4,937 in 1905-06, and were classified as follows:—

- (i) 573 coins (361 castings and 212 struck) received from the Bombay, Central India, and Central India, Rajputana-Malwa and Southern Mahratta Railways, and one cast counterfeit coin received from the Treasury Officer, Jubbulpore, were "exceptionally well executed."
- (ii) 461 coins (246 castings and 215 struck) were good enough to deceive the public, both as to execution and colour of metal.
- (iii) The remaining 1,608 coins (1,403 castings and 205 struck) were in the majority of cases inferior specimens of low touch silver or base metal and all easily detectable.

The second and third class include coins which were returned to the Railways as they did not come up to the standard of excellence required by Government.

About 17.33 per cent. of the coins received from the Railways were imitations of King Edward VII rupees.

Two thousand and twenty-five counterfeit coins (1,586 rupees, 16 half-rupees, 83 quarters and 340 one-eighths) were discovered in remittances of uncurrent coin to the Mint.

During the year under report 20,261 counterfeit coins were cut at treasuries and Railways as against 24,267 in 1905-06.

22. *Retirement of Mr. Forbes.*—By the retirement on pension of Mr. D. M. Forbes, late Foreman, in May last year, the Bombay Mint lost the services of a most experienced and skilful Engineer. Mr. Forbes' record of 30 years' service in the Calcutta and Bombay Mints has been one of preeminent usefulness, and the various improvements in the mechanical operations of coining introduced by

him have resulted in greater efficiency, accompanied with economy in manufacture. The present method of lapping the rolls, which was at first introduced by him into the Calcutta Mint and afterwards, in 1890, into the Bombay Mint, deserves special mention, being responsible not only for a greater outturn of coin, but also for a saving of about Rs. 2,000 annually. Mr. Forbes' experience in minting operations was of great benefit in the experiments in connection with the coinage of the new nickel anna and he was largely instrumental in bringing these to a successful conclusion. In recognition of his special services, Government were pleased to grant him a bonus of £500 on retirement.

Report on the working of His Majesty's Assay Office.

No. 150, dated Bombay, the 12th August 1907.

From—Lieut.-Col. F. F. MACCARTIE, I.M.S., M.B., Assay Master, Bombay,

To—The Secretary to the Government of India, Finance Department.

I have the honour to submit the following report on the operations of the Assay Department, Bombay, for the official year 1906-07.

2. *Number and description of assays.*—The number of assays during the year amounted to 65,675 as against 51,861 in the previous financial year.

The details are shown in the following table:—

DESCRIPTION.	Number.	Total.
GOLD.		
Assays on gold from all sources	1,757	1,945
Check assays on fine gold	188	
SILVER.		
Assays on silver received for coinage	2,243	63,013

MISCELLANEOUS.		
Parting assays	28	717
Assays on various metals and ores	617	
Assays on Mint drosses	72	
TOTAL FOR THE YEAR	65,675

3. *Gold and Silver assays.*—The total number of gold assays from all sources during the year was 1,945 as against 1,564 in the previous year; of these 101 assays were done for the Mint.

The total number of silver assays from all sources was 63,013 as against 49,874 in the previous year; of these 48,160 were done for the Mint.

4. *Meltings for Silver standard coinage.*—Silver meltings for rupees were assayed during the whole of the year, and for half-rupees in the months of November 1906 and February 1907 only.

The average fineness of the silver meltings is shown in the following table:—

Average for the year		915.929	915.837

5. *Gold in silver coinage.*—The average proportion of gold found by monthly "parting assays" in the silver pyx coins for the year was '117 per mille for rupees, and '072 for half-rupees.

6. *Pyx trials, rupees.*—The trials of these coins for weight amounted to 1,635, the total number weighed being 32,720. One trial disclosed one coin below the legal remedy. Twenty fresh coins were weighed and found to be within remedy.

The average weight per piece was 180'013 grains, the lightest and heaviest coins weighed were respectively 179'10 and 180'90 grains.

The trials for fineness were also 1,635 in number, 8,190 coins having been assayed singly, and 40,875 in groups of 25 coins after melting. Of the coins assayed singly the extreme variations in fineness ranged from 914'6 to 919'2, and the average fineness over 8,175 coins was 916'587 per mille. In two trials only were single coins found to be outside remedy, and the fresh pyxes called for in these cases disclosed no coin beyond the remedy. The 40,875 coins assayed in groups of 25 after melting gave an average fineness of 916'665, the lowest and highest figures obtained for any melting of coins being, respectively, 915'6 and 917'5.

The average results are shown in the following table :—

MONTHS.	Average weight of Pyx Rupees grains.	AVERAGE FINENESS OF PYX RUPEES per MILLE.		Gold per mille.
		Single.	Melted.	
April 1906	179'970	916'531	916'479	'136

March "	180'005	916'580	916'650	'117
Average	180'013	916'587	916'665	'117

7. *Half-rupees.*—There were only 5 trials of these coins for weight (two in December 1906 and three in March 1907), the total number weighed being 100. The average weight per piece was 90'015 grain; the lightest and heaviest coins weighed were, respectively, 89'60 and 90'40 grains.

The trials for fineness were also 5 in number, 25 coins having been assayed singly, and 250 in groups of 50 coins after melting. Of the coins assayed singly the extreme variation in fineness ranged from 914'9 to 918'4, and the average fineness of the 25 coins was 916'560 per mille. The 250 coins assayed in groups of 50 after melting gave an average fineness of 916'600, the lowest and highest figures obtained for any melting of coins being 916'0 and 917'1 per mille, respectively.

The average results are shown in the following table :—

MONTH.	Average weight of Pyx Half- Rupees grains.	AVERAGE FINENESS OF PYX HALF-RUPEES PER MILLE.		Gold per mille.
		Single.	Melted.	
December 1906	90'027	917'230	917'050	'041

Average	90'015	916'560	916'600	'072

8. *Summary of Pyx trials.*—The results detailed in paragraphs 6 and 7 are summarised in the following table:—

Denominations.	Number of coins weighed singly.	Number of coins assayed singly.	Number of coins assayed after melting.	Average weight (grains).	Average fineness of coins assayed singly (per mille).	Average fineness of coins assayed after melting (per mille).	Proportion of gold in Pyx coins (per mille).
Rupees . . .	32,720	8,190	40,875	180.013	916.587	916.605	.117
Half-rupees . . .	100	25	250	90.015	916.560	916.600	.072

9. *Miscellaneous assays.*—Of the 617 assays under the head "Assays on various metals and ores" in paragraph 2 of this report, 585 were assays on counterfeit coins received from the Mint, Police officials, Railways and various Government offices.

RESOLUTION.

EMIGRATION.

Dated Calcutta, the 13th February 1908. ..

THE orders of His Majesty's Secretary of State having now been received on the report of the Committee, which was appointed in accordance with the Resolution in the Department of Commerce and Industry, No. 1384—1392—15, dated the 20th February 1906, to enquire into certain matters connected with the supply of labour for the tea gardens of Assam, the Government of India propose briefly to review the question, as it now presents itself, and to issue the following orders on specific points raised in the Committee's report.

2. The proposals of the Committee are summarised in chapter XI of its report. They have been generally supported by the Local Governments concerned and by the Indian Tea Association, and the Government of India were able to recommend the adoption of all the principal suggestions of the Committee to the Secretary of State, by whom they have been accepted. The Lieutenant-Governor of Eastern Bengal and Assam has given it as his opinion that the report marks a distinct advance in the history of the labour question, remarking that it is not so much by any modification of the law or rules that this question can be solved as by concerted action on the part of the employers to offer attractions to labour and to ensure that conditions on the gardens are made popular with the labourers. With this opinion the Government of India are in entire agreement. The very thorough and careful enquiry which the Committee has made, points clearly to the fact that the industry must recognise the altered circumstances which have arisen in the districts from which it draws its labour, and must be prepared to meet these in a practical manner. The Government of India trust that, with the facts which employers have now had put before them, the industry may be entering on a period of transition, during which it will take such action as may before long enable Government control to be practically dispensed with, and the present vexatious enactment which governs the recruitment and management of labour to be swept away. There is evidence in the report that a change is already in progress. In all directions there is a movement towards the greater freedom of the labourer, and towards making his life on the gardens congenial. It can only be by the steady pursuit of this policy and by the recognition of the fact that the industry must offer terms enabling it better to compete in the labour market, that a final solution of the problem can be attained.

3. The Government of India recognise with much satisfaction that the Committee, containing as it did some members representing the recruiting districts who were new to Assam, was favourably impressed with the material condition of the labourers on the gardens. They are well-fed and are provided with good water and skilled medical attendance, the tasks are reasonable and such as a labourer of ordinary physique can perform in a few hours, and for a considerable portion of the year, it is generally possible for the labourers to make substantial additions to their wages by working overtime. Despite these advantages, the supply of labour becomes yearly more difficult to obtain, and the problem before the Committee was to ascertain the reasons for this shortage of labour and to make suggestions for procuring a more constant supply. The recommendations of the Committee to this end, may be considered as they affect conditions in the labour districts, and as they deal with the arrangements for recruitment in the districts from which labour is taken for the gardens.

4. With regard to the labour districts, the Committee's proposals are mainly devoted to the necessity for obtaining greater freedom for the labourers and for increasing the attractions offered by Assam. On the first point the Committee has recommended that Act VI of 1901 under which labour is controlled, should not at present be withdrawn from the districts of the Brahmaputra Valley. It considers that it would not be fair to the industry suddenly to withdraw the special law on which the latter has hitherto depended

for the management of labour on the gardens, but it would fix a time at which the Act should be withdrawn and labour should become as free as in the rest of India. The Indian Tea Association is opposed to a decision being come to as to withdrawing the Act after a specified term of years, until it is seen how the changes to be introduced work in practice. The Government of India have adopted this suggestion, and they have decided to postpone consideration of the question for two years. Having regard to the great change in the situation produced by the extension to Upper Assam of the Assam-Bengal Railway, and the prospect of further rapid progress within the next few years, when Dhubri is connected by rail with Gauhati, they believe that the time must shortly arrive when the industry must fall into line with other employers of labour and be prepared to forego the law on which it at present relies. The Government of India wish it to be clearly understood that the operation of the Act cannot be indefinitely prolonged, and that, if the industry fails to exert itself towards adopting freer methods of management, and towards meeting the rise in the market-value of labour by increasing the emoluments of the labourer or by the grant of land, the question of withdrawing the Act on comparatively short notice, may have to be considered, so as to allow of the free operation of the law of supply and demand.

5. While allowing Act VI of 1901 to remain in force in the Upper Valley, the Committee makes two important recommendations for its amendment. It proposes to withdraw the local contract, allowed by sections 118 to 121 of the Act, and to abolish the right of private arrest under sections 195 and 196. The first of these proposals is specially intended to secure that all contracts with the intending emigrant are entered into when he is in his own country among his own friends and appears before a Magistrate who knows his own language. There should be no possibility of his being taken up to Assam as a free emigrant and being placed under a contract when he gets there. The withdrawal of sections 118 to 121 will prevent the re-engagement of time-expired labourers under Act VI. But the Committee points out that there is a general feeling that, in so far as old coolies are concerned, the necessity for the retention of these provisions hardly arises. Their withdrawal will also tend to remove the practice which has hitherto not been unknown of bringing pressure to bear on the labourer to renew his engagement, when his four years' time has been completed. The second proposal, to withdraw the right of private arrest, is strongly pressed by the Committee. It is shown that abuses have grown up in connection with the exercise of this power, and that its rigid enforcement on unpopular gardens has done much to contribute to the dislike of Assam in the recruiting districts. Both proposals have been accepted by the Indian Tea Association, and a notification giving effect to them has been published by the Government of Eastern Bengal and Assam with the approval of the Government of India.

6. The existing state of things is defended by those who advocate the retention of the power of private arrest of absconders on the ground that, if it is withdrawn, there will be no security against enticement of labourers, imported at a heavy cost to the garden, by employers who have not themselves borne any part of this expense; and it is gathered from the evidence taken by the Committee that this consideration is the main reason why the majority of the planters in Upper Assam deprecate the disuse of the Act contract with its present incidents. To meet this objection the Committee proposed a system of indemnifying importers of labour for the loss of their labourers by requiring the new employer to repay to the importer the expenses of importation, or a proportion of them varying according to the time, up to four years, which the labourer has worked on the original garden. This proposal, as set forth in the report, is not favoured by the Assam Branch of the Indian Tea Association, although they urge that substantial compensation is necessary as a safeguard against enticement. The Indian Tea Association, Calcutta, do not consider the matter pressing, and the Lieutenant-Governor, in view of the difficulty of the question and the divergence of opinion, does not think that the subject is ripe for legislation. In the circumstances the Government of India do not propose to take any action on the proposal, and prefer to await further experience of the changes now to be made

before considering whether any legislation of the character advocated is necessary.

7. Various suggestions are put forward in the report for further improving the labourer's condition, so as to increase the attractions which can be offered by Assam. The Lieutenant-Governor of Eastern Bengal and Assam is so convinced of the practical advice which the report contains on this subject, that he suggests that it should not be allowed to remain buried in the pages of a blue book, but should be published in pamphlet form for distribution among the planters of the Province. The Government of India will be glad to see this done. It rests with employers themselves to give effect to the suggestions offered by the Committee with a view to render labour on the tea estates more popular, and the Government of India trust that these measures will receive the attention they deserve. They would note in particular the Committee's recommendations as to the adaptation of the labourer's surroundings to what he has been accustomed to in his own country, letting him live in a separate hut as far as possible in the same hamlet as his caste-fellows, the grant of leave in the slack season to enable the emigrant to revisit his country, and especially the allotment of land to cultivate. Nothing could be a more certain magnet to draw the landless labourer to the country, and wherever land can be had in proximity to a garden, the settlement of the labourers on it should be the first concern of the employer.

8. The question of the tea garden wage is discussed by the Committee in paragraphs 257 to 262 of the report. The Committee recommends that the minimum wage should not now be raised by law, first because a change in the wage was introduced so recently as 1903, and second, because it considers that the greater freedom which the labourer will obtain, by the abolition of the power of arrest and by the fact that the penal contract will, it is believed, be less resorted to, will react on the wage. The majority of the Local Governments consulted are prepared to accept the conclusion arrived at by the Committee, although they lay emphasis on the fact that the wage offered by the gardens is quite inadequate as an inducement to people down-country to leave their homes and go to Assam. The Lieutenant-Governor of the United Provinces regrets that the Committee decided against an enhancement of the statutory wage; without the offer of a higher wage emigration will become less and less.

9. The Government of India are convinced of the correctness of the view that the industry cannot expect to compete successfully in the down-country labour market on the terms it at present offers. The evidence recorded by the Committee discloses a remarkable rise in prosperity among the labouring classes in the chief recruiting grounds, the competition for labour is very keen, and the expansion of coal and manganese mining in the districts adjoining Chota Nagpur and the Central Provinces respectively, to take but one instance, has seriously affected tea garden recruitment in tracts which were formerly regarded as its special field. In view, however, of the generally favourable opinion expressed by the Committee as to the material condition of labourers on the gardens, the Government of India do not consider it essential to take steps to raise their wages on the ground that they are at present left with a bare subsistence. A further reason for postponing action in the matter is the attention that is beginning to be paid to the offer of land to supplement wages. It is for the industry itself to take steps to meet the altered conditions in the recruiting districts by increasing the emoluments which it offers to the emigrant, and as has been above announced, failure on its part to adapt itself to these conditions must be followed by withdrawal of the Act at a comparatively early date.

10. Coming next to the questions connected with recruitment, the proposals of the Committee may be considered under the two main divisions of the agency employed for obtaining labour for the gardens, contractors and garden sardars. Dealing with the first of these the Committee is not prepared to recommend the abolition of the middleman who has grown up under the present system for the supply of labour. But it is strongly of opinion that his action should be controlled, and that only contractors licensed under the Act should be permitted to work for Assam. It has pointed out the abuses

which lately existed in some districts of Bengal, where contractors were allowed to work without control. The Lieutenant-Governor of Bengal has since published a notification bringing all contractors under the provisions of Chapter III of the Act. The Government of India accept the opinion of the Committee that the contractor cannot altogether be dispensed with, but that he should invariably be licensed. They also agree to the modifications in the conditions for licensing contractors and their recruiters which have been put forward in paragraphs 82 to 85 of the report, and they desire that the necessary steps be taken by Local Governments to have these modifications in the existing procedure introduced.

11. The system of recruitment which is specially to be encouraged is that conducted by garden sardars, emigrants who have been to Assam and return to their country to enlist fresh emigrants. With a view to assisting this form of recruitment, the Committee in paragraph 89 of the report recommended that certain districts might be altogether closed to contractors' recruitment. The suggestion is of special importance in connection with the question of emigration to the Surma Valley, from which the labour provisions of the Act will shortly be withdrawn, and it has been pressed by the Lieutenant-Governor of Eastern Bengal and Assam as helping towards a solution of the difficulty, to be presently noticed, which arises in this connection. The Governments of the United Provinces and Bengal have agreed to the whole of the United Provinces and the Patna and Bhagalpur Divisions of Bengal being closed to contractors' recruitment, and notifications have recently been published giving effect to this.

12. At present there are two varieties of recruitment by garden sardars one regulated by the provisions of Chapter IV. of the Act, and the other by section 90. Under the latter specially certificated garden sardars are given certain concessions, they are allowed to take away the people they recruit without any formality beyond giving three days' notice to the local magistrate. The Committee was asked to consider whether the scope of this section should not be extended. It has recommended against any such extension. It was intended to facilitate the recruitment of labourers by fairly competent men who could get on in the recruiting districts without outside help. But the person who comes down from Assam to recruit is himself a coolie, he cannot get on by himself and is dependent on the local agent who is appointed under section 64 of the Act to look after ordinary garden sardars. The Committee has stated that this fact should be clearly recognised, and has proposed that any extension of facilities in recruitment should be granted only to sardars who are assigned to a responsible local agent and work under his guidance and control. The Government of India consider that this is a sound recommendation, and they accept the suggestions which the Committee has made for giving effect to it. These are briefly that the whole control of recruitment should be left to the local agent, who is approved and licensed by the Superintendent of Emigration, so long as the emigrant is not placed under a labour contract. If a contract is to be taken from the emigrant, he must be produced before the magistrate in accordance with section 71. All that will be required of the local agent will be that he should keep certain returns and supply the magistrate with any information he may call for, and should also produce the emigrants for examination when ordered.

13. Orders have already been issued to Local Governments to give effect to the above proposal and notifications in favour of the Tea Districts Labour Supply Association have been published by the Governments of Madras, Bengal, United Provinces, and the Honourable the Chief Commissioner of the Central Provinces. Under section 91 of the Act the concession can be allowed only in the case of specified agencies or approved associations of employers, and the Government of India, although they are considering the extent of this provision of the law, believe that the limitation of the concession to such agencies or associations is a useful precaution, as it ensures the employment of capable men as local agents. They particularly desire that this condition is fulfilled, the local agent should be interfered with as little as possible. The Committee found, in the districts of Bengal subject to the provisions of the Act, that recruitment by the

agents of the Tea Districts Labour Supply Association was carried on entirely free of control without any complaints on the part of the district authorities. And it is specially necessary, if the free movement of labour is eventually to be attained, that an attempt should now be made to work on the lines laid down, it being remembered that the emigrants thus recruited are free labourers, and cannot be placed on contract under the Act when they get to Assam.

14. The Committee has recommended the repeal of the Madras Labour Contracts with Natives Act (Madras Act V of 1866). The Government of Madras have accepted the proposal that the Act should be repealed, on conditions that Act VI of 1901 is not entirely withdrawn, but kept in suspense in the manner recommended in paragraph 128 of the Committee's report, in connection with recruitment for the Surma Valley. As will be presently stated, the Government of India are not prepared to agree to the complete withdrawal of the recruitment provisions of the Act in respect of emigration to the Surma Valley, and the Government of Madras will be asked to take steps for the repeal of Act V of 1866.

15. The Government of Madras have recommended that emigration to Assam should be allowed under Chapter IV of Act VI of 1901 in the plains portion of the Godavari District and in the Districts of Kistna, Guntur and Nellore. The Committee has supported this recommendation which should now be carried into effect. The Committee was further of opinion that emigration might be permitted under certain safeguards from the Agency Tracts of the Northern Madras Districts. The Government of Madras are, however, opposed to these tracts being opened to recruitment, and in view of the difficulties which, it appears, this course would entail, the Government of India agree that the Agency Tracts should remain closed as at present.

16. There remains the question of the transport of emigrants dealt with by the Committee in Chapter VI of its report. While the Committee would retain the rules which govern the management of contractors' depots, it recommends the removal of restrictions on the transport of emigrants travelling with garden sardars to Assam. And it believes that, with the initiative of employers and local agents, it should be perfectly possible for sardars and their coolies to travel through to Assam without any assistance except such as can properly be expected of the Railway Companies. The Government of India endorse this opinion. In the case of emigrants proceeding to the gardens free of contract, it has to be noted that by section 93 of the Act the provisions of the rules relating to labourers and their dependants do not apply, and there is nothing to prevent these travelling as ordinary third class passengers, as the Committee would like to see. At a meeting held at Calcutta in January 1907, of representatives of the chief Railway Companies interested in the carriage of labour to Assam, arrangements were made for cheapening fares for tea garden coolies and for the general introduction of the credit-note system which was first brought forward by the Assam-Bengal Railway. The Railways also agreed to run such through carriages as might be required from time to time.

17. In the Resolution appointing the Committee, the Government of India announced their intention of withdrawing the Act from the districts of the Surma Valley and from Kamrup and Goalpara, and the Committee was directed to consider the effect which such withdrawal would have upon emigration to the Assam Valley. The Committee has found that the two Valleys mainly require labour of a different type, the latter favouring emigration from districts with an aboriginal or semi-aboriginal population, while the former can more readily draw its labour from the plains districts of Bengal and of the United Provinces. While this view may be theoretically correct, the Government of India doubt whether there is likely, in actual practice, to be any flow of emigration from the plains districts to the Surma Valley. It cannot certainly take place, unless the employers in the latter offer greater attractions to labour than at present. It is, therefore, considered that emigration to the two Valleys is likely to proceed to a considerable extent side by side in the parts of the country to which recruitment for the tea gardens is mostly confined, namely the districts of the Chota Nagpur and Orissa Divisions and the Santal Parganas in Bengal and parts of the Central Provinces and Madras. This being the case, it becomes necessary to examine very closely the effect of the withdrawal of

which lately existed in some districts of Bengal, where contractors were allowed to work without control. The Lieutenant-Governor of Bengal has since published a notification bringing all contractors under the provisions of Chapter III of the Act. The Government of India accept the opinion of the Committee that the contractor cannot altogether be dispensed with, but that he should invariably be licensed. 17. In the Resolution appointing the Committee, the Government of India announced their intention of withdrawing the Act from the districts of the Surma Valley and from Kamrup and Goalpara, and the Committee was directed to consider the effect which such withdrawal would have upon emigration to the Assam Valley. The Committee has found that the two Valleys mainly require labour of a different type, the latter favouring emigration from districts with an aboriginal or semi-aboriginal population, while the former can more readily draw its labour from the plains districts of Bengal and of the United Provinces. While this view may be theoretically correct, the Government of India doubt whether there is likely, in actual practice, to be any flow of emigration from the plains districts to the Surma Valley. It cannot certainly take place, unless the employers in the latter offer greater attractions to labour than at present. It is, therefore, considered that emigration to the two Valleys is likely to proceed to a considerable extent side by side in the parts of the country to which recruitment for the tea gardens is mostly confined, namely the districts of the Chota Nagpur and Orissa Divisions and the Santal Parganas in Bengal and parts of the Central Provinces and Madras. This being the case, it becomes necessary to examine very closely the effect of the withdrawal of

the Act from the Surma Valley districts, to which the Government of India gave their assent in the Resolution of the 20th February 1906. Such withdrawal would not, it is believed, handicap the Upper Valley in the matter of competition for labour, provided the latter comes generally to forego the penal contract which it at present asks the emigrant to enter into, and, if it holds out sufficient inducements to labour in the matter of the offer of land, it has great advantages over the Surma Valley. But there is another aspect of the question which cannot be overlooked, the possibility of having two systems of recruitment for the districts east of the Brahmaputra working side by side, one regulated by law and the other uncontrolled. The evidence recorded by the Committee in the recruiting districts was strongly against such an arrangement, and there was a widespread belief that abuses in recruitment would arise if all control were given up over recruitment for the Surma Valley, as people down-country do not distinguish between Cachar and Sylhet and the Assam Valley. A majority of the Committee was prepared to give the experiment a trial, provided the Surma Valley estates were prepared to give up taking coolies from contractors and depended on thoroughly organised recruitment by garden sardars.

18. The Governments of Bengal and of the Central Provinces are very strongly opposed to this proposal. And the Lieutenant-Governor of Eastern Bengal and Assam has pressed for the retention of control over contractors working for the Surma Valley, and recognises that this must be accompanied by some measure of control over garden sardars. The Surma Valley Branch of the Indian Tea Association has also taken strong exception to the suggestion that contractors should be left to work, even as an experiment, free of supervision. It is clear that the original proposal for withdrawing the Act, which had the active support of the great majority of the employers in the Surma Valley, must be reconsidered if control is to be exercised over contractors. There can be no such control, if the Act is swept away. Further, in a representation submitted on behalf of the employers who asked for the repeal of the Act, it is admitted that at least some gardens in the Surma Valley will still make use of the contractor to obtain the labour they require.

19. In the light of these facts and in view of the strong opposition to the step on the part of the Local Governments chiefly concerned, the Government of India have come to the conclusion that the complete withdrawal of the Act from the districts of the Surma Valley would be inadvisable. If abuses sprang up in recruitment, as the Local Governments anticipate, nothing could be more prejudicial to emigration. The feeling of security which has been brought about in the recruiting districts by the regulations of the present Act would be upset, and a distinct check to voluntary emigration would result. Great injury might in this way be done to the industry in general, including the Surma Valley estates which have asked for the Act to be withdrawn. The Government of India propose, therefore, to retain the recruitment provisions of the Act, while authorizing the Lieutenant-Governor of Eastern Bengal and Assam to remove the provisions relating to the labour districts from the district of the Surma Valley and from Kamrup and Goalpara in which they are no longer required except those dealing with Employers' returns, Magistrates' inspections and repatriation of labourers physically incapacitated or wrongfully recruited. Before, however, a notification to this effect can be published under section 221 of the Act, it will be necessary to amend the procedure governing recruitment, so as to dispense with the taking of contracts from emigrants engaged for the Surma Valley, whether by contractors or by garden sardars.

20. Final orders on this point must, however, for the present be reserved, but the Government of India are inclined to consider that the object in view can best be secured by re-enacting section 91 of the present Act, so as to enable Local Governments by notification to dispense with any of the provisions of Chapters III and IV in the case of any specified labour district subject to any provisions that may be prescribed in the notification. This course possesses two advantages. It would enable the present cumbersome provisions of the Act governing recruitment to be hereafter gradually abandoned, should circumstances arise to render this possible, without having recourse to fresh legislation. It would also enable a trial to be given, despite what has been said above, to the

system of absolutely free recruitment by garden sardars which the Surma Valley employers are anxious to obtain. The Government of India would be prepared when power has been obtained to see such a trial made in the United Provinces, if His Honour the Lieutenant-Governor has no objection to the step. Recruitment by contractors would remain prohibited by notification under section 8 of the Act, and garden sardars only allowed to work. But all restrictions on the latter would be withdrawn under the powers which the Local Government would possess under the law as amended. It may be that the anticipations as to the recurrence of abuses may not be so well founded as has been imagined, and the experiment would be of value as showing whether labour is likely to move to the gardens of the Surma Valley if the formalities of the Act are absolutely foregone. On this point the Government of India have already expressed their doubts. Labour will not be attracted without the offer of inducements sufficient to compete with the wages the labourer can command in other fields of employment, and till this is thoroughly recognised by the industry in both the Valleys of the Eastern province, there can, it is believed, be no real solution of its present difficulties.

ORDERED, that a copy of the foregoing Resolution be forwarded to the Governments of Madras, Bengal, the United Provinces, Eastern Bengal and Assam, to the Honourable the Chief Commissioner of the Central Provinces, to the Indian Tea Association, to the Home and Finance Departments and to the Railway Board.

Ordered, also, that it be published in the *Gazette of India*, for general information.

NOTIFICATIONS.

No. 1.—The following draft of the rules which it is proposed to make in exercise of the power conferred by sections 5 and 7 of the Indian Explosives Act, 1884, (IV of 1884) as applied to the Civil and Military Station of Bangalore, is published as required by section 18 of the said Act and in accordance with the directions contained in the Notification of the Government of India in the Home Department No. 1964, dated the 2nd September 1887, for the information of all persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration on or after the 1st April 1908 :—

Any objection which may be received from any person in respect of the said draft before the date aforesaid will be considered by the Resident in Mysore.

DRAFT.

**Rules under the Explosives Act, 1884, for the Transport, Manufacture, Possession
and Sale of Explosives.**

In exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, (IV of 1884), as applied to the Civil and Military Station of Bangalore, the Resident in Mysore, with the previous sanction of the Governor General in Council, is pleased to make the following rules to regulate the transport, manufacture, possession and sale of explosives in the Civil and Military Station of Bangalore and on the Railways in Mysore under British Jurisdiction.

All rules heretofore made by the Resident in Mysore under the said Act for regulating the transport, manufacture, possession or sale of explosives are hereby cancelled. •

Nothing in these Rules shall apply to the packing, or transport of capped safety cartridge cases, if otherwise empty, when packed, or transported in the same consignment with arms covered by a license granted under the Indian Arms Act, 1878 (XI of 1878).*

PRELIMINARY.

1. (1) For the purposes of these rules, explosives shall be classified as follows Classification of
explosives.
namely:—

[illegible]

(2) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes.

2. The expression "gunpowder," as used in these rules, means exclusively gunpowder ordinarily so called.

3. The expression "nitrate-mixture," as used in these rules, means any preparation other than gunpowder, which is formed by the mechanical mixture of nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

* Further exemptions are made by section 14 of the Indian Explosives Act, 1884, which runs as follows:—

Saving for manufacture, possession, use, sale, transport or importation by Government.

"Nothing in this Act shall apply to the manufacture, possession, use, sale, transport or importation of any explosive—

(a) by order of the Government, or

(h) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artisan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer, under the Indian Volunteers Act, 1869, in the course of his employment or duty as such."

XX of 1869.

Nitrate-mixture includes, among other explosives,—

Chilworth special powder,	Ripp-Lene,
Fortis explosive,	Safety blasting powder, and
Westfallite.	

Definition and
sub-division of
"nitro-compound"
(class 3).

4. (1) The expression "nitro-compound" as used in these rules, means any chemical compound which is possessed of explosive properties, or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

(2) Nitro-compound shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising—

(i) such explosives as—

Amberite No. 1,	Dynamite,
Ballistite,	Gelatine Dynamite,
Blasting Gelatine,	Gelignite,
Carbonite,	Lithofracteur,
Cordite,	Nitro-glycerine, and
Stonite, and	

(ii) any chemical compound or mechanically mixed preparation which consists either wholly or partly, of nitro-glycerine or some other liquid nitro compound; and

(b) Division 2, comprising—

(i) such explosives as—

Amberite No. 2,	Nitrated gun-cotton,
Ammonite,	Picrates,
Bellite,	Picric powder,
Coopal's powder,	Roburite,
Cotton gunpowder,	Sawdust and gun-cotton powder,
E. C. powder,	Schultz's powder, and
Gun-cotton ordinarily so-called,	Tonite (or cotton powder), and

(ii) any nitro-compound, as hereinbefore defined, which is not comprised in division 1.

Definition and
sub-division of
"chlorate-mixture"
(class 4).

5. (1) The expression "chlorate-mixture," as used in these rules, means any explosive containing a chlorate.

(2) Chlorate-mixture shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising—

(i) such explosives as—

Horsley's blasting powder, and
Brain's blasting powder, and

(ii) any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound, and

(b) Division 2, comprising—

(i) such explosives as —

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder,	Reichen's blasting charges,
Reveley's powder,	Teutonite, and
Chlorated gun-cotton, and	

(ii) any chlorate-mixture, as hereinbefore defined, which is not comprised in division 1.

Definition and
sub-division of
"fulminate"
(class 5).

6. (1) The expression "fulminate," as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness, to undergo decomposition from very slight exciting causes), is especially dangerous.

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows, namely:

- (a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and
- (b) Division 2 comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

7. (1) The expression "ammunition," as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

- (a) a cartridge or charge for small arms, cannon or any other weapon, or for blasting or
- (b) a safety or other fuze for blasting or for shells, or
- (c) a tube for firing explosives, or
- (d) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a fire-work.

Definition of "ammunition, percussion-cap, detonator, safety fuze, and safety cartridge," and sub-division of "ammunition" (class 6).

(2) The expression "percussion-cap," as used in these rules, does not include a detonator.

(3) The expression "detonator," as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(5) The expression "safety cartridge," as used in these rules,—

- (i) means a cartridge for small arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and
- (ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i) whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers.

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

(6) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising exclusively—

Safety cartridges,
Safety fuzes for blasting,
Railway fog-signals, and
Percussion-caps; and

(b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small arms, other than safety cartridges,
Cartridges and charges for cannon, shells, mines, blasting or other like purposes,
Shells and torpedoes containing any explosive,
Fuzes for blasting, other than safety fuzes,
Fuzes for shells,
Tubes for firing explosives, and
War-rockets,

which do not contain their own means of ignition; and

- (c) Division 3, comprising any ammunition, as hereinbefore defined, which contains its own means of ignition and is not included in Division 1, such as—

Detonators,
Cartridges for small-arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells, and
Tubes for firing explosives,
containing their own means of ignition.

Explanation.—The expression "ammunition containing its own means of ignition" means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

Sub-division of
"firework"
(class 7).

8. Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely :

- (1) Division 1, comprising fire-work compositions, that is to say,—

- (a) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,
(b) any star, and
(c) (except as declared in the proviso to this rule) any coloured fire composition ;
and

- (2) Division 2, comprising manufactured fire-works, that is to say, any explosive of class 1, 2, 3, 4, 5 or 6 and any fire-work composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals :

Provided that a substantially constructed and hermetically closed metal case containing not more than 1 lb. of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured fire-work" and not a "firework composition."

TRANSPORT.

9. The following general rules shall be observed with respect to the packing of explosives for conveyance:—

Packing of
explosives for
conveyance.

- (1) Unless the context otherwise requires,—

the expression "outer package" means a box, barrel, case or cylinder, of wood, metal or other solid material, of such strength, construction and character that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape ;

the expression "inner package" means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping ;

the expression "authorized explosive" means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being ;

the expression "propellant" means an authorized explosive of Class 3, adapted and intended exclusively for use as a propelling charge in cannon or small arms ; and the expression "special authority" means a written authority granted by the Chief Inspector of Explosives to which may be attached such conditions as may in the opinion of the Chief Inspector of Explosives, be necessary to meet the special requirements of the case.

- (2) The interior of every package shall be free from grit and otherwise clean.

- (3) Save as hereinafter provided there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel.

- (4) Every package when actually used for the packing of one explosive shall not be used for the packing of any other explosive or any other article or substance :

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant :

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature or liable to cause fire or explosion, in the same package as an explosive of the 1st Division of the 6th (Ammunition) Class.

(5) Subject to the foregoing provisions, the following shall be the method of packing authorized explosives of various classes, respectively, and the maximum amounts which may be in any one package :

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Class 1	When the quantity in any one consignment does not exceed 5 lbs. in amount, a single outer package ; otherwise A double package, the inner and outer packages being as above defined.	100 lbs. 100 lbs.	100 lbs.
		Provided that where gunpowder and propellant are packed together the amount shall not exceed—	
		50 lbs.	25 lbs.
Class 2	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 1, other than propellants.	As for Class 1, provided that either the outer or inner package shall be thoroughly waterproof, and both shall be without metal in the construction thereof.	50 lbs.	5 lbs.
Class 3, Division 1, propellants.	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 2, other than Picric Acid and Wet Guncotton.	As for Class 1	50 lbs.	50 lbs.
Picric Acid	As for Class 1	Unlimited.	Unlimited.
Guncotton so wetted with water as to be absolutely unflammable.	As for Class 1, provided that the inner or outer package, or both of them, shall be of such a nature, and so closed, as to prevent any material loss of moisture during conveyance.	Unlimited.	Unlimited.
Class 4	As for Class 1	50 lbs.	50 lbs.
Class 5	Packed in water. A treble package, the innermost package being a bag permeable to water, enclosed in a case containing sufficient water to ensure the explosive being kept constantly wet ; and the outer package containing sufficient water constantly to surround the case. Both the case and the outer package shall be of such construction as will not allow water to escape. If the explosive is of such character that it cannot be packed in a thoroughly wet condition, it shall be packed in accordance with conditions set forth in a special authority.	200 lbs.	25 lbs.
Class 6, Division 1, other than Pin-fire cartridges for pistols.	A single outer package : Provided that the above general rule (3) shall not apply to explosives of this division. Provided also that bulletted cartridges of a calibre exceeding 0.5 inch and belonging to this division shall be packed in such a manner that the point or any bullet cannot come in contact with the cap of another cartridge.	Unlimited
Pin-fire cartridges for pistols.	(a) Not exceeding 50 in number in any one consignment :—So packed in a single package that the bases lie alternately in opposite directions. The bases and pins shall be so fitted into perforations in millboard or other suitable material as to prevent the firing of any one of the said cartridges by an explosion in any other of the said cartridges. (b) Exceeding 50 in number :—In an inner and outer package, the cartridges being packed in inner packages with millboard as above required.	50 in number 2,500 in number. 50 in number.

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Class 6, Division 2	Explosives made up into cartridges or charges for cannon, shells, torpedoes, mines, blasting or other like purposes, shall be packed in such manner and in such quantity as is required for the same explosive when not so made up; provided that, where a double package is required, the enclosing case of such cartridges or charges may, if it satisfies the conditions required for an inner package, be held to be such inner package.
	Other ammunition of this division :—A single outer package.	100 lbs.
Class 6, Division 3, other than Detonators and Electric Detonators.	As for Class 1	50 lbs.	2 lbs. or 10 in number, whichever be the greater.
Detonators	<p>Provided that bulletted cartridges of a calibre exceeding 0.5 inch and belonging to this division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.</p> <p>(a) Not exceeding 1,000 in any one consignment :— As for Class 1, provided that the detonators and the spaces between the same and between the sides of the inner package and the said detonators shall all be filled, as far as practicable, with fine sawdust or other similar material; a layer of felt or other soft yielding material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed, in such manner, and so secured, that both ends of the detonators will rest upon the said cotton wool or other material; every inner package, if of metal, to be lined throughout with paper or other soft material; and</p> <p>(b) Exceeding 1,000 detonators :— The detonators shall be packed in inner packages, with sawdust and cotton wool as above described. Such inner packages shall be placed inside a substantial case of wood or metal, made and closed so as to prevent any of the inner packages escaping therefrom, and such case shall be placed inside an outer package in such manner and so secured as to leave a clear space of not less than three inches between the case and every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw, or other similar material, or may contain a light frame work or battens of wood to keep the case aforesaid in position in the outer package; and</p> <p>(c) Where the number of detonators exceeds 5,000, such outer package shall be provided with handles or other contrivance by means of which it can be safely and conveniently carried.</p>	<p>1,000 in number.</p> <p>10,000 in number.</p>	<p>100 in number.</p> <p>100 in number.</p>
Electric Detonators	As for Class 1, provided that where the number in any outer package exceeds 3,000, such outer package shall be provided with handles or other contrivance, by means of which it can be safely and conveniently carried.	5,000 in number.	100 in number.
Class 7, Division 1	Double package, the inner package being hermetically closed, and contained in an outer package as above defined.	20 lbs.	1 lb.
Class 7, Division 2	Single outer package, provided that the above general rule (3) shall not apply to explosives of this Division.	100 lbs.

(6) Nothing in this rule shall be deemed to prohibit the use of an additional package, whether inner or outer, provided that such additional package shall not be of such character as shall have been prohibited in writing by the Chief Inspector of Explosives.

(7) An explosive which is not an authorized explosive shall be packed in such manner as may be directed by a special authority with reference to such explosive.

(8) On the outermost package there shall be affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the word "Explosive" the name of the explosive, the number of the class and division to which it belongs, and the name of the manufacturer or sender.

In the case of explosives of Classes 3 and 4, there shall be added the date of manufacture or issue from the factory, or such sign indicating such date as may be approved by the Chief Inspector of Explosives.

Provided, first, that in the case of cartridges or charges for cannon, shells, mines, blasting or other like purpose which do not contain their own means of ignition, the marking shall be as for the explosive when not so made up.

Provided, secondly, that in the case of explosives of Class 6, Division 1 (safety fuzes excepted), there shall be added the words "Not liable to explode in bulk".

Provided, thirdly, that in the case of Pin-fire cartridges for pistols there shall be added the words "Pin-fire cartridges."

Provided, fourthly, that in the case of safety fuzes or gunpowder the word "Explosive" and the number of class and division may be omitted; and

Provided, fifthly, that, where an outer package contains more than one explosive, the marking above required shall be affixed separately in respect of each explosive so contained.

(9) To meet special cases exemption may be granted by special authority from the observance of any one or more of the conditions imposed by this rule.

10. Whoever commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance shall be punishable with fine which may extend to ₹1,000. Penalty.

11. The following general rules shall be observed with respect to the conveyance of explosives: Mode of conveyance.

i. No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

ii. There shall not be conveyed in any carriage which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

iii. Except in the case of small consignments carried by railway which may be unloaded at any time, explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than half a wagon-load booked to one station shall be deemed to be a small consignment.

iv. Whilst the explosive is being loaded on or unloaded out of any carriage no fire or artificial light, or any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer-matches, articles for striking a light, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899) or any other Act for the time being in force regarding the importation, possession and transport of petroleum, applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, had or used dangerously near to such carriage, and no smoking shall be allowed in, on, or dangerously near to, the same:

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used; and no person, while handling any explosive (except an explosive of division 1, class 6, if packed in accordance with the packing rules), shall wear boots or shoes with iron or steel nails, heels or tips.

v. In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

vi. The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

vii. There shall not be any iron or steel in the interior of the portion of the carriage with which the case containing the explosive is or may come in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material.

viii. In the stowing of the explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endanger by any other article or substance conveyed in such carriage which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

ix.—The amount of the explosives conveyed in any one carriage at any one time shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, as effectually to protect the explosive against accident by fire from without, in which case the amount of the explosives conveyed shall not exceed the following :—

	Tons.
In any one carriage on a railway	10
In any one other carriage	2

* NOTE.—This rule shall, in the case of dynamite conveyed by railway, be read subject to paragraph XII of Rule 13.

x.—Nothing in the foregoing rules (except rule i) shall apply to any explosive of the 1st division of the 6th (ammunition) class :

Provided that all due precautions are taken for the prevention of accidents.

Conveyance otherwise
than by railway.

12. The following rules shall be observed with respect to the conveyance of explosives otherwise than by railway :—

i.—No explosive shall be conveyed in a carriage whilst carrying public passengers unless the quantity is less than 5 lbs. and notice has been given beforehand to the person in charge of such carriage : and all due precautions are taken for the prevention of accidents by fire or explosion :

Provided that there shall not be conveyed in any such carriage any explosive of the 5th (fulminate) class or any explosive of the 3rd division of the 6th (ammunition) class or of the 1st division of the 7th (firework) class, except detonators packed according to Rule 9 to the number of 200.

Provided that the amount of explosive of the 5th (fulminate) class in the detonators shall in no case exceed in the aggregate 3 oz. (a certificate to this effect being given by the Agent of the Company by whom the detonators are tendered for transport).

Provided also that no other explosive is carried in the same compartment.

ii.—With respect to the conveyance by carriage of explosives of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, or of larger quantities than 5 lbs. of any other explosive, the following regulations shall be observed :

(1) The person in charge of the carriage shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance ; and a person who is intoxicated shall not have charge of any carriage conveying explosive and shall not be permitted to be in, or on, or attending the same.

(2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouseman or carrier is prepared to receive the consignment, and a warehouseman or carrier shall not make such an intimation, nor receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same.

(3) The carriage conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of the explosive conveyed exceed 100 lbs. stop or delay for a longer time than may be reasonably necessary, or stop unnecessarily, at any place where such stopping would be attended with special public danger.

iii.—No explosive belonging to class 1 (gunpowder class), class 2 (nitrate-mixture class), class 3 (nitro-compound class), class 4 (chlorate mixture class) or class 5 (fulminate class), shall be carried, otherwise than by rail, across any railway bridge over which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration.

Provided that this prohibition shall not apply in respect of quantities of explosives of class 1 (gunpowder class) or class 3 (nitro-compound class) not exceeding 5 lbs. in weight.

Conveyance
public railways.

13 The following rules shall be observed with respect to the conveyance of explosives by public railways :—

i.—No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration, may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity and mode of packing of the explosive proposed to be conveyed, and his own name and address, and

also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorised officer of the railway that such consignment will be received.

ii.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive shall be brought, sent, or forwarded to or upon any railway of the said Railway Administration.

iii.—Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sunrise and sunset, as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

All gunpowder under despatch or receipt by a Government arsenal, dépôt, or factory shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal, dépôt, or factory. In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion.

iv.—An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival: if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and, if necessary, shall be protected by a police guard.

v.—The railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package to ascertain the fact, at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages, pending such return, in the manner prescribed in the preceding rule.

vi.—Subject to the exception provided for in clause (e), no explosive shall be conveyed by passenger-train except of the kinds and in the manner hereinafter specified in this rule:

- (a) Safety cartridges and percussion-caps and safety-fuses (for blasting), also fog-signals for railway use which may be conveyed in ordinary wagons or carriages.
- (b) Explosives of the 3rd (nitro-compound) class which may be carried in the form of cartridges up to the limit of 5 lbs.

Provided that no detonators are carried in the same compartment.

- (c) Detonators packed according to rule 9 may be carried to the number of 200.

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3 oz. (a certificate to this effect being given by the Company, firm, or person tendering the detonators for transport or by its or his agent):

Provided also that no other explosive is carried in the same compartment.

- (d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25 lbs. of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80 lbs.

- (e) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that they are loaded in properly constructed powder vans; that not more than one powder van containing explosives is forwarded at any one time by a mixed train; that there are not less than three vehicles between the powder van and either the engine or the passenger coaches; that the powder van is close-coupled to the adjoining vehicles; and that directly a powder van containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train.

vii.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriages shall be specially built and approved by the Railway Board for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of safety cartridges for small-arms.

viii.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipelights, acids, naphtha, paraffine, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any other volatile spirit substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

ix.—The consignor shall attach to the consignment note a certificate or (provided the original is produced for verification) copy of a certificate, signed by an officer authorised by the Resident in this behalf that the explosive, if it is an explosive of class 3 or 4, is of the standard purity; and further in the case of dynamite, and all nitro-glycerine compounds, that there are no signs of exuded nitro-glycerine or of liquefaction. The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in England or in British India or in the Civil and Military Station of Bangalore.

x.—In the case of explosives under classes 3 and 4 the outer packages shall be marked with the date of the manufacture of the explosives. The abovementioned certificate shall contain sufficient information to admit of all packages being easily recognised.

xi.—The certificate referred to in rule 13 (ix) shall be valid for six months after date, if the examination has been made between the 15th October and 31st March but any Railway Administration which accepts dynamite and other nitro-glycerine compounds for transport may demand a fresh certificate for these explosives, if presented for conveyance between 1st April and 15th October (both inclusive).

xii.—Packages containing dynamite and other blasting explosives of the 3rd (nitro-compound) class, or explosives of the 4th (chlorate-mixture), 5th (fulminate) classes or of the 1st division of the 7th (firework) class shall be stowed in one layer only and secured so as to prevent movement during transit, and the gross load in any one wagon shall not exceed 3 tons:

Provided that, if the packages of explosive are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons.

xiii.—No explosive of the 5th (fulminate) class or of the 3rd division of the 6th (ammunition) class, or of the 7th (firework) class shall be carried in the same train with any explosive not of the class and division to which it belongs, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

xiv.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair, cloth, hides, or other suitable materials shall be spread on the floor of the wagon and between each layer of packages, except when the packages are covered with gunny or felt, or contain safety cartridges for small-arms packed in tin-lined service-pattern boxes.

xv.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

xvi.—Packages containing explosives other than those referred to in rule 13 (xii) shall not be stored in more than three layers one above the other. But if the packages are in rectangular form and of uniform size (provided they are double packages and are so secured as to prevent movement during transit) they may be packed in five layers one above the other. But in the case of safety cartridges, for small arms packed in tin-lined service-pattern boxes, there is no restriction. Subject to the provisions of rule 11 (iii), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

xvii.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, if they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance. This precaution is not necessary with wagons specially constructed for the carriage of explosives. The speed of these movements shall be restricted to 5 miles an hour; they shall be superintended by a duly authorised officer, who shall be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

xviii.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close-coupled to one another as well as to the adjoining wagons, and shall be preceded and followed by three wagons not loaded with explosives or other traffic of an inflammable nature.

xix.—If the wagons employed in the transport of explosives are provided with brakes, other than iron brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes, other than iron brakes, on vehicles immediately adjoining such wagons, be worked while such wagons are so running.

xx.—Wagons shall in every case be locked when loaded with explosives.

xxi.—All operations connected with the transhipment of explosives at junction stations shall take place during day light.

14. Whoever commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives shall be punishable with a fine which may extend to Rs. 100.

MANUFACTURE, POSSESSION AND SALE.

Licenses when required.

15. (1) An explosive shall not be manufactured except under, and in accordance with the conditions of, a license granted under these rules for such manufacture. License when required for manufacture.

(2) Provided that clause (1) of this rule shall not apply—

- (a) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale; or
- (b) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use; or
- (c) in the case of any person who holds a license under these rules to possess an explosive, and who, duly observing the regulations prescribed in clause (1) of rule 35 in connection with his magazine or licensed premises, fills with the said explosive, for sale or otherwise, cartridges for small-arms; or
- (d) in the case of any person who holds a license under these rules to possess an explosive, and who, duly observing the regulations prescribed in clause (2) of rule 35 in connection with his magazine or licensed premises, by filling cartridges, making charges, or drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him or under his control.

16. (1) An explosive shall not be possessed except under, and in accordance with the conditions of, a license granted under these rules for such possession. License when required for possession.

(2) Provided that clause (1) of this rule shall not apply to the possession—

- (a) of any explosive by a carrier or other person for the purpose of transport, when the same is being kept or transported in accordance with rules 9 to 14.
- (b) by any person who is lawfully entitled under the Indian Arms Act, 1878 (XI of 1878) or the rules for the time being in force thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, of such explosives in such quantities as may be prescribed by the said Act, or rules, or, when no quantities are so prescribed, in reasonable quantities for his own private use; or

(c) by any person, of manufactured fireworks in any quantity not exceeding two hundred pounds when the same are obtained and intended for immediate use and not for sale, and are possessed by such person for a period not exceeding fourteen days, and when they are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to the explosives; and (if such fireworks be kept in a municipality in any quantity exceeding fifty pounds) when they are covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of District Superintendent of Police.

(3) Provided also that clause (1) of this rule shall not apply to the possession by any person, for his private use and not for sale, of

- (i) gunpowder in any quantity not exceeding thirty pounds; or
- (ii) safety cartridges made with gunpowder and containing in all not more than one hundred and fifty pounds of gunpowder; or
- (iii) cartridges (non-safety) for small arms, made with gunpowder and containing in all not more than five pounds of gunpowder; or
- (iv) cartridges for cannon or blasting, made with gunpowder and not containing their own means of ignition, and containing in all not more than thirty pounds of gunpowder; or
- (v) cartridges for small-arms, made with small-arm nitro-compound and containing in all not more than ten pounds of small-arm nitro-compound; or
- (vi) small-arm nitro-compound in any quantity not exceeding ten pounds; or
- (vii) percussion-caps or safety fuzes for blasting; or
- (viii) railway fog-signals when kept by a railway company for use on their Railway; or
- (ix) any other explosives in any quantity not exceeding ten pounds (whether or not contained in cartridges), or, in the case of detonators, in any quantity not exceeding one hundred in number; provided that the possession of the explosives is covered by a permit issued by a Magistrate of the first class or a Police officer not below the rank of Assistant District Superintendent of Police.

(4) The quantity of any kind of explosive kept by any person for his private use under clause (3) without a license shall be in substitution for the like quantity of any other kind of explosive (whether gunpowder or not) which might otherwise be so kept by him; and the quantity of such other kind of explosive shall be reduced accordingly: provided that, if the explosive so kept is in any other form than that of cartridges for small-arms, the explosive of which the quantity is so reduced shall be some explosive other than safety cartridges made with gunpowder.

(5) Notwithstanding anything contained in clause (3) or clause (4) of this rule, clause (1) shall apply to the possession for private use of explosives of the 5th (fulminate) class in any quantity.

Saving of notifications under section 6 of the Explosives Act, 1884.

17. Nothing in these rules shall be deemed to authorise the manufacture or possession of any explosive in contravention of any prohibition notified under section 6 of the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force.

License when required for sale.

18. (1) An explosive shall not be sold except under, and in accordance with the conditions of, a license granted under these rules for such sale.

(2) Provided that clause (1) of this rule shall not apply to the sale by any person of an explosive which he is lawfully entitled to possess for his own private use, to any person who is lawfully entitled to possess the same.

Grant of licenses.

Grant of licenses for manufacture, possession and sale in certain cases.

19. (1) Licenses to manufacture, possess and sell or to possess and sell, or to possess or to sell from stock kept in a magazine in respect of which a license has been granted under rule 22—

- (a) an explosive of the 1st (gunpowder) class, or
- (b) small-arm nitro-compound belonging to the 3rd class, or
- (c) an explosive of the 1st division of the 6th (ammunition) class, or
- (d) an explosive of the 7th (firework) class,

may be granted by the District Magistrate.

(2) A license granted under this rule shall not entitle the licensee to possess at the same time more than—

- (i) two hundred pounds of gunpowder or small-arm nitro-compound, together with any quantity of explosive contained in ammunition of the 1st division of the 6th (ammunition) class, or
- (ii) two hundred pounds of manufactured fireworks, or
- (iii) sixty pounds of explosives (including gunpowder, small-arm nitro-compound and manufactured fireworks), together with any quantity of explosives contained in ammunition of the 1st division of the 6th (ammunition) class, or
- (iv) any such less quantity of any of the said explosives as the licensing officer may think fit to specify in the license:

(3) Every such license shall specify the place in which alone the explosives referred to in it may be kept; and such place shall (except in the case of a license to sell from stock kept in a magazine in respect of which a license has been issued under rule 22) be approved by the licensing authority.

(4) Every license granted under this rule shall be in Form A, Form B, or Form C in the schedule hereto annexed, as the case may be, and shall contain the conditions prescribed therein.

(5) The expression "small-arm nitro-compound," as used in this rule, means a nitro-compound adapted and intended exclusively for use in cartridges for small-arms.

Grant of licenses for manufacture in cases not provided for by rule 19.

20. (1) Licenses to manufacture explosives in cases not provided for by rule 19 may be granted by the Governor General in Council.

(2) Every such license shall be in such form and shall contain such conditions as may be prescribed by the Governor General in Council.

Provided that the conditions so prescribed in the case of the manufacture of any explosive in any quantity shall comprise all the conditions prescribed in these rules and the Forms hereto annexed in the case of the possession of such explosive in such quantity.

Grant of licenses for possession in certain cases not provided for by rule 19.

21. (1) Licenses for the possession, at such places as may be approved by the licensing officer, of explosives other than those specified in rule 19 may, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed sixty pounds, be granted by the District Magistrate.

(2) Every such license shall be in Form D in the schedule hereto annexed and shall contain the conditions prescribed therein.

Grant of licenses for possession in, and sale from, a magazine in certain other cases.

22. (1) Licenses for the possession of explosives in, and the sale of explosives from, a magazine in cases not provided for by rules 19 and 21, may, if the explosive is not one of the 5th (fulminate) class, be granted by the Resident, or by any officer authorized by the Resident in this behalf.

(2) An applicant for such a license must submit to the District Magistrate an application in Form E in the schedule hereto annexed, and shall comply with the conditions embodied therein.

(3) Upon receipt of the said application, the District Magistrate shall forthwith cause notice to be published of the application and fix a day on which will be heard any persons who object to the establishment of a magazine on the proposed site and who have, not less than seven clear days before the day of hearing sent to the said District Magistrate, and to the applicant, notice of their intention to appear and object with their name, address and calling, and a short statement of the grounds of their objection.

(4) The day of hearing to be fixed under clause (3) shall be a day following soon after the expiration of a period of one month from the publication and service of the notices prescribed by this rule.

(5) Where the site of the proposed magazine lies within, or within one mile of the limits of the jurisdiction of any Municipal Authority, the applicant shall prepare, for service on such Authority, a notice of the application and of the said day of hearing.

(6) The notice by the District Magistrate under clause (3) shall be published, and the notice under clause (5) shall be served, at the cost of the applicant, by the District Magistrate, not less than one month before the said day of hearing.

(7) On consideration of the application, and on making such inquiry as he may deem necessary, the District Magistrate may dissent altogether from the establishment of the magazine on the proposed site, or may assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.

(8) On the completion of the inquiry, the District Magistrate shall forward the application and draft license with his recommendation to the Chief Inspector of Explosives, who shall forward to the applicant a statement in Form F in the schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine. The table of distances which will ordinarily be followed is that annexed to these rules.

(9) The said Form F shall be returned, with the third column duly filled in, by the applicant to the Chief Inspector of Explosives, who shall submit it to the licensing authority constituted by clause (7) of this rule, with his recommendations, and with the draft license and a statement in Form G showing the distances which, after considering any representation made by the applicant when returning Form F to him, he considers should be kept clear round the magazine.

(10) The licensing authority may thereupon grant the license as applied for, or with such modifications or restrictions as may be deemed proper, or may reject the application.

(11) A copy of each license granted shall be forwarded to the Chief Inspector of Explosives, and the original license shall be forwarded to the District Magistrate if the license has not been granted by him.

(12) The District Magistrate, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof, shall confirm the license; and, unless and until so confirmed, the license shall not come into force.

(13) If the District Magistrate decides not to confirm any license, he shall forthwith inform the Chief Inspector of Explosives.

(14) Every license granted under this rule shall be in Form H in the schedule hereto annexed, and shall contain the conditions prescribed therein.

23. (1) With the previous sanction of the Governor General in Council, the Resident may, in cases of urgency and for any period not exceeding six months, grant a license for the possession of explosives under rule 22 in a floating magazine. Grant of licenses for possession in a floating magazine.

(2) Notwithstanding anything contained in clause (14) of rule 22, such licenses shall be in Form I in the schedule hereto annexed, and shall contain the conditions and restrictions prescribed therein and such further conditions and restrictions (if any) as the Resident may in any case direct.

24. Licenses for the possession of explosives of the 5th (fulminate) class may be granted by the Governor General in Council in such form, and subject to such conditions, as he may in each case prescribe. Grant of licenses for possession of fulminates.

25. (1) Licenses for the sale of explosives in cases not provided for by rules 19 and 22 may be granted, by the District Magistrate, to any person licensed to possess the same. Grant of licenses for sale in cases not provided for by rules 19 and 22.

(2) Every such license shall be in Form J in the schedule hereto annexed, and shall contain the conditions prescribed therein.

Duration of licenses.

26. All licenses granted under any of these rules except rule 23 shall expire on the 31st day of December of the year for which they are granted. Duration of licenses.

Renewal of licenses.

Renewal of licenses
granted under rule 20.

27. The Resident may, from time to time, renew, on the same or on altered conditions, any license granted by the Governor General in Council under rule 20 for the manufacture of explosives :

Provided as follows :—

- (1) no such renewal shall admit of the manufacture of any explosives other than that specified in the original license ;
- (2) every such renewal shall first be approved by an Inspector of Explosives ; and
- (3) every such renewal shall be for a period not exceeding one year.

Renewal of licenses
granted under rule 22.

28. (1) Any licensee who desires the renewal of a license granted under rule 22, must, before the expiration of the license, submit the license to the Chief Inspector of Explosives, with a written application stating the quantity and description of explosives for the storage of which he desires the license to be renewed.

(2) On receipt of such application the Chief Inspector of Explosives shall, if there is any variation in the particulars of the license, send to the applicant a statement in Form F in the schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine.

(3) The procedure prescribed in clauses (9) to (13) of rule 22 shall then be followed, so far as it is applicable.

Renewal of other
licenses.

29. Any license granted under any of these rules other than rule 20 or rule 22 may, unless the circumstances have so changed that the grant of a new license either would not be authorised under the Indian Explosives Act, 1884 (IV of 1884), and these rules, or is deemed objectionable by the licensing authority, be renewed on application made previous to its expiration.

Duplicate licenses.

Grant of duplicate
licenses.

30. When a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee.

Temporary licenses.

Disposal of stock and
grant of temporary
license on expiration
or forfeiture of license.

31. (1) A person licensed to manufacture, possess or sell any explosives shall, on the expiration or forfeiture of his license, forthwith give notice to the District Magistrate, of the quantity of such explosives then in his possession, and shall comply with any directions which the said Magistrate may think fit to give in regard to the possession or transport of the same.

(2) On receiving a notice under clause (1) of this rule, the said Magistrate may grant for a term not exceeding three months, a temporary license for the possession or sale of the actual stock of explosives which is held at the time of the issue of such license.

Fees for licenses.

Amount of fees.

32. The following fees shall be charged for licenses granted under these rules, namely :—

A—Each license granted under rule 19—

- | | |
|---|------------------------------|
| (1) to manufacture, possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half | Twenty rupees ; |
| (2) to manufacture, possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth | Ten rupees ; |
| (3) to manufacture, possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity | Five rupees ; |
| (4) to possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half | Ten rupees ; |
| (5) to possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth | Five rupees ; |
| (6) to possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity | Two rupees and eight annas ; |
| (7) to possess explosives | Eight annas ; |

B—Each license granted under—

rule 20 or rule 24 Such fee as the Governor-General in Council may in each case prescribe.

rule 21 or rule 25 Five rupees.

rule 22 or rule 23 Twenty rupees.

C—Each license on renewal The same fee as that charged for the original license.

D—Each duplicate license granted under rule 30. Eight annas.

E—Each temporary license granted under rule 31. A fee bearing the same proportion to the fee charged for the annual license as the period covered by the temporary license bears to a full year.

F—Each new license granted under rule 42. One rupee.

33. Notwithstanding anything contained in rule 32.

Exemptions from payment of fees.

(1) the holder of a license duly granted in Form VI-B, or in Form VII-B, under rule 11 of the rules made under the Indian Arms Act, 1878 (XI of 1878), may, on production of such license before the District Magistrate, be granted a license under rule 19 of these rules without payment of any fee, and

(2) no fee shall be charged for licenses granted to contractors, cultivators or other persons to possess gunpowder, fuses or other explosives in reasonable quantities when the same are proved to the satisfaction of the officer granting the license to be required *bona fide* for blasting purposes.

34. (1) The fees chargeable under these rules shall ordinarily be levied by means of impressed stamps. An application for the grant or the renewal of a license shall bear the proper stamp: provided that if the application is refused, the value of the separate stamp (if any) which may have been already provided by the applicant for the desired license or renewed license, *minus* the deductions prescribed by section 54 of the Indian Stamp Act, 1899 (II of 1899), may be refunded to the applicant. An application should not be made on the stamped paper intended for the license or renewed license; but where this has been wrongly done, the value of the stamp may be refunded *minus*—

- (i) the value of the stamp which should have been affixed to the application, and
- (ii) the deductions prescribed as aforesaid.

(2) Where the fees leviable under these rules have been made over to any local body, the fees shall be paid in such manner as that local authority may from time to time direct.

Supplemental provisions.

35. (1) When any person referred to in sub-clause (c) of clause (2) of rule 15 fills cartridges as indicated in that sub-clause he shall see to the observance of the following regulations, namely:—

Regulations to be observed by certain persons who are exempted from taking out a license for manufacture.

- (a) There shall not be in the room in which such filling is being carried on more than five pounds of gunpowder or small-arm nitro-compound or such quantity of any other explosive as is prescribed by the Resident in this behalf, unless it is made up into safety cartridges;
- (b) no work unconnected with the making of the cartridges shall be carried on in the said room while such filling is being carried on;
- (c) there shall not be in the said room, while such filling is being carried on, any fire or any artificial light, except a light of such construction, position and character as not to cause any danger of fire or explosion;
- (d) if filling is done on magazine premises the said room shall be detached from the magazine, but shall be situated in the immediate neighbourhood thereof, and shall be situated at such distance therefrom as may be specified on the license by the authority granting the same; and
- (e) the licensee shall give notice to the authority which granted his license that he intends to carry on such filling of cartridges as is allowed by this rule.

(2) When any person referred to in sub-clause (d) of clause (2) of rule 15 adapts or prepares explosives as indicated in that clause, he shall see to the observance of the following regulations, namely:—

- (i) there shall not be in the workshop in which such adaptation or preparation is carried on more than one hundred pounds of gunpowder, or such quantity of any other explosive as is prescribed by the Resident in this behalf;
- (ii) no work unconnected with such adaptation or preparation shall be carried on in the said Workshop while such adaptation or preparation is being carried on;
- (iii) the said workshop shall be detached from the magazine or licensed premises, but shall be situated in the immediate neighbourhood thereof, and shall be situated at such distance therefrom as may be specified on the license by the authority granting the same;
- (iv) an explosive of one description shall not be converted into an explosive of another description, and an explosive shall not be unmade or resolved into its ingredients; and
- (v) the licensee shall give notice to the authority which granted his license that he intends to carry on such adaptation or preparation as is allowed by this rule.

36. Any authority granting a license under these rules may, if such authority thinks fit, direct, by an order written on the license that it shall have the effect of a like license granted by the like authority under the Indian Arms Act, 1878 (XI of 1878).

Power to extend effect of license.

Powers of inspections,
search, seizure, etc.,

37. (1) Any of the officers mentioned in clause (2) of this rule may, within the areas respectively specified in that clause, but subject to the provisions of the Indian Arms Act, 1878 (XI of 1878), and of any rules for the time being in force thereunder, in cases to which that Act applies—

- (a) enter, inspect and examine any place or carriage in which an explosive is being transported, manufactured, possessed or sold, as the case may be, under a license granted under these rules or any prior rules made under the Indian Explosives Act, 1884 (IV of 1884), or in which he has reason to believe that an explosive has been or is being transported, manufactured, possessed or sold in contravention of the said rules or Act;
 - (b) search for explosive therein;
 - (c) take samples of any explosives found therein, on payment of the value thereof; and
 - (d) seize, detain, remove and, if necessary, destroy or otherwise render harmless any explosive found therein in respect of which he has reason to believe that any of the provisions of the said rules or Act have been contravened.
- (2) The officers and areas referred to in clause (1) of this rule are:—

Officers.

Areas.

The Chief Inspector and Inspector of Explosives. { In all parts of the Civil and
The District Magistrate. { Military Station of Bangalore
The Superintendent or an Inspector of Police. { and on the Railways.
All Magistrates subordinate to the District Magistrate. { Within the areas respectively
subject to their jurisdiction.

(3) Whenever the Chief Inspector or an Inspector of Explosives, or the Superintendent or an Inspector of Police or any Magistrate subordinate to the District Magistrate, seizes, detains or removes any explosive under this rule, he shall report the fact to the District Magistrate.

(4) Neither the Chief Inspector nor an Inspector of Explosives, nor the Superintendent nor an Inspector of Police nor any Magistrate subordinate to the District Magistrate, shall under these rules destroy or otherwise render harmless any explosive without the previous sanction of the District Magistrate, unless the matter appears urgent and fraught with serious public danger.

(5) Whenever any officer destroys any explosive or otherwise renders it harmless, he shall take and keep a sample thereof, and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure; and whenever any officer other than the District Magistrate so deals with any explosive, he shall report the circumstances to the District Magistrate.

Production of license
or authenticated copy
thereof.

38. (1) Every person holding a license, or acting under a license, granted under these rules, shall be bound to produce the same, or an authenticated copy kept at the magazine or place to which the license applies, when called upon to do so by any Inspector of Explosives, any Magistrate, any Police-officer in charge of a police-station, or any Police-officer of higher rank.

(2) Copies of any such license may, for the purposes of this rule, be authenticated free of charge by any of the officers aforesaid or by the authority which granted the license.

Control over officers.

39. All Magistrates and other authorities shall, in the exercise of their functions under these rules, be subject to the control of their immediate executive superiors and of the Resident.

District Magistrate of

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules there under.
2. The licensee shall keep records and accounts of all explosives manufactured, of all stock in hand, and of all sales, in such form as the Resident may from time to time direct.
3. The licensee shall exhibit his stock and his books and records of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.
4. (1) The explosive shall be manufactured in a tent or lightly constructed building exclusively appropriated for the purpose and separated from any dwelling-house, highway, street, public thoroughfare or public place by the distance—
 - (a) in the case of gunpowder or small-arm nitro-compound, of one hundred yards or
 - (b) in the case of an explosive of the 1st Division of the 6th (ammunition) class, or of the 7th (fire-work) class, of fifty yards.
 (2) In the case of filling cartridges for small arms the operation may, if preferred, be carried out in the upper room of a building to which the conditions in clause (1) as to distance shall not apply: Provided that no more than five pounds of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on.
 (3) In all other cases the manufacture shall be carried on in a one-storeyed building.
5. The number of persons employed in manufacture in any one building or room shall not exceed six, and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.
6. No iron or steel implements shall be used in manufacture. Only copper, gun-metal or wooden tools are permissible.
7. All explosives, as manufactured, shall be removed without delay to a safe place of storage, and no explosives shall be allowed to accumulate in the place of manufacture.
8. Manufacture shall only be carried on between sunrise and sunset.

9. No smoking or lights shall be allowed in or near a room where explosives are being manufactured.

10. All sales of explosives under this license must be effected on the premises show on the face of the license.

11. An explosive shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

12 (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes :—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the distances prescribed in condition No. 4* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto, and to secure it from danger from without and is exclusively appropriated to keeping explosives ; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe ; and

(b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosive in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th ammunition, class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

13. The maximum quantity of explosives allowed to be kept at the same time shall be the following :—

(1) If the only explosive kept be one or more of the following, namely :—

- (a) gunpowder ;
- (b) small-arm nitro-compound ; or
- (c) ammunition of the first division of the 6th class,

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound in all and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Two hundred.	Fifty.
Any quantity.	Any quantity.	Any quantity.

(2) if the only explosive kept be manufactured fireworks

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
manufactured fireworks	Two hundred.	Fifty.

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

14. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B—

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

* These distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same ;

and no person entering any such room or part of a building or any such excavation, or any such receptacle shall have any iron or steel in his possession, or attached to or on his boots or shoes ;

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th (ammunition) class.

15. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (fire-work) class, and all other explosives exceeding one pound in quantity, shall be kept in a substantial case, bag, canister, or other receptacle, made and closed so as to prevent the explosives from escaping ;

and when publicly exposed for sale or when sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark :

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

16. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :—

- (a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;
- (b) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;
- (c) the various explosives of the 7th (fire-work) class may be kept with each other without any intervening partition or space.

17. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

18. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act, 1878 (XI of 1878), the following particulars, namely :—

- (a) the name and address of the person who takes delivery of the article sold ;
- (b) the nature and amount of articles sold ; and
- (c) the date of sale ;

and shall append his signature to the endorsement.

19. A similar endorsement shall be made upon the license of every purchaser holding a license under the Explosives Act for the possession of explosives.

* These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock and of all sales, in such form as the Resident may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of sales to any Magistrate, or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. All sales of explosives under this license must be effected upon the premises shown on the face of the license.

5. An explosive shall not be sold to any child apparently under the age of fourteen years.

6. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes :—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives ; and

(a) such a building must be substantially constructed of brick, stone or concrete or must be a securely constructed fire-proof safe : and

(b) such an excavation must be formed in solid rock or earth or in mine refuse, not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

7. The maximum quantity of explosives allowed to be kept at the same time shall be the following :

(1) if the only explosives kept be one or more of the following, namely—

(a) gunpowder,

(b) small-arm nitro-compound, or

(c) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A, lbs.	In Mode B, lbs.
gunpowder and small-arm nitro-compound in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.

(2) if the only explosive kept be manufactured fireworks,

the maximum shall be—

manufactured fireworks	Two hundred.	Fifty.
------------------------	--------------	--------

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.

In the case of an explosive of the 1st division of the 6th (ammunition) class or of the 7th (fire-work) class, fifty yards.

Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

8. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined and covered as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. (1) The explosive shall be kept in a substantially constructed building which is exclusively appropriated for the purpose, and is detached from any dwelling-house, and is situated at a safe distance from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without:

(2) Provided that any quantity not exceeding fifteen pounds of any such explosive may be kept inside any building not conforming to clause (1) of this condition, if the explosive is placed in a receptacle exclusively appropriated to the keeping of explosives.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosives and from any building or receptacle containing the same.

4. No building exclusively appropriated for the purpose of keeping the explosives, and no receptacle in which the explosives are kept, shall have any exposed iron or steel in the interior thereof.

5. All explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping.

6. Each description of explosive which may lawfully be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

7. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely:—

(a) the name and address of the person who takes delivery of the articles purchased;

(b) the nature and amount of the articles purchased; and

(c) the date of purchase.

First Assistant Resident or

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, and of all sales in such form as the Resident may from time to time direct.

3. There shall not be at the same time in the magazine any quantity of explosives exceeding the quantity specified in the license.

4. The magazine shall be used only for the keeping of the explosives specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.

5. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel, or similar substances in such manner as to come into contact with the explosives, and such interior, benches, shelves and fittings, shall so far as is reasonably practicable, be kept free from grit and otherwise clean; and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom:

Provided that so much of this condition as relates to precautions against the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances shall not be obligatory in a building in which no explosive other than an explosive of the 1st division of the 6th (ammunition) class is kept.

6. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested at least once during the currency of the license.

7. Before repairs are done to any room or magazine or part thereof, the same shall, as far as is practicable, be cleaned by the removal of all explosives or mixed ingredients thereof, and the thorough washing out of such room, magazine or part; and after such cleaning, these conditions shall cease to apply to such room or part of the magazine until any explosive is again taken into it:

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st division of the 6th (ammunition) class is kept.

8. Except after such cleaning, all tools and implements used in or in making any repairs to, any part of the magazine shall be made only of wood, copper or brass or some soft metal or material, or shall be covered with some safe and suitable material:

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st division of 6th (ammunition) class is kept.

9. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer, matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel; but this rule shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger of fire or explosion.

Provided that so much of this condition as applies to the exclusion of grit, iron or steel shall not be obligatory in a building in which no explosive other than an explosive of the 1st division of the 6th (ammunition) class is kept.

10. No person shall smoke in any part of the magazine.

11. No person under the age of fourteen years shall be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person, and no explosive shall be sold to any such person.

12. (1) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possessed in the same magazine if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows—

(a) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound) and 4 (chlorate-mixture), safety fuses belonging to the 1st division of the 6th (ammunition) class and such of the various explosives of the 2nd division of the 6th (ammunition) class as do not contain any exposed iron or steel may be kept with each other without any intervening partition or space ;

(b) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;

(c) such of the various explosives of the 2nd division of the 6th (ammunition) class as contain any exposed iron or steel may be kept with each other without any intervening partition or space ;

(d) the various explosives of the 3rd division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;

(e) the various explosives of the 7th (fire-work) class may be kept with each other without any intervening partition or space.

(3) Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

13. The licensee, and every person employed in or about the magazine, shall take all due precaution for the prevention of accidents by fire or explosion in the magazine, and for preventing unauthorised persons from having access to the magazine or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion and is not reasonably necessary for the purpose of the work in such magazine.

14. (1) Blasting gelatine or any of its kindred gelatinous nitro-compounds shall not be kept in the magazine after the expiration of three years from the date of its or their importation into British India, except with the special sanction of an Inspector of Explosives.

(2) When such sanction has been given, a written certificate, showing the period covered by the sanction, must be obtained from an Inspector of Explosives at each inspection, and must be kept by the licensee at the magazine.

First Assistant Resident.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The whole vessel, barge or craft in or on board which the explosives are stored shall be deemed to constitute the magazine.

3. The magazine shall be used only for the keeping of such explosives as may be specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.

4. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel in such manner, and the detaching of any grit, iron, steel or similar substance in such manner as to come into contact with the explosives in such magazine; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean.

5. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested previous to the storage of explosives.

6. No charcoal, whether ground or otherwise, oiled cotton, oiled rags or oiled waste and no article whatever which is liable to spontaneous ignition, shall be taken into the magazine.

7. Before repairs are done to or in any part of the magazine, it shall, so far as practicable, be cleaned by the removal of all explosives, and by a thorough washing out. After being so cleaned, it shall not be deemed to be a magazine until explosives are again taken into it.

8. There shall be constantly kept in the magazine, affixed in such manner as to be easily read, a copy of the license, and of any special rules that may be issued from time to time for the keeping of explosives in a floating magazine.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.

10. No fires, lights or lucifer matches, and no substance or article which is likely to cause explosion or fire, shall be permitted to be at any time in the magazine.

11. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article which is likely to cause explosion or fire; and for preventing the introduction of any grit, iron or steel, into any part of the magazine where it would be likely to come into contact with explosive; and in any part of the magazine in which any explosive is kept which is liable to be dangerously affected by water, due precautions shall be taken to exclude water from such part; but this condition shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion; and so much of this condition as relates to the exclusion of grit, iron or steel shall not be obligatory in the case of a magazine in which no explosive other than explosives of the 1st division of the 6th (ammunition) class is kept.

12. No person shall smoke in any part of the magazine.

13. (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft in which the explosive is or is to be carried—

(a) is constructed without any exposed iron or steel in the interior thereof,

(b) contains only explosives, and

(c) is closed or otherwise properly covered over:

Provided that clause (a) shall not apply in the case of any vessel, barge or craft which carries no explosive other than explosives of the 1st division of the 6th (ammunition) class or which is specially exempted by an order of the Chief Inspector of Explosives or by an order of the Local Government endorsed on this license.

(2) The licensee shall see that the explosives to be placed on any vessel, barge or craft so employed are loaded, carried and unloaded with all due diligence and with such precautions and in such manner as will sufficiently guard against any accidental ignition.

14. The licensee shall see—

(a) that no fire, unprotected light or smoking is allowed while any explosive [other than explosives of the 1st division of the 6th (ammunition) class] is being received or delivered, or while the hatches or door of the magazine, or the hatches or coverings of any vessel, barge or craft alongside containing any such explosive, are open; and

(b) that no receipt or delivery of explosive is carried on, and that the hatches or door of the magazine are or is kept closed, when any vessel, barge or craft having on board a fire (other than engine-fires properly banked up) or an unprotected light is alongside a magazine containing an explosive other than explosives of the 1st division of the 6th (ammunition) class, or in its immediate vicinity,

15. A person under the age of fourteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16. In the case of the magazine being approachable at low water by carriages, the words "vessel, barge, or craft," in Nos. 13 and 14 of these conditions, shall be taken to include a carriage.

17. (1) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment. :

(2) Provided as follows :—

- (a) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound) and 4 (chlorate mixture), safety fuzes belonging to the 1st division of the 6th (ammunition) class, and such of the various explosives of the 2nd division of the 6th (ammunition) class, as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;
- (b) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;
- (c) such of the various explosives of the 2nd division of the 6th (ammunition) class as contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;
- (d) the various explosives of the 3rd division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;
- (e) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

(3) Save as aforesaid, two or more descriptions of explosive shall not be kept in the same magazine.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 14th February, 1908, and is hereby promulgated for general information:—

ACT NO. IV OF 1908.

An Act further to amend the Coroners Act, 1871, and the Prisoners Act, 1900.

IV of 1871.
III of 1900.

WHEREAS it is expedient further to amend the Coroners Act, 1871, and the Prisoners Act, 1900; It is hereby enacted as follows:—

1. This Act may be called the Coroners (Amendment) Act, 1908.
Short title.
2. In section 9 of the said Act, for the word "buried" the words "disposed of" shall be substituted.
Amendment of section 9, Act IV of 1871.
3. In section 11 of the said Act, for the words "where the first was insufficient" the words "where the Coroner considers it necessary or desirable in the interests of justice to take a further inquisition" shall be substituted.
Amendment of section 11, Act IV of 1871.
4. To section 15 of the said Act the following shall be added, namely:—
Addition of proviso to section 15, Act IV of 1871.

"Provided that the Coroner may, with the concurrence of a majority of the jury, dispense with a view of the body, if he is satisfied, from medical evidence or medical certificates, that no advantage would result from such viewing."

5. In section 17 of the said Act, for the words "and figures" and figures "Act No. XV of 1869 (to provide facilities for obtaining the evidence and appearance of prisoners and for service of process upon them)," the words and figures "Part IX of the Prisoners Act, 1900," shall be substituted.

6. After section 18 of the said Act the following shall be inserted, namely:—
Addition of new section 18A to Act IV of 1871.

"18A. Any document purporting to be a report under the hand of any Chemical Examiner or Assistant Chemical Examiner to Government upon any matter or thing duly submitted to him for examination or analysis and report in the course of any proceeding under this Act, may be used as evidence in any inquest under this Act and in any subsequent inquiry, trial or other proceeding under the Code of Criminal Procedure, 1898."

7. To section 21 of the said Act the following shall be added, namely:—
Addition to section 21, Act IV of 1871.

"and the whole, or such part thereof as to the Coroner seems fit, shall, in default of attendance by the jurors, be recoverable in the same manner as a fine imposed under section 31."

8. For section 25 of the said Act the following shall be substituted, section 25, Act IV of 1871. namely:—

"25. When the jury or a majority of the jury find that the death of the deceased person was occasioned by an act which amounts to an offence under any law in force in British India, the Coroner shall immediately after the inquest forward a copy of the inquisition, together with the names and addresses of the witnesses, to the Commissioner of Police."

9. For section 26 of the said Act the following shall be substituted, section 26, Act IV of 1871. namely:—

"26. The Coroner may also, where the verdict justifies him in so doing, issue his warrant for the apprehension of the person who is found to have caused the death of the deceased person, and send him forthwith to a Magistrate empowered to commit him for trial."

10. Section 27 of the said Act is hereby repealed. Repeal of section 27, Act IV of 1871.

11. In section 28 of the said Act, for the word "burial" the word "disposal" shall be substituted. Amendment of section 28, Act IV of 1871.

12. In the Second Schedule of the said Act, for the words "on view of the body of A. B. then and there lying dead" the words "in the case of A. B. deceased" shall be substituted. Amendment of Second Schedule, Act IV of 1871.

13. In section 11 of the Prisoners Act, 1900, for the words "Justice of the Peace or Coroner" the words "or Justice of the Peace" shall be substituted. Amendment of Act III of 1900, section 11.

CORONERS (AMENDMENT) BILL.

The Hon'ble SIR HARVEY ADAMSON moved that the Report of the Select Committee on the Bill further to amend the Coroners Act, 1871, and the Prisoners Act, 1900, be taken into consideration.

The motion was put and agreed to.

The Hon'ble SIR HARVEY ADAMSON moved that the Bill, as amended, be passed.

The motion was put and agreed to.

CODE OF CIVIL PROCEDURE BILL.

The Hon'ble MR. ERLE RICHARDS:—"My Lord, I have the honour to present the Report of the Select Committee on the Bill to consolidate and amend the laws relating to the procedure of the Courts of Civil Judicature, and annexed to it a copy of the Bill in which the amendments suggested by the Committee are shown in italicised type.

"It will be seen from these papers that the Committee recommend no alterations of a radical kind in the Bill as settled by the Committee which sat at Simla during the past summer. There are a number of amendments of detail suggested which taken together effect a substantial improvement; but the main lines of the Bill have been accepted.

"The principal feature of novelty in the Bill as introduced is the rearrangement of the clauses and the relegation of minor provisions to a schedule which can be amended or added to by High Courts subject to the advice of Rule Committees. This proposal has met with general acceptance. Local Governments and High Courts are at one in thinking that it will effect a valuable improvement in the machinery of our civil procedure, and the Committee agree with them.

"Two amendments have been introduced in that part of the Bill which deals with the rule-making power. The first is the insertion of a proviso that rules before being made are to be published, with the result that under section 23 of the General Clauses Act there will be an opportunity for the public to criticise any proposals before they become law. This suggestion was put forward by the British Indian Association, and the Committee think that it is one of value. The second change is in the composition of the Rule Committees. It has been pointed out that the Rule Committees ought to have among their members some gentlemen in touch with mufassal practice. The Bill as introduced provided that one of the Judges on the Committee should have had mufassal experience, but the Committee think that this in itself is hardly sufficient. They suggest therefore that there should be a Subordinate Judge on each Rule Committee and that there should be power also to appoint a vakil or pleader practising in the mufassal. They further recommend that the Bill should not come into operation at once on passing but that there should be an interval allowed in order that the public and profession may make themselves acquainted with the new arrangement.

"The amendments of the other provisions of the Bill do not call for any special mention on the present occasion. Many of them are in the nature of

corrections or improvements of drafting. Since the Bill was introduced in this Council it has been once more examined and revised by some of our Colleagues and the criticisms on it have been carefully considered and digested in the Legislative Department. In that way the work of the Committee has been much lessened. This is the fourth Committee which has now deliberated on civil procedure, and it is safe to say that there is no conceivable point which has not been fully discussed during those deliberations. I would point out, my Lord, that the present Committee, like the Simla Committee, are unanimous in their approval of this Bill."

INDIAN LIMITATION BILL.

The Hon'ble Mr. ERLE RICHARDS moved that the Bill to consolidate and amend the Law for the Limitation of Suits and for other purposes be referred to a Select Committee consisting of the Hon'ble Sir Harvey Adamson, the Hon'ble Munshi Madho Lal, the Hon'ble Mr. Chitnavis, the Hon'ble Dr. Rashbehary Ghose, the Hon'ble Mr. Ismay and the mover, with instructions to report within two months.

The motion was put and agreed to.

The Council adjourned to Friday, the 6th March, 1908.

GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 13th February 1908, based on the Indian Daily Weather Reports of the period.

The disturbed conditions, which gave rain over the east of the Central Provinces and adjacent districts on the 5th and 6th, had disappeared by the morning of the 7th after giving light falls of rain at Gaya, Hazaribagh and Pendra. A shallow depression entered upper India on the 8th from Baluchistan and caused rain at Cherat and Khushab, while from this date until the 12th, weather was unsettled in Kashmir and light snow fell daily in some part at the end of the week; however the disturbances had disappeared. On the last two days of the week, owing to low pressure conditions prevailing along the base of the Himalayas, light rain fell in the upper Brahmaputra valley.

Burma.—No rain fell. Skies were clear or lightly clouded and temperature was approximately normal.

North-east India, including Orissa.—Rain fell at Gaya and Hazaribagh on the 7th and in the upper Brahmaputra valley on the 12th and 13th. Skies were moderately to heavily clouded over the greater part of the division on the 7th and in the north-eastern districts on the 8th, 9th, 12th and 13th. Temperature was normal or in defect; the deficiency occurring chiefly in the south-western districts.

The United Provinces, Central India and the Central Provinces.—Skies were clear or only lightly clouded. Weather was generally cooler than usual up to the 9th but from the 10th onward temperature was normal or in excess.

North-west India.—Light snow fell in Kashmir on most days of the week and on the 8th rain was reported from Cherat and Khushab. The disturbances from Baluchistan and north Persia gave cloud especially in the northern districts from the 7th to the 10th;

skies then cleared, except in Kashmir. Temperature was approximately normal over the greater part of the division up to the 10th, but on that day it rose and for the rest of the week was normal or in excess.

The Peninsula.—Kurnool and Cocanada had light falls of rain. Skies were almost clear except on the 7th and temperature was nearly normal. Assam was the only area in which rainfall of any importance occurred during the past week, and there it was confined to the Brahmaputra valley. The rainfall of the whole period from the 29th November to the 13th February is either approximately normal or in excess over the greater part of the country. It is 20 per cent. or more in defect in the East and North Punjab, Kashmir, Baluchistan, West Rajputana, Berar, the Bombay Deccan, the Konkan and South-east Madras. The largest actual deficiency being 4·2" in the last mentioned division.

The following summarises the most important precipitation of the week as reported at 8 hrs :

February 8th.	Cherat 1·02".
" 12th.	Dibrugarh 1·25" and Sibsagar 0·96".
" 13th.	Darjeeling 0·63".

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
8th February 1908.

Burma.—No rain fell during the week. Reaping of winter rice crops has now been completed in Upper Burma. Threshing and winnowing are progressing in both Lower and Upper Burma. The crop of the Lower Province promises a good outturn, while in the Upper Province the outturn expected from crops on irrigated lands and in the wet zone is fair; but on unirrigated lands of the dry zone the crop has been a failure. Prospects of spring rice and miscellaneous crops in Upper Burma are fair. The price of unhusked rice has risen in five; and has fallen in four districts.

Eastern Bengal and Assam.—Slight rain fell in Mymensing, Rajshahi, Jalpaiguri, Rangpur, Pabna and the Assam districts, except Nowgong, Sibsagar, Manipur, the Khasi, Jaintia and Garo Hills. Prospects of standing crops are fair to good. Preparation of land for early rice and jute, pressing of sugarcane, and gathering of mustard are going on. Pruning, hoeing, and manuring of tea are in progress. Tea plants are suffering from drought in Cachar. Harvesting of winter rice is finished. Prices of common rice have risen in four; and have fallen in five districts. No scarcity is apprehended at present.

Bengal.—In Chota Nagpur and Bihar considerable rain fell during the week. The maximum recorded was 3.23 inches in Palamau. In Lower Bengal several districts received little rain. Spring crops have benefited considerably, but in Patna they have suffered a little for want of sunshine. Sugarcane-pressing is still going on and the work of preparing the land for the autumn crop is in full swing. Prices are stationary, except in one or two districts of Bihar, where they have risen slightly. Stocks of food-grains are reported insufficient in Nadia, Murshidabad, Balasore, Palamau and the Deoghur sub-division of the Sonthal Parganas. Scarcity is apprehended in Nadia, Murshidabad, the Bhabhua and Sasaram subdivisions of Shahabad, in Palamau, and later on in Birbhum, Jessore, Gaya and Manbhum. Fodder and water are reported insufficient in portions of the north of Murshidabad, Shahabad and portions of Balasore. Test works have been opened in Bankura, Cuddack, Balasore, Puri and Rantambhoom. These were attended by 2,888 persons. Gratuitous relief has been given to 14,187 persons in Orissa.

United Provinces.—Rain fell in 32 districts, exceeding one inch in Mirzapur, Saharanpur and the Himalayan districts; no rain fell in the Agra Division. Prices have risen in three; and have fallen slightly in twenty-three districts. They still considerably exceed scarcity rates. Crop prospects have improved. The spring crop generally promises well. Fields are being prepared for extra crops. Sowings of *sanwar* continue. Sugarcane is being pressed; and fields are being ploughed for sugarcane. Poppy is doing well. Markets are adequately stocked and large importation from the Punjab continues. Condition of agricultural stock is fair. Fodder is dear and scarce and forest hay is being sold and distributed as takavi.

The weekly report on the famine and scarcity is as follows:—Relief operations are rapidly expanding. Gratuitous relief has been sanctioned in the rural tracts of Ballia and famine has been declared from the 10th February in Fyzabad. The general condition of the people is good but signs of deterioration are noticeable in places. The condition of people on relief is fair. There is some increase in crime but there is no general wandering. Basti and Fyzabad report an increase in foreign emigration. A few immigrants from Gwalior, Dholpur and Rewa have come into Agra and Allahabad. Relief measures are adequate. Aided works have been started in thirteen districts; and private works are in operation in several districts. Advances for masonry wells are being largely given in the Balrampur estates where 10,524 persons are on works and 3,315 on gratuitous relief. The numbers on Government relief are:—Workers on public works 365,659; aided works 43,349; test works 15,681; dependents on works 126,762; on gratuitous relief 218,721; in poor houses 6,788; total 776,960. The largest total figures are:—Bahraich 102,761; Gonda (excluding Balrampur) 90,210; Mirzapur (including the Family Domains) 78,976; Jalaun 65,576; Allahabad 65,390; Banda 62,396; and Kheri 45,958. Prices:—Mirzapur 7½; Almora 8½; elsewhere 8½ to 10½, seers per rupee.

Punjab.—Light to moderate rain fell during the week. Rain has fallen in Ambala, Sialkot, Shahpur, Rawalpindi, Mianwali and Jhang. Prices of food grains show a general downward tendency except in Rawalpindi, where prices have risen. Prices are still everywhere above scarcity rates except in Multan. Sowings of spring crops still continue in a few districts; and sowings of extra spring crops are in progress in Delhi, Sialkot and

Multan. Pressings of sugarcane are in progress. Harvesting of *toria* continued in Amritsar and Lyallpur. Cotton is being sown in Lahore and sugarcane in Gurgaon. Condition of irrigated crops is good to average; and of unirrigated crops generally below average. The opium crop is average in Lahore and Amritsar. The outturn of sugarcane and *toria* is average. Spring crops have been slightly damaged by rats in parts of Lahore. Cattle are generally in good condition. In Sialkot cattle are weak but improving. Pasturage and fodder are scarce in Delhi, Ambala, Sialkot, Mianwali, Lyallpur, Jhang, Multan and parts of Gurgaon, Lahore, Shahpur and Rawalpindi. Green fodder is scarce in Ferozepore. Sugarcane is being used as fodder in Sialkot. The canal water-supply was closed in Delhi. During the week 1,399 persons attended the famine test works in the Gurgaon tahsil.

North-West Frontier Province.—Slight showers fell throughout the Province which benefited the late sowings. Standing crops are in good condition; they are still backward on unirrigated lands but the present dry warm weather is favourable to growth. Pressing of sugarcane continues in Bannu and Peshawar; but owing to the heavy rain and frost only a poor outturn is expected. Cattle are in good condition. Fodder is sufficient except in Daman in the Dera Ismail Khan District. The canal supply is abundant. The general health of the people is good. Prices have slightly fallen in Bannu; are stationary in Dera Ismail Khan; and are rising in Peshawar owing to the increased demand for military operations. Prices are:—Wheat $9\frac{3}{4}$ to 13; gram 11 to 15; maize $13\frac{1}{2}$ to $18\frac{1}{2}$; and bajra $12\frac{1}{2}$ to 14 seers per rupee.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Prices:—Wheat is selling from $8\frac{1}{2}$ to 14; and maize from $10\frac{1}{2}$ to 21 seers per rupee. Condition of standing crops is good. Fodder is still insufficient in Kotli, Kathua, Basohli, Samba Akhnur, Jasmirgarh, Ramban, Ranbirsinghpura, Udhampur and Jammu tehsils only.

Kashmir.—The weather was snowy and extremely cold. Prices are almost unchanged.

Rajputana.—No rain fell during the week. Crops are doing well except for slight damage from frost in Partabgarh and Merwara. Condition of cattle is generally good. Fodder is sufficient. Food stocks, supplemented by imports, are adequate. Prices show a tendency to fall in all the States where they ruled highest. They are steady in Ajmer and Merwara. Prospects of the spring harvest are on the whole fair. Ordinary public works are in progress or will shortly be opened in places where there is a demand for labour, as the situation nowhere as yet amounts to famine. A few persons unable to labour or having no one to support them are receiving relief in Bharatpur.

Central India.—Slight rain fell in parts of Gwalior, Bhopal, Baghelkhand and Jabua. Irrigation of spring crops continues in Gwalior, Bhopal and Bhopawar. Harvesting of gram is in progress in parts of Bhopawar. Prospects of spring crops are fair to good. The probable outturn is below average in Baghelkhand; and fair to good elsewhere. Slight damage is reported by frost in the Isagarh Pergana of Gwalior and parts of Malwa; and by hailstones in Narsingarh. Agricultural stock is fair to good except in parts of Gwalior, Indore, Bhopal and Bhopawar. Fodder is indifferent in Bhopal; and sufficient elsewhere. Prices of food grain continue high; are rising in Bhopal and parts of Indore; and are falling in Bundelkhand. Opium is good in Gwalior, Indore, Malwa, Bhopal and Bhopawar. The numbers on test and relief works are:—In Rewa on works 77,924; on gratuitous relief 6,967; total 84,891. In Nagode on works 6,065; on gratuitous relief 711; total 6,776. In Jaso on works 952; on gratuitous relief 21; total 953. In Darandla on works 1,603. In Maihar on works 1,805; on gratuitous relief 272; total 2,077. In Sohawal on works 652. In Roth on works 1,139; on gratuitous relief 77; total 1,216. There is no change in the general situation.

Central Provinces.—The nights and mornings are cool and days are getting warmer. Rain fell during the week in all districts except Saugor, Nimar, Betul and the districts of Berar; but in Daroh and Hoshangabad the rain was confined to scattered falls in outlying tracts. The principal falls registered in inches were:—Drug 3 $\frac{1}{2}$; Bilaspur 2 $\frac{1}{2}$; Raipur 2 $\frac{1}{2}$; Balaghat 2 $\frac{1}{2}$; Bhandara and Chanda each 1 $\frac{1}{2}$; and Dindori tahsil of the Mandla district over 2 inches. Elsewhere the rainfall ranged from 61 cents in Chhindwara to 14 cents in Wardha. In parts of Jubbulpore, Nagpur and Raipur hail fell but no damage is reported. In Jubbulpore, Mandla and Balaghat the rainfall benefited the spring crops but caused slight damage to the crops in Nagpura, Chanda, Bhandara, Raipur and Bilaspur. Spring crops, except linseed, are generally in good condition, and fair in Damoh, Seoni, Narsinghpur, Hoshangabad and Chhindwara. Harvesting of spring *till*, pulses, wheat and linseed is in progress in Narsinghpur, Hoshangabad, Nimar, Betul, Wardha, Nagpur and Yeotmal. Frost slightly injured the spring crops in Saugor and Seoni. Wheat is not doing very well in parts of Hoshangabad. Field embankments are being raised in the Chhattisgarh district; and land is being ploughed for the ensuing season.

in Saugor, Nimar, Buldana, Yeotmal and in the districts of Chhattisgarh. No want of work for labourers is reported anywhere. Fodder and water are sufficient; but fodder is inadequate in Yeotmal; dear in Saugor and Hoshangabad; and getting scarce in Narsinghpur and Nimar. Prices of staple food grains remained stationary in 14 districts. Wheat and gram in Mandla, gram in Balaghat, and wheat in Drug, became dearer by $\frac{1}{4}$ seer; gram and *juar* became cheaper in Narsinghpur by $\frac{1}{4}$ seer. The price of *juar* in Chanda rose by $1\frac{1}{4}$ seer; and fell in Nimar by $\frac{1}{4}$ seer. Rice became cheaper in Jubbulpur and dearer in Drug by $\frac{1}{4}$ seer.

Feudatory States.—The rainfall during the week measured in inches was as follows:—Khairagarh $4\frac{1}{2}$; Raj Nandgaon $3\frac{1}{2}$; and Sakti $2\frac{1}{2}$. Kanker, Raigarh and Jashpur had also light showers not exceeding 65 cents. The rainfall damaged the spring crops slightly in Khairagarh and Raj Nandgaon. Threshing and winnowing of autumn crops are completed. Spring crops are generally in good condition; but prospects are unfavourable in Sirguja and Jashpur. Fodder and water are adequate. Wheat, gram and rice became dearer in Sirguja by 1 seer; and wheat rose by $\frac{1}{4}$ seer in Raj Nandgaon; elsewhere prices remained stationary.

The weekly report on the famine and scarcity is as follows:—The distress is slight but is increasing in intensity in Damoh. Relief is now being given in five districts; village relief having been started in Mandla. The people are resorting more freely to village works in Damoh where some deterioration has been noticed among children in kitchens. Prospects of standing crops are good in the Jubbulpore district; and have improved by the late rains. Slight damage to early sown crops from frost is reported. Employment on ordinary works is still ample. There is no general wandering. Immigration to Assam from the Native States adjoining the Jubbulpore district has slightly increased. The condition of the people is fair. Fodder and water are sufficient. The public health is normal. Prices are stationary. The numbers on relief are:—on village works 1,519; weavers on relief 1,761; on gratuitous relief 2,911; total 6,191.

Bombay.—Standing spring crops are withering for want of moisture in parts of Thar and Parkar, Ahmedabad, Panch Mahals, Kaira, the Deccan and Bijapur; and are elsewhere in good condition except for slight damage by frost in parts of Larkana and Hyderabad. Threshing of autumn crops is in progress in parts of the Upper Sind Frontier, Thar and Parkar, Kaira, Kanara, Khandesh, Nasik, Ahmednagar, Kathiawar, Baroda, Rewa Kantha and Palanpur. Harvesting of spring crops continues in parts of Gujarat, Colaba, the Deccan and the Karnatak. Cotton picking is progressing in parts of Hyderabad, Panch Mahals, Kaira, Broach, Surat, West Khandesh, Bijapur, Belgaum, Baroda, Rewa Kantha and Kathiawar. The supply of fodder is adequate except in parts of Ahmedabad, Kaira, Sholapur and Baroda. The rural stock is generally in good condition and sufficient except in parts of Ahmednagar, Poona, Sind and Cutch. The supply of drinking water is sufficient except in parts of Sholapur. Water for irrigation is insufficient in parts of Surat, the Deccan, Baroda and Kathiawar. The quantity of food grains purchasable per rupee is in Sind 40 to 52 per cent; in Gujarat 20 to 68 per cent; in the Konkan 22 to 33 per cent; in the Deccan 27 to 49 per cent; and in the Karnatak 37 to 57 per cent less than the normal. Stocks of grain are generally adequate. The demand for labour is sufficient and wages are normal. Emigration from Ahmednagar, Sholapur and Bijapur continues. The cultivating and labouring classes are in fair condition. Six test works are in progress in Panch Mahals with 3,043 persons on relief on the last day of the week ending the 1st February. Test works are being opened in Rewa Kantha.

Hyderabad.—(Report not received).

Mysore.—Prices of food grains are steady. Standing crops are in good condition. *Ragi* and other dry crops are being harvested. The prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient. Harvest prospects are good.

Madras.—The rainfall was light in Godavari and Bellary; and nil elsewhere. Irrigation supplies are low in parts of all districts except Guntur, Cuddapah, Chingleput, Coimbatore, Tanjore, Tinnevely, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair; but some in parts of Bellary, North Arcot, Salem and Madura are withering; and some in parts of Coimbatore require more rain. Harvests continue with outturn poor to normal. Pasture is sufficient except in parts of the Circars, the Deccan, Salem and Madura. Fodder is scanty in parts of Ganjam, Nellore and Salem. The condition of cattle is generally good. The price of rice is stationary in seventeen districts; has fallen in three; and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts; has fallen in six; and has risen in four. Cholan is

stationary in four districts; has fallen in five; and has risen in five. *Cumbu* is stationary in six districts; has fallen in three; and has risen in six. The public health is generally good. Prospects are fair generally; but rain is required in parts of some districts. The condition of the labouring classes is good and employment is procurable. Prices are high but there is no present apprehension of distress anywhere. Grain stocks are generally sufficient.

No. 1578-1598—11.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITION.

THE FRANCO-BRITISH EXHIBITION, LONDON, 1908.

RESOLUTION.

Dated Calcutta, the 14th February 1908.

The following paper relative to the Franco-British Exhibition, London, 1908, is published for general information in continuation of the Resolution No. 10201-10221-11, dated the 6th December 1907, published in the Supplement to the *Gazette of India*, dated the 7th December 1907 :—

THE INDIAN SECTION OF THE FRANCO-BRITISH EXHIBITION,
1908.

In order to obtain some part of the funds needed for their undertaking the Executive authorities of the Franco-British Exhibition found it necessary to make a charge for all space occupied in the grounds by Colonial and other buildings. The Indian Executive Committee have secured an area of 20,000 square feet of space, at a cost of £2,000, in close proximity to the French and British Colonial Sections. On this site a special pavilion for the Indian Exhibits is being erected.

In deciding on the general style of the Indian Pavilion the following conditions had to be carefully considered, *viz.*:—

- (A) The smallness of the funds at disposal, and the extremely limited time available for its erection.
- (B) The provision of the largest amount of well-lighted exhibition space, in a building adapted to the climatic needs of this country.
- (c) Compliance with the stringent and necessary regulations of the London County Council and Local Authorities.

The pavilion consists of a large central hall with bays or courts running along the sides, and has a floor area of about 12,000 square feet. It is intended to allot these courts to various groups of Indian raw products, industries and manufactures, as well as to illustrations of the administrative machinery of the Government of India.

The central hall will be largely devoted to the more artistic exhibits received from India.

The total space at the disposal of the Committee is limited, and intending exhibitors are therefore advised to make as early application as possible.

In order to partially defray the heavy cost incurred in the purchase of the site, the erection of the pavilion, and the maintenance of its passages and approaches, the Indian Executive Committee have to make a charge for space, which has been fixed at a minimum of ten shillings per superficial foot of floor area.

Forms of application for space, and all other information regarding the Indian Section of the Franco-British Exhibition, can be obtained *in India* from the Official Agents to the Indian Committee—

MESSRS. KING, KING & Co. BOMBAY;

MESSRS. KING, HAMILTON & Co. CALCUTTA;

and their Correspondents—

MESSRS. GORDON, WOODROFFE & Co. MADRAS; and

MESSRS. A. SCOTT & Co. RANGOON.

All applications for space in the Indian Section must be addressed to

MR. B. J. ROSE,

Secretary, Indian Executive Sub-Committee,

Franco-British Exhibition,

India Office,

LONDON, S.W.

Ordered that the foregoing papers be published in the Supplement to the *Gazette of India*, for general

Clause 61.—The words "be exempted from liability to attachment or sale in execution of a decree" have been substituted for the words "be released from attachment and shall be free from liability to sale in execution of a decree" in order to make it clear that the exemption extends to produce which has been hypothecated.

Clause 62 has been brought into line with *clause 55* as now amended.

Clause 66 (1).—The wording has been altered on the suggestion of the Hon'ble Mr. Justice Aikman so as to put the meaning beyond doubt.

Clause 79 (2).—This saving was accepted by the Select Committee of 1903 and we think it desirable to have it in the Bill in order to avoid possible doubt.

Clause 92 (1).—It has been suggested to us by several authorities that Local Governments should be empowered to invest Courts subordinate to District Courts with power to try cases under this clause, and we think that this suggestion should be accepted. The necessary words have been added.

Clause 96 (3) of the Bill as introduced has been omitted. The case law on the subject is sufficiently clear and considerable objection has been taken to the sub-clause.

Clause 98.—The wording of the proviso has been altered; it now deals only with the decision on the point of law referred.

Clause 104.—Sub-clause (1) (a) has been added in order to give a right of appeal against the decision of the Court on a special case: this is in accordance with the recommendation of the Special Committee, but appears to have been omitted from the Bill by mistake.

Clause 107.—Sub-clause (1) is new. We think it desirable to have in the body of the Code a general provision about the powers of an Appellate Court.

Clause 134 is new. It supplies an omission.

Clauses 142 and 143 have been brought up from the Rules. We think they should be in the body of the Code.

* *Clause 144.*—Sub-clause (2) has been added on the suggestion of the Calcutta High Court. We agree that restitution which may be obtained by application under this clause should not be made the subject of a separate suit.

5.

SCHEDULE I.

Order I.

Rules 1 and 3.—The words "act or" have been added before the word "transaction".

Rule 3.—This rule has been amplified so as to bring it into line with rule 1.

Rule 5.—The words "cause of action" have been struck out. They have given rise to considerable difficulty in England.

Rule 8.—We have, on the suggestion of the Advocate General of Madras, added the words "or for the benefit of" after the words "on behalf of".

Order III.

Rule 4 (3).—We have adopted the alternative draft suggested by the Simla Committee in their Report.

Order VI.

Rule 18.—We have substituted the words "he shall not be permitted to amend . . . as the case may be" for the words "such order to amend . . . become void."

Order VII.

Rule 17 (1).—On the suggestion of the British Indian Association the word "account" has been substituted for the word "book".

Order IX.

Rule 4.—We have struck out the provisions about limitation contained in this rule. These provisions will be incorporated in the Bill to consolidate and amend the Limitation Act.

Rule 13.—We think it necessary to provide specially for cases in which it may not be possible to set aside the decree as against the applicant only.

Order XX.

Rule 18.—This rule has been altered so as to correspond with the amended clause 54.

Order XXI.

Rule 1 (2).—This sub-rule has been inserted on the suggestion of the British Indian Association.

Clause 61.—The words "be exempted from liability to attachment or sale in execution of a decree" have been substituted for the words "be released from attachment and shall be free from liability to sale in execution of a decree" in order to make it clear that the exemption extends to produce which has been hypothecated.

Clause 62 has been brought into line with *clause 55* as now amended.

Clause 66 (1).—The wording has been altered on the suggestion of the Hon'ble Mr. Justice Aikman so as to put the meaning beyond doubt.

Clause 79 (2).—This saving was accepted by the Select Committee of 1903 and we think it desirable to have it in the Bill in order to avoid possible doubt.

Clause 92 (1).—It has been suggested to us by several authorities that Local Governments should be empowered to invest Courts subordinate to District Courts with power to try cases under this clause, and we think that this suggestion should be accepted. The necessary words have been added.

Clause 96 (3) of the Bill as introduced has been omitted. The case law on the subject is sufficiently clear and considerable objection has been taken to the sub-clause.

Clause 98.—The wording of the proviso has been altered; it now deals only with the decision on the point of law referred.

Clause 104.—Sub-clause (1) (b) has been added in order to give a right of appeal against the decision of the Court on a special case: this is in accordance with the recommendation of the Special Committee, but appears to have been omitted from the Bill by mistake.

Clause 107.—Sub-clause (1) is new. We think it desirable to have in the body of the Code a general provision about the powers of an Appellate Court.

Clause 134 is new. It supplies an omission.

Clauses 142 and 143 have been brought up from the Rules. We think they should be in the body of the Code.

* *Clause 144.*—Sub-clause (2) has been added on the suggestion of the Calcutta High Court. We agree that restitution which may be obtained by application under this clause should not be made the subject of a separate suit.

SCHEDULE I.

Order I.

Rules 1 and 3.—The words "act or" have been added before the word "transaction".

Rule 3.—This rule has been amplified so as to bring it into line with rule 1.

Rule 5.—The words "cause of action" have been struck out. They have given rise to considerable difficulty in England.

Rule 8.—We have, on the suggestion of the Advocate General of Madras, added the words "or for the benefit of" after the words "on behalf of".

Rule 4 (3).—We have adopted the alternative draft suggested by the Simla Committee in their Report.

Rule 18.—We have substituted the words "he shall not be permitted to amend . . . as the case may be" for the words "such order to amend . . . become void."

Order VII.

Rule 17 (1).—On the suggestion of the British Indian Association the word "account" has been substituted for the word "book".

Order IX.

Rule 4.—We have struck out the provisions about limitation contained in this rule. These provisions will be incorporated in the Bill to consolidate and amend the Limitation Act.

Rule 13.—We think it necessary to provide specially for cases in which it may not be possible to set aside the decree as against the applicant only.

Order XX.

Rule 18.—This rule has been altered so as to correspond with the amended clause 54.

Order XXI.

Rule 1 (2).—This sub-rule has been inserted on the suggestion of the British Indian Association.

Rule 7.—The words “or of the jurisdiction of the Court which passed it” have been omitted. In our opinion a Court executing the decree of another Court ought not to go into any question as to the jurisdiction of the Court which passed it.

Rule 20.—This rule is new. It is inserted in order to make it clear that the provisions as to cross-decrees and cross-claims apply to the case of mortgage-decrees. The rule also makes it clear that the expression “decree for the payment of money” and other similar expressions in the Code do not include a decree for sale in enforcement of a mortgage or charge.

Rule 45.—We have decided to recommend the omission of this rule from the Bill. It was taken from the Bill of 1903 but met with considerable criticism and strong objection has been taken to it by the Madras Board of Revenue and the British Indian Association. In our opinion the procedure prescribed in this rule is cumbrous and there would be little or no practical advantage from it.

Rule 90.—The words “or fraud” have been added after the word “irregularity”. We think that the existing law as contained in section 311 of the present Code is defective, the omission in the section to refer to fraud as a ground for setting aside a sale having led some Courts to hold that an order on an application setting up fraud as a ground for relief is, unlike an order made on an application under section 311, a decree and open to second appeal. This result, which often involves a considerable prolongation of these proceedings, is in our opinion undesirable. We think that applications for the setting aside of sales should, so far as the procedure applicable to them is concerned, stand on the same footing whether they are based on the ground of irregularity or on the ground of fraud.

Rules 95 and 96.—We have struck out the provisions about limitation contained in these rules. We agree with the Hon’ble Mr. Justice Miller that it would be more appropriate to incorporate them in the Limitation Act, and we have suggested their incorporation in the Bill to amend and consolidate that Act which is now before Council.

Order XXII.

Rules 3 and 4.—Rules 3 and 4 have been amended so as to provide that if no application for substitution is made within the time allowed by law the suit shall abate. We have struck out the provision that the Court may make an order declaring the abatement as in our opinion it is unnecessary and likely to give rise to difficulty.

Rule 6.—The provision as to antedating the judgment has been struck out and in its stead we suggest a provision to the effect that the judgment shall have the same force and effect as if it had been pronounced before the death took place. In our opinion this is all that is required.

Order XXXIV.

Some of the rules in this Order have been redrafted.

The Transfer of Property Act does not contain any provision for the passing of a final decree in cases where payment is made in accordance with the terms of the preliminary decree. This is in our opinion an omission, and we have provided in rules 3 (x), 5 (x) and 8 (x) for the passing of final decrees in such cases.

We approve of the proposal to repeal the provisions of section 99 of the Transfer of Property Act. We think that those provisions have worked considerable hardship and are not really needed. The first part of the section enacts that a mortgagee shall not bring the mortgaged property to sale otherwise than by instituting a suit under section 67 of the Act. In so far as it precludes the mortgagee from selling the mortgaged property under a judgment unconnected with the mortgage-debt it is in our opinion inexpedient; it is beyond doubt competent to a mortgagee to purchase the equity of redemption from the mortgagor by an agreement subsequent to and distinct from the mortgage transaction, and we can see no reason why it should not be equally competent to him to have it sold in satisfaction of any claim which he may have against the mortgagor unconnected with the mortgage (*Khizarajmal v. Daim*, I. L. R. 32 Cal. 296; *Lisle v. Reeve*, 1902, A. C. 461). In so far as it precludes the mortgagee from selling the property under a judgment for the mortgage-debt, it serves no useful purpose. We understand that the provision was enacted to prevent mortgagees from suing their mortgagors on the debt as such and in execution selling the mortgagor’s interest in the property; we, however, think that no such provision was needed, seeing that under the law as it stood prior to the Act the Courts never allowed the sale of a bare equity of redemption under a judgment on the covenant (*Syed Emam v. Rajcoomar*, 23 W. R. 187; *Khizarajmal v. Daim*, I. L. R. 32 Cal. 296).

Order XL.

Rule 4.—We have redrafted this rule on the lines of section 18 (4) of the Provincial Insolvency Act, 1907. We think that the power to imprison receivers is too wide and should be omitted.

Order XLI.

Rule 24.—We have struck out this rule as in our opinion it is unduly restrictive.

Order XLIII.

Rule 1.—We suggest that there should be appeals from orders pronouncing judgment against a party under Order VIII, rule 10, Order X, rule 4, and Order XVI, rule 20. These orders are under the present law appealable as decrees, but having regard to the definition of a decree in the Code they would no longer be appealable in that way, and we think it necessary to make them appealable as orders. We have also given an appeal against an order made under rule 21 of Order XI.

Appendices.—The forms have been amplified and, where necessary, redrafted. We think that, as now settled, they are an improvement on the forms in the present Code.

*The Code of Civil Procedure Bill.**(Preliminary.)*

[The portions printed in italics denote the alterations proposed by the Select Committee.]

No. II.

The bracketted marginal references relate to sections of the Code of Civil Procedure (Act XIV of 1882).

A BILL

TO

Consolidate and amend the laws relating to the Procedure of the Courts of Civil Judicature.

WHEREAS it is expedient to consolidate and amend the laws relating to the procedure of the Courts of Civil Judicature; It is hereby enacted as follows:—

PRELIMINARY.

Short title, commencement and extent. **1.** (1) This Act may be cited as the Code of Civil Procedure, 1908.

(2) It shall come into force on the first day of January, 1909.

(3) This section and sections 155 to 158 extend to the whole of British India: the rest of the Code extends to the whole of British India, except the Scheduled Districts.

2. In this Act, unless there is anything repugnant in the subject or context,—

(1) "Code" includes rules:

(2) "decree" means the formal expression of an adjudication which, so far as regards the Court expressing it, conclusively determines the rights of the parties with regard to all or any of the matters in controversy in the suit and may be either preliminary or final. It shall be deemed to include the rejection of a plaint and the determination of any question within section 47 or section 144, but shall not include—

(a) any adjudication from which an appeal lies as an appeal from an order, or

(b) any order of dismissal for default.

Explanation.—A decree is preliminary when further proceedings have to be taken before the suit can be completely disposed of. It is final when such adjudication completely disposes of the suit. It may be partly preliminary and partly final:

(3) "decree-holder" means any person in whose favour a decree has been passed or an order capable of execution has been made:

(4) "district" means the local limits of the jurisdiction of a principal Civil Court of original jurisdiction (hereinafter called a "District Court"), and includes the local limits of the ordinary original civil jurisdiction of a High Court:

(5) "foreign Court" means a Court situate beyond the limits of British India which has no authority in British India and is not established or continued by the Governor General in Council:

(6) "foreign judgment" means the judgment of a foreign Court:

(7) "Government Pleader" includes any officer appointed by the Local Government to perform all or any of the functions expressly imposed by this Code on the Government Pleader and also any pleader acting under the directions of the Government Pleader:

(8) "Judge" means the presiding officer of a Civil Court:

(9) "judgment" means the statement given by the Judge of the grounds of a decree or order:

(10) "judgment-debtor" means any person against whom a decree has been passed or an order capable of execution has been made:

(11) "legal representative" means a person who in law represents the estate of a deceased person, and includes any person who intermeddles with the estate of the deceased and where a party sues or is sued in a representative character the person on whom the estate devolves on the death of the party so suing or sued: [New.]

(12) "mesne profits" of property means those profits which the person in wrongful possession of such property actually received or might with ordinary diligence have received therefrom, together with interest on such profits, but shall not include profits due to improvements made by the person in wrongful possession: [S. 211, expl.]

(13) "moveable property" includes growing crops: [New.]

(14) "order" means the formal expression of any decision of a Civil Court which is not a decree:

(15) "pleader" means any person entitled to appear and plead for another in Court, and includes an advocate, a vakil and an attorney of a High Court:

(16) "prescribed" means prescribed by rules:

(17) "public officer" means a person falling under any of the following descriptions, namely:—

(a) every Judge;

(b) every member of the Indian Civil Service;

(c) every commissioned or gazetted officer in the military or naval forces of His Majesty, including His Majesty's Indian Marine Service, while serving under the Government;

(d) every officer of a Court of Justice whose duty it is, as such officer, to investigate or report on any matter of law or fact, or to make, authenticate or keep any document, or to take charge or dispose of any property, or to execute any judicial process, or to administer any oath, or to interpret, or to preserve order, in the Court, and every person especially authorized by a Court of Justice to perform any of such duties;

(e) every person who holds any office by virtue of which he is empowered to place or keep any person in confinement;

(f) every officer of the Government whose duty it is, as such officer, to prevent offences, to give information of offences, to bring offenders to justice, or to protect the public health, safety or convenience;

(g) every officer whose duty it is, as such officer, to take, receive, keep or expend any property on behalf of the Government, or to make any survey, assessment

*The Code of Civil Procedure Bill.**(Preliminary.)*

or contract on behalf of the Government, or to execute any revenue-process, or to investigate, or to report on, any matter affecting the pecuniary interests of the Government, or to make, authenticate or keep any document relating to the pecuniary interests of the Government, or to prevent the infraction of any law for the protection of the pecuniary interests of the Government; and

(h) every officer in the service or pay of the Government, or remunerated by fees or commission for the performance of any public duty:

(18) "rules" means rules and forms contained in or made under this Act:

(19) "share in a corporation" shall be deemed to include stock, debenture stock, debentures or bonds: and

(20) "signed," *save in the case of a judgment or decree*, includes stamped.

[S. 2.] 3. For the purposes of this Code, the District Court is subordinate to the High Court, and every Civil Court of a grade inferior to that of a District Court and every Court of Small Causes is subordinate to the High Court and District Court.

[S. 4.] 4. (1) In the absence of any specific provision to the contrary, nothing in this Code shall be deemed to limit or otherwise affect any special or local law now in force or any special jurisdiction or power conferred, or any special form of procedure prescribed, by or under any other law for the time being in force.

(2) In particular and without prejudice to the generality of the proposition contained in sub-section (1), nothing in this Code shall be deemed to limit or otherwise affect any remedy which a landholder or landlord may have under any law for the time being in force for the recovery of rent of agricultural land from the produce of such land.

[S. 4A.] 5. (1) Where any Revenue Courts are governed by the provisions of this Code in those matters of procedure upon which any special enactment applicable to them is silent, the Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, declare that any portions of those provisions which are not expressly made applicable by this Code shall not apply to those Courts, or shall only apply to them with such modifications as the Local Government, with the sanction aforesaid, may prescribe.

(2) "Revenue Court" in sub-section (1) means a Court having jurisdiction under any local law to entertain suits or other proceedings relating to the rent, revenue or profits of land used for agricultural purposes, but does not include a Civil Court having original jurisdiction under this Code to try such suits or proceedings as being suits or proceedings of a civil nature.

6. Save in so far as is otherwise expressly provided, nothing herein contained shall operate to give any Court jurisdiction over suits the amount or value of the subject-matter of which exceeds the pecuniary limits (if any) of its ordinary jurisdiction. [S. 6, last para.]

7. The following provisions shall not extend to Courts constituted under the Provincial Small Causes Courts Act, 1887, or to Courts exercising the jurisdiction of a Court of Small Causes under that Act, that is to say,— [S. 5.]

(a) so much of the body of the Code as relates to—

(i) suits excepted from the cognizance of a Court of Small Causes;

(ii) the execution of decrees in such suits;

(iii) the execution of decrees against immoveable property; and

(b) the following sections, that is to say,—

section 9,

sections 91 and 92,

sections 94 and 95 so far as they relate to injunctions and interlocutory orders, and

sections 96 to 112 and 115.

8. Save as provided in sections 24, 38 to 41, 75, clauses (a), (b) and (c), [S. 8.]

Presidency Small Cause Courts. 76, 77 and 155 to 158, and by the Presidency Small Cause Courts Act, 1882, the provisions in the

body of this Code shall not extend to any suit or proceeding in any Court of Small Causes established in the towns of Calcutta, Madras and Bombay. XV of 1882.

PART I.**SUITS IN GENERAL.****JURISDICTION OF THE COURTS AND RES JUDICATA.**

9. The Courts shall (subject to the provisions herein contained) have jurisdiction to try all suits of a civil nature excepting suits of which their cognizance is either expressly or impliedly barred. [S. 11.]

Explanation.—A suit in which the right to property or to an office is contested is a suit of a civil nature, notwithstanding that such right may depend entirely on the decision of questions as to religious rites or ceremonies.

10. No Court shall proceed with the trial of any suit in which the matter in issue is also

directly and substantially in issue in a previously instituted suit between the same parties, or between parties under whom they or any of them claim litigating under the same title where such suit is pending in the same or any other Court in British India having jurisdiction to grant the relief claimed, or in any Court [S. 12.]

*The Code of Civil Procedure Bill.**(Part I.—Suits in General.)*

Beyond the limits of British India established or continued by the Governor General in Council and having like jurisdiction, or before His Majesty in Council.

Explanation.—The pendency of a suit in a foreign Court does not preclude the Courts in British India from trying a suit founded on the same cause of action.

[S. 13.]

II. No Court shall try any suit or issue in which the matter directly *Res judicata.* and substantially in issue has been directly and substantially in issue in a former suit between the same parties, or between parties under whom they or any of them claim, litigating under the same title, in a Court competent to try such subsequent suit or the suit in which such issue has been subsequently raised, and has been heard and finally decided by such Court.

Explanation I.—The expression "former suit" shall denote a suit which has been decided prior to the suit in question whether or not it was instituted prior thereto.

Explanation II.—For the purposes of this section, the competence of a Court shall be determined irrespective of any provisions as to a right of appeal from the decision of such Court.

Explanation III.—The matter above referred to must in the former suit have been alleged by one party and either denied or admitted, expressly or impliedly, by the other.

Explanation IV.—Any matter which might and ought to have been made ground of defence or attack in such former suit shall be deemed to have been a matter directly and substantially in issue in such suit.

Explanation V.—Any relief claimed in the plaint, which is not expressly granted by the decree, shall, for the purposes of this section, be deemed to have been refused.

Explanation VI.—Where persons litigate *bona fide* in respect of a public right or of a private right claimed in common for themselves and others, all persons interested in such right shall, for the purposes of this section, be deemed to claim under the persons so litigating.

[New.]

12. Where a plaintiff is precluded by rules from instituting a further suit in respect of any particular cause of action, he shall not be entitled to institute a suit in respect of such cause of action in any Court to which this Code applies.

[S. 14.]

13. A foreign judgment shall be conclusive as to any matter thereby directly adjudicated upon between the same parties or between parties under whom they or any of

them claim litigating under the same title except—

- (a) where it has not been pronounced by a Court of competent jurisdiction;
- (b) where it has not been given on the merits of the case;
- (c) where it appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognise the law of British India in cases in which such law is applicable;
- (d) where the proceedings in which the judgment was obtained are opposed to natural justice;
- (e) where it has been obtained by fraud;
- (f) where it sustains a claim founded on a breach of any law in force in British India.

14. The Court shall presume, upon the production of any document purporting to be a certified copy of a foreign judgment, that such judgment was pronounced by a Court of competent jurisdiction, unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction. [S. 13, Exp VI.]

PLACE OF SUING.

15. Every suit shall be instituted in the Court of the lowest grade competent to try it. [S. 15.]

16. Subject to the pecuniary or other limitations prescribed by any law, suits— [S. 16.]

- (a) for the recovery of immoveable property with or without rent or profits,
- (b) for the partition of immoveable property,
- (c) for foreclosure, sale or redemption in the case of a mortgage of or charge upon immoveable property,
- (d) for the determination of any other right to or interest in immoveable property,
- (e) for compensation for wrong to immoveable property,
- (f) for the recovery of moveable property actually under distraint or attachment,

shall be instituted in the Court within the local limits of whose jurisdiction the property is situate:

Provided that a suit to obtain relief respecting, or compensation for wrong to, immoveable property held by or on behalf of the defendant may, where the relief sought can be entirely

*The Code of Civil Procedure Bill.**(Part I.—Suits in General.)*

obtained through his personal obedience, be instituted either in the Court within the local limits of whose jurisdiction the property is situate, or in the Court within the local limits of whose jurisdiction the defendant actually and voluntarily resides, or carries on business, or personally works for gain.

Explanation.—In this section “property” means property situate in British India.

[S. 19.]

17. Where a suit is to obtain relief respecting, or compensation for wrong to, immoveable property situate within the jurisdiction of different Courts, the suit may be instituted in any Court within the local limits of whose jurisdiction any portion of the property is situate:

Provided that, in respect of the value of the subject-matter of the suit, the entire claim is cognizable by such Court.

[S. 16A.]

18. (1) Where it is alleged to be uncertain within the local limits of the jurisdiction of which of two or more Courts any immoveable property is situate, any one of those Courts may, if satisfied that there is ground for the alleged uncertainty, record a statement to that effect and thereupon proceed to entertain and dispose of any suit relating to that property, and its decree in the suit shall have the same effect as if the property were situate within the local limits of its jurisdiction:

Provided that the suit is one with respect to which the Court is competent as regards the nature and value of the suit to exercise jurisdiction.

(2) Where a statement has not been recorded under sub-section (1), and an objection is taken before an appellate or revisional Court that a decree or order in a suit relating to such property was made by a Court not having jurisdiction where the property is situate, the appellate or revisional Court shall not allow the objection unless in its opinion there was, at the time of the institution of the suit, no reasonable ground for uncertainty as to the Court having jurisdiction with respect thereto and there has been a consequent failure of justice.

[S. 18.]

19. Where a suit is for compensation for wrong done to the person or to moveable property, if the wrong was done within the local limits of the jurisdiction of one Court and the defendant resides, or carries on business, or personally works for gain, within the local limits of the jurisdiction of another Court, the suit may be instituted at the option of the plaintiff in either of the said Courts.

Illustrations.

(a) A, residing in Delhi, has a B in Calcutta. B may sue A either in Calcutta or in Delhi.

(4) A, residing in Delhi, publishes in Calcutta statements defamatory of B. B may sue A either in Calcutta or in Delhi.

20. Subject to the limitations aforesaid, every suit shall be instituted in a Court within the local limits of whose jurisdiction—

[S. 17.]

(a) the defendant, or each of the defendants where there are more than one, at the time of the commencement of the suit, actually and voluntarily resides, or carries on business, or personally works for gain; or

(b) any of the defendants, where there are more than one, at the time of the commencement of the suit, actually and voluntarily resides, or carries on business, or personally works for gain, provided that in such case either the leave of the Court is given, or the defendants who do not reside, or carry on business, or personally work for gain, as aforesaid, acquiesce in such institution; or

(c) the cause of action, wholly or in part, arises.

Explanation I.—Where a person has a permanent dwelling at one place and also a temporary residence at another place, he shall be deemed to reside at both places in respect of any cause of action arising at the place where he has such temporary residence.

Explanation II.—A corporation shall be deemed to carry on business at its sole or principal office in British India or, in respect of any cause of action arising at any place where it has also a subordinate office, at such place.

Illustrations.

(a) A is a tradesman in Calcutta. B carries on business in Delhi. B, by his agent in Calcutta, buys goods of A and requests A to deliver them to the East Indian Railway Company. A delivers the goods accordingly in Calcutta. A may sue B for the price of the goods either in Calcutta, where the cause of action has arisen, or in Delhi, where B carries on business.

(b) A resides at Simla, B at Calcutta and C at Delhi. A, B and C being together at Benares, B and C make a joint promissory note payable on demand, and deliver it to A. A may sue B and C at Benares, where the cause of action arose. He may also sue them at Calcutta, where B resides, or at Delhi, where C resides; but in each of these cases, if the non-resident defendant objects, the suit cannot proceed without the leave of the Court.

21. No objection as to the place of suing shall be allowed by any appellate or revisional Court unless such objection was taken in the Court of first instance at the earliest possible opportunity and in all cases where issues are settled at or before such settlement, and unless there has been a consequent failure of justice.

[16A (2).]

*The Code of Civil Procedure Bill.**(Part I.—Suits in General.)*

[S. 22.]

22. Where a suit may be instituted in any one of two or more Courts and is instituted in one of such Courts, any defendant, after notice to the other parties, may, at the earliest possible opportunity and in all cases where issues are settled at or before such settlement, apply to have the suit transferred to another Court, and the Court to which such application is made, after considering the objections of the other parties (if any), shall determine in which of the several Courts having jurisdiction the suit shall proceed.

[Ss. 23, 24.]

23. (1) Where the several Courts having jurisdiction are subordinate to the same Appellate Court, an application under section 22 shall be made to the Appellate Court.

(2) Where such Courts are subordinate to different Appellate Courts but to the same High Court, the application shall be made to the said High Court.

(3) Where such Courts are subordinate to different High Courts, the application shall be made to the High Court within the local limits of whose jurisdiction the Court in which the suit is brought is situate.

[S. 25.]

24. (1) On the application of any of the parties and after notice to the parties and after hearing such of them as desire to be heard, or of its own motion without such notice, the High Court or the District Court may at any stage—

(a) transfer any suit, appeal or other proceeding pending before it for trial or disposal to any Court subordinate to it and competent to try or dispose of the same, or

(b) withdraw any suit, appeal or other proceeding pending in any Court subordinate to it, and

(i) try or dispose of the same; or

(ii) transfer the same for trial or disposal to any Court subordinate to it and competent to try or dispose of the same; or

(iii) retransfer the same for trial or disposal to the Court from which it was withdrawn.

(2) Where any suit or proceeding has been transferred or withdrawn under sub-section (1), the Court which thereafter tries such suit may, subject to any special directions in the case of an order of transfer, either retry it or proceed from the point at which it was transferred or withdrawn.

(3) For the purposes of this section, Courts of Additional and Assistant Judges shall be deemed to be subordinate to the District Court.

(4) The Court trying any suit transferred or withdrawn under this section from a Court of Small Causes shall, for the purposes of such suit, be deemed to be a Court of Small Causes.

25. (1) Where any party to a suit, appeal or other proceeding pending in a High Court presided over by a single Judge objects to its being heard by him and the Judge is satisfied that there are reasonable grounds for the objection, he shall make a report to the Governor General in Council, who may, by notification in the Gazette of India, transfer such suit, appeal or proceeding to any other High Court.

(2) The law applicable to any suit, appeal or proceeding so transferred shall be the law which the Court in which the suit, appeal or proceeding was originally instituted ought to have applied to such case.

INSTITUTION OF SUITS.

26. Every suit shall be instituted by the presentation of a plaint or in such other manner as may be prescribed.

[S. 48.]

SUMMONS AND DISCOVERY.

27. Where a suit has been duly instituted, a summons may be issued to the defendant to appear and answer the claim and may be served in manner prescribed.

[S. 64.]

28. (1) A summons may be sent for service in another province to such Court and in such manner as may be prescribed by rules in force in that province.

[S. 8.]

(2) The Court to which such summons is sent shall, upon receipt thereof, proceed as if it had been issued by such Court and shall then return the summons to the Court of issue together with the record (if any) of its proceedings with regard thereto.

29. Summonses issued by any Civil or Revenue Court situate beyond the limits of British India may be sent to the Courts in British India and served as if they had been issued by such Courts:

[S. 650A.]

Provided that the Courts issuing such summonses have been established or continued by the authority of the Governor General in Council, or that the Governor General in Council has, by notification in the Gazette of India, declared the provisions of this section to apply to such Courts.

*The Code of Civil Procedure Bill.**(Part I.—Suits in General.)*

[New.] 30. Subject to such conditions and limitations as may be prescribed, the Court may, at any time, either of its own motion or on the application of any party,—

Power to order discovery and the like.

- (a) make such orders as may be necessary or reasonable in all matters relating to the delivery and answering of interrogatories, the admission of documents and facts, and the discovery, inspection, production, impounding and return of documents or other material objects producible as evidence;
- (b) issue summonses to persons whose attendance is required either to give evidence or to produce documents or such other objects as aforesaid;
- (c) order any fact to be proved by affidavit.

[New.] 31. The provisions in sections 27, 28 and 29 shall apply to summonses to give evidence or to produce documents or other material objects.

[New.] 32. *The Court may compel the attendance of any person to whom a summons has been issued under section 30 and for that purpose may—*

- (a) issue a warrant for his arrest;
- (b) attach and sell his property;
- (c) impose a fine upon him not exceeding five hundred rupees;
- (d) order him to furnish security for his appearance and in default commit him to the civil prison.

JUDGMENT AND DECREE.

[S. 198.] 33. The Court, after the case has been heard, shall pronounce judgment, and on such judgment a decree shall follow.

INTEREST.

[S. 209.] 34. (1) Where and in so far as a decree is for the payment of money, the Court may, in the decree, order interest at such rate as the Court deems reasonable to be paid on the principal sum adjudged, from the date of the suit to the date of the decree, in addition to any interest adjudged on such principal sum for any period prior to the institution of the suit, with further interest at such rate as the Court deems reasonable on the aggregate sum so adjudged, from the date of the decree to the date of payment, or to such earlier date as the Court thinks fit.

(2) Where such a decree is silent with respect to the payment of further interest on such aggregate sum as aforesaid from the date of the decree to the date of payment or other earlier date, the Court shall be deemed to have refused such interest, and a separate suit therefor shall not lie.

COSTS.

[S. 5, Judicature Act, 1890.] 35. (1) Subject to such conditions and limitations as may be prescribed, and to the provisions of any

law for the time being in force, the costs of and incident to all suits shall be in the discretion of the Court, and the Court shall have full power to determine by whom or out of what property and to what extent such costs are to be paid, and to give all necessary directions for the purposes aforesaid. The fact that the Court has no jurisdiction to try the suit shall be no bar to the exercise of such powers.

(2) Where the Court directs that any costs shall not follow the event, the Court shall state its reasons in writing. [S. 220.]

(3) The Court may give interest on costs at any rate not exceeding six per cent. per annum, and such interest shall be added to the costs and shall be recoverable as such. [S. 222.]

PART II.
EXECUTION.

GENERAL.

36. The provisions of this Code relating to the execution of decrees shall, so far as they are applicable, be deemed to apply to the execution of orders. [New.]

37. The expression "Court which passed a decree", or words to that effect, shall, in relation to the execution of decrees, unless there is anything repugnant in the subject or context, be deemed to include,— [S. 649, expl.]

(a) where the decree to be executed has been passed in the exercise of appellate jurisdiction, the Court of first instance, and

(b) where the Court of first instance has ceased to exist or to have jurisdiction to execute it, the Court which, if the suit wherein the decree was passed was instituted at the time of making the application for the execution of the decree, would have jurisdiction to try such suit.

COURTS BY WHICH DECREES MAY BE EXECUTED.

38. A decree may be executed either by the Court which passed it, or by the Court to which it is sent for execution. [S. 223, first para.]

39. (1) The Court which passed a decree may, on the application of the decree-holder, send it for execution to another Court,— [S. 223, second and third paras.]

(a) if the person against whom the decree is passed actually and voluntarily resides or carries on business, or personally works for gain, within the local limits of the jurisdiction of such other Court, or

(b) if such person has not property within the local limits of the jurisdiction of the Court which passed the decree sufficient to satisfy such decree and

*The Code of Civil Procedure Bill.**(Part II.—Execution.)*

has property within the local limits of the jurisdiction of such other Court, or

(c) if the decree directs the sale or delivery of immoveable property situate outside the local limits of the jurisdiction of the Court which passed it, or

(d) if the Court which passed the decree considers for any other reason, which it shall record in writing, that the decree should be executed by such other Court.

(2) The Court which passed a decree may of its own motion send it for execution to any subordinate Court of competent jurisdiction.

[New.]

40. Where a decree is sent for execution in another province, it shall be sent to such Court and executed in such manner as may be prescribed by rules in force in that province.

[S. 223, fourth para.]

41. The Court to which a decree is sent for execution shall certify to the Court which passed it the fact of such execution, or where the former Court fails to execute the same the circumstances attending such failure.

[S. 228.]

42. The Court executing a decree sent to it shall have the same powers in executing such decree as if it had been passed by itself. All persons disobeying or obstructing the execution of the decree shall be punishable by such Court in the same manner as if it had passed the decree. And its order in executing such decree shall be subject to the same rules in respect of appeal as if the decree had been passed by itself.

[S. 229.]

43. Any decree passed by a Civil Court established in any part of British India to which the provisions relating to execution do not extend, or by any Court established or continued by the authority of the Governor General in Council in the territories of any foreign Prince or State, may, if it cannot be executed within the jurisdiction of the Court by which it was passed, be executed in manner herein provided within the jurisdiction of any Court in British India.

[S. 229B.]

44. The Governor General in Council may, by notification in the Gazette of India, declare that the decrees of any Civil or Revenue Courts situate in the territories of any native Prince or State in alliance with His Majesty and not established or continued by the authority of the Governor General in Council, or any class of such decrees,

may be executed in British India as if they had been passed by the Courts of British India.

45. So much of the foregoing sections of this Part as empower a Court to send a decree for execution to another Court shall be construed as empowering a Court in British India to send a decree for execution to any Court established or continued by the authority of the Governor General in Council in the territories of any foreign Prince or State to which the Governor General in Council has, by notification in the Gazette of India, declared this section to apply. [S. 229A.]

46. (1) Upon the application of the decree-holder the Court which passed the decree may,

[New.]

whenever it thinks fit, issue a precept to any other Court which would be competent to execute such decree to attach any property belonging to the judgment-debtor and specified in the precept.

(2) The Court to which a precept is sent shall proceed to attach the property in the manner prescribed in regard to the attachment of property in execution of a decree:

Provided that no attachment under a precept shall continue for more than two months unless the period of attachment is extended by an order of the Court which passed the decree or unless before the determination of such attachment the decree has been transferred to the Court by which the attachment has been made and the decree-holder has applied for an order for the sale of such property.

QUESTIONS TO BE DETERMINED BY COURT EXECUTING DECREE.

47. (1) All questions arising between the parties to the suit in which the decree was passed, or their representatives, and relating to the execution, discharge or satisfaction of the decree, shall be determined by the Court executing the decree and not by a separate suit. [S. 244.]

(2) The Court may, subject to any objection as to limitation or jurisdiction, treat a proceeding under this section as a suit or a suit as a proceeding and may, if necessary, order payment of any additional court-fees.

(3) Where a question arises as to whether any person is or is not the representative of a party, such question shall, for the purposes of this section, be determined by the Court.

Explanation—For the purposes of this section, a plaintiff whose suit has been dismissed and a defendant against whom a suit has been dismissed, are parties to the suit.

LIMITED TIME FOR EXECUTION.

48. (1) Where an application to execute a decree is made, and a decree granting an injunction has been made, no order for the execution of the same decree shall be made upon any fresh [S. 230, third and fourth para.]

*The Code of Civil Procedure Bill.**(Part II.—Execution.)*

application presented after the expiration of twelve years from—

- (a) the date of the decree sought to be executed, or,
- (b) where the decree or any subsequent order directs any payment of money or the delivery of any property to be made at a certain date or at recurring periods, the date of the default in making the payment or delivery in respect of which the applicant seeks to execute the decree.

(2) Nothing in this section shall be deemed—

- (a) to preclude the Court from ordering the execution of a decree upon an application presented after the expiration of the said term of twelve years, where the judgment-debtor has, by fraud or force, prevented the execution of the decree at some time within twelve years immediately before the date of the application; or

- (b) to limit or otherwise affect the operation of article 180 of the second schedule to the Indian Limitation Act, 1877.

KV of 1877.

TRANSFEREES AND LEGAL REPRESENTATIVES.

[S. 333.]

49. Every transferee of a decree shall hold the same subject to the equities (if any) which the judgment-debtor might have enforced against the original decree-holder.

[S. 334.]

50. (1) Where a judgment-debtor dies before the decree has been fully satisfied, the holder of the decree may apply to the Court which passed it to execute the same against the legal representative of the deceased.

(2) Where the decree is executed against such legal representative, he shall be liable only to the extent of the property of the deceased which has come to his hands and has not been duly disposed of; and, for the purpose of ascertaining such liability, the Court executing the decree may, of its own motion or on the application of the decree-holder, compel such legal representative to produce such accounts as it thinks fit.

PROCEDURE IN EXECUTION.

[New.]

51. Subject to such conditions and limitations as may be prescribed, the Court may, on the application of the decree-holder, order execution of the decree—

- (a) by delivery of any property specifically decreed;
- (b) by attachment and sale or by sale without attachment of any property;

(c) by arrest and detention in prison;

(d) by appointing a receiver; or

(e) in such other manner as the nature of the relief granted may require.

52. (1) Where a decree is passed against a party as the legal representative of a deceased person, and the decree is for the payment of money out of the property of the deceased, it may be executed by the attachment and sale of any such property. [S. 335.]

(2) Where no such property remains in the possession of the judgment-debtor and he fails to satisfy the Court that he has duly applied such property of the deceased as is proved to have come into his possession, the decree may be executed against the judgment-debtor to the extent of the property in respect of which he has failed so to satisfy the Court in the same manner as if the decree had been against him personally.

53. For the purposes of section 50 and section 52, property in the hands of a son, or other descendant which is liable under Hindu law for the payment of the debt of a deceased ancestor, in respect of which a decree has been passed, shall be deemed to be property of the deceased which has come to the hands of the son or other descendant as his legal representative.

54. Where the decree is for the partition of an undivided estate or of a share assessed to the payment of revenue to the Government, or for the separate possession of a share of such an estate, the partition of the estate or the separation of the share shall be made by the Collector or any gazetted subordinate of the Collector deputed by him in this behalf, in accordance with the law (if any) for the time being in force relating to the partition, or the separate possession of shares, of such estates.

ARREST AND DETENTION.

55. (1) A judgment-debtor may be arrested in execution of a decree at any hour and on any day, and shall, as soon as practicable, be brought before the Court, and his detention may be in the civil prison of the district in which the Court ordering the detention is situate, or, where such civil prison does not afford suitable accommodation, in any other place which the Local Government may appoint for the detention of persons ordered by the Courts of such district to be detained: [S. 336.]

Provided, firstly, that, for the purpose of making an arrest under this section, no dwelling-house shall be entered after sunset and before sunrise:

Provided, secondly, that no outer door of a dwelling-house shall be broken open unless such dwelling-house is in the occupancy of the judgment-debtor and he refuses or in any way prevents access thereto, but when

*The Code of Civil Procedure Bill.**(Part II.—Execution.)*

the officer authorized to make the arrest has duly gained access to any dwelling-house, he may break open the door of any room in which he has reason to believe the judgment-debtor is to be found:

Provided, thirdly, that, if the room is in the actual occupancy of a woman who is not the judgment-debtor and who according to the customs of the country does not appear in public, the officer authorized to make the arrest shall give notice to her that she is at liberty to withdraw, and, after allowing a reasonable time for her to withdraw and giving her reasonable facility for withdrawing, may enter the room for the purpose of making the arrest:

Provided, fourthly, that, where the decree in execution of which a judgment-debtor is arrested, is a decree for the payment of money and the judgment-debtor pays the amount of the decree and the costs of the arrest to the officer arresting him, such officer shall at once release him.

(2) The Local Government may, by notification in the local official Gazette, declare that any person or class of persons whose arrest might be attended with danger or inconvenience to the public shall not be liable to arrest in execution of a decree otherwise than in accordance with such procedure as may be prescribed by the Local Government in this behalf.

(3) Where a judgment-debtor is arrested in execution of a decree for the payment of money and brought before the Court, the Court shall inform him that he may apply to be declared an insolvent, and that he will be discharged if he has not committed any act of bad faith regarding the subject of the application and if he complies with the provisions of the law of insolvency for the time being in force.

(4) Where a judgment-debtor expresses his intention to apply to be declared an insolvent and furnishes security, to the satisfaction of the Court, that he will within one month so apply, and that he will appear, when called upon, in any proceeding upon the application or upon the decree in execution of which he was arrested, the Court shall release him from arrest, and, if he fails so to apply and to appear, the Court may either direct the security to be realized or commit him to the civil prison in execution of the decree.

[S. 245A.]

56. Notwithstanding anything in this Part, the Court shall not order the arrest or detention in the civil prison of a woman in execution of a decree for the payment of money.

Prohibition of arrest or detention of women in execution of decree for money.

57. The Local Government may fix scales, ^[S. 338.]

58. (1) Every person detained in the civil ^[S. 349.]
Detention and release. prison in execution of a decree shall be so detained,—

(a) where the decree is for the payment of a sum of money exceeding fifty rupees, for a period of six months, and,

(b) in any other case, for a period of six weeks:

Provided that he shall be released from such ^[S. 341.]
detention before the expiration of the said period of six months or six weeks, as the case may be,—

(i) on the amount mentioned in the warrant for his detention being paid to the officer in charge of the civil prison, or

(ii) on the decree against him being otherwise fully satisfied, or

(iii) on the request of the person on whose application he has been so detained, or

(iv) on the omission by the person, on whose application he has been so detained, to pay subsistence-allowance:

Provided, also, that he shall not be released from such detention under clause (ii) or clause (iii), without the order of the Court.

(2) A judgment-debtor released from detention under this section shall not merely by reason of his release be discharged from his debt, but he shall not be liable to be re-arrested under the decree in execution of which he was detained in the civil prison.

59. (1) At any time after a warrant for the ^[S. 633.]
Release on ground of illness. arrest of a judgment-debtor has been issued the Court may cancel it on the ground of his serious illness.

(2) Where a judgment-debtor has been arrested, the Court may release him if, in its opinion, he is not in a fit state of health to be detained in the civil prison.

(3) Where a judgment-debtor has been committed to the civil prison, he may be released therefrom—

(a) by the Local Government, on the ground of the existence of any infectious or contagious disease, or

*The Code of Civil Procedure Bill.**(Part II.—Execution.)*

(b) by the committing Court, or any Court to which that Court is subordinate, on the ground of his suffering from any serious illness.

(4) A judgment-debtor released under this section may be re-arrested, but the period of his detention in the civil prison shall not in the aggregate exceed that prescribed by section 58.

ATTACHMENT.

[S. 166.]

60. (1) The following property is liable to attachment and sale in execution of a decree, namely, lands, houses or other buildings, goods, money, banknotes, cheques, bills of exchange, hundis, promissory notes, Government securities, bonds or other securities for money, debts, shares in a corporation and, save as hereinafter mentioned, all other saleable property, moveable or immovable, belonging to the judgment-debtor, or over which, or the profits of which, he has a disposing power which he may exercise for his own benefit, whether the same be held in the name of the judgment-debtor or by another person in trust for him or on his behalf :

Provided that the following particulars shall not be liable to such attachment or sale, namely :—

- (a) the necessary wearing-apparel, cooking vessels, beds and bedding of the judgment-debtor, his wife and children, and such personal ornaments as, in accordance with religious usage, cannot be parted with by any woman ;
- (b) tools of artisans, and, where the judgment-debtor is an agriculturist, his implements of husbandry and such cattle and seed-grain as may, in the opinion of the Court, be necessary to enable him to earn his livelihood as such, and such portion of agricultural produce or of any class of agricultural produce as may have been declared to be free from liability under the provisions of the next following section ;
- (c) houses and other buildings (with the materials and the sites thereof and the land immediately appurtenant thereto and necessary for their enjoyment) belonging to an agriculturist and occupied by him ;
- (d) books of account ;
- (e) a mere right to sue for damages ;
- (f) any right of personal service ;

(g) stipends and gratuities allowed to pensioners of the Government, or payable out of any service family pension fund notified in the Gazette of India by the Governor General in Council in this behalf, and political pensions ;

(h) allowances (being less than salary) of any public officer or of any servant of a railway company or local authority while absent from duty ;

(i) the salary or allowances equal to salary of any such public officer or servant as is referred to in clause (h), while on duty, to the extent of—

(i) the whole of the salary, where the salary does not exceed twenty rupees monthly ;

(ii) twenty rupees monthly, where the salary exceeds twenty rupees and does not exceed forty rupees monthly ; and

(iii) one moiety of the salary in any other case ;

(j) the pay and allowances of persons to whom the Indian Articles of War apply ;

V of 1869,

(k) all compulsory deposits and other sums in or derived from any fund to which the Provident Funds Act, 1897, for the time being applies in so far as they are declared by the said Act not to be liable to attachment ; IX of 1897.

(l) the wages of labourers and domestic servants whether payable in money or in kind ;

(m) an expectancy of succession by survivorship or other merely contingent or possible right or interest ;

(n) a right to future maintenance ;

(o) any allowance declared by any law passed under the Indian Councils Acts, 1861 and 1892, to be exempt from liability to attachment or sale in execution of a decree ; and, 24 & 25 Vict., c. 67 ; 55 & 56 Vict., c. 14.

(p) where the judgment-debtor is a person liable for the payment of land-revenue, any moveable property which, under any law for the time being applicable to him, is exempt from sale for the recovery of an arrear of such revenue.

Explanation.—The particulars mentioned in clauses (g), (h), (i), (j), (l) and (o) are exempt from attachment or sale whether before or after they are actually payable.

(2) Nothing in this section shall be deemed—

- (a) to exempt houses and other buildings (with the materials and the sites thereof and the lands immediately

*The Code of Civil Procedure Bill.**(Part II.—Execution.)*

appurtenant thereto and necessary for their enjoyment) from attachment or sale in execution of decrees for rent of any such house, building, site or land, or

(b) to affect the provisions of the Army Act or of any similar law for the time being in force.

44 & 45
Vict., c. 58.

[New.]

61. The Local Government, with the previous sanction of the Governor General in Council, may, by general or special order published in the local official Gazette, declare that such portion of agricultural produce, or of any class of agricultural produce, as may appear to the Local Government to be necessary for the purpose of providing until the next harvest for the due cultivation of the land and for the support of the judgment-debtor and his family shall, in the case of all agriculturists or of any class of agriculturists, be exempted from liability to attachment or sale in execution of a decree.

[S. 271.]

62. (1) No person executing any process under this Code directing or authorizing seizure of moveable property shall enter any dwelling-house after sunset and before sunrise.

(2) No outer door of a dwelling-house shall be broken open unless such dwelling-house is in the occupancy of the judgment-debtor and he refuses or in any way prevents access thereto, but when the person executing any such process has duly gained access to any dwelling-house, he may break open the door of any room in which he has reason to believe any such property to be.

(3) Where a room in a dwelling-house is in the actual occupancy of a woman who, according to the customs of the country, does not appear in public, the person executing the process shall give notice to such woman that she is at liberty to withdraw; and, after allowing reasonable time for her to withdraw and giving her reasonable facility for withdrawing, he may enter such room for the purpose of seizing the property, using at the same time every precaution, consistent with these provisions, to prevent its clandestine removal.

S. 285.]

63. (1) Where property not in the custody of any Court is under attachment in execution of decrees of more Courts than one, the Court which shall receive or realize such property and shall determine any claim thereto and any objection to the attachment thereof shall be the Court of highest grade, or, where there is no difference in grade between such Courts, the Court under whose decree the property was first attached.

(2) Nothing in this section shall be deemed to invalidate any proceeding taken by a Court executing one of such decrees.

S. 276.]

64. Where an attachment has been made, any private alienation of property after attachment to be void. Private transfer or delivery of the property attached or of any interest therein and any payment to the judgment-debtor of

any debt, dividend or other monies contrary to such attachment, shall be void as against all claims enforceable under the attachment.

Explanation.—For the purposes of this section, claims enforceable under an attachment include claims for the rateable distribution of assets.

SALE.

65. Where immoveable property is sold in execution of a decree and such sale has become absolute, the property shall be deemed to have vested in the purchaser from the time when the property is sold and not from the time when the sale becomes absolute. [New; cf. S. 316.]

66. (1) No suit shall be maintained against any person claiming title under a purchase certified by the Court in such manner as may be prescribed on the ground that the purchase was made on behalf of the plaintiff or on behalf of some one through whom the plaintiff claims. [S. 317.]

(2) Nothing in this section shall bar a suit to obtain a declaration that the name of any purchaser certified as aforesaid was inserted in the certificate fraudulently or without the consent of the real purchaser, or interfere with the right of a third person to proceed against that property, though ostensibly sold to the certified purchaser, on the ground that it is liable to satisfy a claim of such third person against the real owner.

67. The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, make rules for any local area imposing conditions in respect of the sale of any class of interests in land in execution of decrees for the payment of money, where such interests are so uncertain or undetermined as, in the opinion of the Local Government, to make it impossible to fix their value. [S. 327.]

DELEGATION TO COLLECTOR OF POWER TO EXECUTE DECREES AGAINST IMMOVEABLE PROPERTY.

68. The Local Government may, with the previous sanction of the Governor General in Council, declare, by notification in the local official Gazette, that in any local area the execution of decrees in cases in which a Court has ordered any immoveable property to be sold, or the execution of any particular kind of such decrees or the execution of decrees ordering the sale of any particular kind of, or interest in, immoveable property, shall be transferred to the Collector. [S. 329.]

69. The provisions set forth in the Third Schedule shall apply to all cases in which the execution of a decree has been transferred under the last preceding section. [New.]

*The Code of Civil Procedure Bill.**(Part II.—Execution.)*[S. 320,
second and
third paras.]

70. (1) The Local Government may make rules of procedure, rules consistent with the aforesaid provisions—

- (a) for the transmission of the decree from the Court to the Collector, and for regulating the procedure of the Collector and his subordinates in executing the same, and for retransmitting the decree from the Collector to the Court;
- (b) conferring upon the Collector or any gazetted subordinate of the Collector all or any of the powers which the Court might exercise in the execution of the decree if the execution thereof had not been transferred to the Collector;
- (c) providing for orders made by the Collector or any gazetted subordinate of the Collector, or orders made on appeal with respect to such orders, being subject to appeal to, and revision by, superior revenue-authorities as nearly as may be as the orders made by the Court, or orders made on appeal with respect to such orders, would be subject to appeal to, and revision by, appellate or revisional Courts under this Code or other law for the time being in force if the decree had not been transferred to the Collector.

[S. 320,
fourth para.]

(2) A power conferred by rules made under jurisdiction of Civil sub-section (1) upon the Collector or any gazetted subordinate of the Collector, or upon any appellate or revisional authority, shall not be exercisable by the Court or by any Court in exercise of any appellate or revisional jurisdiction which it has with respect to decrees or orders of the Court.

[S. 320,
fifth para.]

71. In executing a decree transferred to the Collector under section 68 the Collector and his subordinates shall be deemed to be acting judicially.

[S. 325.]

72. (1) Where in any local area in which no declaration under section 68 is in force the property attached consists of land or of a share in land, and the Collector represents to the Court that the public sale of the land or share is objectionable and that satisfaction of the decree may be made within a reasonable period by a temporary alienation of the land or share, the Court may authorize the Collector to provide for such satisfaction in the manner recommended by him instead of proceeding to a sale of the land or share.

(2) In every such case the provisions of sections 69 to 71 and of the rules made in pursuance thereof shall apply so far as they are applicable.

DISTRIBUTION OF ASSETS.

[S. 325.]

73. (1) Where assets are held by a Court and more persons than one have before the receipt of such assets, made application to the Court for the execution of decrees for the payment of

Proceeds of execution to be rateably distributed among decree-holders.

money passed against the same judgment-debtor and have not obtained satisfaction thereof, the assets, after deducting the costs of realization, shall be rateably distributed among all such persons:

Provided as follows:—

- (a) where any property is sold subject to a mortgage or charge, the mortgagee or incumbrancer shall not be entitled to share in any surplus arising from such sale;
- (b) where any property liable to be sold in execution of a decree is subject to a mortgage or charge, the Court may, with the consent of the mortgagee or incumbrancer, order that the property be sold free from the mortgage or charge, giving to the mortgagee or incumbrancer the same interest in the proceeds of the sale as he had in the property sold;
- (c) where any immoveable property is sold in execution of a decree ordering its sale for the discharge of an incumbrance thereon, the proceeds of sale shall be applied—

first, in defraying the expenses of the sale;

secondly, in discharging the amount due under the decree;

thirdly, in discharging the interest and principal monies due on subsequent incumbrances (if any); and,

fourthly, rateably among the holders of decrees for the payment of money against the judgment-debtor, who have, prior to the sale of the property, applied to the Court which passed the decree ordering such sale for execution of such decrees, and have not obtained satisfaction thereof.

(2) Where all or any of the assets liable to be rateably distributed under this section are paid to a person not entitled to receive the same, any person so entitled may sue such person to compel him to refund the assets.

(3) Nothing in this section affects any right of the Government.

RESISTANCE TO EXECUTION.

74. Where the Court is satisfied that the holder of a decree for the possession of immoveable property or that the purchaser of immoveable property sold in execution of a decree has been resisted or obstructed in obtaining possession of the property by the judgment-debtor or some person on his behalf and that such resistance or obstruction was without any just cause, the Court may, at the instance of the decree-holder or purchaser, order the judgment-debtor or such other person to be detained in the civil prison for a term which may extend to thirty days and may further direct that the decree-holder or purchaser be put into possession of the property. 83. (1) Alien enemies residing in British [S. 430.]
India with the permission
When aliens may sue. of the Governor General in
Council, and alien friends, may sue in the Courts
of British India, as if they were subjects of His
Majesty.

(2) No alien enemy residing in British India
without such permission, or residing in a foreign
country, shall sue in any of such Courts.

Explanation.—Every person residing in a
foreign country the Government of which is at
war with the United Kingdom of Great Britain
and Ireland, and carrying on business in that
country without a license in that behalf under
the hand of one of His Majesty's Secretaries of
State or of a Secretary to the Government of
India, shall, for the purpose of sub-section (2), be
deemed to be an alien enemy residing in a foreign
country.

*The Code of Civil Procedure Bill.**(Part IV.—Suits in Particular Cases.—Part V.—Special Proceedings.)*

[S. 431.]

84. (1) A foreign State may sue in any Court of British India :
When foreign States may sue.

Provided that *such State* has been recognized by His Majesty or by the Governor General in Council :

Provided, also, that the object of the suit is to enforce a private right vested in the head of such State or in any officer of such State in his public capacity.

(2) Every Court shall take judicial notice of the fact that a foreign State has or has not been recognized by His Majesty or by the Governor General in Council.

[S. 432.]

85. (1) Persons specially appointed by order of the Government at the request of any Sovereign Prince or Ruling Chief, whether in subordinate alliance with the British Government or otherwise, and whether residing within or without British India, or at the request of any person competent, in the opinion of the Government, to act on behalf of such Prince or Chief, to prosecute or defend any suit on his behalf, shall be deemed to be the recognized agents by whom appearances, acts and applications under this Code may be made or done on behalf of such Prince or Chief.

(2) An appointment under this section may be made for the purpose of a specified suit or of several specified suits, or for the purpose of all such suits as it may from time to time be necessary to prosecute or defend on behalf of the Prince or Chief.

(3) A person appointed under this section may authorize or appoint persons to make appearances and applications and do acts in any such suit or suits as if he were himself a party thereto.

[S. 433.]

86. (1) Any such Prince or Chief, and any ambassador or envoy of a foreign State, may, with the consent of the Governor General in Council, certified by the signature of a Secretary to the Government of India, but not without such consent, be sued in any competent Court.

(2) Such consent may be given with respect to a specified suit or to several specified suits, or with respect to all suits of any specified class or classes, and may specify, in the case of any suit or class of suits, the Court in which the Prince, Chief, ambassador or envoy may be sued ; but it shall not be given unless it appears to the Government that the Prince, Chief, ambassador or envoy—

(a) has instituted a suit in the Court against the person desiring to sue him, or

(b) by himself or his agent trades within the limits of the jurisdiction of the Court, or

(c) is in possession of immoveable property situate within those limits and is to be sued with reference to such property or for money charged thereon.

(3) No such Prince, Chief, ambassador or envoy shall be arrested under this Code, and, except with the consent of the Governor General in Council certified as aforesaid, no decree shall be executed against the property of any such Prince, Chief, ambassador or envoy.

(4) The Governor General in Council may, by notification in the Gazette of India, authorize a Local Government and any Secretary to that Government to exercise, with respect to any Prince, Chief, ambassador or envoy named in the notification, the functions assigned by the foregoing sub-sections to the Governor General in Council and a Secretary to the Government of India, respectively.

[S. 434.]

(5) A person may, as a tenant of immoveable property, sue, without such consent as is mentioned in this section, a Prince, Chief, ambassador or envoy from whom he holds or claims to hold the property.

87. A Sovereign Prince or Ruling Chief may sue, and shall be sued, in the name of his State :
Style of Princes and Chiefs as parties to suits.

Provided that in giving the consent referred to in the foregoing section the Governor General in Council or the Local Government, as the case may be, may direct that any such Prince or Chief shall be sued in the name of an agent or in any other name.

[S. 470.]

INTERPLEADER.

88. Where two or more persons claim adversely to one another the same debt, sum of money or other property, moveable or immoveable, from another person, who claims no interest therein other than for charges or costs and who is ready to pay or deliver it to the rightful claimant, such other person may institute a suit of interpleader against all the claimants for the purpose of obtaining a decision as to the person to whom the payment or delivery shall be made, and of obtaining indemnity for himself.

Provided that where any suit is pending in which the rights of all parties can properly be decided, no such suit of interpleader shall be instituted.

PART V.

SPECIAL PROCEEDINGS.

ARBITRATION.

89. (1) Save in so far as is otherwise provided by the Indian Arbitration Act, 1899, or by any other law for the time being in force, all references to arbitration whether by an order in a suit or otherwise, and all proceedings thereunder, shall be governed by the provisions contained in the Second Schedule.

[S. 506.]

IX of 1899.

(2) The provisions of the Second Schedule shall not affect any arbitration pending at the commencement of this Code, but shall apply

*The Code of Civil Procedure Bill.**(Part V.—Special Proceedings.) (Part VI.—Supplemental Proceedings.)*

to any arbitration after that date under any agreement or reference made before the commencement of this Code.

SPECIAL CASE.

- 527.] 90. Where any persons agree in writing to state a case for the opinion of the Court, then the Court shall try and determine the same in the manner prescribed.

Power to state case for opinion of Court.

SUITS RELATING TO PUBLIC MATTERS

- 527.] 91. (1) In the case of a public nuisance the Advocate General, or two or more persons having obtained the consent in writing of the Advocate General, may institute a suit, though no special damage has been caused, for a declaration and injunction or for such other relief as may be appropriate to the circumstances of the case.

Public nuisances.

(2) Nothing in this section shall be deemed to limit or otherwise affect any right of suit which may exist independently of its provisions.

- 539.] 92. (1) In the case of any alleged breach of any express or constructive trust created for public purposes of a charitable or religious nature, or where the direction of the Court is deemed necessary for the administration of any such trust, the Advocate General, or two or more persons having an interest in the trust and having obtained the consent in writing of the Advocate General, may institute a suit, whether contentious or not, in the principal Civil Court of original jurisdiction or in any other Court empowered in that behalf by the Local Government within the local limits of whose jurisdiction the whole or any part of the subject-matter of the trust is situate to obtain a decree—

- (a) removing any trustee;
- (b) appointing a new trustee;
- (c) vesting any property in a trustee;
- (d) directing accounts and inquiries;
- (e) declaring what proportion of the trust-property or of the interest therein shall be allocated to any particular object of the trust;
- (f) authorizing the whole or any part of the trust-property to be let, sold, mortgaged or exchanged;
- (g) settling a scheme; or
- (h) granting such further or other relief as the nature of the case may require.

- of 1863.] (2) Save as provided by the Religious Endowments Act, 1863, no suit claiming any of the reliefs specified in sub-section (1) shall be instituted in respect of any such trust as is therein referred to except in conformity with the provisions of that sub-section.

- 539, last paragraph.] 93. The powers conferred by sections 91 and 92 on the Advocate General outside Presidency-towns, he, with the previous sanction of the Local Government,

exercised also by the Collector or by such officer as the Local Government may appoint in this behalf.

PART VI.**SUPPLEMENTAL PROCEEDINGS.**

94. In order to prevent the ends of justice [New.] Supplemental proceedings. from being defeated the Court may, if it is so prescribed,—

- (a) issue a warrant to arrest the defendant and bring him before the Court to show cause why he should not give security for his appearance, and if he fails to comply with any order for security commit him to the civil prison;
- (b) direct the defendant to furnish security to produce any property belonging to him and to place the same at the disposal of the Court or order the attachment of any property;
- (c) grant a temporary injunction and in case of disobedience commit the person guilty thereof to the civil prison and order that his property be attached and sold;
- (d) appoint a receiver of any property and enforce the performance of his duties by attaching and selling his property;
- (e) make such other interlocutory orders as may appear to the Court to be just and convenient.

95. (1) Where, in any suit in which an arrest or attachment has been effected or a temporary injunction granted under the last preceding section,— [Sa. 491, 497.] Compensation for obtaining arrest, attachment or injunction on insufficient grounds.

- (a) it appears to the Court that such arrest, attachment or injunction was applied for on insufficient grounds, or
- (b) the suit of the plaintiff fails and it appears to the Court that there was no reasonable or probable ground for instituting the same,

the defendant may apply to the Court, and the Court may, upon such application, award against the plaintiff by its order such amount, not exceeding one thousand rupees, as it deems a reasonable compensation to the defendant for the expense or injury caused to him:

Provided that a Court shall not award, under this section, an amount exceeding the limits of its pecuniary jurisdiction.

- (2) An order determining any such application shall bar any suit for compensation in respect of such arrest, attachment or injunction.

*The Code of Civil Procedure Bill.**(Part VII.—Appeals.)***PART VII.****APPEALS.****APPEALS FROM ORIGINAL DECREES.**

[S. 540.] 96. (1) Save where otherwise expressly provided in the body of this Code or by any other law for the time being in force, an appeal shall lie from every decree passed by any Court exercising original jurisdiction to the Court authorized to hear appeals from the decisions of such Court.

(2) An appeal may lie from an original decree passed *ex parte*.

(3) No appeal shall lie from a decree passed by the Court with the consent of parties.

[New.] 97. Where any party aggrieved by a preliminary decree passed after the commencement of this Code does not appeal from such decree, he shall be precluded from disputing its correctness in any appeal which may be preferred from the final decree.

[S. 575.] 98. (1) Where an appeal is heard by a Bench of two or more Judges, the appeal shall be decided in accordance with the opinion of such Judges or of the majority (if any) of such Judges.

(2) Where there is no such majority which concurs in a judgment varying or reversing the decree appealed from, such decree shall be confirmed:

Provided that where the Bench hearing the appeal is composed of two Judges belonging to a Court consisting of more than two Judges, and the Judges composing the Bench differ in opinion on a point of law, they may state the point of law upon which they differ and the appeal shall then be heard upon that point only by one or more of the other Judges, and such point shall be decided according to the opinion of the majority (if any) of the Judges who have heard the appeal, including those who first heard it.

[S. 578.] 99. No decree shall be reversed or substantially varied, nor shall any case be remanded, in appeal on account of any misjoinder of parties or causes of action or any error, defect or irregularity in any proceedings in the suit, not affecting the merits of the case or the jurisdiction of the Court.

APPEALS FROM APPELLATE DECREES.

[S. 584.] 100. (1) Save where otherwise expressly provided in the body of this Code or by any other law for the time being in force, an appeal shall lie to the

High Court from every decree passed in appeal by any Court subordinate to a High Court, on any of the following grounds, namely:—

(a) the decision being contrary to law or to some usage having the force of law;

(b) the decision having failed to determine some material issue of law or usage having the force of law;

(c) a substantial error or defect in the procedure provided by this Code or by any other law for the time being in force, which may possibly have produced error or defect in the decision of the case upon the merits.

(2) An appeal may lie under this section from an appellate decree passed *ex parte*.

101. No second appeal shall lie except on the grounds mentioned in section 100. [S. 585.]
